2 Commencement

This Act commences on a day or days to be appointed by proclamation.

3 Objects of Act

(1) The objects of this Act are as follows—

- (a) to secure the protection of persons and the environment from exposure to ionising and harmful non-ionising radiation to the maximum extent that is reasonably practicable, taking into account social and economic factors and recognising the need for the use of radiation for beneficial purposes,
- (b) to protect security enhanced sources from misuse that may result in harm to people or the environment,
- (c) to promote the radiation protection principles.

(2) The **radiation protection principles** are as follows—

- (a) **justification of a practice** by assessing that the benefits of the practice involving exposure to ionising radiation outweigh any detriment,
- (b) **optimisation of protection** by ensuring that each of the following is kept as low as reasonably achievable taking into account economic and social factors—
 - (i) the magnitude of individual doses of ionising radiation,
 - (ii) the number of people exposed to ionising radiation,

- (iii) the likelihood of exposure to ionising radiation,
 - (c) **dose and risk limitation** by setting dose limits or imposing other measures so that the health risks to any person exposed to ionising radiation is kept below levels that are generally considered to be unacceptable.
- (3) A person is to take the radiation protection principles into consideration when exercising functions under this Act or under a licence.

Note—

A security enhanced source is a sealed radioactive source prescribed by the regulations. A sealed radioactive source means a radioactive substance sealed in a capsule or closely bound in a solid form. As a radioactive substance is regulated material, each person responsible for that regulated material will be a person responsible for the security enhanced source.

- (4) A security plan cannot be made or amended unless the plan or amendment has been reviewed by a radiation security assessor who endorses on the plan that the plan, or plan as amended, satisfies the requirements of this section.
- (5) Subsection (4) does not apply to an amendment that only updates the name of the natural person who is to be responsible for implementing the plan or an amendment of a kind prescribed by the regulations.
- (6) Each person responsible for a security enhanced source must ensure that any security plan in respect of the source—
 - (a) is made or amended in accordance with this section, and
 - (b) is provided to the Authority—

 - (c) is reviewed periodically or at such times and in such manner as may be prescribed by the regulations, and
 - (d) is implemented and complied with.
- (7) A person who has been given a copy of a security plan or part of such a plan in respect of a security enhanced source must comply with the plan or the part in the person's dealings with the source.

is protected by any security protection measure prescribed by the regulations with respect to the source.

Maximum penalty—1,500 penalty units in the case of a corporation or 250 penalty units in any other case.

- (2) A person must not interfere with any security protection measure prescribed with respect to a security enhanced source unless the interference—
- (a) occurs during repair or maintenance, but only if the security protection measure complies with this section following the repair or maintenance, or
 - (b) is to a security protection measure that is no longer required under this section, or
 - (c) is by the Authority or an authorised officer or by a person acting in accordance with a direction or notice under this Act, or

 - (i) the person is under the direct supervision of another person at all times when engaged in the activity in respect of which the check would otherwise be required, and
 - (ii) the other person is a natural person who has undergone and satisfied the relevant check, or

(b) a person prescribed by the regulations.

- (5) A person must not engage in any activity for which the person is required to undergo a check under this section unless the person has undergone and satisfied that check.

Part 3A Financial assurances

28A Purpose of this Part

- (1) The purpose of this Part is to provide (by way of conditions of radiation management licences) financial assurances to secure or guarantee funding for or towards the carrying out of works or programs (such as the securing, storage or disposal of regulated material or remediation, clean-up or improvement works with respect to regulated material) required by or under a licence.
- (2) A financial assurance is not to operate as a mere penalty for a contravention of this Act, the regulations or the conditions of a licence.

28B Definition of “conditions” of licence

In this Part, a reference to the **conditions** of a radiation management licence includes a reference to the conditions of the suspension, cancellation or surrender of such a licence.

28C Requiring financial assurances

- (1) The conditions of a radiation management licence may require the holder or former holder of the licence to provide a financial assurance. The Authority may require any such financial assurance to be provided before it issues, suspends or cancels the licence or before it approves of its surrender.
- (2) A financial assurance may be in one or more of the following forms—
 - (a) a bank guarantee,
 - (b) a bond,
 - (c) another form of security that the Authority considers appropriate and specifies in

the condition.

- (3) A condition of a licence may provide for the procedures under which the financial assurance may be called on or used.

28D Restriction on requiring financial assurance

The Authority cannot impose a condition on a radiation management licence requiring a financial assurance to be provided unless it is satisfied that the condition is justified having regard to—

- (a) the degree of risk of environmental harm or harm to human health associated with the activities under the licence, or
- (b) the works or programs that may be required because of activities under the licence, or
- (c) the environmental or radiation safety or security record of the holder or former holder of the licence or proposed holder of the licence, or
- (c1) the financial capacity of the holder or former holder of the licence or proposed holder of the licence, or
- (d) any other matters prescribed by the regulations.

28E Amount of financial assurances

- (1) The amount of a financial assurance is to be as determined by the Authority.
- (2) However, the Authority must not require financial assurances of an amount that exceeds the total cost of carrying out the relevant work or program. That total cost is the amount that, in the Authority's opinion, represents a reasonable estimate of the total likely costs and expenses that may be incurred in carrying out the work or program required by or under this Act for which the financial assurance is required, including the likely costs and expenses of the Authority in directing and supervising the carrying out of the work or program.
- (3) The Authority may require the holder or former holder of a licence who is required to give a financial assurance to provide to the Authority an independent assessment of the cost of the relevant work or program for which the assurance is required.

28F Guidelines about financial assurances

The regulations may make provision for or with respect to guidelines to be observed in relation to the content of conditions requiring financial assurances and in relation to the calculation of the amount of financial assurances required.

28G Carrying out of work or program when licensee fails to do so

- (1) The Authority may carry out, or direct or supervise the carrying out by another person of, any work or program covered by any financial assurance required by the conditions of a radiation management licence if the holder or former holder of the licence fails, in the opinion of the Authority, to carry out that work or program in accordance with the conditions of the licence.
- (2) The Authority may do so by the use of contractors, consultants or otherwise.
- (3) The Authority may enter, or authorise any other person to enter, the premises concerned to carry out the work or program.

28H Claim on or realising of financial assurance

- (1) The Authority may recover or fund the reasonable costs or expenses of the Authority or other person in carrying out any such work or program (including the likely costs and expenses of the Authority in directing and supervising the carrying out of the work or program) by making a claim on or realising the financial assurance or part of it.
- (2) Before making the claim on or realising the financial assurance or part of it, the Authority must give to the holder or former holder of the licence a written notice that—
 - (a) states details of the work or program carried out or proposed to be carried out, and
 - (b) states the amount of the financial assurance to be claimed or realised, and
 - (c) invites the person to make representations to the Authority to show why the financial assurance should not be claimed or realised as proposed, and
 - (d) states the period (at least 30 days after the notice is given to the person) within which representations may be made.
- (3) The representations must be made in writing.
- (4) After the end of the period stated in the notice, the Authority must consider any representations properly made by the person.
- (5) If the Authority decides to make a claim on or realise the financial assurance or part of it, the Authority must immediately give written notice to the holder or former holder of the licence of its decision and the reasons for the decision.
- (6) The Authority must return any excess amounts to the holder or former holder of the licence or that person's successors.
- (7) If the amount of financial assurance claimed or realised by the Authority is not sufficient to cover all the costs and expenses concerned, the Authority may recover

the excess from the holder or former holder of the licence in a court of competent jurisdiction as a debt.

28I Lapsing of financial assurance

The requirement to provide financial assurance lapses and no longer binds the holder or former holder of the licence if the Authority is satisfied that the work or program for which the financial assurance was required has been satisfactorily carried out and the Authority has given the holder or former holder of the licence written notice of the lapsing of the financial assurance.

28J Liability of Authority, State and others

- (1) Anything done by or at the direction, or under the supervision, of the Authority under section 28G (1) is taken to have been done by the holder or former holder of the licence.
- (2) The State, the Minister, the Authority, the members of the Board of the Authority, the CEO of the Authority, any members of the staff of the Authority and any persons engaged by or otherwise acting with the authority of the Authority (or any of them)—
 - (a) are not liable for anything done or omitted to be done in good faith in connection with a condition of a radiation management licence to which this Part applies or in carrying out or giving effect to this Part, and
 - (b) without affecting the generality of paragraph (a), are taken, for the purposes of section 23, not to be concerned in the management of a corporation when doing or omitting to do anything in connection with such a condition or when carrying out or giving effect to this Part.

28K Financial assurance not to affect other action

A financial assurance may be called on and used, despite and without affecting—

- (a) any liability of the holder or former holder of the licence to any penalty for an offence for a contravention to which the assurance relates, and
- (b) any other action that might be taken or is required to be taken in relation to any contravention or other circumstances to which the assurance relates.
