- (2) Notwithstanding anything in subsection (1), in determining the land value of any land it shall be assumed that—
 - (a) the land may be used, or may continue to be used, for any purpose for which it was being used, or for which it could be used, at the date to which the valuation relates, and
 - (b) such improvements may be continued or made on the land as may be required in order to enable the land to continue to be so used,but nothing in this subsection prevents regard being had, in determining that value, to any other purpose for which the land may be used on the assumption that the improvements, if any, other than land improvements, referred to in subsection (1) had not been made.
- (3) Notwithstanding anything in subsection (1), in determining the land value of any land, being land in relation to which, at the date to which the valuation relates, there was a water right—
 - (a) the land value shall include the value of the right, and
 - (b) it shall be assumed that the right shall continue to apply in relation to the land.
- (4) For the purpose of determining the value of a water right, the value of any water secured by, or referable to, that right is to be ignored.

7 Assessed annual value

- (1) The assessed annual value of land is—
 - (a) nine-tenths of the fair average annual value of the land, with the improvements (if any) thereon, or
 - (b) \$10,

whichever is the greater.

- (2) In determining the assessed annual value of any land being premises occupied for trade, business, or manufacturing purposes such value shall not include the value of any plant, machines, tools, or other appliances which are not fixed to the premises or which are only so fixed that they may be removed from the premises without structural damage thereto.
- (3) In determining the assessed annual value of any land it shall be assumed that the land, with the improvements, if any, thereon is not subject to the provisions of the *Landlord and Tenant (Amendment) Act 1948*.

7A Improved value of strata

- (1) The improved value of a stratum is the capital sum which the fee-simple of the stratum might be expected to realise if offered for sale on such reasonable terms and conditions as a bona-fide seller would require.
- (2) In determining the improved value of any stratum being premises occupied for trade, business, or manufacturing purposes, such value shall not include the value of any plant, machines, tools or other appliances which are not fixed to the premises or which are only so fixed that they may be removed from the premises without structural damage thereto.

7B Land value of strata

- (1) The land value of a stratum is the capital sum which the fee-simple of the stratum might be expected to realise if offered for sale on such reasonable terms and conditions as a bona-fide seller would require assuming—
 - (a) that the improvements, if any, within the stratum and made or acquired by the owner or the owner's predecessor in title had not been made: Provided that where the stratum is wholly or partly in an excavation it shall be assumed that the excavation of the stratum had been made,
 - (b) that means of access to the stratum may be used, and may continue to be used, as they were being used, or could be used, on the date to which the valuation relates, and
 - (c) that lands outside the stratum, including land of which the stratum forms part, are in the state and condition existing at the date to which the valuation relates, and, in particular, without limiting the generality of this assumption, that where the stratum consists partly of a building, structure, or work or is portion of a building, structure, or work, such building, structure, or work, to the extent that it is outside the stratum, had been made.
- (2) Notwithstanding anything in subsection (1), in determining the land value of a stratum

it shall be assumed that—

- (a) the stratum may be used, or may continue to be used, for any purpose for which it was being used, or for which it could be used, at the date to which the valuation relates, and
- (b) such improvements may be continued or made in the stratum as may be required in order to enable the stratum to continue to be so used,

but nothing in this subsection prevents regard being had, in determining that value, to any other purpose for which the stratum may be used on the assumptions set forth in subsection (1).

7C Assessed annual value of strata

- (1) The assessed annual value of a stratum is—
 - (a) nine-tenths of the fair average annual value of the stratum, with the improvements (if any) therein, or
 - (b) \$10,whichever is the greater.
- (2) In determining the assessed annual value of any stratum being premises occupied for trade, business, or manufacturing purposes such value shall not include the value of any plant, machines, tools, or other appliances which are not fixed to the premises or which are only so fixed that they may be removed from the premises without structural damage thereto.
- (3) In determining the assessed annual value of any stratum it shall be assumed that the stratum, with the improvements, if any, therein, is not subject to the provisions of the [Landlord and Tenant \(Amendment\) Act 1948](#).

7D Valuer-General not required to determine certain valuations

- (1) Subject to subsection (5), on and after 1 January 1973, the Valuer-General is not required—
 - (a) to determine the improved value of any land,
 - (b) to determine the assessed annual value of any land except where the Valuer-General is requested, by instrument in writing, to do so by a rating or taxing authority, or
 - (c) to record in the Register of Land Values the nature of the improvements on any land.
- (2) Subsection (1) shall not operate so as to prevent the Valuer-General, if he or she

decides to do so, from determining the assessed annual value of any land or from recording in the Register of Land Values the nature of the improvements on any land.

(2A) The Valuer-General is not required, in relation to a rating or taxing authority—

(a) to make any valuation, or to determine any allowance or apportionment factor, under this Act, or

(b) to comply with any other provision of this Act or any other law with respect to such a valuation, allowance, apportionment factor or rating base factor,

if it appears to the Valuer-General, at the time at which the valuation, allowance, apportionment factor or rating base factor would otherwise be made or determined, that the valuation, allowance, apportionment factor or rating base factor would not, at any time, be used for the purpose of any rate or tax which may be made by or payable to the authority.

(3) The omission to include in the Register of Land Values or to give in a valuation list the assessed annual value of any land in respect of which a request is made pursuant to subsection (1) (b) by a rating or taxing authority or a valuation, allowance, apportionment factor or rating base factor to which subsection (2A) applies shall not affect or invalidate the Register of Land Values or the valuation list.

(4) This section shall have effect notwithstanding any provision of this Act or of any other law.

(5) Nothing in or done under this section shall affect the operation of section 19B.

7E-7K (Repealed)

8 Valuer-General

(1) The Governor may appoint a Valuer-General, who shall have the general administration of this Act.

(2) Schedule 1 has effect in respect of the Valuer-General.

(3) Subject to this Act, the Valuer-General has and may exercise the functions conferred or imposed on the Valuer-General by or under this or any other Act or law.

(4) The general role of the Valuer-General is—

(b) to ensure the integrity of valuations under this Act, and

(c) to be the custodian of the Register of Land Values.

(5) The Valuer-General may delegate to any person any of the functions conferred or

imposed on the Valuer-General by or under this or any other Act or law, other than this power of delegation.

- (2) The Valuer-General may, on behalf of the Crown, enter into contracts in connection with the exercise of the functions of the Valuer-General. Nothing in this subsection affects any other power to enter into contracts.

9A Private valuations by Valuer-General

- (1) The Valuer-General may make a valuation of land at the request of any person (a **private valuation**) for the purposes of any agreement or other arrangement between parties (a **private agreement**) that provides for the valuation to be made by the Valuer-General.
- (2) The terms of the private agreement do not prevent the Valuer-General from delegating the making of the private valuation or from making the private valuation on the recommendation of a contract valuer.

Note—

Section 8 (5) enables the Valuer-General to delegate the making of a private valuation to any person. Section 13H provides for the Valuer-General to make a private valuation on the recommendation of a contract valuer.

- (3) A private valuation made by a delegate of the Valuer-General or by the Valuer-General on the recommendation of a contract valuer is, for the purposes of a private agreement, deemed to have been made by the Valuer-General (even if the private agreement provides for the valuation to be made by the Valuer-General as an expert valuer or on the basis of the Valuer-General's own investigations, skill and judgment).

Division 1 Land to be valued

14A Valuer-General to ascertain land values

(1) The land value of each parcel of land in New South Wales, other than—

(a) lands of the Crown, or

(b) land that is within the Western Division and is not within the area of a rating or taxing authority,

is to be ascertained each year.

(2) The Valuer-General may at any time value any parcel of land, either on his or her own initiative or—

(a) in the case of lands of the Crown, on the application of the public authority by or on whose behalf the land is held, or

(b) in the case of land within the Western Division (including land referred to in paragraph (a)), on the application of the Secretary of the Department of Industry, or

(3) (Repealed)

(4) The Valuer-General may separately value different parts of the same parcel of land, in which case this Act applies to each such part as if it were a separate parcel of land.

(5) Any land value ascertained under this Act is to be entered in the Register of Land Values.

(6) The power to ascertain a land value includes the power to reascertain that land value,

and references in this Part to the ascertainment of land value are taken to include references to the reascertainment of land value.

14B Valuations to be made as at 1 July in current valuing year

- (1) Land that is valued for the purposes of a general valuation is to be valued as at 1 July in the valuing year in which the valuation takes place.
- (2) A land value for any year commencing 1 July may be ascertained for a parcel of land even if it did not exist, as at 1 July in that year, in the form in which it exists when its value is ascertained.
- (3) If any part of the parcel was, as at 1 July in that year, included in another parcel of land for which a value as at that date has been ascertained, the Valuer-General is to reascertain the value of the residue of that other parcel.

Division 2 How land is to be valued

14C Valuation of land in the Western Division

- (1) In making a valuation for use by a rating or taxing authority of land in the Western Division, the Valuer-General is to assume—
 - (a) if the land is freehold land, that the land is, as freehold land, subject to such restrictions on the use and disposition of the land as would be applicable if the land were held under and in accordance with a Western lands lease (within the meaning of Schedule 3 to the [Crown Land Management Act 2016](#)) that authorised the use to which the land was put as at the date to which the valuation of the land relates, and
 - (b) if the land is not freehold land and is held under a lease or other tenure under the [Crown Land Management Act 2016](#), or any other Act, that the land is freehold land and that it is, as freehold land, subject to such restrictions on the use and disposition of the land as are applicable to the land by reason of its being the subject of the lease or other tenure.
- (2) The restrictions referred to in subsection (1) are to be assumed to apply to land at the date to which the valuation of the land relates.

14D Protected archaeological areas, wildlife districts, wildlife refuges and game reserves

- (1) On receipt of a copy of an order or revocation made under section 65 of the [National Parks and Wildlife Act 1974](#), or a proclamation made under section 67, 68 or 69 of that Act, the Valuer-General is to make a valuation of the land affected by the order, revocation or proclamation.
- (2) Despite any other provision of this Act, the Valuer-General must assume, in making a valuation for use by a rating or taxing authority of land, the whole or part of which

comprises—

- (a) a protected archaeological area within the meaning of the *National Parks and Wildlife Act 1974*, that the land so comprised may be used only for the purposes of such a protected archaeological area as at the date to which the valuation relates, or
- (b) a wildlife district within the meaning of that Act, that the land so comprised may be used only for the purposes of such a wildlife district as at the date to which the valuation relates, or
- (c) a wildlife refuge within the meaning of that Act, that the land so comprised may be used only for the purposes of such a wildlife refuge as at the date to which the valuation relates, or
- (d) a game reserve within the meaning of that Act, that the land so comprised may be used only for the purposes of such a game reserve as at the date to which the valuation relates.

14E Community schemes, neighbourhood schemes and certain strata schemes

(1) Land that is association property is not to be separately valued unless the Valuer-General has been informed by—

- (a) the local council, or
- (b) the Chief Commissioner of State Revenue, or
- (c) a prescribed person,

that the land is used for commercial purposes.

(2) In valuing—

- (a) a community development lot or a precinct development lot, or
- (b) a neighbourhood lot or strata parcel that is part of a community scheme (whether or not it is also part of a precinct scheme),

the Valuer-General is to take into account any benefits and disadvantages applicable to the lot or parcel because of its special status as part of the community scheme and, except in the case of a community development lot, as part of a subsidiary scheme or schemes.

(3) In valuing a neighbourhood lot that is not part of a community scheme the Valuer-General is to take into account any benefits and disadvantages applicable to the lot as part of the neighbourhood scheme.

(4) In valuing a lot—

- (a) in a scheme referred to in subsection (2), the Valuer-General is to take into account the value to the proprietor of the lot of the interest attributable to the lot in community property, precinct property or neighbourhood property that is not used for commercial purposes,
 - (b) in a neighbourhood scheme referred to in subsection (3), the Valuer-General is to take into account the value to the proprietor of the lot of the interest attributable to the lot in neighbourhood property that is not used for commercial purposes.
- (5) Expressions used in this section have the same meanings as they have in the [Community Land Development Act 2021](#).

14F Valuation of mines and minerals

- (1) If a mine is situated partly in one area and partly in another, the mine is to be valued as a whole, and the land value, improved value and assessed annual value are to be apportioned between the areas as the Valuer-General may direct.
- (2) If any part of a mine is under the sea or under the tidal waters of an estuary or harbour, the part is to be valued with and as part of the mine, even though the overlying land and water are not within the boundaries of any area.
- (3) If any part of a mine is separately occupied by a person for a purpose other than mining, the part is taken to be distinct from the mine, and is to be valued and rated accordingly.
- (4) To the extent to which the presence of coal in any land within a colliery holding (within the meaning of the [Mining Act 1992](#)) increases the land value of that land, the amount of the increase is to be separately recorded in the Register of Land Values in relation to that land.
- (5) Objection may be made under Part 3 against any apportionment referred to in subsection (1) or the amount of any increase referred to in subsection (4).

14G Valuation subject to heritage restrictions under EPI

- (1) Land that is **heritage restricted** on the date by reference to which its land value is to be determined is to have its land value determined on the basis of the following assumptions—
 - (a) that the land may be used only for the purpose, if any, for which it was used when the value is determined,
 - (b) that all improvements on that land when the value is determined may be continued and maintained in order that the use of that land as referred to in paragraph (a) may be continued,
- (b1) that all improvements referred to in paragraph (b) on that land are new (without

any deduction being made because of their actual condition),

(c) that no improvements, other than those referred to in paragraph (b), may be made to or on that land,

(d) that the cost of construction of improvements on that land has no effect on its land value, with the result that there is to be no reduction in land value because of any difference between the cost of construction of the improvements referred to in paragraph (b) as new improvements and the cost of construction of other improvements used as a basis for comparison in the determination of land value.

(1A) When the land value of heritage restricted land is determined on the basis of the assumptions required by this section, there is to be no deduction from or other adjustment of that land value on account of the effect on land value of any factor concerned with the land being heritage restricted land (other than the effect of those assumptions).

- (2) Land is **heritage restricted** as at a particular date if the Valuer-General has determined that it would be reasonable to make the assumptions referred to in subsection (1) in respect of the land as at that date because of any provision of a planning instrument concerned with the heritage significance or heritage value of the land or any building, work or other thing on or in the land.
- (3) The Valuer-General may, and on the application of the owner of land must, make a determination as to whether a particular parcel of land is heritage restricted.
- (4) An application under subsection (3) is to be in the form required by the Valuer-General and accompanied by such supporting information as the Valuer-General may request.
- (5) The Valuer-General is not to determine that land is heritage restricted as at a particular date if the land is the subject of a listing on the State Heritage Register under the [Heritage Act 1977](#) as at that date.

Note—

Division 6 of Part 6 of the [Heritage Act 1977](#) deals with heritage valuations. In certain circumstances the Valuer-General is required to make a heritage valuation of land that is listed on the State Heritage Register under that Act.

14H Valuing rent-controlled land

- (1) Land that is **rent-protected** is to have its land value determined taking into account any restriction imposed by the [Landlord and Tenant \(Amendment\) Act 1948](#) on the rent at which any premises or part of premises on the land may be let.
- (2) Land is **rent-protected** if the Valuer-General has determined that a fair rent is applicable to any premises or part of premises on the land under the [Landlord and Tenant \(Amendment\) Act 1948](#).

- (3) The Valuer-General may, and on the application of the owner of land must, make a determination as to whether a particular parcel of land is rent-protected.
- (4) An application under subsection (3) is to be in the form required by the Valuer-General and accompanied by such supporting information as the Valuer-General may request.

14I Valuing Crown lease restricted land

- (1) Land that is **Crown lease restricted** is to have its land value determined taking into account the restrictions on the disposition or manner of use that apply to the land by reason of its being the subject of the lease concerned.
- (2) Land is **Crown lease restricted** if it is subject to any of the following—
 - (a) a holding or enclosure permit within the meaning of the *Crown Land Management Act 2016*,
 - (b) a continued permissive occupancy within the meaning of Schedule 1 to the *Crown Land Management Act 2016*,
 - (c) a lease under the *Forestry Act 2012*,
 - (d) in the case of lands of the Crown, a lease of a class or description prescribed by the regulations.

14J Deduction of allowances

- (1) In determining the land value of land, there is to be deducted the amount of any allowance or allowances ascertained under Divisions 3 (Allowances for profitable expenditure) and 4 (Allowances for subdivision).
- (2) If more than one provision of this Division is applicable to the determination of land value in a particular case, the applicable provisions apply cumulatively.

14K Assumption as to physical condition and manner of use of land

- (1) For the purpose of valuing any land, it is to be assumed—
 - (a) that the physical condition of the land, and of any other land, and
 - (b) that the manner in which the land, and any other land, may be used,were the same on 1 July of the valuing year in respect of which the land is being valued as they were on the date on which the valuation is made.
- (2) For the purpose of ascertaining any allowance or apportionment factor for any land, it is to be assumed—
 - (a) that the physical condition of the land, and of any other land, and

- (b) that the manner in which the land, and any other land, may be used, were the same on 1 July of the valuing year in respect of which the allowance or apportionment factor is being ascertained as they were on the date on which the land became eligible to have an allowance or apportionment factor ascertained for it.

Division 3 Allowances for profitable expenditure

14L Expenditure for which allowance is to be made

- (1) For the purpose of ascertaining the land value of any land, the Valuer-General is to ascertain a reasonable allowance for profitable expenditure by the owner, occupier or lessee in respect of—
 - (a) any effective land improvements on or appertaining to the land, and
 - (b) any visible and effective improvements which, although not on the land, have been constructed—
 - (i) for the purpose of supplying water to the land, or
 - (ii) for the purpose of draining the land, protecting the land from inundation or making some other provision for the more beneficial use of the land.
- (2) In the case of a stratum, the Valuer-General is also to ascertain a reasonable allowance for profitable expenditure by the owner or occupier on any visible and effective improvements which, although not in the stratum, have been constructed exclusively for the benefit of the stratum.
- (3) An allowance for profitable expenditure is to be calculated on the assumption that—
 - (a) the allowance is being calculated at the date by reference to which the land value is being determined, and
 - (b) any improvements that have been taken into account for the purpose of ascertaining the land value of the land were in existence at the date referred to in paragraph (a).
- (4) An allowance for profitable expenditure is to be entered in the Register of Land Values in respect of any land value to which it relates.

14M Exclusion of allowances in certain circumstances

- (1) For the purposes of the [Land Tax Management Act 1956](#), the land value of a parcel of land is taken not to include an allowance for profitable expenditure in respect of any land tax year—
 - (a) if the owner of the land was not the owner of the land when the profitable expenditure was incurred, or

- (b) if the profitable expenditure was incurred by an occupier or lessee of the land, and the occupancy or lease has been transferred or surrendered or has expired since that expenditure was incurred, or
 - (c) in the case of land zoned or otherwise designated for use for any purpose (other than rural or non-urban purposes) under a planning instrument, if any building or structure has been erected or any works have been carried out on the land, or
 - (d) if the profitable expenditure was incurred more than 15 years before the date by reference to which the land value is being determined, or
 - (e) if, as at 31 December before the beginning of that year, the parcel of land was no longer owned by the person by whom the profitable expenditure was incurred,
- and land tax under that Act is to be assessed and levied accordingly.

(2) For the purposes of the *Local Government Act 1993*, the land value of a parcel of land is taken not to include an allowance for profitable expenditure in respect of any rating year—

- (a) if the owner of the land was not the owner of the land when the profitable expenditure was incurred, or
 - (b) if the profitable expenditure was incurred by an occupier or lessee of the land, and the occupancy or lease has been transferred or surrendered or has expired since that expenditure was incurred, or
 - (c) in the case of land zoned or otherwise designated for use for any purpose (other than rural or non-urban purposes) under a planning instrument, if any building or structure has been erected or any works have been carried out on the land, or
 - (d) if the profitable expenditure was incurred more than 15 years before the date by reference to which the land value is being determined, or
 - (e) if, as at 30 June before the beginning of that year, the parcel of land was no longer owned by the person by whom the profitable expenditure was incurred,
- and rates and charges under that Act are to be assessed and levied accordingly.

14N Allowance not to exceed cost of improvements

The amount of an allowance for profitable expenditure is not to exceed the cost of the improvements determined as at the date by reference to which the land value is being determined.

14O No allowance for expenditure by the Crown

If land has been leased by the Crown or a statutory body, no allowance is to be ascertained under this Division for expenditure incurred by the Crown or body, except to

the extent to which the Crown or body has been reimbursed in respect of the expenditure by the lessee (otherwise than by payment of rent, rates or taxes).

14P Time at which allowance is to be calculated

An allowance for profitable expenditure is to be ascertained in relation to a rating or taxing authority—

- (a) as at the 1 July by reference to which the land was valued for the purposes of the valuation list for that authority current at the time the land became eligible for the allowance, and
- (b) as at the 1 July by reference to which the land has been valued for the purposes of any subsequent valuation list for that authority.

14Q Apportionment of joint expenditure

- (1) This section applies to the calculation of allowances for profitable expenditure for improvements constructed on or for the benefit of a number of parcels of land, where the profitable expenditure has (by agreement or otherwise) been apportioned between the various owners of the land.
- (2) The proportion of the total profitable expenditure on any such improvements to be allowed in relation to any one parcel of land is to be the same as the proportion of the total cost of those improvements that are paid or payable by the owner of that parcel.

14R Allowance can be objected against

- (1) An objection under Part 3 may be made against a decision of the Valuer-General—
 - (a) to ascertain an allowance for profitable expenditure in respect of any land, or
 - (b) not to ascertain an allowance for profitable expenditure in respect of any land, or
 - (c) as to the amount of an allowance for profitable expenditure in respect of any land,in the same way as an objection may be made under that Part against a decision of the Valuer-General as to the valuation of any land.
- (2) An objection referred to in subsection (1) may be made on any ground that is relevant to the decision concerned.

- (1) A lot in a deposited plan qualifies for an allowance for subdivision if, as at the date by reference to which the allowance is ascertained, the lot is owned by the subdivider.
- (2) If a lot qualifies for an allowance for subdivision, the Valuer-General is to ascertain the allowance in respect of that lot in accordance with this Division.
- (3) An allowance for subdivision (including a nil allowance) is to be entered in the Register of Land Values in respect of any land value to which it relates.

14U How subdivision allowance is ascertained

- (1) The amount of the allowance for subdivision in respect of a lot in a deposited plan is the proportionate amount of the discount from sale price of all lots in that plan that in the opinion of the Valuer-General would be applicable to the lot.
- (2) The **discount from sale price**, in relation to lots in a deposited plan, means the amount (if any) that in the opinion of the Valuer-General is the difference between—
 - (a) the total of the land values of the lots had they been sold separately, and
 - (b) the total of the land values of the lots had they been sold to one person.
- (3) An allowance for subdivision is to be ascertained in relation to a rating or taxing authority—
 - (a) as at the 1 July by reference to which the land was valued for the purposes of the valuation list for that authority current at the time the land became eligible for the allowance, and
 - (b) as at the 1 July by reference to which the land has been valued for the purposes of any subsequent valuation list for that authority.

14V Exclusion of subdivision allowances in certain circumstances

- (1) For the purposes of the [Land Tax Management Act 1956](#), the land value of a parcel of land is taken not to include an allowance for subdivision in respect of any land tax year—

 - (b) if, as at 31 December before the beginning of that year, more than 3 years have passed since the deposited plan was registered, or

and rates and charges under that Act are to be assessed and levied accordingly.

14W Allowance can be objected against

(1) An objection under Part 3 may be made against a decision of the Valuer-General—

(a) to ascertain an allowance for subdivision in respect of any land, or

(b) not to ascertain an allowance for subdivision in respect of any land, or

(c) as to the amount of an allowance for subdivision in respect of any land,

(2) An apportionment factor ascertained by the Valuer-General under this Division is to be entered by the Valuer-General in the Register of Land Values in respect of the land value to which it relates.

14Y How apportionment factor is determined

(1) The apportionment factor is the proportion (expressed as a percentage) that the

rental value of the part of that land that is non-residential land bears to the rental value of the mixed development land as a whole.

- (2) Rental values are to be ascertained in relation to a rating or taxing authority—
 - (a) as at the 1 July by reference to which the land was valued for the purposes of the valuation list for that authority current at the time the land became mixed development land, and
 - (b) as at the 1 July by reference to which the land has been valued for the purposes of any subsequent valuation list for that authority.

14Z Apportionment factors can be objected against

- (1) An objection under Part 3 may be made against a decision of the Valuer-General—
 - (a) to ascertain an apportionment factor in respect of any land, or
 - (b) not to ascertain an apportionment factor in respect of any land, or

- (2) An objection referred to in subsection (1) may be made on any ground that is relevant to the decision concerned.

14AA Apportionment factor to be reascertained in certain cases

If the land value of land in respect of which an apportionment factor has been ascertained is altered (whether as the result of being reascertained or on objection or appeal or for the correction of a clerical error or misdescription), the Valuer-General must reascertain an apportionment factor for that land value.

- (2) Rental values are to be ascertained in relation to a rating or taxing authority—
 - (a) as at the 1 July by reference to which the land was valued for the purposes of the valuation list for that authority current at the time the land became mixed use land, and
 - (b) as at the 1 July by reference to which the land has been valued for the purposes of any subsequent valuation list for that authority.

14BBC Apportionment factors can be objected against

- (1) An objection under Part 3 may be made against a decision of the Valuer-General—
 - (a) to ascertain an apportionment factor in respect of any land, or
 - (b) not to ascertain an apportionment factor in respect of any land, or
 - (c) as to the amount of an apportionment factor in respect of any land,in the same way as an objection may be made under that Part against a decision of the Valuer-General as to the valuation of any land.
- (2) An objection referred to in subsection (1) may be made on any ground that is relevant to the decision concerned.

14BBD Apportionment factor to be reascertained in certain cases

If the land value of land in respect of which an apportionment factor has been ascertained is altered (whether as the result of being reascertained or on objection or appeal or for the correction of a clerical error or misdescription), the Valuer-General must reascertain an apportionment factor for that land value.

- (2A) In either case, an objection against the Valuer-General's refusal to determine an allowance or apportionment factor may be made on the ground that such an allowance or apportionment factor should have been determined.
- (3) For the purposes of the application of this section to an objection under this Act to an allowance or an apportionment factor determined in respect of land or a stratum, a reference in this section to **values** is to be taken to include a reference to the amount of the allowance or the apportionment factor, as the case requires.

assessment if the valuation has previously been the subject of an objection, except with the permission of the Valuer-General.

- (2) The Valuer-General is to permit the objection only if satisfied that there are special reasons for allowing the objection to be made.
- (3) The fact that the person seeking to make the objection was not an owner, occupier or lessee of the land at the time that the earlier objection was made does not of itself constitute a special reason for allowing the person to make an objection.

- (2) If the Valuer-General delegates the functions conferred by this section, the delegate who considers the objection must be a different person from, and not subordinate to, the person who made the decision against which the objection is lodged.

35C Notice of determination

- (3) The notice is to be in a form approved by the Valuer-General.
- (4) For the purposes of section 37, an objection is taken to have been disallowed if notice of the Valuer-General's determination of the objection has not been given within 90 days after the objection was lodged with the Valuer-General.
