3AA Salary of executive officers

- (1) **Definition of salary** For the purposes of this Act, the **salary** of an executive officer is the salary as last nominated or changed in accordance with this section.
- (2) **Nomination of salary on initial and subsequent appointments** An amount of salary for the purposes of this Act must be nominated to an executive officer's employer by the officer, on, or as soon as practicable after, being appointed as an executive officer. An amount may also be nominated to the officer's employer by the officer on, or as soon as practicable after, being reappointed, or appointed to another position, as an executive officer.
- (3) **Amount of salary** The amount nominated is to be not less than the monetary remuneration payable to the executive officer at the date of nomination and not more than the total value of the remuneration package paid to the officer (less the cost of providing employer's contributions to superannuation, other than salary sacrifice contributions, under this Act and the [State Authorities Non-contributory Superannuation Act 1987](#) and any performance-related incentive payment).
- (4) **Failure to nominate salary** If an executive officer fails to nominate an amount of salary within 28 days of first being appointed as an executive officer or within such further period as STC may allow, the officer is taken to have nominated an amount of salary that is equal to the monetary remuneration payable to the officer at the end of the applicable period.
- (5) **Reduction in nominated salary** An executive officer may, from time to time, by notice to the officer's employer elect to reduce the amount of salary nominated under this section, but not so that the amount is less than the monetary remuneration payable to the officer at the date of the election.
- (6) **Increase in nominated salary** An executive officer may, from time to time, by notice to the officer's employer elect to increase the amount of salary nominated under this section, but not so as to increase the amount nominated by a percentage of that amount that is more than the percentage by which the remuneration package of the officer has increased since the amount of salary was last nominated or changed.
- (6A) **Change of salary on change of work** The amount of salary nominated for the purposes of this Act is, on an executive officer becoming a full-time employee after being a part-time employee or becoming a part-time employee after being a full-time employee, changed so that it is an amount equal to the same percentage of the employee's

remuneration package after the change in work as the amount previously nominated was of the remuneration package before the change. This subsection does not prevent an executive officer from making an election under subsection (5) or (6) at any time after the change in work.

- (6B) **Limit on part-time salary changes** An executive officer who is a part-time employee appointed to a full-time position may not make an election under subsection (6) nominating an amount of salary that is more than the amount of the officer's remuneration package, calculated as if the officer were employed in a part-time position (less the cost of providing employer's contributions to superannuation, other than salary sacrifice contributions, under this Act and the *State Authorities Non-contributory Superannuation Act 1987* and any performance-related incentive payment).
- (7) **Nominations and elections** An employer must notify STC of a nomination or election under this section. Any such nomination or election takes effect on the date of notification to STC or on such other date as STC may determine with the consent of the executive officer concerned.
- (8) **Effect of changes in packages** Nothing in this section requires the nominated amount of salary to be increased if, because of a variation in the remuneration package of an executive officer or in the proportions of the remuneration package comprising monetary remuneration and employment benefits of the officer, the amount of salary as last nominated or changed for the purposes of this section is less than the monetary remuneration of the officer.
- (9) **Transitional provision relating to nomination of salary by executive officers** An executive officer may, within 3 months after the commencement of this subsection, nominate a new amount of salary in accordance with this section if, immediately before the commencement of this subsection, the officer was an executive officer.
- (10) **Monetary remuneration** In this section, the **monetary remuneration** payable to an executive officer is—
- (a) if the officer is a Public Service senior executive, within the meaning of the *Government Sector Employment Act 2013*, or a police executive officer, the monetary remuneration payable in accordance with the *Government Sector Employment Act 2013* or the *Police Act 1990*, as the case requires, or
 - (b) if the officer is an office holder nominated for the purposes of section 11A of the *Statutory and Other Offices Remuneration Act 1975*, the remuneration payable to the officer as reduced under that section by the cost of employment benefits provided to the officer, or
 - (c) in the case of any other executive officer, the monetary remuneration payable to the officer.

- (a) the weekly workers compensation paid to an injured contributor, and
 - (b) the salary actually paid to that contributor while partially incapacitated,
- exceeds the salary that the contributor would probably have been earning but for the injury (assuming the contributor had continued to be employed in the same or some comparable employment).
- (1B) STC may determine a date as from which weekly workers compensation paid to a contributor is to be treated as salary for the purposes of this Act, being a date not earlier than—
- (a) 21 December 1984, or

 - (b) except to the extent determined in accordance with Schedule 24, as referred to in subsection (1) (a)—an amount paid as shift allowance,

 - (f) an amount paid for rent or as a residence, housing or quarters allowance, and
 - (g) an amount of weekly workers compensation excluded by subsection (1A).
- (3) If a contributor's employer, or a person authorised to do so on behalf of the employer, certifies in writing to STC that a relieving allowance to be, or being, paid to the contributor in the contributor's capacity as an employee is likely to be paid for a continuous period of 1 year (whether or not the period is partly before the date of the

- (5) STC may exempt from contributing to the Fund any person whose application for exemption from contributing to the Fund—
 - (a) had been made but not dealt with by STC before 13 January 1977, and

Act if the entitlement accrues to or in relation to a person who is or has been a contributor and who is not so exempted.

Division 3 Decreases in salary or unit entitlement

10W Decrease in salary

- (1) Where the salary of a contributor is reduced, the contributor shall continue to contribute for any units of pension that are in excess of the number of units that is, pursuant to section 12 (1), appropriate to the contributor's salary as reduced.
 - (2) Where the salary of a contributor is reduced (whether before, on or after 13 January 1977) and the salary as reduced is actually paid as from a date after 12 January 1977, the contributor may, within 2 months after the date on which the reduced salary is actually paid to the contributor, elect not to contribute for one or more units of pension, not exceeding the difference between—
 - (a) the number of units that is, pursuant to section 12 (1), appropriate to the contributor's salary as reduced, and
 - (b) the number of units that is, pursuant to section 12 (1), appropriate to the contributor's salary as at the latest of whichever of the following days is applicable to the contributor, namely—
 - (i) the contributor's entry review day,
 - (ii) the contributor's last annual review day,

 - (iv) the day on which the contributor became a contributor, if that day fell between 13 January 1976 and 12 January 1977 (both inclusive),
 - (v) the day as from which the number of units of pension for which the contributor was contributing was reduced under section 13, if that day fell after 12 January 1976,
 - (vi) the day as from which the number of units of pension for which the contributor was contributing was last reduced under this section or section 10WB or 10WC,
- but so that the number of units in respect of which the contributor contributes is not reduced to less than 6.
- (3) Where a contributor elects not to contribute for a unit of pension under subsection (2), the contributor's contributions to the Fund in respect of the unit shall cease on and from the first day of the contribution period in which the salary as reduced is actually paid and shall be refunded to the contributor.

- (4) No person has any rights in the Fund in respect of a unit of pension to which an election under subsection (2) relates.
- (5) No person has any rights in the Fund in respect of an excess unit of pension referred to in subsection (1) and not the subject of an election under subsection (2), unless STC is satisfied that the contributor's salary was reduced by reason of the contributor's ill health or for some other reason which STC, having regard to the circumstances of the case, considers warrants the retention of entitlement to benefits under this Act in respect of the unit.
- (6) Where no person has any rights in the Fund in respect of a unit of pension, as referred to in subsection (5), and the contributor ceases to be an employee, any contributions made by the contributor in respect of the unit shall be refunded to the contributor.

- (8) A unit of pension in respect of which a contributor is contributing to the Fund ceases to be an excess unit of pension, as referred to in subsection (1), if the contributor's salary is increased and that unit is one of the number of units that, pursuant to section 12 (1), is appropriate to the contributor's salary as increased.

10WA Fluctuations in salary

- (1) Where the number of units of pension that, pursuant to section 12 (1), was appropriate to the salary actually being paid to a contributor at any time after 12 January 1976 was higher than the number of units that, pursuant to section 12 (1), was or is appropriate to the salary actually being paid to the contributor at the contributor's next review day after that time, STC may determine that the contributor's salary as at the review day shall be treated as if it had been equal to the contributor's salary as at the earlier time.
- (2) A determination under this section shall not take effect unless the appropriate contributions in respect of the additional units of pension (being the contributions that would have been already or would be payable in accordance with this Act had the greater salary in fact been paid to the contributor at the review day) have been or are paid to STC within a period approved by STC.
- (3) Where a determination under this section has effect, then, for all purposes of this Act—
 - (a) the contributor's salary shall be treated in accordance with the determination, and
 - (b) the contributor shall be deemed to have been contributing for the additional units of pension as from the commencement of the period to which the contributions referred to in subsection (2) relate.

- (2) On the termination of a period of leave of absence by a contributor in respect of which section 12B (1) or (3A) applies before the expiration of the period or of a period in respect of which section 12BA (1) or 12C (4) applies—
 - (a) the contributor shall be deemed not to have ceased to contribute for the number of units of pension for which the contributor ceased to contribute under subsection (1) but shall be deemed to have ceased to contribute for the number of units of pension (if any) equal to the difference between—
 - (i) the number of units of pension (if any) for which the contributor has completed contributing and the number of units (if any) for which, but for the application of subsection (1) on the commencement of the period and of this subsection on the termination, contributions would be payable by the contributor, and
 - (ii) the number of units of pension that, pursuant to section 12 (1), is appropriate to the salary actually being paid to the contributor,
 - (b) all contributions for units of pension which would have been payable, had the contributor ceased to contribute for the number of units of pension equal to the difference on the commencement of the period, shall be deemed to have been payable by the contributor, and
 - (c) any contributions for units of pension which have been refunded or applied in accordance with a direction by the contributor as referred to in subsection (3) and which are payable as referred to in paragraph (b) shall be payable in respect of those units.

any contributions paid in respect of that unit shall, unless the contributor directs STC to apply them towards contributions payable in respect of other units of pension during the period, be refunded to the contributor.

- (4) No person has any rights in the Fund in respect of a unit of pension for which contributions have ceased under this section and have not again become payable.
- (5) Where a contributor ceases to contribute for a unit of pension under this section and subsequently the salary of the contributor is increased, this Act applies in relation to the increase as if the contributor had not been formerly entitled to the unit.

 - (a) where the contributor has attained the prescribed age on or before the last day of the contribution period preceding that in which the change occurred, the amount which, if the contributor were required under Division 5 to commence to contribute

for an additional unit of pension on that day, would be the amount payable in accordance with the tables of contributions fixed under section 10AD for that unit for a contribution period, or

- (b) where the contributor has not attained the prescribed age on or before that day, the amount equal to the sum of—

 - (ii) for each day of the period commencing on the day following that annual adjustment day and ending on the last day of the contribution period preceding that in which the change occurred, the amount equal to $\frac{1}{364}$ th part of the difference between the amount referred to in subparagraph (i) and the amount which that amount would have been if, on that annual adjustment day, the contributor had been 1 year older than the age actually attained.

- (7) Where, in relation to a contributor whose employment status has changed, the figure obtained pursuant to subsection (5) from the calculation of the formula

$$PUU = TU + IU + UC$$

is or includes a fraction, there shall be paid to the contributor from the Fund, as a refund of contributions not allocated towards the purchase of fully paid up units, the amount calculated in accordance with the following formula—

S is the amount of the contributions paid by the contributor in respect of the units the number of which is attributed to the symbol UHn pursuant to subsection (5).

F1 is the fraction which is or is included in the figure obtained.

P1 is the figure obtained.

- (8) Where, in relation to a contributor whose employment status has changed, the figure obtained pursuant to subsection (5) from the calculation of the formula

$$PUU = TU + IU + UC$$

is or includes a fraction, there shall be paid to the contributor from the Fund, as a refund of instalments not allocated towards the purchase of fully paid up units, the amount calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

where—

Q2 is the amount to be paid.

- (11) On the day on which the employment status of a contributor changes, if the number of additional units of pension referred to in subsection (10) is in excess of the number for which the annual cost to the contributor is equal to an amount representing 6 per cent of the annual salary of the contributor at the rate actually being paid, the excess units of pension are optional units of pension.
- (12) A contributor may, within 2 months after the day on which the employment status of the contributor changes, elect to abandon any one or more of the optional units of pension in respect of which, but for the election, the contributor would be required by this section to commence contributing to the Fund.
- (13) Where a contributor elects not to contribute for a unit of pension under subsection (12), contributions to the Fund in respect of the unit shall cease as on and from the first day of the contribution period in which the employment status of the contributor changes and any contributions paid in respect of the unit shall be refunded to the

contributor.

- (14) No person has any rights in the Fund in respect of a unit of pension to which an election under subsection (12) relates.
- (15) Where no person has any rights in the Fund in respect of an excess unit of pension of a contributor referred to in section 10W (1) and the employment status of the contributor changes, any contributions made by the contributor in respect of the unit shall be refunded to the contributor.
- (16) Where a person whose contributions are allocated to the purchase of fully paid up units under this section dies, retires under section 21 (1B) before attaining the age of 60 years, or is retired under section 22 before attaining that age, STC may, except where the contributions are refunded pursuant to section 32A or 32B, determine that a specified amount, being part of those contributions, be refunded to the person or, where the person is dead, to the person's personal representatives, and may act in accordance with its determination.
- (17) Where a contributor whose employment status changes is a contributor whose entry payment day occurred before the commencement of Schedule 4 to the *Superannuation (Amendment) Act 1985* and, immediately before the change occurred—
- (a) the contributor had any abandoned units, and
 - (b) the annual cost to the contributor for the units of pension for which contributions were payable by the contributor was an amount representing a percentage which was less than 6 per cent of the annual salary of the contributor at the rate actually being paid on the contributor's previous annual review day or, if there was no such day, the contributor's entry review day, the number of those units being less than the number for which the annual cost was equal to an amount representing 6 per cent of that annual salary,

such of the additional units of pension (if any) referred to in subsection (10) as are in excess of the number for which the annual cost to the contributor is equal to an amount representing that lesser percentage of the annual salary at the rate actually being paid to the contributor on the day the change occurred are optional units of pension for the purposes of subsection (12), notwithstanding anything to the contrary in subsection (11).

- (3) Where an election has been made under this section to take up an abandoned unit—
- (a) the contribution payable in respect of the unit shall be paid to STC within one month after the employee's exit day or within such further period as STC may, in special circumstances, allow, and
- (b) the unit ceases to be an abandoned unit, provided the contribution is paid.
- (4) This section does not apply to or in respect of an abandoned unit unless—

- (b) the number of units of pension (if any) for which the person has completed contributing, and
- (c) the number of the person's abandoned units (including the firstmentioned abandoned unit),

- (2) Pension payable under section 29 or by virtue of the death of a contributor is not payable in respect of a unit of pension which a person has elected to take up under this Division unless—

 - (b) that person's exit day is on or after the last day of the contribution period preceding that in which the person attains the maturity age.
- (3) Where a contributor's contributions in respect of a unit of pension cease on the first day of the contribution period in which the contributor ceases to be an employee or attains the maturity age, the contributor shall, for the purposes of subsection (2) (a), be deemed to have paid contributions in respect of the unit for so much of that period as precedes the contributor so ceasing to be an employee or attaining that age, as the case may be.
- (4) Where—
 - (a) a contributor's first annual review day falls before 31 December 1977,
 - (b) the contributor elects to take up abandoned units within 2 months after that day, and
 - (c) the contributor would, had Part 8 not been enacted, have been entitled to elect to take up those abandoned units during the suspension period (as defined in section 95),

the contributor shall, for the purposes of subsection (2) (a), be deemed to have commenced contributing for those units as from 13 January 1976 or the day on which the contributor became a contributor, whichever is the later.

10AE Cessation of contributions

Subject to this Act, contributions payable to the Fund by a contributor under this Division in respect of any units of pension, other than those for which the contributor contributes by instalments under section 10AH, and those referred to in section 10AF, shall cease to be payable in respect of those units on the first day of the contribution period in which the contributor ceases to be an employee or attains the maturity age, whichever first occurs.

 - (c) apply differently in respect of different classes of employees.

10AH Employees who have reached the prescribed age

- (1) Subject to sections 10AF and 10AI, where an employee who has reached the prescribed age on or before the employee's entry payment day or annual adjustment day, as the case may require, is required or elects to commence contributing for a unit of pension, the employee shall, subject to this section, contribute the cost of the unit by 65 four-weekly instalments, each such instalment being equal to an amount determined by STC, being an amount that is, or is not less by more than a fraction of a cent than, one sixty-fifth of that cost.
- (2) Where an employee referred to in subsection (1) ceases to be employed by the employer prior to completion of payment of instalments pursuant to subsection (1), the following provisions apply—

 - (c) where the employee dies and is survived by a spouse or de facto partner, the spouse or de facto partner, if a pension is payable to the spouse or de facto partner in accordance with section 30, shall within 3 months after the death of the employee, or within such further period as STC may, in special circumstances, allow, pay the total amount of contributions unpaid as at the date of the employee's death.
- (3) Where the total amount of contributions required to be paid by subsection (2) (a), (b) or (c) is not paid within the time prescribed, or within such further period as STC may, in special circumstances, allow, the employee or the spouse or de facto partner of the employee, as the case may be, shall be refunded the amount of the instalments paid pursuant to subsection (1).
- (4) Where a refund is payable under subsection (3), no person has any rights in the Fund in respect of the unit or units of pension to which the refund relates, but nothing in this subsection affects the operation of Division 2A of Part 4 in relation to any such unit.
- (5) A reference in subsection (2) to the total amount of contributions unpaid as at a particular date is—

- (a) in relation to an employee who ceases to be employed by the employer before attaining the maturity age and who commenced contributing for the unit of pension—
 - (i) before the contribution period in which the employee would attain the maturity age—a reference to the total amount of contributions that would have been payable up to and including that date had the tables of contributions fixed by or under this Act been applicable to the employee in respect of the unit, or
 - (ii) after the contribution period in which the employee would attain the maturity age—a reference to the cost of the unit, or
 - (b) in relation to an employee who ceases to be employed by the employer on or after attaining the maturity age—a reference to the cost of the unit, less the amount of instalments paid pursuant to subsection (1).
- (6) Where, but for this subsection, the 65 instalments payable in respect of a unit of pension pursuant to subsection (1) would be less than the cost of the unit, the 65th instalment shall, notwithstanding that subsection, be increased by the difference.

10AI Units taken up at exit day

- (1) The contribution of a contributor referred to in section 10R (1) in respect of an additional unit of pension shall, if the contributor's exit day is on or after the first day of the contribution period in which the contributor would attain or has attained the maturity age, be the cost of the unit.
- (2) Where—
 - (a) an election by a former employee or a former employee's spouse or de facto partner under section 10Z to take up an abandoned unit takes effect, and
 - (b) the former employee's exit day is on or after the first day of the contribution period in which the former employee would attain or has attained the maturity age,

the contribution payable in respect of the unit shall be the cost of the unit.

Division 7 Contributions by employers

10AJ Contributions to be made by an employer listed in Schedule 3

- (1) An employer listed in Schedule 3 must pay to the Fund in respect of each contributor that the employer employs an amount equal to a specified multiple of the contributions payable to the Fund by that contributor.
- (2) The specified multiple referred to in subsection (1) is a multiple that STC, with the concurrence of the Treasurer, periodically fixes in respect of the employer concerned.

- (3) In determining the contributions payable by an employer specified in Part 2 of Schedule 3, STC is to have regard to the amount required to meet the full costs of the liabilities under this Act of all employers specified in Part 2 of Schedule 3.
- (4) STC may, with the concurrence of the Treasurer, require an employer specified in Part 2 of Schedule 3 to pay into the Fund additional contributions for a specified period if it appears to STC that there is insufficient money in the relevant employers' reserves for employers specified in Part 2 of Schedule 3 to meet the employers' liabilities under this Act.

10AK Calculation of contributions and time for payment

- (1) Contributions under this Division shall be calculated on the basis of contribution periods.
- (2) An employer must, within 7 days after the end of each contribution period, pay to STC the contributions payable by the employer in respect of that period.

10AL Employer may be required to make further payments in certain cases

- (1) Whenever it appears to STC that there is insufficient money in an employer reserve—
 - (a) to pay the employer-financed portion of a benefit that is due to or in respect of a contributor or former contributor under this Act, or
 - (b) to pay any other amounts that are payable from that reserve,STC may require the contributor's employer or former employer, by notice in writing, to pay into the Fund an amount equal to the amount of the insufficiency.
- (2) If an employer fails to pay an amount required to be paid under subsection (1) within 14 days after being notified of the requirement, the amount becomes an amount owing to the Fund and STC may recover that amount accordingly.

10AM Power of STC to adjust employer reserves

Whenever it appears to STC that, because of a change of circumstances, it would be appropriate to adjust the amount that is currently standing to the credit or debit of an employer reserve so as to reflect the change of circumstances, STC may, with the concurrence of the Treasurer, adjust that reserve by crediting or debiting that reserve with a specified amount of money and correspondingly debiting or crediting one or more other employer reserves.

10AN Transfer of credits between employers of transferred contributors

Whenever—

- (a) a contributor ceases to be employed by an employer and becomes employed by another employer, and

- (b) the contributor continues to be a contributor under this Act,
STC must, as soon as practicable after the contributor begins the later employment—
- (c) debit the employer reserve of the former employer with the actuarially calculated transfer value referable to the contributor, and
- (d) credit the employer reserve of the new employer with that value.

10AO Variation of employer contributions

- (1) Despite any other provision of this Division, STC may determine that the contributions payable by an employer specified in Part 1 of Schedule 3 in respect of a contributor are to be determined, or are payable, on a basis other than that set out in this Division.
- (2) STC may only make such a determination with the concurrence of the Treasurer.

- (b) with respect to salaries exceeding \$5,200, the number of those units, on any particular day, shall be calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

where—

UE is the number of units of pension.

S is the annual rate of salary.

CF is 1 or

$$PUU = TU + IU + UC$$

, whichever is the greater.

a is the index number appearing in the Consumer Price Index (All Groups Index) for Sydney last published before that day by the Australian Statistician under the *Census and Statistics Act 1905* of the Commonwealth.

b is—

(a) the number 114.6, or

(b) if, after the commencement of the amendments made to this section by the *Statute Law (Miscellaneous Provisions) Act 1991*, the Australian Statistician changes the reference base for the Consumer Price Index (All Groups Index) for Sydney—a number determined by STC, on actuarial advice, to represent what that index would have been for the June quarter 1982 if the change in the reference base had applied at that date.

(2) Where the number of units of pension calculated in accordance with subsection (1) (b) includes a fraction of a unit, the number of units shall be deemed to be the next highest whole number.

(3) Any Index number published by the Australian Statistician at any time (and whether before or after the commencement of this subsection) in respect of a particular quarter in substitution for an Index number previously published in respect of that quarter is to be disregarded for the purpose of ascertaining the value of the expression “a” in the formula in subsection (1), unless the Minister gives a direction to the contrary. If the Minister gives such a direction, the later Index number is to be used in the formula whenever it is applied after the direction has been given.

(4) (Repealed)

(5) In this section, **Index number** and **quarter** have the same meanings as in Division 6 of Part 4.

(6)-(12) (Repealed)

12A Alteration of unit entitlement in certain cases

(1) Except as provided by subsection (2), a reference (however expressed) in any other provision of this Act to the number of units of pension that, pursuant to section 12 (1), is appropriate to the salary being paid to a contributor on any particular day shall, if 1 or more deduction factors are required to be applied under this section by STC in relation to the contributor on that day, be construed as a reference to the number of units calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

where—

U is the number of units to be calculated.

NU is the number of units that, but for this section, would be appropriate to that salary.

PFS is the sum of—

- (a) the number of years, if any, (including any fractional part of a year calculated on a daily basis) of the period that commenced when the contributor last became a contributor and ended on that day (but excluding any part of that period during which the person had been on leave of absence pursuant to section 48), and
- (b) the number of years, if any, (including any fractional part of a year calculated on a daily basis) by which that day precedes—
 - (i) the date on which the person attains the maturity age, or
 - (ii) where any employment which, on that day, the contributor is entitled to count as service for the purposes of section 21 is, in total, for less than a period of 10 years—the expiration of the balance of that period of 10 years,

whichever is the later.

DT is the total of all deduction factors required to be applied by STC in relation to the contributor on that day.

- (2) Where the number of units of pension calculated in accordance with the formula specified in subsection (1) is or includes a fraction of a unit—
 - (a) if the fraction is less than one-half—the fraction shall be disregarded, or,
 - (b) if the fraction is not less than one-half—the fraction shall be deemed to be a whole unit.

12B Deduction factors in relation to certain periods of leave

- (1) Except as provided by subsection (2), on and from the commencement of a period of full-time leave of absence without pay by a contributor, STC shall apply under section 12A, in relation to the contributor, in addition to such other deduction factors (if any) as STC is required to apply in relation to the contributor, a deduction factor equal to the length of so much of that period as exceeds 3 months (expressed in terms of years, if any, and including any fractional part of a year calculated on a daily basis).
- (2) Subsection (1) does not apply in relation to a period of leave of absence by a contributor where—
 - (a) the leave is a prescribed form of leave or is leave with respect to which section 19 (2), (3) or (6) applies,
 - (b) the period commences before the commencement of Schedule 6 to the *Superannuation (Amendment) Act 1985* or is not more than 3 months, or

(c) before the commencement of that period, the contributor elects to have subsection (1) not apply in relation to that period.

(2A) The reference to a prescribed form of leave in subsection (2) (a) includes (but is not limited to) a reference to maternity leave and is to be taken to have included such a reference from and including 1 July 1985.

(3) Where a period of leave of absence to which subsection (1) applies terminates (whether by reason of death of the contributor or otherwise), on or before the expiration of 3 months of the period, STC shall, on and from that termination, cease to apply under section 12A in relation to the contributor the deduction factor required under subsection (1) to be applied on and from the commencement of that period.

(3A) STC must apply under section 12A, in relation to a contributor who takes a single period of leave without pay that is sick leave or maternity leave, a deduction factor equal to the length of that part of the period of leave that exceeds 2 years.

(3B) The deduction factor applied under subsection (3A) is to be expressed in terms of years and include any fractional part of a year calculated on a daily basis.

(3C) The deduction factor applied under subsection (3A) is to be applied on and from the end of 2 years after the commencement of the single period of leave and is in addition to any other deduction factor that STC is required to apply in relation to the contributor.

(4) Where a period of leave of absence to which subsection (1) applies terminates (whether by reason of death of the contributor or otherwise) before the expiration of the whole, but after the expiration of 3 months, of the period or a period of leave of absence is extended after the commencement of the period and the period, as extended, is a period of leave of absence to which subsection (1) applies, STC shall, on and from that termination or extension, apply under section 12A in relation to the contributor—

(a) instead of the deduction factor (if any) required under subsection (1) to be applied on and from the commencement of that period, and

(b) in addition to such other deduction factors (if any) as STC is required to apply in relation to the contributor,

a deduction factor equal to the length of so much of the period of leave actually taken or the length of so much of the period of leave, as extended, as exceeds 3 months (expressed in terms of years, if any, and including any fractional part of a year calculated on a daily basis).

12BA Deduction factors for periods determined by STC

(1) Despite any other provision of this Act, STC may apply under section 12A, in relation

to a contributor specified by STC, a deduction factor equal to the length of the period for which STC determines that the deduction factor is to apply.

- (2) The deduction factor is to be expressed in terms of years and include any fractional part of a year calculated on a daily basis.
- (3) STC may only make such a determination if it is of the opinion that it is necessary to do so for the purposes of being consistent with a relevant Commonwealth superannuation standard restricting the acceptance of contributions by a superannuation fund.
- (4) The deduction factor is to be applied on and from the commencement of the period specified by STC and is in addition to any other deduction factor that STC is required to apply in relation to the contributor.

12C Deduction factors in relation to part-time employment

- (1) In this section—

part-time employee means—

- (a) a person appointed to a part-time position and certified to STC by the person's employer to have a salary ratio of less than one, or
- (b) a person appointed to a full-time position and on part-time leave without pay, and certified to STC by the person's employer to have a salary ratio of less than one, who has made an election, that is in force under this section, to be treated as a part-time employee.

salary ratio of a person means the ratio of the salary of the person while employed on a part-time basis to the salary certified by the employer of the person to be the salary which would be paid to the person if employed on a full-time basis.

- (1A) A person who is appointed to a full-time position and who commences a period of part-time leave without pay may elect to be treated as a part-time employee for the purposes of this section.
- (2) Where a contributor who is not a part-time employee becomes a part-time employee or a contributor who is a part-time employee becomes a part-time employee in a position in relation to which the salary ratio is different from that of the former position, STC shall, on and from the day on which the contributor becomes a part-time employee, or the salary ratio changes, apply under section 12A, in relation to the contributor, in addition to such other deduction factors (if any) as STC is required to apply in relation to the contributor, a deduction factor equal to the figure calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

where—

D is the deduction factor.

PA is the number of years, if any, (including any fractional part of a year calculated on a daily basis) by which the day precedes the known or estimated date on which the period of part-time employment is to cease.

SR is the salary ratio (expressed as a fraction) in relation to the position.

(2A) For the purposes of item “PA” in subsection (2), the known or estimated date on which part-time employment is to cease is—

(a) in the case of a contributor on part-time leave without pay—the date on which the period of leave approved for the contributor is to cease, or

(b) in any other case—the date certified in writing by the contributor’s employer to STC for the purposes of this subsection.

(3) Where a contributor who is a part-time employee ceases to be a part-time employee or the salary ratio of the employee changes, STC must, on and from the day the contributor ceases to be a part-time employee or the salary ratio changes, apply under section 12A in relation to the contributor—

(a) instead of the deduction factor required under subsection (2) to be applied, and on and from the day the person commenced to be a part-time employee or to be employed in a position having the former salary ratio,

(b) in addition to such other deduction factors (if any) as STC is required to apply in relation to the contributor,

a deduction factor equal to the figure which would have been calculated in accordance with subsection (2) if the figure attributed to the symbol PA were the number of years, if any, (including any fractional part of a year calculated on a daily basis) of the period during which the contributor was employed as a part-time employee or employed in a position having the salary ratio of the former position.

(3A) However, subsection (3) does not apply in respect of a part-time employee who has made an election under subsection (1A), and whose salary ratio decreases, unless the employee elects that subsection (3) is to apply in respect of that changed salary ratio.

(4) STC must apply under section 12A, in relation to a contributor who is employed for less than 10 hours a week for a single period of more than 2 years, a deduction factor equal to the length of that part of the period that the contributor is so employed that exceeds 2 years and ends on the date on which the contributor attains the maturity age.

(5) The deduction factor applied under subsection (4) is to be expressed in terms of years

and include any fractional part of a year calculated on a daily basis.

- (6) The deduction factor applied under subsection (4) is to be applied on and from the end of 2 years after the commencement of the period of employment and is in addition to any other deduction factor that STC is required to apply in relation to the contributor.
- (7) Subsections (1)–(3) do not apply in respect of a contributor during any period in which STC is required to apply a deduction factor under subsection (4).
- (8) However, subsection (3) applies to a contributor who, at the end of the period, commences to be employed for more than 10 hours a week in the same way as it applies to any other employee whose salary ratio changes.

12CA Continuation of certain contributions

- (1) Where a contributor completes payment of the 65 instalments under section 10AH, in respect of a unit of pension, or, pursuant to section 10AE, contributions cease to be payable in respect of a unit of pension by a contributor who attains the maturity age, contributions shall, until the contributor's next annual adjustment day or exit day (whichever first occurs), continue to be made at the rate at which the contributor was contributing for that unit.
- (2) Any continued contributions made by a contributor by virtue of subsection (1) shall be credited, in such manner as STC thinks fit, to units of pension in respect of which the contributor is contributing or may, on the contributor's next annual adjustment day or exit day, be required to contribute by instalments under section 10AH.
- (3) Subsection (1) ceases to apply to a contributor if STC so approves on application made by the contributor before the contributor's exit day.
- (4) Without affecting the operation of this section, a contributor to whom this section applies shall be deemed, for the purposes of this Act, to have ceased contributing for the unit of pension referred to in subsection (1).

12D Other contributions by contributors

- (1) A contributor, who is not required by this Act to contribute to the Fund under this Act merely because the contributor is on authorised leave without pay as an employee, is entitled to remain a contributor to the Fund even though the contributor is not contributing to the Fund.
- (2) This section applies to a contributor only if—
 - (a) the leave is for the purposes of raising children of whom the contributor is a parent, or for whom he or she has assumed the responsibility of a parent, and
 - (b) he or she has been on that leave for less than 7 years consecutively, and

(c) he or she has a statutory or contractual right to resume employment at the end of the leave.

(3) Section 12B (1) and (2) apply to a contributor, and to the period of leave of the contributor, during any period during which this section applies to the contributor.

(4) In this section—

authorised leave means—

(a) leave approved by the contributor's employer, or

(b) leave authorised by an agreement certified, or an award made, by a tribunal or body having the authority to do so under a law of the State or the Commonwealth.

which are payable as from that entry payment day or annual adjustment day, as the case may be.

(5)

(a) Where a contributor who has—

(i) contributed for at least ten years for any reserve units, or contributed for at least one year for any reserve units and has attained the age of fifty years, becomes eligible to or is required to contribute for one or more additional units of pension in pursuance of the provisions of this Act,

(ii) (Repealed)

the contributor may elect by notice in writing to STC in the form prescribed to appropriate to the contribution account the contributions paid by the contributor to the reserve account in respect of a number of reserve units not exceeding the number of those additional units of pension.

(b) Where a contributor so elects, no further contributions shall be paid into the reserve account in respect of the reserve units to which the election applies and the contributions payable by the contributor in respect of so many of the additional units of pension as is equal to the number of those reserve units shall be at the same rate as the contributions paid into the reserve account in respect of those reserve units.

(6) A contributor who, on 1 January 1992, is contributing for any reserve units may, by notice in writing lodged with STC within 60 days after that date, elect to discontinue paying contributions in respect of those units.

(6AA) STC must pay to a contributor who, in accordance with subsection (6), elects to discontinue the payment of contributions for reserve units the amount paid in respect of those units, together with any interest payable under subsection (6AD).

(6AB) If a contributor who is contributing for reserve units ceases to be an employee, STC must pay to the contributor or, as the case may be, to the contributor's personal representatives the amount of the contributor's contributions paid in respect of those units, together with any interest payable under subsection (6AD).

(6AC) In subsection (6AB), the reference to personal representatives includes a reference to a person referred to in section 88A (2).

(6AD) A contributor is entitled to interest on contributions for reserve units paid for by the contributor, compounded annually, at the rate fixed by STC in accordance with section 86A and payable from the respective dates of payment.

- (3) For the purposes of this Act, where a contributor is on approved leave from the service of the contributor's employer and is not on secondment to the service of another employer and is not a contributor to and in respect of whom subsection (7) is declared pursuant to subsection (6) to apply, and STC is of the opinion that the contributor's salary would have been varied had the contributor not been on that leave, the contributor shall, unless STC otherwise determines, be deemed to have been paid by the contributor's employer salary at the rates to which and at the times at which it would have been varied.
- (4) For the purposes of subsection (3), a person is on approved leave if the person is on leave without pay from the service of the person's employer—

P₁ is the employee-contributed pension component calculated in accordance with subsection (7) (a), and

P₂ is the employer-financed pension component calculated in accordance with subsection (7) (b).

(7) In subsection (6)—

(a)

$$PUU = TU + IU + UC$$

where EPU is the sum of—

(i)

$$PUU = TU + IU + UC$$

,

(ii)

$$PUU = TU + IU + UC$$

, and

(iii) UC, and

(b)

$$PUU = TU + IU + UC$$

where—

UE is the number of units of pension that, pursuant to section 12 (1), is appropriate to the salary payable to the contributor on the contributor's exit day plus, in a case to which section 10W applies, the number of any excess units of pension referred to in section 10W (1) and in respect of which STC considers, in accordance with section 10W (5), that the retention of entitlement to benefits under this Act is warranted.

S is the number of years (including any fractional part of a year calculated on a daily basis) of continuous contributory service by the contributor with any one or more employers.

T is the number of years, if any, (including any fractional part of a year calculated on a daily basis) by which the contributor's exit day precedes—

(a) the date on which the contributor attains the maturity age, or

(b) where any employment which, on the contributor's exit day, the contributor is entitled to count as service for the purposes of section 21 is, in total, for less than a period of 10 years—the expiration of the balance of that period of 10 years,

whichever is the later.

(8) For the purposes of subsection (7) (a)—

U_hn is the number of units of pension for which contributions were payable by the contributor on the contributor's exit day in accordance with the tables of contributions fixed by or under this Act, but excluding—

(a) any such units of pension which are excess units of pension referred to in section 10W (1) and in respect of which no person has any rights in the Fund, and

(b) any such units of pension, being reserve units, for which contributions were being made under section 15A,

Cn is the amount of contributions due for the last contribution period for which contributions were payable by the contributor before the contributor's exit day, in respect of that number of units of pension,

Rn is the relevant amount under subsection (9) in relation to the contributor for an additional unit of pension on the contributor's exit day,

TCB is the total amount paid in respect of instalments payable by the contributor on or before the contributor's exit day for units of pension for which the contributor contributed in accordance with Division 6 of Part 3 (but deducting from that amount any part allocated under this Act to the purchase of fully paid up units),

RB is the amount specified in section 10AG (1) as the cost of a unit of pension in relation to the contributor, and

UC is the number of units (if any) purchased by the contributor and credited to the contributor as fully paid up units under section 20C or otherwise.

- (9) For the purposes of subsection (8), the relevant amount in relation to a contributor for an additional unit of pension on the contributor's exit day is—
- (a) where the contributor has attained the prescribed age on or before that day, the amount which, if the contributor were required under Division 5 of Part 3 to commence to contribute for an additional unit of pension on that day, would be the amount payable in accordance with the tables of contributions fixed under section 10AD for that unit for a contribution period, or
 - (b) where the contributor has not attained the prescribed age on or before that day, the amount equal to the sum of—
 - (i) the amount payable by the contributor for any additional unit of pension for which the contributor had been required to commence contributing on and from the contributor's last annual adjustment day for a contribution period or, as the case may be, the amount that would have been so payable if the contributor had been so required, and
 - (ii) for each day of the period commencing on the day following that annual adjustment day and ending on the contributor's exit day, the amount equal to 1/364th part of the difference between the amount referred to in subparagraph (i) and the amount that that amount would have been if, on the contributor's last annual review day before the contributor's exit day, the contributor had been 1 year older than the age actually attained.
- (10) For the purposes of subsection (7) (b), the period of continuous contributory service by a contributor on the contributor's exit day is the period that commenced when the contributor last became a contributor and ended on that day, but excluding any part of that period during which the contributor is treated by section 48 as being on leave

of absence without pay.

(10A) If STC has made a determination under section 61RA in respect of a benefit payable under this section, the amount of the benefit is reduced by the amount specified in STC's determination.

(11) If a former employee who—

(a) has been retrenched, and

(b) has received a retrenchment benefit under this section,

subsequently enters the service of the same or another employer, the former employee is not entitled to claim any further benefit in respect of previous service with an employer unless the former employee has complied with section 38C.

(12), (13) (Repealed)

37B Deferral of payment of benefits on retrenchment

(1) This section applies to a contributor who is retrenched from the service of an employer and who, at the time of retrenchment, is not less than 50 years of age.

(2) A contributor to whom this section applies is entitled, subject to section 38B and only with the concurrence of his or her employer, to elect to retire on pension at the early retirement date instead of taking any pension, benefit or other amount that would be payable to the contributor under this Part on the retrenchment of the contributor.

(3) If a contributor makes such an election, the contributor is entitled, on the early retirement date, to a pension under section 28, 28A or 28AA (whichever is applicable), as if the contributor had continued in the service of the employer and had elected to retire, and retired, on the early retirement date. Section 21C applies accordingly.

(4) The entitlement under this section arises only if the contributor agrees to pay to the Fund, and does pay to the Fund, within the time required by STC, an amount determined by STC, on the basis of actuarial advice, as the present value of the total of all further amounts that the contributor would have been required to contribute to the Fund had the contributor not been retrenched and had continued in service with the employer until the early retirement date.

(5) If a contributor elects to take the benefit of this section, Division 7 of Part 3 applies, and continues to apply, in respect of the contributor's employer, as if the contributor were still employed by the employer and had continued in the service of the employer until the early retirement date. Accordingly, the employer must contribute to the Fund as required by those provisions.

(6) For the purposes of Division 7 of Part 3, the contributions to be made by the employer are to be determined by STC on the basis of the contributions that would have been

payable by the contributor had he or she continued in the service of the employer at the same salary and on the same basis as immediately before his or her retrenchment.

- (7) If a contributor who has been retrenched elects to take the benefit of this section and afterwards enters the service of the same or a different employer, the contributor is not entitled to claim any further benefit in respect of the contributor's previous service, except in accordance with section 38C.
- (8) If a contributor who elects to take the benefit of this section—
- (a) becomes incapacitated before the early retirement date, or
 - (b) dies before the early retirement date,

STC may treat the contributor (whether or not the election has already taken effect) as having elected to take the benefit of Division 3A immediately before he or she became incapacitated or died, and apply those provisions accordingly. If the contributor has paid a lump sum to the Fund in accordance with this section, STC is to refund to the contributor, or the contributor's personal representatives, an amount determined by STC as being the value of excess contributions paid by the contributor (that is, contributions paid in respect of a period commencing after the contributor's incapacity or death).

- (9) In this section—

early retirement date, in relation to a contributor to whom this section applies, means the date on which the contributor will reach the age of 55 years.

38 Refund of contributions

- (1) If a contributor—
- (a) is retrenched from the service of an employer, or
 - (b) resigns or is dismissed or discharged from the service of an employer,
- the contributor is, subject to section 38B, entitled to be paid a lump sum (without interest) equal to the contributions (other than contributions refundable under section 15A (6AB)) paid by the contributor under this Act, irrespective of the cause of the retrenchment, resignation, dismissal or discharge.
- (2) Whenever a lump sum is paid under subsection (1), there shall, subject to subsection (3), be deducted from that sum any amount received by the contributor as a pension before the contributor's retrenchment, resignation, dismissal or discharge.
- (3) A deduction under subsection (2) must not reduce the amount paid to a contributor under this section to an amount below the contributions paid by the contributor since

the contributor last received any amount as pension.

(4) If a former employee who—

(a) has been retrenched, dismissed or discharged, or has resigned, and

(b) has received a benefit under this section or section 38A,

subsequently enters the service of the same or another employer, the former employee is not entitled to claim any further benefit in respect of previous service unless the former employee has complied with section 38C.

38A Withdrawal benefit

(1) In this section—

contributory service, in relation to a contributor who is retrenched, resigns or is dismissed or discharged from the service of an employer, is the next preceding period that—

(a) began—

(i) when the contributor last became a contributor, or

(ii) if, since last becoming a contributor, the contributor had been held to be on leave of absence without pay as provided by section 48—when an employer re-employed the contributor after that leave of absence, and

(b) ended when the contributor's employment with the employer ceased.

prescribed rate means—

(a) in respect of any relevant period ending before 1 July 1972—3.5 per cent per year, and

(b) in respect of any relevant period beginning on or after 1 July 1972—the rate as fixed by STC from time to time, having regard to the earnings of the Fund and such other matters as STC considers relevant.

(c) (Repealed)

(2) If a contributor who has not completed 5 years' contributory service is retrenched, resigns or is dismissed or discharged from the service of an employer, the contributor is, subject to section 38B, entitled to receive from the Fund the amount that would have been payable if the contributor had elected to take the benefit of section 38.

(3) If a contributor who has completed 5 years' but less than 10 years' contributory service is retrenched, resigns or is dismissed or discharged from the service of an employer, the contributor is, subject to section 38B, entitled to receive from the Fund an amount equal to the sum of—

(a) the amount that would have been payable if the contributor had elected to take the benefit of section 38, and

(b) interest—

(i) compounded on 30 June each year in respect of the period beginning with the day on which the contributor first became liable to make contributions under this Act and ending with the day on which the contributor ceased to be employed by that employer, and

(ii) calculated at the prescribed rate on the amount ascertained by applying the formula set out in subsection (5).

(4) If a contributor who has 10 years' contributory service or more is retrenched, resigns or is dismissed or discharged from the service of an employer, the contributor is, subject to section 38B, entitled to receive from the Fund an amount equal to the sum of—

(a) the amount that would have been payable if the contributor had elected to take the benefit of section 38, and

(b) interest—

(i) compounded on 30 June each year in respect of the period beginning with the day on which the contributor first became liable to make contributions under this Act and ending with the day on which the contributor ceased to be employed by that employer, and

(ii) calculated at the prescribed rate on the amount ascertained by applying the formula set out in subsection (5), and

(c) a further amount calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

where—

T represents the sum of the amounts referred to in paragraphs (a) and (b), and

P represents the period of the contributor's contributory service, expressed in years with any fractional part of a year being calculated on a daily basis.

(5) For the purposes of subsections (3) (b) and (4) (b), the formula is as follows—

$$PUU = TU + IU + UC$$

where—

A represents the total amount of contributions (excluding contributions refundable under section 15A (6AB)) that the contributor had paid to the Fund from the beginning

of the contributor's contributory service to the beginning of the period in respect of which the calculation is to be made, together with interest (if any) at the prescribed rate calculated at 30 June immediately preceding that period, and

B represents the total amount of those contributions from the beginning of the contributor's contributory service to the end of the period in respect of which the calculation is to be made, together with interest (if any) at the prescribed rate calculated at 30 June immediately preceding that period.

(5A) Despite subsections (2), (3) and (4), the maximum amount that a contributor is entitled to receive from the Fund under this section is—

(a) in the case of a contributor who has not attained the age of 55 years—the amount calculated by STC as the value of the lump sum that would have been payable to the contributor had he or she retired at 55 years of age and elected under section 21C to commute the whole of the pension to which the person was entitled on retirement at that age, or

(b) in the case of a contributor who has attained the age of 55 years—the amount calculated by STC as the value of the lump sum that would have been payable to the contributor had he or she retired at his or her current age and elected under section 21C to commute the whole of the pension to which the person was entitled on retirement.

(5B) If STC calculates that the maximum amount that a contributor is entitled to receive from the Fund under subsection (5A) is less than the amount the contributor would have been entitled to receive under this section had the amendments made to this section by the *Superannuation Legislation Amendment Act 1998* not been made, then the contributor is entitled to receive the greater amount (despite those amendments).

(6) If STC has made a determination under section 61RA in respect of a benefit payable under this section, the amount of the benefit is reduced by the amount specified in STC's determination.

38B Contributor who is retrenched, resigns or is dismissed or discharged to be entitled to the greatest available benefit

(1) A contributor who is retrenched from the service of an employer and who, at the date when the retrenchment takes effect, is not entitled to elect to retire on a pension under section 27, 28, 28A or 28AA may, at any time before the end of 3 months after that date, elect between taking—

(a) a lump sum benefit payable under a provision of this Part to any such contributor who is retrenched, or

(b) if such a provision also confers an entitlement to a pension—a pension, or

- (c) subject to subsection (7)—the benefit of Division 3A, or
 - (d) if section 37B applies to the contributor—the benefit of that section.
- (2) A contributor who resigns or is dismissed or discharged from the service of an employer may, at any time before the end of 3 months after the date when the resignation, dismissal or discharge takes effect, elect between taking—
- (a) a lump sum benefit payable under a provision of this Part to a contributor who has resigned or is dismissed or discharged, or
 - (b) subject to subsection (7)—the benefit of Division 3A.
- (3) If a contributor is retrenched, resigns or is dismissed or discharged from the service of an employer, the employer must take all practicable steps to obtain from the contributor an election under subsection (1) or (2) and, after obtaining such an election, must forward it immediately to STC.
- (4) If a contributor who is entitled to make an election under subsection (1) or (2) to take a particular kind of benefit does not make such an election before the end of the prescribed period, the contributor shall be taken to have elected to take the kind of benefit that STC decides to be the most appropriate in the circumstances of the case.
- (5) If a contributor elects under this section to take a particular kind of benefit under subsection (1) and would, but for subsection (6), be entitled to a benefit of that kind under 2 or more provisions of this Part, STC must calculate which of the benefits under those provisions would be the greater or greatest.
- (6) A contributor referred to in subsection (5) is entitled to receive only the greater or greatest of the benefits calculated under that subsection.
- (7) A contributor who is retrenched, resigns or is dismissed or discharged from the service of an employer is not entitled to elect under subsection (1) or (2) to take the benefit of Division 3A unless the contributor has completed 3 years' continuous contributory service.
- (8) For the purposes of subsection (7), a contributor to whom that subsection applies shall be taken to have completed 3 years' contributory service when—
- (a) a contributor has, for a continuous period of 3 years or more immediately preceding the retrenchment, been employed in the service of one or more employers, and
 - (b) during the period of 3 years immediately preceding the retrenchment, the contributor has been a contributor under this Act or has been a contributor under this Act and a contributor to the Public Authorities Superannuation Fund.
- (9) For the purposes of subsection (7), the period of continuous contributory service by a

contributor at the contributor's exit day is—

- (a) subject to paragraph (b)—the period that commenced when the contributor last became a contributor to the Fund and ended on that exit day, or
- (b) if immediately before becoming a contributor to the Fund the contributor was a contributor to the Public Authorities Superannuation Fund—the period that commenced when the contributor last became a contributor to the Public Authorities Superannuation Fund and ended on that exit day,

but excluding in either case any part of that period during which the contributor is treated by section 48 as being on leave of absence without pay.

38C Break in service may be cured on certain conditions

- (1) In this section, a reference to the prescribed rate is a reference to the rate of interest for the time being fixed by STC under section 86A for the purposes of this section.
- (2) Where a person who ceases to be employed by an employer (otherwise than by retirement or retrenchment on pension under this Act) enters the service of the same or a different employer within the next succeeding period of three months and, within that same period of three months, would (but for section 1A) be required to contribute to the Fund, the person may, subject to subsection (8), elect to resume payment of the person's contributions as if the person had not ceased to be employed if the person elects within three months after the person would (but for section 1A) be required to contribute to the Fund to comply, and upon the election taking effect does comply, with this section.
- (3) A person referred to in subsection (2) complies with this section if—
 - (a) the person pays to the Fund any lump sum received by the person, or authorises the retention in the Fund of any lump sum payable to the person, under section 37, 37A, 38 or 38A in consequence of the cessation of the person's employment together with, where the person has received any such amount, interest thereon at the prescribed rate from the date the amount was paid to the person to the date of receipt in the office of STC of the amount payable pursuant to this paragraph,
 - (b) the person pays to the Fund the amount referred to in subsection (4), and

- (4) The amount required to be paid under paragraph (b) of subsection (3) by a person who makes an election under this section is an amount equal to the sum of—

- (a) all the contributions that would have been payable—
 - (i) by the person from the day following the day to which the person's contributions were paid before cessation of the person's former employment, and
 - (ii) by the person's employer from the beginning of the four-weekly contribution period in which the person ceased to be employed,had the person continued in the employment of the person's former employer, at the same salary as that which the person was receiving immediately before cessation of the contributions the person was required to make by reason of the person's former employment, until the beginning of the first contribution period in which the person's employment resumes, and
 - (b) interest at the prescribed rate on the amount of each contribution referred to in paragraph (a) from the termination of the four-weekly contribution period in respect of which it is required to be paid to the date of receipt of the contribution in the office of STC.

- (7) Part 3 applies to and in respect of a person who makes an election under this section and does not comply with this section, and so applies as if the person had not made the election.
- (8) Section 10B does not apply to a person who makes an election under this section, unless STC directs that that section shall apply to the person.
- (9) A person who ceases to be an employee and elects under section 38B to take the benefit of Division 3A may not, upon entering the service of an employer within the next succeeding period of 3 months, make an election under this section if, during that period, the person received any benefit under that Division.

- (10) Where a person who is deemed under subsection (11) not to have ceased to be an employee had, upon ceasing to be an employee, elected under section 38B to take the benefit of Division 3A—
- (a) the person shall be deemed not to have elected to take the benefit of Division 3A, and
 - (b) no person has any rights in the Fund in relation to the employee-contributed pension component, or the employer-financed pension component, calculated in relation to the person.

STC shall comply with any such order made on its application or with any such order made on the application of the guardian where the same has been served on it or where written notice thereof has been given to it.
- (3) Where a certificate has been granted under subsection (1) of section 45 of the

Where the defendant named in such certificate is a contributor who has resigned or been dismissed or discharged from the service of an employer and who has not been paid the lump sum referred to in subsection (1) of section 38, or payable under section 38A, STC may pay to the person entitled as aforesaid out of such lump sum the amount specified in the certificate or so much as does not exceed such lump sum or the unpaid balance thereof.

- (3) A reference in subsection (1) to a pension payable to a person includes a reference to the pension that would have been payable to the person had the provisions referred to in the definition of **suspended part of a pension** in section 61B (1) not been enacted.

61E Adjustment of pensions: partial adjustment

- (1) Subject to this Division, where there is an adjustment percentage for a year (in this section referred to as **the particular year**), the pension payable on the adjustment date for that year to a person to whom this section applies is hereby adjusted, on and from that adjustment date, by the percentage calculated in accordance with the formula set out in subsection (3).
- (2) This section applies to—
- (a) a person who last became a pensioner after 1 July in the particular year but on or before 1 April in that year, other than a person referred to in paragraph (c),
 - (b) a person who is the spouse or de facto partner of a pensioner, where that pensioner last became a pensioner after 1 July in the particular year but on or before 1 April in that year and died before the adjustment date for that year, and
 - (c) a person who is the spouse or de facto partner of a contributor, being a contributor who died, after 1 July in the particular year but before the adjustment date for that year, within five years of having again become a contributor following a retirement under section 22 after 1 July in that year but on or before 1 April in that year,

but does not apply to a person to whom section 61D applies.

- (3) The formula referred to in subsection (1) is—

$$PUU = TU + IU + UC$$

where—

A is the percentage by which the pension is to be adjusted,

P is the adjustment percentage for the particular year, and

Q is the number of whole quarters of the particular year, being the whole quarters after, and (if applicable) the whole quarter on the first day of which—

- (a) in the case of a person referred to in subsection (2) (a)—the person last became a pensioner,
- (b) in the case of a person referred to in subsection (2) (b)—the person's late pensioner spouse or de facto partner last became a pensioner, or
- (c) in the case of a person referred to in subsection (2) (c)—
 - (i) where the person's late spouse or de facto partner had been retired under section 22 once only—the person's late spouse or de facto partner was so retired, or
 - (ii) where the person's late spouse or de facto partner had been so retired more than once—the person's late spouse or de facto partner was last so retired, disregarding any retirement of the person's late spouse or de facto partner to which section 51 (2) (b) applied.

61F Application of secs 61D and 61E to breakdown pensions and suspended pensions

- (1) In determining when a pensioner last became a pensioner for the purposes of section 61D or 61E, regard shall not be had to any retirement to which section 51 (2) (b) applied.
- (2) Section 61D or 61E, as the case may require, applies to and in respect of a suspended pension in the same way as it applies to and in respect of a pension referred to therein, and so applies as if—
 - (a) the marriage by reason of which the pension is a suspended pension had not taken place,
 - (b) section 50 had not been enacted, or
 - (c) section 94 had not been enacted,

as the case may require, but nothing in this subsection operates so as to authorise or require the payment at any time of that suspended pension or any part thereof.

61G Certain increases under [Superannuation \(Amendment\) Act 1970](#)

Superannuation (Amendment) Act 1974.

- (2) Without affecting the operation of subsection (1), Part 2 of the *Superannuation (Amendment) Act 1974* does not apply to an increase in pension referred to in subsection (1).

Division 7A Circumstances in which benefits may be reduced

61RA Power of STC to reduce pensions and other benefits to offset certain tax liabilities

(1) Whenever—

- (a) a right to a benefit under this Act accrues to or in respect of a contributor or former contributor, and
 - (b) STC has paid or is liable to pay income tax under a Commonwealth taxation law in respect of employers' contributions to the Fund, and
 - (c) a portion of that tax is referable to the employer-financed portion of that benefit,
- STC must, subject to subsection (2)—
- (d) calculate the amount necessary to offset STC's liability to pay tax so far as it is referable to the employer-financed portion of that benefit, and
 - (e) accordingly make a determination reducing the benefit by the amount so assessed.

(1A) Whenever—

- (a) a right to a benefit under this Act accrues to or in respect of a contributor or former contributor, and
- (b) STC has paid or is liable to pay an amount of superannuation contributions surcharge in respect of the employer contributions paid or payable to the Fund, or in respect of contributions made under the *State Authorities Non-contributory Superannuation Act 1987*, on behalf of the contributor or former contributor,

STC must determine in writing the surcharge deduction amount that, in the opinion of STC, it would be fair and reasonable to take into account in working out the amount of the benefit and must make a determination reducing the benefit accordingly.

(1B) In determining the surcharge deduction amount in respect of a benefit payable to a contributor or former contributor, STC may have regard to any or all of the following matters—

- (a) the amount of superannuation contributions surcharge payable or paid by STC in respect of the contributor or former contributor,
- (b) the amount by which the contributor's or former contributor's surcharge debt account is in debit when the benefit emerges or commences to be paid,
- (c) the value of the employer-financed portion of the benefit,
- (d) the value of the benefits that, for the purpose of working out (under the *Superannuation Contributions Tax (Assessment and Collection) Act 1997* of the Commonwealth) the notional surchargeable contribution factors applicable to the

contributor or former contributor, were assumed to be likely to be payable to the person on his or her ceasing to be an employee,

- (e) whether the contributor or former contributor has qualified for a benefit that includes an employer-financed component,
- (f) the amount of any payments under section 91B,
- (g) any other matter STC considers relevant.

(1C) The surcharge deduction amount determined by STC must not exceed—

- (a) an amount that is 15% of the employer-financed portion of that part of the benefit payable to the contributor or former contributor that accrued after 20 August 1996, or
- (b) such other amount of the employer-financed portion of a benefit as is prescribed by the regulations in relation to the period when the benefit payable to the contributor or former contributor accrued.

(1D) For the purpose of determining the surcharge deduction amount, STC may obtain actuarial advice or advice from any other persons, as STC thinks fit.

(1E) The balance of any additional amount payable by STC for superannuation contributions surcharge in respect of a contributor or former contributor, after payment of the balance of the relevant surcharge debt account, is to be paid by STC from the Fund under section 4 (4) and debited to the appropriate employer reserve.

(2) Subsection (1) does not authorise the reduction of a benefit under this Act, unless—

- (a) the benefit is of a kind to which section 61RD applies, and
- (b) the method of calculating the reduction is set out in section 61RD, and
- (c) the reduction is calculated according to that method.

(3) Subsection (1A) does not authorise the reduction of a benefit as a result of a liability for superannuation contributions surcharge unless the benefit is of a kind to which section 61RD applies.

(3A) If STC determines a surcharge deduction amount in respect of a contributor or former contributor under this section, STC may, on the application of the contributor or former contributor, apply the benefit that accrues to or in respect of the contributor or former contributor under the [State Authorities Non-contributory Superannuation Act 1987](#) toward payment of the surcharge deduction amount, and make a determination reducing the benefit payable under that Act accordingly. In such a case, STC may make a determination reducing the benefit payable under this Act to the extent necessary (if any) to pay the balance of the surcharge deduction amount.

(4) In this section—

surcharge debt account, in relation to a contributor or former contributor, means the surcharge debt account kept for the contributor or former contributor (while an employee) under section 16 of the *Superannuation Contributions Tax (Assessment and Collection) Act 1997* of the Commonwealth.

(5) Despite subsection (1A), the benefit of a former contributor who has commenced to be paid that benefit may be adjusted by STC in accordance with the regulations if the former contributor receives (before, on or after the commencement of this subsection) notice of an assessment of superannuation contributions surcharge under the *Superannuation Contributions Tax (Assessment and Collection) Act 1997* of the Commonwealth in respect of the employer contributions paid to the Fund on behalf of the former contributor.

(6) The regulations may make provision for or with respect to the following—

- (a) the circumstances in which STC may or may not pay superannuation contributions surcharge on behalf of a former contributor,
- (b) adjusting the amounts of benefits or paying amounts in relation to a surcharge deduction amount or an assessment of superannuation contributions surcharge received by a former contributor before, on or after the commencement of this subsection.

(7) Without limiting subsection (6), the regulations may make provision for the payment by STC of an amount of additional surcharge payable by a former contributor above the amount determined under subsection (1C).

61RAA Restoration of death benefit previously reduced to offset contribution tax liabilities

- (1) STC may, for the purposes of obtaining a deduction from assessable income under section 295-485 of the *Income Tax Assessment Act 1997* of the Commonwealth, increase a lump sum benefit under this Act payable or paid on the death of a contributor or former contributor that has been previously reduced under section 61RA.
- (2) The amount of the increase is to be the amount determined by STC, after obtaining actuarial advice, as the amount of increase required to obtain the deduction referred to in subsection (1).
- (3) (Repealed)

61RB Power of STC to adjust benefits to comply with certain Commonwealth standards relating to superannuation

- (1) (Repealed)

(2) If—

- (a) a contributor or former contributor becomes entitled to receive a pension under this Act, other than a specified invalidity pension, and
- (b) payment of the pension to the contributor or former contributor would, but for this subsection, not be consistent with relevant Commonwealth superannuation standards,

the contributor or former contributor may elect, before the pension starts to be paid, to receive the pension—

- (c) in a form that complies with those standards, or
 - (d) in a form that is in accordance with this Act (apart from this section).
- (3) Even after such a pension has started to be paid in a form that is not consistent with relevant Commonwealth superannuation standards, the contributor or former contributor concerned is entitled to make an election or a further election to receive payment of the pension in a form that is consistent with relevant Commonwealth superannuation standards.
- (4) An election made and notified to STC in accordance with this section is sufficient authority for STC to pay a pension in accordance with the election of the contributor or former contributor concerned.
- (5) An election under this section to receive a pension in a form that is consistent with relevant Commonwealth superannuation standards is irrevocable.
- (6) A contributor or former contributor who does not notify STC of the election of the contributor or former contributor under this section before the pension concerned starts to be paid is, subject to subsection (3), to be regarded as having elected to receive payment of that pension in the form provided by this Act (apart from this section).
- (7) If a contributor or former contributor makes an election under this section to receive a pension in a form that is consistent with relevant Commonwealth superannuation standards, STC must ensure that the pension is varied only to the extent necessary to comply with those standards.
- (8) An election under this section to receive a pension in a form that is consistent with relevant Commonwealth superannuation standards is binding not only on the contributor or former contributor who made the election but also on any person claiming a benefit under this Act through that contributor or former contributor.
- (9) If an election is made under this section to receive a pension in a form that is consistent with relevant Commonwealth superannuation standards, the pension is

payable in that form despite any other provision of this Act to the contrary.

(10) In this section—

- (a) a reference to a benefit or pension is a reference to the benefit or pension after reducing it in accordance with section 61RA or 61RC where appropriate, and
- (b) a reference to a superannuation scheme is a reference to a scheme, fund or arrangement (whether or not established by or under an Act) under or from which any superannuation or retirement benefits are provided, and
- (c) **specified invalidity pension** means a pension under section 29 other than a pension in respect of which the period for payment has been determined, in accordance with section 29 (4A) (b) or (5), to be for the remainder of the relevant person's life.

61RC Power of STC to reduce benefits for no-TFN tax

(1) This section applies to a benefit if—

- (a) a right to the benefit accrues under this Act to or in respect of a contributor or former contributor, and
- (b) STC has paid or is liable to pay no-TFN tax in respect of employer contributions to the Fund, and
- (c) a portion of that tax is referable to the employer-financed portion of that benefit, and
- (d) the benefit is of a kind prescribed by the regulations for the purposes of this section.

(2) The amount of the benefit is reduced by the amount necessary to offset STC's liability to pay no-TFN tax so far as it is referable to the employer-financed portion of that benefit.

(3) The amount of the reduced benefit is to be determined by STC after obtaining actuarial advice.

(4) A contributor or former contributor may elect to have his or her SANCS benefit reduced instead of the benefit to which this section applies if the SANCS benefit is payable to the contributor or former contributor. On an election being made, the SANCS benefit is reduced accordingly and the benefit to which this section applies is reduced only if it is necessary to do so to meet any shortfall in the amount of offset.

(5) The regulations may provide for the establishment of debt accounts in respect of contributors or former contributors for the purposes of this section.

(6) In this section—

employer contribution includes a salary sacrifice contribution.

employer-financed portion of a benefit includes any part of the benefit financed by a salary sacrifice contribution.

no-TFN tax means an amount equal to the difference between the amount of—

- (a) income tax payable by STC under the [Income Tax Assessment Act 1997](#) of the Commonwealth on employer contributions to the Fund for a contributor if there is a failure by the contributor to provide information about his or her tax file number to STC, and
- (b) income tax that would be so payable if the information about the tax file number was provided.

SANCS benefit means a benefit that accrues to or in respect of a contributor or former contributor who is an employee or former employee under the [State Authorities Non-contributory Superannuation Act 1987](#).

61RD Reduction of benefit

- (1) This section applies to the benefits provided under the following provisions—
 - (a) section 27 (Amount of pension payable on retirement),
 - (b) section 28A (Pension on retirement before reaching 60 years of age),

 - (d) section 29 (Breakdown pensions),
 - (e) section 30 (Pensions to spouse or de facto partner on death of contributor),

 - (i) section 47D (Benefits payable in respect of reduced value units),
 - (j) Division 3A of Part 4 (Preserved benefits),
 - (k) Part 3B (Conversion of existing entitlements).
- (2) For the purposes of section 61RA, the reduction in a benefit to which this section applies (other than a benefit under section 38A or 47D) is the amount calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

- (3) For the purposes of section 61RA, the reduction in a benefit under section 38A (other than a benefit arising as a result of the death of a person) is the amount calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

- (4) For the purposes of section 61RA, the reduction in a benefit under section 47D is the amount calculated in accordance with the following formula—

$$PUU = TU + IU + UC$$

- (5) In this section—

R represents the amount of the reduction.

M is calculated in accordance with subsection (6) and represents the amount of the pension or lump sum being reduced.

A represents the portion of the benefit payable from the appropriate employer's reserve in accordance with section 33B (2) (b).

B represents the relevant amount in respect of the benefit determined in accordance with section 33B (3).

Q represents the sum of such number of terms as is determined in accordance with the formula prescribed by subsection (7) to reflect the number of times the rate of tax has changed.

T represents the total amount of benefit derived under section 47D.

- (6) In subsection (5), the symbol "M" represents—

- (a) in the case of a benefit arising under section 27, 28A, 28AA or 29—the benefit that would be payable under that section, but for section 61RA and this section, or
- (b) in the case of a benefit arising under section 30 in respect of a contributor who dies before reaching the age of 60 in the case of a man, or the maturity age in the case of a woman—two-thirds of the pension that, but for section 61RA and this section, would have been payable to the contributor under section 29 if the contributor had been retired immediately before death, or
- (c) in the case of a benefit arising under section 30 in respect of a contributor who dies on or after reaching the age of 60 in the case of a man, or the maturity age in the case of a woman—two-thirds of the pension that, but for section 61RA and this

section, would have been payable under section 27 if the contributor had retired, or had been retired, immediately before death, or

(7) For the purposes of the symbol “Q” in subsection (5), the formula prescribed by this subsection is—

$$PUU = TU + IU + UC$$

where—

C represents the number of days of continuous contributory service that the person in respect of whom the pension is payable has had with one or more employers in each period during which the rate of tax payable on employer contributions is L.

D represents—

- (a) in the case of benefits arising under section 29 or 30—the number of days of continuous contributory service that the person in respect of whom the pension is payable has had with one or more employers during the period beginning with the date when the person last became a contributor and ending with the later of the exit date and the date on which the person would have been eligible to retire under section 21 (1) if the person’s employment had continued to that date, or
- (b) in all other cases—the number of days of continuous contributory service that the person in respect of whom the pension is payable has had with one or more employers during the period beginning with the date on which the person last became a contributor and ending with the person’s exit day.

L represents the rate of tax payable on employer contributions set out in the relevant Commonwealth taxation law or such lesser rate as may be determined by STC having regard to the most recent actuarial valuation of the scheme.

- (8) For the purposes of the symbols “C” and “D” in subsection (7), the period of a person’s continuous contributory service does not include any period during which the person is treated by section 48 (Breakdown pensioner held to be on leave) as being on leave without pay.
- (9) For the purposes of sections 31 and 52F, the benefit that emerges upon the death of the member is not to be reduced as it would already have been reduced in accordance with section 61RA when the member retired or when the benefit was preserved.

61RE Commutation of pensions for adjustment of benefits

- (1) If a benefit that may be taken in the form of a pension is reduced under section 61RA or 61RC, STC may, at its discretion and with the consent of the contributor or former contributor concerned, commute part of the pension to a lump sum for the purposes of payment to STC of the amount of the reduction.
- (2) Commutation of part of a pension under this section—
 - (a) does not affect any other right that the contributor or former contributor has to commute the pension under this Act, and
 - (b) is not to be taken into account for the purpose of determining whether, and to what extent, any such other right may be exercised, and
 - (c) is to be done on a basis determined by STC for the purposes of this section.
- (3) STC may obtain actuarial advice for the purpose of determining the basis on which part of a pension is to be commuted under this section.
- (4) This section has effect despite any other provision of this Act.

- (2) STC may release the benefit only if STC is satisfied that the circumstances are such that a benefit would be payable on the grounds of severe financial hardship if the contributor or former contributor were a member of a regulated superannuation fund within the meaning of the *Superannuation Industry (Supervision) Act 1993* of the Commonwealth.

extent that the payment or reduction is required to be made, or results from a requirement, under the family law superannuation legislation or any order or agreement made under that legislation.

61WB Payment splits

- (1) The object of this section is to facilitate arrangements for payment splits under the family law superannuation legislation and to provide for family law superannuation payments to or in respect of non-contributor spouses for the purposes of satisfying the requirements of Division 2.2 of Part 2 of the *Family Law (Superannuation) Regulations 2001* of the Commonwealth.

Note—

The effect of satisfying those requirements is that payments to the contributor spouse of a benefit under this Act will no longer be liable to be split for the purposes of the family law superannuation legislation.

- (2) A non-contributor spouse has a family law superannuation entitlement to which this section applies if—

- (7) STC must not pay a family law superannuation payment to or in respect of a non-contributor spouse under this section if the value of the payment that is or would be payable to or in respect of the non-contributor spouse at that time (taking into account any prior liability to pay a family law superannuation payment) is greater than the value of the contributor spouse's superannuation interest (as calculated in accordance with the regulations) at that time.

61WC Reduction of benefits of contributor spouses

- (1) STC may reduce the amount of any benefit payable under this Act to or in respect of a contributor spouse (or a spouse or de facto partner of a contributor spouse) if a family law superannuation entitlement is paid or payable to or in respect of the non-contributor spouse under the family law superannuation legislation or this Part or the regulations.

(2) Where the contributor referred to in subsection (1) retires during the suspension

period and could have made but did not make the election which the contributor was entitled to make under subsection (1), and the contributor dies within one month after the date of the contributor's retirement, the contributor's widow may, within one month after the date of the contributor's death, elect to take up one or more of the number of the abandoned units.

- (3) Where a former contributor or a contributor's or former contributor's widow makes an election to take up any abandoned units under subsection (1) or (2), the contributor shall, for the purposes of this Act, be deemed to have been contributing for those units as from the only date, or the later or latest of the dates, as from which the contributor could have contributed for them had this Part not been enacted.
- (4) The amount by which a pension is increased by virtue of subsection (3) is not payable unless, before the expiration of one month, or such further period as STC may in special circumstances allow, after the pension becomes payable—

- (5) Where payment is made, or arrangements are made, under subsection (4) in respect of any unit, the former employer of a contributor or former contributor referred to in subsection (1) or (2) shall pay to STC an amount equal to the amount that would have been payable to STC as employer's contributions in respect of the unit had this Part not been enacted.

101 Reduction of salary

- (a) immediately before the commencement of the suspension period, or

- whichever is the later.

Part 9 Provisions applicable in respect of foreign contributors

104 Definitions

(1) In this Part—

conversion ratio, in relation to a foreign currency, means—

- (a) in the case of sterling—the ratio of 1 pound sterling to 2 Australian dollars, or
- (b) in the case of Japanese currency—the ratio of 400 Japanese yen to 1 Australian dollar.

foreign contributor means a contributor who—

- (a) was recruited in a country other than Australia and is employed in such a country, and
- (b) is paid a salary at a rate expressed in a currency other than Australian currency.

foreign currency in relation to a foreign contributor means the currency in which the foreign contributor's rate of salary is expressed.

(2) A reference in this Part—

- (a) to a foreign contributor shall be construed as including a reference to a former foreign contributor, and
- (b) to an employer of a foreign contributor shall be construed as including a reference to the person who was the employer of the former foreign contributor.

105 Certain calculations to be made by means of a conversion ratio

Where—

- (a) an amount expressed in a foreign currency is required for the purposes of this Act to be expressed in Australian currency—that amount expressed in Australian currency, or
- (b) an amount expressed in Australian currency is required for the purposes of this Act to be expressed in a foreign currency—that amount expressed in the foreign currency,

shall be calculated by means of the conversion ratio in relation to that foreign currency.

106 Certain amounts to be expressed in foreign currency

- (1) This section shall not apply in respect of a foreign contributor unless a conversion ratio applies in relation to the currency of the country in which the foreign contributor is employed.
- (2) For the purpose of determining the number of units of pension that, pursuant to section 12 (1), is appropriate for the salary actually being paid to a foreign contributor,

the amount of the salary shall be expressed in Australian currency in accordance with section 105.

- (3) Any amount payable under this Act by or to a foreign contributor shall be expressed in foreign currency in accordance with section 105.

107 Employer to pay to or receive from the Fund any difference between actual amount paid under this Part and amount otherwise payable

(1) Where—

- (a) an amount that, but for section 106 (3), would be payable under this Act by a foreign contributor is greater than the amount that is paid by the foreign contributor, or
- (b) an amount that, but for section 106 (3), would be payable under this Act to a foreign contributor is less than the amount that is paid to the foreign contributor,

the employer of the foreign contributor shall pay to the Fund an amount equal to the difference between the amount that, but for section 106 (3), would be payable and the amount that is paid.

(2) Where—

- (a) an amount that, but for section 106 (3), would be payable under this Act by a foreign contributor is less than the amount that is paid by the foreign contributor, or
- (b) an amount that, but for section 106 (3), would be payable under this Act to a foreign contributor is greater than the amount that is paid to the foreign contributor,

STC shall pay from the Fund to the employer of the foreign contributor an amount equal to the difference between the amount that, but for section 106 (3), would be payable and the amount that is paid.

108 Payments to be made as if conversion ratio always applied

Where a conversion ratio applies to the currency of a country in which, immediately before the conversion ratio first applied to that currency, there was employed a foreign contributor to whom section 106 did not apply—

- (a) STC may pay to the foreign contributor such amount or make such allowance in respect of future contributions payable by the contributor,
- (b) the employer shall pay to the Fund such amount, and
- (c) the foreign contributor shall pay to the Fund such amount,

as in the opinion of STC would place the Fund, the foreign contributor and the employer of the foreign contributor in the financial position in which they would have been if the conversion ratio had always applied.

- (2) Where a contributor to the Public Authorities Superannuation Fund (being a person entitled to make an election under this Schedule) does not become a contributor to the Fund in accordance with such an election, section 12 (7) of the [State Public Service Superannuation Act 1985](#) applies to the contributor.

If—

Any person who was entitled to receive a pension or other benefit before 1 July 1988 by virtue of, or partly by virtue of, a provision of an Act (including this Act) repealed or amended by the *Superannuation (Amendment) Act 1988* continues to be entitled to receive that pension or benefit as if the lastmentioned Act had not been enacted.

- (2) Any such provision may, if the regulations so provide, take effect from and including 1 July 1988 or a later day.
- (3) To the extent to which any such provision takes effect from a date that is earlier than the date of its publication in the Gazette, the provision does not operate so as—
 - (a) to affect, in a manner prejudicial to any person (other than the State or an authority of the State), the rights of that person existing before the date of its publication, or
 - (b) to impose liabilities on any person (other than the State or an authority of the State) in respect of anything done or omitted to be done before the date of its publication.

Schedule 24 Loading in respect of shift allowance

(Section 3A)

1 Definitions

In this Schedule—

agreement means an industrial agreement in force under the *Industrial Arbitration Act 1940* as in force immediately before 18 December 1987.

award means an award in force under the *Industrial Arbitration Act 1940* as in force immediately before 18 December 1987.

base salary, in relation to a contributor, means the remuneration, salary or wages payable to the contributor under an award or agreement after excluding all allowances.

industrial organisation means—

- (a) an industrial union of employees registered under the *Industrial Arbitration Act 1940* as in force immediately before 18 December 1987, or
- (b) an organisation of employees registered under the *Conciliation and Arbitration Act 1904* of the Commonwealth as in force immediately before 18 December 1987.

relevant period, in relation to a contributor, means the period of 12 months ending on 31 December preceding the date on which the salary of the contributor is to be calculated for the purposes of section 3A.

2 Determination of loading

(1) For the purposes of section 3A (1) (a), the loading (if any) to be treated as part of a contributor's salary is determined by reference to whichever of the provisions of subclause (2), (3) or (4) is applicable to the contributor.

(2) If—

- (a) there is in force an agreement between, or a practice accepted by, an industrial organisation and the employer of a contributor which was in force immediately before 18 December 1987, and
- (b) the effect of the agreement or practice is that an amount in respect of any shift allowance paid to the contributor by the employer for shifts worked by the contributor during a relevant period is to be treated as a loading for superannuation purposes, and
- (c) that amount is greater than that which would be determined for that period in respect of the contributor under subclause (3),

then the amount referred to in paragraph (b) is, for the purposes of section 3A (1) (a),

the loading for the contributor in respect of that shift allowance.

- (3) Unless subclause (2) or (4) applies, if a contributor is paid a shift allowance for shifts worked by the contributor during a relevant period, the loading for the contributor in respect of that shift allowance is to be determined by reference to the number of shifts the contributor is taken to have worked (as calculated in accordance with subclause (5)) during the relevant period. The loading is—
- (a) nil, if during the relevant period the contributor is taken not to have worked more than 104 shifts, or
 - (b) an amount equal to 10 per cent of the contributor's base salary for the relevant period, if during that period the contributor is taken to have worked more than 104 shifts but not more than 156 shifts, or
 - (c) an amount equal to 15 per cent of the contributor's base salary for the relevant period, if during that period the contributor is taken to have worked more than 156 shifts but not more than 208 shifts, or
 - (d) an amount equal to 20 per cent of the contributor's base salary for the relevant period, if during that period the contributor is taken to have worked more than 208 shifts.
- (4) If the amount actually paid or payable to a contributor as a shift allowance in respect of shifts worked by the contributor during a relevant period is less than the amount of loading for that period determined in respect of the contributor in accordance with subclause (3), the amount so paid is, for the purposes of section 3A (1) (a), the loading for the contributor in respect of that shift allowance.
- (5) For the purposes of subclause (3), the number of shifts a contributor is taken to have worked during a relevant period, being shifts for which a shift allowance is paid, is the number calculated as follows—

$$PUU = TU + IU + UC$$

where—

N is the number of such shifts the contributor is taken to have worked during the relevant period.

H is the number of hours per shift regularly required to be worked in such shifts during the relevant period.

H₀ is the smallest number of hours per shift regularly required to be worked (whether by the contributor or any comparable worker) in such shifts during any calendar year after 1987, including the relevant period.

S is the sum of—

- (a) the number of such shifts the contributor actually worked during the relevant period, and
- (b) the number of such shifts the contributor would have actually worked during the relevant period but for the contributor being on leave, being leave for which a shift allowance or an equivalent allowance or loading (including that part of annualised salary that replaces shift allowance in respect of the contributor) is paid.

7 Authorised leave

A person who commenced a period of authorised leave before the commencement of section 12D (as inserted by the *Superannuation Legislation Further Amendment Act 1997*) is entitled to the benefit of that section if the person was still on leave immediately before the commencement of that section.

8 Definitions

In this Part—

amending Act means the *Disability Discrimination Legislation Amendment Act 1998*.

appointed day means the day on which Schedule 1.7 to the amending Act commences.

9 Amendments to section 21D—no application to persons of or over 60 years of age

The amendments made to section 21D by the amending Act do not apply in respect of any person who attains the age of 60 years on or before the appointed day.

10 Amendments to section 21D—application to certain persons between 55 and 60 years of age

(1) This clause applies in respect of a person who—

(a) is entitled to a pension payable under section 29, and

(b) has a maturity age of 55 years, and

(c) on the appointed day, has not attained the age of 60 years but has attained the age of 55 years.

(2) Section 21D, as amended by the amending Act, applies in respect of such a person as if the person had attained the maturity age of 55 years on the appointed day. For example, section 21D (1) (b), as amended by the amending Act, applies so that such a person may make an election under section 21C relating to a pension payable under section 29 at any time within the period of 6 months after the appointed day.

(3) Accordingly, the reference in section 21D (3) to the time prescribed by section 21D (1) and (2) is a reference to the time prescribed by those subsections, as modified by this clause.

Part 6 Superannuation Legislation Amendment Act 1998

11 Definitions

In this Part—

amending Act means the *Superannuation Legislation Amendment Act 1998*.

eligible pensioner means a person who is in receipt of a pension under this Act and who, on the repeal of section 21A by the amending Act—

(a) has not attained the age of 60 years and 6 months, and

- (b) has not made an election to commute any part of that pension under section 21A or whose election to commute under that section has not taken effect.

12 Amendments do not confer new commutation rights on persons who are not eligible pensioners

- (1) Section 21C (1), as substituted by the amending Act, does not apply to or in respect of any pension to which a person became entitled under this Act before 1 July 1985 if the person who is in receipt of that pension is not an eligible pensioner and, accordingly, section 21C does not confer on such a person an entitlement to commute the whole or part of that pension.
- (2) The repeal of section 21A by the amending Act does not affect any election made by a person (not being an eligible pensioner) under section 21A before that repeal, and this Act continues to apply in respect of such an election as if it had not been amended by the amending Act.
- (3) This clause is subject to clause 13.

13 Commutation of mandatory residual pension under section 21C

- (1) If a person who became entitled to a pension under this Act before 1 July 1985 elected to commute the whole of his or her pension (other than the mandatory residual pension) in accordance with this Act, before the repeal of section 21A by the amending Act—
 - (a) section 21C, as amended by that Act, extends to that mandatory residual pension, and
 - (b) the person may make one election under section 21C in respect of that mandatory residual pension within the period of 6 months after the commencement of this clause (despite section 21D).
- (2) STC may, subject to such terms and conditions as it may impose, accept an election that is made after that period of 6 months and deal with it as if that time had been indefinitely extended if—
 - (a) it is proved to the satisfaction of STC that an election was not made because—
 - (i) the person entitled to make the election did not know of the person's right to make the election, or
 - (ii) circumstances substantially beyond the person's control prevented the person's making an election, and
 - (b) STC is satisfied that in the circumstances of the case it is desirable that the election should be accepted.
- (3) This clause does not authorise the commutation of a pension payable in respect of

children.

(4) In this clause—

mandatory residual pension means any amount of pension per fortnight that a person was not entitled to commute under section 21A (1), (1A), (1B) or (1C), as in force immediately before the repeal of those provisions by the amending Act.

14 Saving of commutation entitlements of eligible pensioners

- (1) Section 21C (1), as substituted by the amending Act, applies to or in respect of a pension to which a person became entitled under this Act before 1 July 1985 if the person who is in receipt of that pension is an eligible pensioner.
- (2) Accordingly, an eligible pensioner may commute the whole or part of that pension in accordance with sections 21C and 21D.
- (3) If an eligible pensioner attained the section 21C commutation age before the commencement of this clause—
 - (a) the eligible pensioner is taken, for the purposes of section 21D (1) and (2), to have attained the section 21C commutation age on the commencement of this clause, and
 - (b) the reference in section 21D (3) to the time prescribed is taken to be a reference to the time prescribed by that section as modified by this clause.
- (4) If an eligible pensioner made an election to commute any part of his or her pension under section 21A before the repeal of that section by the amending Act (being an election that has not taken effect)—
 - (a) that election is to be treated as an election under section 21C, and
 - (b) the eligible pensioner may, without the approval of STC being necessary, make a further election under section 21C in accordance with section 21D (as modified by subclause (3), if applicable).
- (5) In this clause, the ***section 21C commutation age*** means—
 - (a) in the case of a person who is in receipt of a pension payable under section 29, the maturity age, or
 - (b) in any other case, 55 years.

15 References to amounts commuted under repealed provisions

- (1) The reference in section 21C (18) to the spouse of a person who dies, having commuted the whole or part of any pension payable to the person pursuant to section 21C, extends to the spouse of a person who dies on or after the commencement of

this clause, having commuted the whole or any part of any pension payable to the person pursuant to section 21A or 21B (before the repeal of those sections by the amending Act or in accordance with an election referred to in clause 12 (2)).

- (2) A reference in section 32C or 61B to any lump sum paid, or any pension that has been commuted, under section 21C extends to any lump sum paid, or pension that has been commuted, under section 21A or 21B (before the repeal of those sections by the amending Act or in accordance with an election referred to in clause 12 (2)).

16 Changes to method of calculation

- (1) The amendment made to section 37A by the amending Act does not apply to the calculation of a benefit payable to a contributor who became entitled to the benefit before the commencement of that amendment. Section 37A, as in force immediately before the commencement of that amendment, continues to apply in respect of such a calculation.
- (2) The amendments made to section 38A by the amending Act do not apply to the calculation of any amount payable to a contributor who became entitled to the amount before the commencement of the amendments. Section 38A, as in force immediately before the commencement of those amendments, continues to apply in respect of such a calculation.

18 Existing part-time contributors

- (1) Sections 3 (1), 3AA, 10WC, 12B and 12C, as in force immediately before their amendment by the amending Act, and any treatment or practices by STC under those provisions applying at the time to a contributor, continue to apply to a contributor on part-time leave without pay immediately before the commencement of this clause as if those amendments had not been made.
- (2) A contributor referred to in subclause (1) may elect to have sections 3 (1), 3AA, 10WC, 12B and 12C, as amended by the amending Act, apply to the contributor.
- (3) Subclause (1) does not apply to a contributor if—
 - (a) an election by the contributor under subclause (2) takes effect, or

- (b) a period of part-time leave without pay approved in respect of a contributor as at the commencement of this clause ends, whether or not a further period of part-time leave, continuous with the period that ends, is approved.

19 Amendments to section 21D—no application to persons of or over the age of 60 years.

The amendments made to section 21D by the amending Act do not apply in respect of any person who is entitled to a pension payable under section 29 and who attains the age of 60 years on or before the appointed day.

20 Amendments to section 21D—application to certain persons between 55 and 60 years of age

 - (a) is entitled to a pension payable under section 29 of the Act, and
 - (b) has attained the age of 55 years but has not yet attained the age of 60 years.
- (2) Section 21D, as amended by the amending Act, applies in respect of such a person as if the person had attained the age of 55 years on the appointed day. Accordingly—
 - (a) the person may make an election under section 21C, or under section 23BA (if applicable to the person), at any time within the period of 6 months after the appointed day, and
 - (b) the reference in section 21D (3) to the time prescribed by section 21D (1) and (2) is a reference to the time prescribed by those subsections, as modified by this clause.

25 Existing part-time contributors

- (1) A contributor who, at any time during the period from 1 April 1999 to the date of assent to the amending Act, was a full-time employee on part-time leave without pay may, in respect of any period during which a deduction factor was applied, or applicable, under section 12C because of that leave, apply to STC to have the person's contributions and entitlements in respect of that period adjusted, or treated, as if the person were a part-time employee.
- (2) On an election being made, STC must adjust or treat the contributions and entitlements accordingly and may, for that purpose, make any appropriate arrangements with the contributor.
