Kiama Local Environmental Plan 2011

Part 1 Preliminary

1.1 Name of Plan

This Plan is *Kiama Local Environmental Plan 2011*.

1.1AA Commencement

This Plan commences on the day on which it is published on the NSW legislation website.

1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Kiama in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.
- (2) The particular aims of this Plan are as follows—
 - (aa) to protect and promote the use and development of land for arts and cultural activity, including music and other performance arts,
 - (a) to provide planning controls for the Kiama area to achieve ecologically sustainable development principles while recognising the economic, environmental and social impacts and risks associated with climate change,
 - (b) to maintain, protect and improve the natural environment including native vegetation, endangered ecological communities, natural habitat corridors, riparian land, groundwater dependent ecosystems and wetlands for their biodiversity values,
 - (c) to conserve and protect the area's water resources, groundwater, waterways, and water quality for their biodiversity, ecological, health and recreational values,
 - (d) to protect agricultural land and restrict its fragmentation for purposes other than primary production,
 - (e) to protect and enhance the coastal and rural character of Kiama's rural towns, neighbourhoods and villages, and the characteristic scenic landscapes that

contribute to its liveability and identity,

- (f) to consolidate future population growth and medium density housing primarily in locations near shops and public transport,
- (g) to cater for housing choice including affordable rental housing, affordable housing for first home buyers and housing for the aged and disabled and independent seniors,
- (h) to protect and maintain land used or to be used for employment in rural and urban areas,
- (i) to promote and co-ordinate the orderly and economic use and development of land,
- (j) to maintain, protect and enhance environmentally sensitive land for its biodiversity and ecological values,
- (k) to protect Kiama's cultural heritage.

1.3 Land to which Plan applies

(1) This Plan applies to the land identified on the [Land Application Map](#).

(1A) Despite subclause (1), this Plan does not apply to the land identified as "Deferred matter" on the [Land Application Map](#).

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—
 - (a) approved by the local plan-making authority when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.

(1AA) (Repealed)

- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note—

The maps adopted by this Plan are to be made available on the NSW Planning Portal. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.
- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

Note—

However, the following local environmental plans continue to apply to the land identified as “Deferred matter” under clause 1.3(1A)—

Kiama Local Environmental Plan 1996

1.8A Savings provision relating to development applications

- (1) If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

- (2) If a development application has been made before the commencement of *Kiama Local Environmental Plan 2011 (Amendment No 16)* in relation to land to which that

Plan applies and the application has not been finally determined before that commencement, the application must be determined as if that Plan had not commenced.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or
 - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows—

Rural Zones

RU1 Primary Production

RU2 Rural Landscape

Residential Zones

R2 Low Density Residential

R3 Medium Density Residential

R5 Large Lot Residential

Employment Zones

E1 Local Centre

E3 Productivity Support

E4 General Industrial

Special Purpose Zones

SP2 Infrastructure

Recreation Zones

RE1 Public Recreation

RE2 Private Recreation

Conservation Zones

C1 National Parks and Nature Reserves

C2 Environmental Conservation

C3 Environmental Management

Waterway Zones

W4 Working Waterfront

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
 - (a) a constructed canal, or other waterway or waterbody, that—
 - (i) is inundated by surface water or groundwater movement, or
 - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
 - (b) the erection of a dwelling, and
 - (c) one or both of the following—
 - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,

- (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
- (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
- (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—

flood planning area has the same meaning as in clause 5.21.

Land Use Table

Note—

State environmental planning policies, including the following, may be relevant to development on land to which this Plan applies—

[State Environmental Planning Policy \(Housing\) 2021](#)

[State Environmental Planning Policy \(Transport and Infrastructure\) 2021](#), Chapter 2—relating to infrastructure facilities, including air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

[State Environmental Planning Policy \(Primary Production\) 2021](#), Chapter 2

Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To protect agricultural land for long term agricultural production.
- To provide opportunities for employment-generating development that adds

value to local agricultural production through food and beverage processing.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Home occupations

3 Permitted with consent

Agricultural produce industries; Agritourism; Air transport facilities; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Dwelling houses; Environmental facilities; Extractive industries; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Highway service centres; Home-based child care; Home businesses; Home industries; Home occupations (sex services); Industrial retail outlets; Intensive livestock agriculture; Intensive plant agriculture; Open cut mining; Recreation areas; Roads; Roadside stalls; Secondary dwellings; Stock and sale yards; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone RU2 Rural Landscape

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To maintain the rural landscape character of the land.
- To provide for a range of compatible land uses, including extensive agriculture.
- To protect agricultural land for long term agricultural production.
- To provide opportunities for employment-generating development that adds value to local agricultural production through food and beverage processing and integrates with tourism.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Home occupations

3 Permitted with consent

Agricultural produce industries; Agritourism; Air transport facilities; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Cemeteries; Community facilities; Crematoria; Dairies (restricted); Dwelling houses; Eco-tourist facilities; Environmental facilities; Extractive industries; Farm buildings; Farm stay accommodation; Flood mitigation works; Forestry; Highway service centres; Home-based child care; Home businesses; Home industries; Home occupations (sex services); Industrial retail outlets; Information and education facilities; Intensive plant agriculture; Recreation areas; Roads; Roadside stalls; Secondary dwellings; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone R2 Low Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To increase the supply of secondary dwellings for affordable rental housing stock.
- To provide economic and employment opportunities for people who conduct business activities from their homes where these will not adversely affect the amenity of neighbours or the neighbourhood.

2 Permitted without consent

Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Business identification signs; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Environmental protection works; Exhibition homes; Exhibition villages; Group homes; Health consulting rooms; Home-based child care; Home

businesses; Home industries; Hospitals; Multi dwelling housing; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Recreation areas; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Tank-based aquaculture

4 Prohibited

Any development not specified in item 2 or 3

Zone R3 Medium Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide opportunities for multi-storey residential accommodation in locations close to shops, transport nodes, commercial services, public open space and employment opportunities.
- To provide increased housing choice particularly housing suited to older people and people with a disability.
- To increase the supply of affordable housing.

2 Permitted without consent

Home occupations

3 Permitted with consent

Attached dwellings; Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Group homes; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Respite day care centres; Roads; Seniors housing; Tank-based aquaculture; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Dwelling houses; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Flood mitigation works; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Local distribution premises; Marinas; Medical centres; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Restricted premises; Rural industries; Rural workers' dwellings; Service stations; Sewerage systems; Sex services premises; Signage; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone R5 Large Lot Residential

1 Objectives of zone

- To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 Permitted without consent

Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Business identification signs; Dual occupancies; Dwelling houses; Home industries; Oyster aquaculture; Pond-based aquaculture; Roads; Secondary dwellings; Tank-based aquaculture; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cemeteries; Charter and tourism boating facilities; Commercial premises; Correctional centres; Crematoria; Depots; Eco-tourist facilities; Electricity generating works; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Farm buildings; Flood mitigation works; Forestry; Freight transport facilities; Function centres; Heavy industrial storage establishments; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Information and education facilities; Local distribution premises; Marinas; Medical centres; Mooring pens; Moorings; Mortuaries; Open cut mining; Passenger transport facilities; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Restricted premises; Rural industries; Service stations; Sewerage systems; Sex services premises; Signage; Storage premises; Tourist and visitor accommodation; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Warehouse or distribution centres; Waste or resource management facilities; Water recreation structures; Water supply systems; Wharf or boating facilities; Wholesale supplies

Zone E1 Local Centre

1 Objectives of zone

- To provide a range of retail, business and community uses that serve the needs of people who live in, work in or visit the area.
- To encourage investment in local commercial development that generates

employment opportunities and economic growth.

- To enable residential development that contributes to a vibrant and active local centre and is consistent with the Council's strategic planning for residential development in the area.
- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.
- To encourage mixed use buildings that include a component of housing located above retail and business premises.
- To encourage development that is compatible with the commercial centres hierarchy.
- To encourage development that has a high level of accessibility and amenity and prioritises pedestrians.
- To encourage new development that provides diverse and active street frontages in order to attract pedestrian traffic and contribute to vibrant, diverse and functional streets and public spaces.

2 Permitted without consent

Home businesses; Home industries; Home occupations

3 Permitted with consent

Amusement centres; Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Entertainment facilities; Function centres; Group homes; Hostels; Hotel or motel accommodation; Information and education facilities; Local distribution premises; Medical centres; Oyster aquaculture; Places of public worship; Public administration buildings; Recreation facilities (indoor); Respite day care centres; Service stations; Shop top housing; Tank-based aquaculture; Veterinary hospitals; Any other development not specified in item 2 or 4

Zone E3 Productivity Support

1 Objectives of zone

- To provide a range of facilities and services, light industries, warehouses and offices.
- To provide for land uses that are compatible with, but do not compete with, land uses in surrounding local and commercial centres.
- To maintain the economic viability of local and commercial centres by limiting certain retail and commercial activity.
- To provide for land uses that meet the needs of the community, businesses and industries but that are not suited to locations in other employment zones.
- To provide opportunities for new and emerging light industries.
- To enable other land uses that provide facilities and services to meet the day to day needs of workers, to sell goods of a large size, weight or quantity or to sell goods manufactured on-site.

2 Permitted without consent

3 Permitted with consent

Agricultural produce industries; Animal boarding or training establishments; Boat building and repair facilities; Building identification signs; Business identification signs; Business premises; Centre-based child care facilities; Community facilities; Depots; Function centres; Garden centres; Hardware and

building supplies; Hotel or motel accommodation; Industrial retail outlets; Industrial training facilities; Information and education facilities; Landscaping material supplies; Light industries; Local distribution premises; Markets; Mortuaries; Neighbourhood shops; Office premises; Oyster aquaculture; Passenger transport facilities; Places of public worship; Plant nurseries; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Research stations; Respite day care centres; Restaurants or cafes; Rural supplies; Service stations; Specialised retail premises; Storage premises; Take away food and drink premises; Tank-based aquaculture; Timber yards; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Veterinary hospitals; Warehouse or distribution centres; Wholesale supplies; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Correctional centres; Crematoria; Eco-tourist facilities; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Forestry; Heavy industrial storage establishments; Highway service centres; Industries; Marinas; Mooring pens; Moorings; Open cut mining; Registered clubs; Residential accommodation; Restricted premises; Retail premises; Rural industries; Sewerage systems; Signage; Tourist and visitor accommodation; Waste or resource management facilities; Water recreation structures; Wharf or boating facilities

Zone E4 General Industrial

1 Objectives of zone

- To provide a range of industrial, warehouse, logistics and related land uses.
- To ensure the efficient and viable use of land for industrial uses.
- To minimise any adverse effect of industry on other land uses.
- To encourage employment opportunities.
- To enable limited non-industrial land uses that provide facilities and services to meet the needs of businesses and workers.
- To encourage employment opportunities and to support the viability of

centres.

- To support and protect industrial land for industrial uses.

2 Permitted without consent

Nil

3 Permitted with consent

Agricultural produce industries; Building identification signs; Business identification signs; Depots; Freight transport facilities; Garden centres; General industries; Goods repair and reuse premises; Hardware and building supplies; Industrial retail outlets; Industrial training facilities; Landscaping material supplies; Light industries; Liquid fuel depots; Local distribution premises; Neighbourhood shops; Oyster aquaculture; Plant nurseries; Rural supplies; Self-storage units; Take away food and drink premises; Tank-based aquaculture; Vehicle sales or hire premises; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Centre-based child care facilities; Charter and tourism boating facilities; Commercial premises; Community facilities; Correctional centres; Crematoria; Eco-tourist facilities; Educational establishments; Entertainment facilities; Environmental facilities; Exhibition homes; Exhibition villages; Extractive industries; Flood mitigation works; Forestry; Function centres; Health services facilities; Heavy industrial storage establishments; Highway service centres; Home-based child care; Home businesses; Home occupations; Home occupations (sex services); Industries; Information and education facilities; Marinas; Mooring pens; Moorings; Open cut mining; Passenger transport facilities; Public administration buildings; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Residential accommodation; Respite day care centres; Restricted premises; Rural industries; Signage; Storage premises; Tourist and visitor accommodation; Water recreation structures; Wharf or boating facilities

Zone SP2 Infrastructure

1 Objectives of zone

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Roads; The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone RE1 Public Recreation

1 Objectives of zone

- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Aquaculture; Boat sheds; Building identification signs; Business identification signs; Camping grounds; Caravan parks; Centre-based child care facilities; Charter and tourism boating facilities; Community facilities; Environmental facilities; Heliports; Information and education facilities; Kiosks; Markets; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Respite day care centres; Roads; Water recreation structures; Water recycling facilities; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2 Private Recreation

1 Objectives of zone

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Aquaculture; Camping grounds; Caravan parks; Charter and tourism boating facilities; Community facilities; Environmental facilities; Food and drink premises; Function centres; Helipads; Kiosks; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Roads; Signage; Water recreation structures; Water recycling facilities; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone C1 National Parks and Nature Reserves

1 Objectives of zone

- To enable the management and appropriate use of land that is reserved under the [National Parks and Wildlife Act 1974](#) or that is acquired under Part 11 of that Act.
- To enable uses authorised under the [National Parks and Wildlife Act 1974](#).
- To identify land that is to be reserved under the [National Parks and Wildlife Act 1974](#) and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the [National Parks and Wildlife Act 1974](#)

3 Permitted with consent

4 Prohibited

Any development not specified in item 2 or 3

Zone C2 Environmental Conservation

1 Objectives of zone

- To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.
- To prevent development that could destroy, damage or otherwise have an adverse effect on those values.
- To ensure adequate environmental buffers are provided, maintained or rehabilitated in the vicinity of high ecological value areas and waterways.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Environmental facilities; Oyster aquaculture Recreation areas; Roads

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Local distribution premises; Multi dwelling housing; Pond-based aquaculture; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Tank-based aquaculture; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone C3 Environmental Management

1 Objectives of zone

- To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
- To provide for a limited range of development that does not have an adverse effect on those values.
- To allow limited types of agriculture subject to effective environmental

safeguards and sound land management practices.

2 Permitted without consent

Environmental protection works; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Building identification signs; Business identification signs; Cellar door premises; Dwelling houses; Eco-tourist facilities; Environmental facilities; Extensive agriculture; Farm buildings; Farm stay accommodation; Home-based child care; Home businesses; Home industries; Home occupations (sex services); Information and education facilities; Kiosks; Oyster aquaculture; Pond-based aquaculture; Recreation areas; Roads; Roadside stalls; Secondary dwellings; Tank-based aquaculture; Viticulture

4 Prohibited

Industries; Local distribution premises; Multi dwelling housing; Residential flat buildings; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W4 Working Waterfront

1 Objectives of zone

- To retain and encourage industrial and maritime activities on foreshores.
- To identify sites for maritime purposes and for activities requiring direct foreshore access.
- To ensure that development does not have an adverse impact on the environment and visual qualities of the foreshore.
- To encourage employment opportunities.
- To minimise any adverse effect of development on land uses in other zones.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Boat building and repair facilities; Boat launching ramps; Charter and tourism boating facilities; Food and drink premises; Information and education facilities; Jetties; Kiosks; Light industries; Marinas; Markets; Mooring

pens; Roads; Signage

4 Prohibited

Any development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development—
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if—
 - (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must—
 - (a) be installed in accordance with the manufacturer's specifications, if applicable, and
 - (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note—

See *State Environmental Planning Policy (Biodiversity and Conservation) 2021*, Chapter 2 and the *Local Land Services Act 2013*, Part 5A.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—

(a) the development standards specified in relation to that development, and

(b) the requirements of this Part,

is complying development.

Note—

See also clause 5.8(3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must—

(a) be permissible, with development consent, in the zone in which it is carried out,
and

(b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*,
and

(c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause—

environmentally sensitive area for exempt or complying development means any of the following—

(a) the coastal waters of the State,

- (b) a coastal lake,
- (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the [Coastal Management Act 2016](#)),
- (d) land reserved as an aquatic reserve under the [Fisheries Management Act 1994](#) or as a marine park under the [Marine Parks Act 1997](#),
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the [National Parks and Wildlife Act 1974](#) or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the [Crown Land Management Act 2016](#) for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the [Biodiversity Conservation Act 2016](#) or declared critical habitat under Part 7A of the [Fisheries Management Act 1994](#),
- (ja) land identified on the [Acid Sulfate Soils Map](#) as Class 1 or Class 2 land,
- (jb) land in the foreshore area,
- (jc) land identified as “Biodiversity land” on the [Terrestrial Biodiversity Map](#),
- (jd) land to which clause 6.5 applies.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows—
 - (a) to ensure that subdivision reflects and reinforces the predominant subdivision pattern of the area,
 - (b) to minimise any likely impact of subdivision and development on the amenity of neighbouring properties,
 - (c) to ensure that lot sizes and shapes are able to accommodate development

consistent with relevant development controls,

(d) to restrict the fragmentation of land for rural residential purposes.

(2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(4) This clause does not apply in relation to the subdivision of any land—

(a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or

(b) by any kind of subdivision under the [Community Land Development Act 2021](#).

4.1AA Minimum subdivision lot size for community title schemes

(1) The objectives of this clause are as follows—

(a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 2021](#) of land in any of the following zones—

(a) Zone RU1 Primary Production,

(b) Zone RU2 Rural Landscape,

(c) Zone C3 Environmental Management,

but does not apply to a subdivision by the registration of a strata plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the [Community Land Development Act 2021](#)) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(4) This clause applies despite clause 4.1.

4.1A Exceptions to minimum lot sizes for development in Zone R2 and Zone R3

(1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.

- (2) This clause applies to development on land in the following zones—
- (a) Zone R2 Low Density Residential Zone,
 - (b) Zone R3 Medium Density Residential Zone.
- (3) Despite clause 4.1, development consent may be granted to a single development application for development on land to which this clause applies if the development is both—
- (a) the subdivision of land into 3 or more lots—
 - (i) each lot being equal to or greater than 50% of the minimum size shown on the [Lot Size Map](#) in relation to the land if the land is in Zone R2 Low Density Residential, or
 - (ii) each lot being equal to or greater than 150 square metres if the land is in Zone R3 Medium Density Residential, and
 - (b) the erection of an attached dwelling, a semi-detached dwelling or a dwelling house on each lot resulting from the subdivision.

Note—

See clause 4.1D for exceptions to minimum subdivision lot sizes for dual occupancies in Zone R2 and Zone R3.

4.1B Exceptions to minimum lot sizes for certain development in residential zones

- (1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.
- (2) Despite clause 4.1, development consent may be granted to subdivide land in any residential zone if at the time this Plan commenced and at the time the development application was made there existed on the land a dual occupancy or multi dwelling housing and each resulting lot from the subdivision—
- (a) will be not less than 150 square metres, and
 - (b) will contain a single dwelling.
- (3) However, this clause does not apply to land in Zone R2 Low Density Residential or Zone R3 Medium Density Residential on which there is an existing dual occupancy (erected at any time).

Note—

See clause 4.1D for exceptions to minimum subdivision lot sizes for dual occupancies in Zone R2 and Zone R3.

4.1C Exceptions to minimum subdivision lot sizes for certain split zones

- (1) The objectives of this clause are as follows—
 - (a) to provide for the subdivision of lots that are within more than one zone but cannot be subdivided under clause 4.1,
 - (b) to ensure that the subdivision occurs in a manner that promotes suitable land uses and development.
- (2) This clause applies to each lot (an **original lot**) that contains—
 - (a) land in a rural or conservation zone, and
 - (b) land in a residential or employment zone, or Zone W4 Working Waterfront.
- (3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the **resulting lots**) if—
 - (a) one of the resulting lots will contain all of the land in a rural or conservation zone and—
 - (i) any existing dwelling, or
 - (ii) any land within any other zone with an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land, and
 - (b) each of the other resulting lots will contain land that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) In determining whether to grant development consent for the subdivision of land under this clause, the consent authority must consider the following—
 - (a) whether or not the development is likely to maintain or improve the environmental values and agricultural viability of the land,
 - (b) the potential impact on the natural and physical constraints affecting the land, taking into account the long-term maintenance, management and protection of the land,
 - (c) the compatibility with existing or potential land uses and measures that are deemed necessary to avoid or minimise any potential for land use conflicts.

4.1D Exceptions to minimum subdivision lot sizes for dual occupancies in Zone R2 and Zone R3

- (1) The objective of this clause is to encourage the efficient subdivision of existing and proposed dual occupancies without adversely impacting on residential amenity.
- (2) This clause applies to the subdivision of land in the following zones—

- (a) Zone R2 Low Density Residential,
- (b) Zone R3 Medium Density Residential,

but does not apply to the subdivision of land under the *Strata Schemes Development Act 2015* or the *Community Land Development Act 1989*.

- (3) Despite clause 4.1, development consent may be granted to the subdivision of land to which this clause applies if—
 - (a) there is an existing dual occupancy (lawfully erected at any time) on the land or development consent has been granted for the erection of a dual occupancy on the land, and
 - (b) the subdivision of land will result in no more than 2 lots with each resulting lot equal to or greater than 50% of the minimum size shown on the [Lot Size Map](#) in relation to the land, and
 - (c) each resulting lot will have either a semi-detached dwelling or dwelling house.
- (4) Despite clause 4.1, development consent may be granted to a single development application for development on land to which this clause applies if the development is both—
 - (a) the subdivision of land into no more than 2 lots with each resulting lot equal to or greater than 50% of the minimum size shown on the [Lot Size Map](#) in relation to the land, and
 - (b) the erection of either a semi-detached dwelling or dwelling house on each lot resulting from the subdivision.

4.1E Minimum site areas for dual occupancies and multi dwelling housing in Zone R2

- (1) This clause applies to land in Zone R2 Low Density Residential.
- (2) Despite any other provision of this Plan, development for the purposes of multi dwelling housing is not permitted in Zone R2 Low Density Residential unless the development is for the purpose of terraces.
- (3) In the case of land to which this clause applies that is located in Jamberoo, development consent must not be granted to development for the purpose of dual occupancies and multi dwelling housing unless the site area per dwelling is equal to or greater than 400 square metres for the following purposes—
 - (a) a dual occupancy,
 - (b) terraces.
- (4) In the case of land to which this clause applies that is not located in Jamberoo,

development consent must not be granted to development for the purpose of dual occupancies and multi dwelling housing unless the site area per dwelling is equal to or greater than 300 square metres for the following purposes—

- (a) a dual occupancy,
- (b) terraces.

(5) Despite clause 3B.1A of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, development for the purposes of manor houses within the meaning of that Policy is not permitted on land to which this clause applies.

(6) In this clause and clause 4.1F—

manor house has the same meaning as in clause 1.5 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

terraces means multi dwelling housing where all dwellings are attached and face, and are generally aligned along, 1 or more public roads.

4.1F Minimum site areas for dual occupancies, manor houses and multi dwelling housing in Zone R3

- (1) This clause applies to land in Zone R3 Medium Density Residential.
- (2) Development consent must not be granted to development for the following purposes unless the site area per dwelling is equal to or greater than 200 square metres for that purpose—
 - (a) a dual occupancy,
 - (b) a manor house,
 - (c) terraces.

Note—

Clause 3B.1A of the *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that development for the purposes of manor houses is permitted with development consent in Zone R3.

4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—
 - (a) Zone RU1 Primary Production,

- (b) Zone RU2 Rural Landscape,
- (baa) Zone RU3 Forestry,
- (c) Zone RU4 Primary Production Small Lots,
- (d) Zone RU6 Transition.

Note—

When this Plan was made it did not include Zone RU4 Primary Production Small Lots or Zone RU6 Transition.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses on land in certain rural and conservation zones

- (1) The objectives of this clause are as follows—
 - (a) to minimise unplanned rural residential development,
 - (b) to enable the replacement of lawfully erected dwelling houses in rural and conservation zones.
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone C3 Environmental Management.
- (3) Development consent must not be granted for the erection of a dwelling house on land in a zone to which this clause applies, and on which no dwelling house has been erected, unless the land is—
 - (a) a lot that is at least the minimum lot size specified for that land by the [Lot Size Map](#), or
 - (b) a lot created before this Plan commenced and on which the erection of a dwelling house was permissible immediately before that commencement, or

- (c) a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house would have been permissible if the plan of subdivision had been registered before that commencement, or
- (d) an existing holding.

Note—

A dwelling cannot be erected on a lot created under clause 9 of *State Environmental Planning Policy (Rural Lands) 2008* or clause 4.2.

- (4) Subclause (3)(b), (c) and (d) ceases to apply if—
 - (a) an application for development consent referred to in that subclause is not made in relation to that land within 5 years after the day this Plan commences, or
 - (b) an application for development consent referred to in that subclause is made in relation to that land within 5 years after the day this Plan commences, but the application is refused.
- (5) Despite subclause (3), development consent may be granted for the erection of a dwelling house on land to which this clause applies if—
 - (a) there is a lawfully erected dwelling house on the land and the dwelling house to be erected is intended only to replace the existing dwelling house, or
 - (b) the land would have been a lot or a holding referred to in subclause (3) had it not been affected by—
 - (i) a minor realignment of its boundaries that did not create an additional lot, or
 - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose.
- (6) In this clause—

existing holding means land that—

- (a) was a holding on 4 July 1977, and
- (b) is a holding at the time the application for development consent referred to in subclause (3) is lodged,

whether or not there has been a change in the ownership of the holding since 4 July 1977, and includes any other land adjoining that land acquired by the owner since 4 July 1977.

holding means all adjoining land, even if separated by a road or railway, held by the same person or persons.

Note—

The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

4.2B Minimum subdivision lot size for strata plans in Zone RU1, Zone RU2 and Zone C3

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is being subdivided (being a subdivision that requires development consent) under the *Strata Schemes (Freehold Development) Act 1973* for use as residential accommodation or tourist and visitor accommodation—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone C3 Environmental Management.
- (3) The size of any lot resulting from a subdivision to which this clause applies (other than common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973*) is not to be less than the minimum size shown on the *Lot Size Map* in relation to that land.

4.2C Exceptions to minimum subdivision lot size for boundary adjustments in Zone RU1, Zone RU2 and Zone C3

- (1) The object of this clause is to permit the boundary between 2 or more lots to be altered in certain circumstances to give landowners a greater opportunity to achieve the objectives of a zone.
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone C3 Environmental Management.
- (3) Despite clause 4.1, development consent may be granted to the subdivision of 2 or more adjoining lots to which this clause applies if—
 - (a) the subdivision will not result in any increase in the number of lots, and
 - (b) the subdivision will not result in an increase in the number of dwellings on, or dwellings that may be erected on, any of the lots, and
 - (c) the land subject to the subdivision will continue to be used for rural or agricultural

purposes (or both).

- (4) Before determining a development application for the subdivision of land under this clause, the consent authority must consider the following—
 - (a) the existing uses and approved uses of other land in the vicinity of the subdivision,
 - (b) whether or not the subdivision is likely to have a significant impact on land uses that are likely to be preferred and the predominant land uses in the vicinity of the development,
 - (c) whether or not the subdivision is likely to be incompatible with a use referred to in paragraph (a) or (b),
 - (d) whether or not the subdivision is likely to be incompatible with a use on land in any adjoining zone,
 - (e) any measures proposed by the applicant to avoid or minimise any incompatibility referred to in paragraph (c) or (d),
 - (f) whether or not the subdivision is appropriate having regard to the natural and physical constraints affecting the land,
 - (g) whether or not the subdivision is likely to have an adverse impact on the environmental values or agricultural viability of the land.
- (5) This clause does not apply—
 - (a) in relation to the subdivision of individual lots in a strata plan or a community title scheme, or
 - (b) if the subdivision would create a lot that could itself be subdivided in accordance with clause 4.1.

4.3 Height of buildings

- (1) The objectives of this clause are as follows—
 - (a) to ensure future development is in keeping with the desired scale and character of the street and local area,
 - (b) to allow reasonable daylight access to all developments and the public domain.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

4.4 Floor space ratio

- (1) The objectives of this clause are as follows—

- (a) to ensure that development is in keeping with the optimum capacity of the site and the local area,
 - (b) to define allowable development density for generic building types.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).

4.5 Calculation of floor space ratio and site area

(1) **Objectives** The objectives of this clause are as follows—

- (a) to define **floor space ratio**,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
 - (iii) require community land and public places to be dealt with separately.

(2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area** The following land must be excluded from the site area—

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the

extent that it does not overlap with another lot already included in the site area calculation.

- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If—
- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
 - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local Government Act 1993](#).

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

- (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating—
 - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless—
 - (a) the consent authority is satisfied that—
 - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Planning Secretary has been obtained.
- (5) In deciding whether to grant concurrence, the Planning Secretary must consider—
 - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Planning Secretary before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot

Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—

- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.
- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
 - (c) clause 5.4,
 - (caa) clause 5.5.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Transport for NSW
Zone C1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <i>National Parks and Wildlife Act 1974</i>

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

Note—

If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for that land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the *Land Acquisition (Just Terms Compensation) Act 1991*).

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, "public land" is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions,

restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30(2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

[Not adopted]

5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 30 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 30 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
- (a) 40% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or

(b) 75 square metres,

whichever is the lesser.

(5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms in buildings.

(6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 10 square metres.

(7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.

(7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.

(8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 75 square metres.

(9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—

(a) 60 square metres,

(b) 100% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

(a) 40% of the gross floor area of the industry, or

(b) 75 square metres,

whichever is the lesser.

5.5 Controls relating to secondary dwellings on land in a rural zone

If development for the purposes of a secondary dwelling is permitted under this Plan on land in a rural zone—

(a) the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—

- (i) 120 square metres,
 - (ii) 0% of the total floor area of the principal dwelling, and
- (b) the distance between the secondary dwelling and the principal dwelling must not exceed 60 metres.

5.6 Architectural roof features

- (1) The objectives of this clause are as follows—
- (a) to ensure that architectural roof features to which this clause applies are decorative elements only,
 - (b) to ensure that the majority of the roof features are contained within the prescribed building height.
- (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with development consent.
- (3) Development consent must not be granted to any such development unless the consent authority is satisfied that—
- (a) the architectural roof feature—
 - (i) comprises a decorative element on the uppermost portion of a building, and
 - (ii) is not an advertising structure, and
 - (iii) does not include floor space area and is not reasonably capable of modification to include floor space area, and
 - (iv) will cause minimal overshadowing, and
 - (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent—
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of—
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.
- (5) In this clause—

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Dwelling house or secondary dwelling affected by natural disaster

5.9AA (Repealed)

5.10 Heritage conservation

Note—

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows—

- (a) to conserve the environmental heritage of Kiama,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following—

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—
 - (i) a heritage item,
 - (ii) an Aboriginal object,
 - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land—
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
- (f) subdividing land—
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not

required if—

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
- (b) the development is in a cemetery or burial ground and the proposed development—
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
- (d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) **Heritage assessment** The consent authority may, before granting consent to any development—

- (a) on land on which a heritage item is located, or
- (b) on land that is within a heritage conservation area, or
- (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies)—
- (a) notify the Heritage Council of its intention to grant consent, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
 - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—
- (a) notify the Heritage Council about the application, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—
- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
 - (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note—

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 2.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

- (1) The objectives of this clause are as follows—
 - (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
 - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that—
 - (a) there is a demonstrated connection between the development and the ecological,

- environmental and cultural values of the site or area, and
- (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and
 - (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
 - (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and native flora and fauna will be minimal, and
 - (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
 - (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
 - (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours, materials and landscaping with local native flora, and
 - (h) any infrastructure services to the site will be provided without significant modification to the environment, and
 - (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and
 - (j) the development will not adversely affect the agricultural productivity of adjoining land, and
 - (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment—
 - (i) measures to remove any threat of serious or irreversible environmental damage,
 - (ii) the maintenance (or regeneration where necessary) of habitats,
 - (iii) efficient and minimal energy and water use and waste output,
 - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
 - (v) maintaining improvements on an on-going basis in accordance with relevant

ISO 14000 standards relating to management and quality control.

5.16 Subdivision of, or dwellings on, land in certain rural, residential or conservation zones

- (1) The objective of this clause is to minimise potential land use conflict between existing and proposed development on land in the rural, residential or conservation zones concerned (particularly between residential land uses and other rural land uses).
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone RU3 Forestry,
 - (d) Zone RU4 Primary Production Small Lots,
 - (e) Zone RU6 Transition,
 - (f) Zone R5 Large Lot Residential,
 - (g) Zone C2 Environmental Conservation,
 - (h) Zone C3 Environmental Management,
 - (i) Zone C4 Environmental Living.
- (3) A consent authority must take into account the matters specified in subclause (4) in determining whether to grant development consent to development on land to which this clause applies for either of the following purposes—
 - (a) subdivision of land proposed to be used for the purposes of a dwelling,
 - (b) erection of a dwelling.
- (4) The following matters are to be taken into account—
 - (a) the existing uses and approved uses of land in the vicinity of the development,
 - (b) whether or not the development is likely to have a significant impact on land uses that, in the opinion of the consent authority, are likely to be preferred and the

predominant land uses in the vicinity of the development,

- (c) whether or not the development is likely to be incompatible with a use referred to in paragraph (a) or (b),
- (d) any measures proposed by the applicant to avoid or minimise any incompatibility referred to in paragraph (c).

5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations

[Not applicable]

5.18 Intensive livestock agriculture

- (1) The objectives of this clause are—
 - (a) to ensure appropriate environmental assessment of development for the purpose of intensive livestock agriculture that is permitted with consent under this Plan, and
 - (b) to provide for certain capacity thresholds below which development consent is not required for that development subject to certain restrictions as to location.
- (2) This clause applies if development for the purpose of intensive livestock agriculture is permitted with consent under this Plan.
- (3) In determining whether or not to grant development consent under this Plan to development for the purpose of intensive livestock agriculture, the consent authority must take the following into consideration—
 - (a) the adequacy of the information provided in the statement of environmental effects or (if the development is designated development) the environmental impact statement accompanying the development application,
 - (b) the potential for odours to adversely impact on the amenity of residences or other land uses within the vicinity of the site,
 - (c) the potential for the pollution of surface water and ground water,
 - (d) the potential for the degradation of soils,
 - (e) the measures proposed to mitigate any potential adverse impacts,
 - (f) the suitability of the site in the circumstances,
 - (g) whether the applicant has indicated an intention to comply with relevant industry codes of practice for the health and welfare of animals,
 - (h) the consistency of the proposal with, and any reasons for departing from, the

environmental planning and assessment aspects of any guidelines for the establishment and operation of relevant types of intensive livestock agriculture published, and made available to the consent authority, by the Department of Primary Industries (within the Department of Industry) and approved by the Planning Secretary.

- (4) Despite any other provision of this Plan, development for the purpose of intensive livestock agriculture may be carried out without development consent if—
- (a) the development is of a type specified in subclause (5), and
 - (b) the consent authority is satisfied that the development will not be located—
 - (i) in an environmentally sensitive area, or
 - (ii) within 100 metres of a natural watercourse, or
 - (iii) in a drinking water catchment, or
 - (iv) within 500 metres of any dwelling that is not associated with the development, or a residential zone, or
 - (v) for a poultry farm used for breeding poultry—within 5km of another poultry farm, or
 - (vi) for a poultry farm not used for breeding poultry—
 - (A) within 5km of a poultry farm used for breeding poultry, or
 - (B) within 1km of a poultry farm not used for breeding poultry, or
 - (vii) for a pig farm—within 3km of another pig farm.
- (5) The following types of development are specified for the purposes of subclause (4)—
- (a) a cattle feedlot having a capacity to accommodate fewer than 50 head of cattle,
 - (b) a goat feedlot having a capacity to accommodate fewer than 200 goats,
 - (c) a sheep feedlot having a capacity to accommodate fewer than 200 sheep,
 - (d) a pig farm having a capacity to accommodate fewer than 20 breeding sows, or fewer than 200 pigs (of which fewer than 20 may be breeding sows),
 - (e) a dairy (restricted) having a capacity to accommodate fewer than 50 dairy cows,
 - (f) a poultry farm having a capacity to accommodate fewer than 1,000 birds for meat or egg production (or both).
- (6) For the avoidance of doubt, subclause (4) does not apply to development that is

prohibited or that may be carried out without development consent under this or any other environmental planning instrument.

(7) In this clause—

environmentally sensitive area has the same meaning as in clause 1.5 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

residential zone means Zone RU4 Primary Production Small Lots, Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E3 Productivity Support, Zone MU1 Mixed Use, Zone C3 Environmental Management or Zone C4 Environmental Living.

5.19 Pond-based, tank-based and oyster aquaculture

(1) **Objectives** The objectives of this clause are as follows—

- (a) to encourage sustainable oyster, pond-based and tank-based aquaculture in the State, namely, aquaculture development that uses, conserves and enhances the community's resources so that the total quality of life now and in the future can be preserved and enhanced,
- (b) to set out the minimum site location and operational requirements for permissible pond-based and tank-based aquaculture development.

(2) **Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied before granting consent** The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—

- (a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,
- (b) in the case of—
 - (i) pond-based aquaculture in Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E1 Local Centre, Zone E2 Commercial Centre, Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial or Zone MU1 Mixed Use—that the development is for the purpose of small scale aquarium fish production, and
 - (ii) pond-based aquaculture in Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of extensive aquaculture, and

- (iii) tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and
 - (iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.
- (3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.
- (4) **Extensive pond-based aquaculture permitted without consent in certain zones**
Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—
 - (a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and
 - (b) the development complies with the site location requirements and operational requirements set out in Part 2 of Schedule 6.
- (5) **Oyster aquaculture—additional matters that consent authority must consider in determining a development application** In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—
 - (a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and
 - (b) the *NSW Oyster Industry Sustainable Aquaculture Strategy*.
- (6) **Oyster aquaculture permitted without consent in priority oyster aquaculture areas**
Development for the purpose of oyster aquaculture may be carried out without development consent—
 - (a) on land that is wholly within a priority oyster aquaculture area, or
 - (b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.
- (7) **Definitions** In this clause—
aquaculture industry development plan means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

extensive aquaculture has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

NSW Oyster Industry Sustainable Aquaculture Strategy means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within the Department of Industry).

priority oyster aquaculture area means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department's website.

5.20 Standards that cannot be used to refuse consent—playing and performing music

- (1) The consent authority must not refuse consent to development in relation to licensed premises on the following grounds—
 - (a) the playing or performance of music, including the following—
 - (i) the genre of music played or performed, or
 - (ii) whether the music played or performed is live or amplified, or
 - (iii) whether the music played or performed is original music, or
 - (iv) the number of musicians or live entertainment acts playing or performing, or
 - (v) the type of instruments played,
 - (b) whether dancing occurs,
 - (c) the presence or use of a dance floor or another area ordinarily used for dancing,
 - (d) the direction in which a stage for players or performers faces,
 - (e) the decorations to be used, including, for example, mirror balls, or lighting used by players or performers.
- (2) The consent authority must not refuse consent to development in relation to licensed premises on the grounds of noise caused by the playing or performance of music, if the consent authority is satisfied the noise may be managed and minimised to an acceptable level.
- (3) In this clause—

licensed premises has the same meaning as in the *Liquor Act 2007*.

5.21 Flood planning

- (1) The objectives of this clause are as follows—
 - (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the flood function and behaviour on the land, taking into account projected changes as a result of climate change,
 - (c) to avoid adverse or cumulative impacts on flood behaviour and the environment,
 - (d) to enable the safe occupation and efficient evacuation of people in the event of a flood.
- (2) Development consent must not be granted to development on land the consent authority considers to be within the flood planning area unless the consent authority is satisfied the development—
 - (a) is compatible with the flood function and behaviour on the land, and
 - (b) will not adversely affect flood behaviour in a way that results in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) will not adversely affect the safe occupation and efficient evacuation of people or exceed the capacity of existing evacuation routes for the surrounding area in the event of a flood, and
 - (d) incorporates appropriate measures to manage risk to life in the event of a flood, and
 - (e) will not adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses.
- (3) In deciding whether to grant development consent on land to which this clause applies, the consent authority must consider the following matters—
 - (a) the impact of the development on projected changes to flood behaviour as a result of climate change,
 - (b) the intended design and scale of buildings resulting from the development,
 - (c) whether the development incorporates measures to minimise the risk to life and ensure the safe evacuation of people in the event of a flood,
 - (d) the potential to modify, relocate or remove buildings resulting from development if the surrounding area is impacted by flooding or coastal erosion.

(4) A word or expression used in this clause has the same meaning as it has in the Considering Flooding in Land Use Planning Guideline unless it is otherwise defined in this clause.

(5) In this clause—

Considering Flooding in Land Use Planning Guideline means the *Considering Flooding in Land Use Planning Guideline* published on the Department's website on 14 July 2021.

flood planning area has the same meaning as it has in the Floodplain Development Manual.

Floodplain Development Manual means the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005.

5.24 Farm stay accommodation

(1) The objectives of this clause are as follows—

- (a) to diversify the uses of agricultural land without adversely impacting the principal use of the land for primary production,
- (b) to balance the impact of tourism and related commercial uses with the use of land for primary production, the environment, scenic values, infrastructure and adjoining land uses.

(2) Development consent must not be granted to development for the purposes of farm stay accommodation on a landholding unless the consent authority is satisfied all buildings or manufactured homes used to accommodate guests on the landholding will be—

- (a) on the same lot as an existing lawful dwelling house, or
- (b) on a lot of a size not less than the minimum lot size for a dwelling house to be permitted on the lot under an environmental planning instrument applying to the land.

(3) Subclause (2) does not apply if the development is a change of use of an existing dwelling to farm stay accommodation.

(4) Development consent must not be granted to development for the purposes of farm

stay accommodation on land unless the consent authority has considered—

- (a) whether the development will result in noise or pollution that will have a significant adverse impact on the following on or near the land—
 - (i) residential accommodation,
 - (ii) primary production operations,
 - (iii) other land uses, and
- (b) whether the development will have a significant adverse impact on the following on or near the land—
 - (i) the visual amenity or heritage or scenic values,
 - (ii) native or significant flora or fauna,
 - (iii) water quality,
 - (iv) traffic,
 - (v) the safety of persons, and
- (c) whether the development is on bush fire prone land or flood prone land, and
- (d) the suitability of the land for the development, and
- (e) the compatibility of the development with nearby land uses.

5.25 Farm gate premises

- (1) The objectives of this clause are as follows—
 - (a) to allow for tourism and related commercial uses on land used principally for primary production at a scale that does not adversely affect the principal use of the land for primary production,
 - (b) to balance the impact of tourism and related commercial uses with the use of land for primary production, the environment, scenic values, infrastructure and adjoining land uses.
- (2) Development consent must not be granted to development for the purposes of farm gate premises on land unless the consent authority has considered—
 - (a) whether the development will result in noise or pollution that will have a significant adverse impact on the following on or near the land—
 - (i) residential accommodation,
 - (ii) primary production operations,

- (iii) other land uses, and
- (b) whether the development will have a significant adverse impact on the following on or near the land—
 - (i) the visual amenity or heritage or scenic values,
 - (ii) native or significant flora or fauna,
 - (iii) water quality,
 - (iv) traffic,
 - (v) the safety of persons, and
- (c) whether the development is on bush fire prone land or flood prone land, and
- (d) the suitability of the land for the proposed development, and
- (e) the compatibility of the development with nearby land uses.

Part 6 Additional local provisions

6.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

Class of land	Works
1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.
4	Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.

5 Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.
- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if—
- (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power)—
- (a) emergency work, being the repair or replacement of the works of the public authority required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
 - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
 - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if—
- (a) the works involve the disturbance of less than 1 tonne of soil, such as occurs in carrying out agriculture, the construction or maintenance of drains, extractive industries, dredging, the construction of artificial water bodies (including canals, dams and detention basins), foundations or flood mitigation works, or
 - (b) the works are not likely to lower the watertable.

6.2 Earthworks

- (1) The objectives of this clause are as follows—
 - (a) to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,
 - (b) to allow earthworks of a minor nature without requiring separate development consent.
- (2) Development consent is required for earthworks unless—
 - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or
 - (b) the earthworks are ancillary to other development for which development consent has been given.
- (3) Before granting development consent for earthworks, the consent authority must consider the following matters—
 - (a) the likely disruption of, or any detrimental effect on, existing drainage patterns and soil stability in the locality,
 - (b) the effect of the development on the likely future use or redevelopment of the land,
 - (c) the quality of the fill or the soil to be excavated, or both,
 - (d) the effect of the development on the existing and likely amenity of adjoining properties,
 - (e) the source of any fill material and the destination of any excavated material,
 - (f) the likelihood of disturbing relics,
 - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
 - (h) any measures proposed to minimise or mitigate the impacts referred to in paragraph (g).

Note—

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with disturbing or excavating land and Aboriginal objects.

6.3 (Repealed)

6.4 Terrestrial biodiversity

- (1) The objective of this clause is to maintain terrestrial biodiversity by—
 - (a) protecting native fauna and flora, and
 - (b) protecting the ecological processes necessary for their continued existence, and
 - (c) encouraging the conservation and recovery of native fauna and flora and their habitats.
- (2) This clause applies to land identified as “Biodiversity land” on the [Terrestrial Biodiversity Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider whether or not the development—
 - (a) is likely to have any adverse impact on the condition, ecological value and significance of the fauna and flora on the land,
 - (b) is likely to have any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna,
 - (c) has any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and
 - (d) is likely to have any adverse impact on the habitat elements providing connectivity on the land.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
 - (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
 - (b) if that impact cannot be reasonably avoided the development is designed, sited and will be managed to minimise that impact, or
 - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.5 Riparian land and watercourses

- (1) The objective of this clause is to protect and maintain the following—
 - (a) water quality within watercourses,
 - (b) the stability of the bed and banks of watercourses,
 - (c) aquatic riparian habitats,

(d) ecological processes within watercourses and riparian areas.

(2) This clause applies to—

(a) land identified as “Category 1 watercourse”, “Category 2 watercourse” or “Category 3 watercourse” on the [Riparian Land and Watercourses Map](#), or

(b) land that is within—

(i) 40 metres from the top of the bank of a Category 1 watercourse, or

(ii) 20 metres from the top of the bank of a Category 2 watercourse, or

(iii) 10 metres from the top of the bank of a Category 3 watercourse.

(3) Before determining a development application to carry out development on land to which this clause applies, the consent authority must consider whether or not the development—

(a) is likely to have any adverse impact on the following—

(i) the water quality and flows within the watercourse,

(ii) aquatic and riparian species, habitats and ecosystems of the watercourse,

(iii) the stability of the bed and banks of the watercourse,

(iv) the free passage of fish and other aquatic organisms within or along the watercourse,

(v) any future rehabilitation of the watercourse and its riparian areas, and

(b) is likely to increase water extraction from the watercourse.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—

(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.6 Development on the foreshore must ensure access

In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following—

- (a) continuous public access to and along the foreshore through or adjacent to the proposed development,
- (b) public access to link with existing or proposed open space,
- (c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,
- (d) public access to be located above mean high water mark,
- (e) the reinforcing of the foreshore character and respect for existing environmental conditions.

6.7 Foreshore building line

- (1) The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area.
- (2) Development consent must not be granted for development on land in the foreshore area except for the following—
 - (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
 - (b) the erection of a building in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,
 - (c) development for the purposes of boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).
- (3) Development consent must not be granted under subclause (2) unless the consent authority is satisfied that—
 - (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
 - (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
 - (c) the development will not cause environmental harm such as—
 - (i) pollution or siltation of the waterway, or
 - (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
 - (iii) an adverse effect on drainage patterns, and

- (d) the development will not cause congestion of, or generate conflicts between, people using open space areas or the waterway, and
- (e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and
- (f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and
- (g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and
- (h) the development will not be impacted by sea level rise or change of flooding patterns as a result of climate change.

6.8 Active street frontages

- (1) The objective of this clause is to promote uses that attract pedestrian traffic along certain ground floor street frontages in Zone E1 Local Centre.
- (2) This clause applies to land in Zone E1 Local Centre.
- (3) Development consent must not be granted to the erection of a building, or a change of use of a building, on land to which this clause applies unless the consent authority is satisfied that—
 - (a) the building will have an active street frontage after its erection or change of use, and
 - (b) the ground floor of the building will not be used for the purposes of residential accommodation or a car park.
- (4) Despite subclause (3), an active street frontage is not required for any part of a building that is used for any of the following—
 - (a) entrances and lobbies (including as part of mixed use development),
 - (b) access for fire services,
 - (c) vehicle access.
- (5) In this clause, a building has an **active street frontage** if all premises on the ground floor of the building facing the street are used for the purposes of business premises or retail premises.

6.9 Serviced apartments

- (1) The objective of this clause is to prevent substandard residential building design occurring by way of converted serviced apartment development.
- (2) Development consent must not be granted for the subdivision, under a strata scheme, of a building or part of a building that is being, or has ever been, used for serviced apartments unless—
 - (a) the consent authority has considered the following in relation to the development as if it were development to which clause 4 of *State Environmental Planning Policy No 65—Design Quality of Residential Apartment Development* applies—
 - (i) the design quality principles set out in Schedule 1 to that Policy,
 - (ii) the design principles of the Apartment Design Guide (within the meaning of that Policy), and
 - (b) at least the number of car parking spaces specified in Column 2 of the Table to this subclause are provided for each dwelling mentioned opposite in Column 1.

Column 1	Column 2
A dwelling that is smaller than 60 square metres	1 car parking space
A dwelling that is at least 60 square metres and less than 90 square metres, and within 500 metres of a railway station	1.2 car parking spaces
A dwelling that is at least 60 square metres and less than 90 square metres, and not within 500 metres of a railway station	1.5 car parking spaces
A dwelling that is at least 90 square metres, and within 500 metres of a railway station	1.7 car parking spaces
A dwelling that is at least 90 square metres, and not within 500 metres of a railway station	2 car parking spaces

- (3) Subclause (2)(a) does not apply if the development is the subdivision of a building to which *State Environmental Planning Policy No 65—Design Quality of Residential Apartment Development* has ever applied.

6.10 (Repealed)

6.11 Location of sex services premises

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following—
 - (a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land—
 - (i) in Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or
 - (ii) used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
 - (b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children—
 - (i) that adjoins the proposed development, or
 - (ii) that can be viewed from the proposed development, or
 - (iii) from which a person can view the proposed development.

6.12 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the proposed development are available or that adequate arrangements have been made to make them available when required—

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage,
- (d) stormwater drainage or on-site conservation,
- (e) suitable road access.

6.13 Development in local centres

- (1) The objectives of this clause are as follows—
 - (a) to ensure the scale and function of development in local centres are appropriate for the location,

(b) to ensure development in local centres is compatible with the desired future character and amenity of surrounding residential areas.

(2) This clause applies to land identified as “Area C” on the [Clause Application Map](#).

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered—

(a) the impact of the development on—

(i) the amenity of surrounding residential areas, and

(ii) the desired future character of the local centre, and

(b) whether the development is consistent with the hierarchy of centres.

Part 7 Urban release areas

7.1 Development to which Part applies

This Part applies to development on land shown hatched and marked “Urban Release Area” on the [Urban Release Area Map](#).

7.2 Concurrence of Planning Secretary

(1) Development consent to development to which this Part applies must not be granted unless the consent authority has obtained the concurrence of the Planning Secretary.

(2) In deciding whether to grant concurrence, the Planning Secretary must consider the following—

(a) the impact of the development on—

(i) existing designated State public infrastructure, and

(ii) the need for additional designated State public infrastructure,

(b) the cumulative impact of the development with other development that has, or is likely to be, carried out in surrounding areas on—

(i) existing designated State public infrastructure, and

(ii) the need for additional designated State public infrastructure,

(c) the steps taken to address those impacts, including whether a planning agreement has been, or will be, entered into contributing to designated State public infrastructure.

(3) In deciding whether to grant concurrence, the Planning Secretary must also consult the public authorities that the Planning Secretary considers relevant to the development.

(4) This clause does not apply to development if all or part of the land on which the development is to be carried out is in a special contributions area to which a determination under the Act, section 7.23 applies.

(5) In this clause—

designated State public infrastructure means public facilities or services that are provided or financed by the State, or if provided or financed by the private sector, to the extent of the financial or in-kind contribution by the State, of the following kinds—

- (a) State and regional roads,
- (b) bus interchanges and bus lanes,
- (c) rail infrastructure and land,
- (d) regional parks and public space,
- (e) social infrastructure and facilities, including schools, hospitals, emergency services and justice facilities.

7.3 Public utility infrastructure

(1) Development consent must not be granted to development to which this Part applies unless the consent authority is satisfied that—

- (a) public utility infrastructure that is essential for the development is available, or
- (b) the public utility infrastructure will be available when required.

(2) In this clause—

public utility infrastructure includes infrastructure for the following—

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage.

7.4 Development control plans

(1) The objective of this clause is to ensure development on land in an urban release area occurs in a logical and cost-effective manner, in accordance with a staging plan and only after a development control plan that includes specific controls has been prepared for the land.

(2) Development consent must not be granted for development on land in an urban release area unless a development control plan that provides for the matters specified in subclause (3) has been prepared for the land.

- (3) The development control plan must provide for the following—
- (a) a staging plan for the timely and efficient release of urban land that provides for necessary infrastructure and sequencing,
 - (b) an overall transport movement hierarchy showing the major circulation routes and connections required for a simple and safe movement system for private vehicles, public transport, pedestrians and cyclists,
 - (c) an overall landscaping strategy for the protection and enhancement of riparian areas and remnant vegetation, including visually prominent locations, and detailed landscaping requirements for the public and private domain,
 - (d) a network of active and passive recreation areas,
 - (e) stormwater and water quality management controls,
 - (f) management of natural and environmental hazards, including bush fire, flooding and site contamination and, in relation to natural hazards, the safe occupation of, and the evacuation from, any land so affected,
 - (g) detailed urban design controls for significant development sites,
 - (h) measures to encourage higher density living around transport, open space and service nodes,
 - (i) measures to accommodate and control appropriate neighbourhood commercial and retail uses,
 - (j) suitably located public facilities and services, including provision for traffic management facilities and parking.
- (4) Subclause (2) does not apply to the following development—
- (a) a subdivision for the purposes of a realignment of boundaries that does not create additional lots,
 - (b) a subdivision of land in a zone in which the erection of structures is prohibited,
 - (c) development of a minor nature only, if, in the consent authority's opinion, the development is consistent with the objectives of the zone in which the development will be carried out.

Schedule 1 Additional permitted uses

(Clause 2.5)

1 Use of certain land at Jamberoo Road, Curramore

- (1) This clause applies to land at Jamberoo Road, Curramore, being part of Lot 1, DP

1070506 and part of Lot 3, DP 258919, identified as “1” on the [Additional Permitted Uses Map](#).

- (2) Development for the purposes of the following is permitted with development consent—
 - (a) in Area A (being the area indicated on that map with vertical bars)—a recreation facility (major) being an amusement park, function centre and any other facilities associated with an amusement park, such as shops, refreshment rooms and amenities,
 - (b) in Area B (being the area indicated on that map with cross hatching)—a car park, water supply system and water recycling facility.

2 Use of certain land at Aldinga Avenue, Gerringong

- (1) This clause applies to land at 9 Aldinga Avenue, Gerringong, being Lot 220, DP 1060665, identified as “2” on the [Additional Permitted Uses Map](#).
- (2) Development for the purposes of multi dwelling housing is permitted with consent.
- (3) Development consent under subclause (2) must not be granted after 5 years from the commencement of this Plan.

3 (Repealed)

4 Use of certain land at Coachwood Street and Jamberoo Road, Kiama

- (1) This clause applies to land at 1 and 2 Coachwood Street, Kiama, being Lots 50 and 51, DP 1098436 and 35 Jamberoo Road, Kiama, being Lot 1, DP 157984, identified as “4” on the [Additional Permitted Uses Map](#).
- (2) Development for the purposes of multi dwelling housing is permitted with consent.
- (3) Development consent under subclause (2) must not be granted after 5 years from the commencement of this Plan.

5 Use of certain land at the Kiama Harbour and Headland Reserve, Kiama

- (1) This clause applies to land at Terralong Street, Kiama, being Lot 281, DP 729151 and Lot 150, DP 751279, identified as “5” on the [Additional Permitted Uses Map](#).
- (2) Development for the purposes of a shop selling fresh seafood is permitted with development consent.

6 Use of certain land at Thornett Way, Kiama Downs

- (1) This clause applies to land at 12 Thornett Way, Kiama Downs, being part of Lot 1, DP 832012 that is located in the Zone C3 Environmental Management, identified as “6”

on the [Additional Permitted Uses Map](#).

- (2) Development for the purposes of dwelling house, dual occupancy or a place of public worship is permitted with development consent.

7 Use of certain land at Rose Valley Road, Rose Valley
