Dungog Local Environmental Plan 2014

New South Wales

Part 1 Preliminary

1.1 Name of Plan

This Plan is *Dungog Local Environmental Plan 2014*.

1.1AA Commencement

This Plan commences on 1 June 2014 and is required to be published on the NSW legislation website.

1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Dungog in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.
- (2) The particular aims of this Plan are as follows—
 - (aa) to protect and promote the use and development of land for arts and cultural activity, including music and other performance arts,
 - (a) to protect rural lands, natural resources, and items and areas of heritage significance,
 - (b) to manage development to benefit the community,
 - (c) to promote the principles of ecologically sustainable development and sustainable water management, and to recognise the cumulative impacts of climate change,
 - (d) to protect, enhance and provide for biological diversity, including native threatened species, populations and ecological communities, by long term management and by identifying and protecting habitat corridors and links throughout Dungog,
 - (e) to encourage a mix of housing to meet the needs of the community,
 - (f) to protect agricultural lands by preventing adverse impacts from non-agricultural

land uses,

(g) to strengthen retail, agricultural and tourism opportunities.

1.3 Land to which Plan applies

This Plan applies to the land identified on the [Land Application Map](#).

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—
 - (a) approved by the local plan-making authority when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note—

The maps adopted by this Plan are to be made available on the NSW Planning Portal. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note—

The following local environmental plans are repealed under this provision—

Dungog Local Environmental Plan 2006

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or

- (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows—

Rural Zones

RU1 Primary Production

RU3 Forestry

RU5 Village

Residential Zones

R1 General Residential

R5 Large Lot Residential

Employment Zones

E1 Local Centre

E4 General Industrial

Mixed Use Zones

MU1 Mixed Use

Special Purpose Zones

SP2 Infrastructure

Recreation Zones

RE1 Public Recreation

RE2 Private Recreation

Conservation Zones

C1 National Parks and Nature Reserves

C3 Environmental Management

C4 Environmental Living

Waterway Zones

W1 Natural Waterways

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes—

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
 - 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling

and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#), as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
 - (a) a constructed canal, or other waterway or waterbody, that—
 - (i) is inundated by surface water or groundwater movement, or
 - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
 - (b) the erection of a dwelling, and
 - (c) one or both of the following—
 - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,
 - (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
 - (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
 - (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—

flood planning area has the same meaning as in clause 5.21.

Land Use Table

Note—

State environmental planning policies, including the following, may be relevant to development on land to which this Plan applies—

[State Environmental Planning Policy \(Housing\) 2021](#)

[State Environmental Planning Policy \(Transport and Infrastructure\) 2021](#), Chapter 2—relating to infrastructure facilities, including air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

[State Environmental Planning Policy \(Resources and Energy\) 2021](#), Chapter 2

[State Environmental Planning Policy \(Resilience and Hazards\) 2021](#), Chapter 3

[State Environmental Planning Policy \(Industry and Employment\) 2021](#), Chapter 3

[State Environmental Planning Policy \(Primary Production\) 2021](#), Chapter 2

Zone RU1 Primary Production

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To encourage diversity in primary industry enterprises and systems appropriate for the area.
- To minimise the fragmentation and alienation of resource lands.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for recreational and tourist activities that are compatible with the agricultural, environmental and conservation value of the land.
- To promote the rural amenity and scenic landscape values of the area and prevent the silhouetting of unsympathetic development on ridgelines.

2 Permitted without consent

Environmental protection works; Extensive agriculture; Home occupations; Horticulture; Markets; Roads; Roadside stalls

3 Permitted with consent

Agritourism; Airstrips; Animal boarding or training establishments; Aquaculture; Boat building and repair facilities; Boat launching ramps; Boat sheds; Camping grounds; Car parks; Caravan parks; Cellar door premises; Cemeteries; Charter and tourism boating facilities; Community facilities; Correctional centres; Crematoria; Dual occupancies; Dwelling houses; Eco-tourist facilities; Educational establishments; Environmental facilities; Extractive industries; Farm buildings; Flood mitigation works; Forestry; Freight transport facilities; Function centres; Group homes; Health services facilities; Helipads; Heliports; Highway service centres; Home-based child care; Home businesses; Home industries; Industrial training facilities; Information and education facilities; Intensive livestock agriculture; Intensive plant agriculture; Jetties; Kiosks; Landscaping material supplies; Marinas; Moorings; Open cut mining; Places of public worship; Plant nurseries; Recreation areas; Recreation facilities (outdoor); Restaurants or cafes; Rural industries; Rural supplies; Rural workers' dwellings; Signage; Timber yards; Tourist and visitor accommodation; Transport depots; Truck depots; Veterinary hospitals; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone RU3 Forestry

1 Objectives of zone

- To enable development for forestry purposes.
- To enable other development that is compatible with forestry land uses.

2 Permitted without consent

Bee keeping; Roads; Uses authorised under the *Forestry Act 2012* or under Part 5B (Private native forestry) of the *Local Land Services Act 2013*

3 Permitted with consent

Aquaculture Eco-tourist facilities

4 Prohibited

Any development not specified in item 2 or 3

Zone RU5 Village

1 Objectives of zone

- To provide for a range of land uses, services and facilities that are associated with a rural village.
- To promote the growth of individual settlements as local service centres.
- To encourage a variety of mixed-use development.
- To enhance the character, including the cultural and built heritage, of each village.

2 Permitted without consent

Extensive agriculture; Home occupations; Markets; Roads; Roadside stalls

3 Permitted with consent

Centre-based child care facilities; Community facilities; Dwelling houses; Neighbourhood shops; Oyster aquaculture; Places of public worship; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Schools; Tank-based aquaculture; Any other development not

specified in item 2 or 4

4 Prohibited

Air transport facilities; Airstrips; Animal boarding or training establishments; Dairies (pasture-based); Farm buildings; Forestry; Heavy industrial storage establishments; Heavy industries; Industrial training facilities; Intensive livestock agriculture; Intensive plant agriculture; Open cut mining; Pond-based aquaculture; Rural workers' dwellings; Secondary dwellings

Zone R1 General Residential

1 Objectives of zone

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To allow a mix of community, service and employment activities that are compatible in scale and impact with a residential environment.

2 Permitted without consent

Home occupations; Markets; Roads; Roadside stalls

3 Permitted with consent

Attached dwellings; Boarding houses; Centre-based child care facilities; Community facilities; Dwelling houses; Funeral homes; Group homes; Hostels; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Residential flat buildings; Respite day care centres; Semi-detached dwellings; Seniors housing; Shop top housing; Tank-based aquaculture; Veterinary hospitals; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Amusement centres; Animal boarding or training establishments; Boat building and repair facilities; Boat sheds; Business premises; Charter and tourism boating facilities; Correctional centres; Depots; Eco-tourist facilities; Extractive industries; Farm buildings; Farm stay accommodation; Food and drink premises; Forestry; Freight transport

facilities; Garden centres; Hardware and building supplies; Heavy industrial storage establishments; Helipads; Highway service centres; Home occupations (sex services); Industrial retail outlets; Industrial training facilities; Industries; Landscaping material supplies; Marinas; Mooring pens; Moorings; Office premises; Open cut mining; Passenger transport facilities; Plant nurseries; Port facilities; Public administration buildings; Registered clubs; Research stations; Resource recovery facilities; Restricted premises; Rural industries; Rural supplies; Rural workers' dwellings; Service stations; Sex services premises; Shops; Specialised retail premises; Storage premises; Timber yards; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Warehouse or distribution centres; Waste disposal facilities

Zone R5 Large Lot Residential

1 Objectives of zone

- To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To isolate housing from existing intensive agriculture or future intensive agricultural areas.

2 Permitted without consent

Extensive agriculture; Home occupations; Markets; Roads; Roadside stalls

3 Permitted with consent

Agritourism; Bed and breakfast accommodation; Boarding houses; Boat launching ramps; Car parks; Cellar door premises; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Farm buildings; Farm stay

accommodation; Flood mitigation works; Function centres; Home-based child care; Home businesses; Information and education facilities; Jetties; Kiosks; Neighbourhood shops; Oyster aquaculture; Places of public worship; Plant nurseries; Pond-based aquaculture; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Research stations; Respite day care centres; Rural supplies; Sewerage systems; Signage; Tank-based aquaculture; Vehicle body repair workshops; Vehicle repair stations; Veterinary hospitals; Water recreation structures; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone E1 Local Centre

1 Objectives of zone

- To provide a range of retail, business and community uses that serve the needs of people who live in, work in or visit the area.
- To encourage investment in local commercial development that generates employment opportunities and economic growth.
- To enable residential development that contributes to a vibrant and active local centre and is consistent with the Council's strategic planning for residential development in the area.
- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.

2 Permitted without consent

Home occupations; Roads

3 Permitted with consent

Amusement centres; Boarding houses; Centre-based child care facilities; Commercial premises; Community facilities; Entertainment facilities; Function centres; Home industries; Hotel or motel accommodation; Information and education facilities; Local distribution premises; Medical centres; Oyster aquaculture; Places of public worship; Public administration buildings; Recreation facilities (indoor); Respite day care centres; Self-storage units; Service stations; Shop top housing; Tank-based aquaculture; Veterinary hospitals; Any other development not specified in item 2 or 4

Zone E4 General Industrial

1 Objectives of zone

- To provide a range of industrial, warehouse, logistics and related land uses.
- To ensure the efficient and viable use of land for industrial uses.
- To minimise any adverse effect of industry on other land uses.
- To encourage employment opportunities.
- To enable limited non-industrial land uses that provide facilities and services to meet the needs of businesses and workers.

2 Permitted without consent

Home occupations; Roads

3 Permitted with consent

Depots; Freight transport facilities; Garden centres; General industries; Goods repair and reuse premises; Hardware and building supplies; Industrial retail outlets; Industrial training facilities; Light industries; Local distribution premises; Neighbourhood shops; Oyster aquaculture; Take away food and drink premises; Tank-based aquaculture; Warehouse or distribution centres; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Airstrips; Business premises; Camping grounds; Caravan parks; Cellar door premises; Eco-tourist facilities; Entertainment facilities; Exhibition homes; Exhibition villages; Farm buildings; Food and drink premises; Forestry;

Function centres; Heavy industries; Marinas; Markets; Mooring pens; Moorings; Office premises; Recreation facilities (outdoor); Registered clubs; Residential accommodation; Roadside stalls; Shops; Specialised retail premises; Stock and sale yards; Tourist and visitor accommodation

Zone MU1 Mixed Use

1 Objectives of zone

- To encourage a diversity of business, retail, office and light industrial land uses that generate employment opportunities.
- To ensure that new development provides diverse and active street frontages to attract pedestrian traffic and to contribute to vibrant, diverse and functional streets and public spaces.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.
- To ensure that the principal means of pedestrian access to any significant retail development is provided by Dowling Street and not by any other public road or vehicular right of way.

2 Permitted without consent

Home occupations; Roads

3 Permitted with consent

Amusement centres; Boarding houses; Car parks; Centre-based child care facilities; Commercial premises; Community facilities; Entertainment facilities; Function centres; Information and education facilities; Light industries; Local distribution premises; Medical centres; Oyster aquaculture; Passenger transport facilities; Places of public worship; Recreation areas; Recreation facilities (indoor); Registered clubs; Respite day care centres; Restricted premises; Shop top housing; Tank-based aquaculture; Tourist and visitor accommodation; Vehicle repair stations; Any other development not specified in item 2 or 4

4 Prohibited

Agriculture; Air transport facilities; Airstrips; Camping grounds; Caravan parks; Eco-tourist facilities; Electricity generating works; Exhibition homes; Exhibition

villages; Extractive industries; Farm buildings; Forestry; Heavy industrial storage establishments; Home occupations (sex services); Industries; Marinas; Mooring pens; Moorings; Open cut mining; Resource recovery facilities; Rural industries; Rural workers' dwellings; Sex services premises; Storage premises; Waste disposal facilities

Zone SP2 Infrastructure

1 Objectives of zone

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone RE1 Public Recreation

1 Objectives of zone

- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Environmental protection works; Markets; Roads; Roadside stalls

3 Permitted with consent

Aquaculture; Boat launching ramps; Boat sheds; Camping grounds; Caravan parks; Cemeteries; Charter and tourism boating facilities; Community facilities;

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2 Private Recreation

1 Objectives of zone

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

2 Permitted without consent

Environmental protection works; Roads

3 Permitted with consent

Aquaculture; Boat launching ramps; Boat sheds; Cemeteries; Charter and tourism boating facilities; Community facilities; Environmental facilities; Jetties; Kiosks; Markets; Mooring pens; Moorings; Recreation areas; Recreation facilities (indoor); Recreation facilities (major); Recreation facilities (outdoor); Registered clubs; Roadside stalls; Sewerage systems; Signage; Water recreation structures; Water supply systems

4 Prohibited

Any development not specified in item 2 or 3

Zone C1 National Parks and Nature Reserves

1 Objectives of zone

- To enable the management and appropriate use of land that is reserved under the [National Parks and Wildlife Act 1974](#) or that is acquired under Part 11 of that Act.
- To enable uses authorised under the [National Parks and Wildlife Act 1974](#).

- To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the *National Parks and Wildlife Act 1974*

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Zone C3 Environmental Management

1 Objectives of zone

- To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
- To provide for a limited range of development that does not have an adverse effect on those values.
- To promote the rural amenity and scenic landscape values of the area and prevent the silhouetting of unsympathetic development on ridgelines.

2 Permitted without consent

Bee keeping; Home occupations

3 Permitted with consent

Agritourism; Bed and breakfast accommodation; Boat launching ramps; Camping grounds; Caravan parks; Dwelling houses; Eco-tourist facilities; Emergency services facilities; Environmental facilities; Environmental protection works; Extensive agriculture; Farm buildings; Farm stay accommodation; Home-based childcare; Information and education facilities; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Public administration buildings; Recreation areas; Research stations; Roads; Sewerage systems; Tank-based aquaculture; Water recreation structures; Water supply systems

4 Prohibited

Industries; Local distribution premises; Multi dwelling housing; Residential flat buildings; Retail premises; Seniors housing; Service stations; Warehouse or

distribution centres; Any other development not specified in item 2 or 3

Zone C4 Environmental Living

1 Objectives of zone

- To provide for low-impact residential development in areas with special ecological, scientific or aesthetic values.
- To ensure that residential development does not have an adverse effect on those values.

2 Permitted without consent

Environmental protection works; Home-based child care; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat launching ramps; Camping grounds; Car parks; Caravan parks; Cellar door premises; Centre-based child care facilities; Community facilities; Dual occupancies (attached), Dwelling houses; Eco-tourist facilities; Emergency services facilities; Environmental facilities; Farm stay accommodation; Home businesses; Information and education facilities; Jetties; Kiosks; Markets; Neighbourhood shops; Oyster aquaculture; Pond-based aquaculture; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Research stations; Respite day care centres; Roads; Roadside stalls; Sewerage systems; Signage; Tank-based aquaculture; Veterinary hospitals; Water recreation structures; Water supply systems

4 Prohibited

Industries; Local distribution premises; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W1 Natural Waterways

1 Objectives of zone

- To protect the ecological and scenic values of natural waterways.
- To prevent development that would have an adverse effect on the natural values of waterways in this zone.
- To provide for sustainable fishing industries and recreational fishing.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Aquaculture Boat launching ramps; Boat sheds; Camping grounds; Charter and tourism boating facilities; Environmental facilities; Jetties; Mooring pens; Moorings; Water recreation structures; Water supply systems; Wharf or boating facilities

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Local distribution premises; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development—
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if—

- (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must—
- (a) be installed in accordance with the manufacturer’s specifications, if applicable, and
 - (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note—

See [State Environmental Planning Policy \(Biodiversity and Conservation\) 2021](#), Chapter 2 and the [Local Land Services Act 2013](#), Part 5A.

- (6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—
- (a) the development standards specified in relation to that development, and
 - (b) the requirements of this Part,
- is complying development.

Note—

See also clause 5.8(3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- (3) To be complying development, the development must—
- (a) be permissible, with development consent, in the zone in which it is carried out, and
 - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
 - (c) have an approval, if required by the [Local Government Act 1993](#), from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

- (5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause—

environmentally sensitive area for exempt or complying development means any of the following—

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the *Coastal Management Act 2016*),
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the *Crown Land Management Act 2016* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows—
- (a) to ensure that subdivision reflects and reinforces the predominant subdivision pattern of the area,

- (b) to minimise any likely impact of subdivision and development on the amenity of neighbouring properties,
 - (c) to ensure that lot sizes and dimensions are able to accommodate development consistent with relevant development controls,
 - (d) to ensure that lot sizes and dimensions allow dwellings to be sited to protect natural features and retain special features such as trees and views,
 - (e) to protect and enhance waterways by restricting the creation of new riparian rights through subdivision so as to prevent increased direct access onto rivers.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of any land—
- (a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or
 - (b) by any kind of subdivision under the [Community Land Development Act 2021](#).

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows—
- (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 2021](#) of land in any of the following zones—
- (a) Zone RU1 Primary Production,
 - (b) Zone C3 Environmental Management,
 - (c) Zone C4 Environmental Living,
- but does not apply to a subdivision by the registration of a strata plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the [Community Land Development Act 2021](#)) is not to be less than the minimum size

shown on the [Lot Size Map](#) in relation to that land.

(4) This clause applies despite clause 4.1.

4.1A Exceptions to minimum subdivision lot sizes for certain split zones

(1) The objectives of this clause are as follows—

- (a) to provide for the subdivision of lots that are within more than one zone but cannot be subdivided under clause 4.1,
- (b) to ensure that the subdivision occurs in a manner that promotes suitable land uses and development.

(2) This clause applies to each lot (an **original lot**) that contains—

- (a) land in Zone RU5 Village, Zone R1 General Residential, Zone R5 Large Lot Residential or Zone E4 General Industrial, and
- (b) land in Zone RU1 Primary Production or Zone C3 Environmental Management.

(3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the **resulting lots**) if—

- (a) one of the resulting lots will contain all of the land in Zone RU1 Primary Production or Zone C3 Environmental Management that was in the original lot, and—
 - (i) an existing dwelling, or
 - (ii) land in Zone RU5 Village, Zone R1 General Residential, Zone R5 Large Lot Residential or Zone E4 General Industrial that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land, and
- (b) all other resulting lots will contain land that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

4.1B Exceptions to minimum subdivision lot size for lot boundary adjustments in Zone RU1

- (1) The objective of this clause is to permit lot boundary adjustments in Zone RU1 Primary Production that will provide improved agricultural outcomes without creating additional opportunities for the erection of dwellings.
- (2) Development consent may be granted for the subdivision of land in Zone RU1 Primary Production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land if the consent authority is satisfied that—
 - (a) the subdivision will not result in the creation of an additional lot or the opportunity for additional dwelling entitlements on any of the lots, and

- (b) the subdivision will not adversely impact on the long-term agricultural production potential of the lots and the surrounding locality.

4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (baa) Zone RU3 Forestry,
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone RU6 Transition.

Note—

When this Plan was made it did not include all of these zones.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses and dual occupancies on land in certain rural and conservation zones

- (1) The objectives of this clause are as follows—
 - (a) to minimise unplanned rural residential development,
 - (b) to enable the replacement of lawfully erected dwelling houses and dual occupancies in rural and conservation zones.
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,

(b) Zone C3 Environmental Management,

(c) Zone C4 Environmental Living.

(3) Development consent must not be granted for the erection of a dwelling house or a dual occupancy on land to which this clause applies, and on which no dwelling house or dual occupancy has been erected, unless the lot on which the dwelling is to be erected—

(a) is a lot that is at least the minimum lot size shown on the [Lot Size Map](#) in relation to that land on which the dwelling house or dual occupancy is proposed, or

(b) is a lot created under this Plan (other than under clause 4.1B or clause 4.2(3)), or

(c) is a lot created before this Plan commenced and—

(i) the erection of a dwelling house was permissible on that lot, and

(ii) no development standards limiting the power to grant development consent for the erection of a dwelling house applied to that lot,

before that commencement, or

(d) is a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or a dual occupancy would have been permissible if the plan of subdivision had been registered before that commencement, or

(e) is an existing holding, or

(f) would have been a lot or a holding referred to in paragraph (a), (b), (c), (d) or (e) had it not been affected by—

(i) a minor realignment of its boundaries that did not create an additional lot, or

(ii) a subdivision creating or widening a public road or public reserve or for another public purpose, or

(iii) a consolidation with an adjoining public road or public reserve or for another public purpose, or

(g) is Lot 1, DP 867951, 1177 Fosterton Road, Fosterton.

Note—

A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.

(4) Development consent may be granted for the erection of a dwelling house or a dual occupancy on land to which this clause applies if there is a lawfully erected dwelling

house or dual occupancy on the land and the dwelling house or dual occupancy to be erected is intended only to replace the existing dwelling house or dual occupancy.

(5) In this clause—

existing holding means land that—

(a) was a holding on 1 July 2003, and

(b) is the same holding at the time of lodging a development application under this clause,

whether or not there has been a change in the ownership of the holding since 1 July 2003.

holding means all adjoining land, even if separated by a road, river or railway, held by the same person or persons.

Note—

The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

4.2B Minimum subdivision lot size for strata plan schemes in certain rural and conservation zones

(1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to land in the following zones that is used, or is proposed to be used, for residential accommodation or tourist and visitor accommodation—

(a) Zone RU1 Primary Production,

(b) Zone C3 Environmental Management,

(c) Zone C4 Environmental Living.

(3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

4.3 Height of buildings

[Not adopted]

4.4 Floor space ratio

[Not adopted]

4.5 Calculation of floor space ratio and site area

[Not adopted]

4.6 Exceptions to development standards

(1) The objectives of this clause are as follows—

- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
- (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating—

- (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
- (b) that there are sufficient environmental planning grounds to justify contravening the development standard.

(4) Development consent must not be granted for development that contravenes a development standard unless—

(a) the consent authority is satisfied that—

- (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
- (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Planning Secretary has been obtained.

- (5) In deciding whether to grant concurrence, the Planning Secretary must consider—
- (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Planning Secretary before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note—

When this Plan was made it did not include all of these zones.

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
 - (c) clause 5.4,
 - (caa) clause 5.5,
 - (ca) clause 4.1A.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Transport for NSW
Zone C1 National Parks and Nature Reserves and marked "National Park"	Minister administering the National Parks and Wildlife Act 1974

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

Note—

Under the [Local Government Act 1993](#), "public land" is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#).

Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
 - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30(2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is—
 - (a) 50 metres from any zone boundary shared with Zone RU1 Primary Production, or
 - (b) 20 metres from any other zone boundary.

(3) This clause does not apply to—

- (a) land in Zone RE1 Public Recreation, Zone C1 National Parks and Nature Reserves, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone W1 Natural Waterways, or
- (b) land within the coastal zone, or
- (c) land proposed to be developed for the purpose of sex services or restricted premises.

Note—

When this Plan was made it did not include all of these zones.

(4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that—

- (a) the development is not inconsistent with the objectives for development in both zones, and
- (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.

(5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

(1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

(2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

(3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 60 square metres of floor area.

(4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is

permitted under this Plan, the retail floor area must not exceed—

(a) 43% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or

(b) 400 square metres,

whichever is the lesser.

(5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms in buildings.

(6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 30 square metres.

(7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 80 square metres.

(7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.

(8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 10 square metres.

(9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—

(a) 60 square metres,

(b) 33% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

(a) 43% of the gross floor area of the industry, or

(b) 400 square metres,

whichever is the lesser.

5.5 Controls relating to secondary dwellings on land in a rural zone

[Not adopted]

5.6 Architectural roof features

[Not adopted]

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent—
 - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
 - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
 - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of—
 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause—

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Dwelling house or secondary dwelling affected by natural disaster

[Not adopted]

5.9AA (Repealed)

5.10 Heritage conservation

Note—

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows—

- (a) to conserve the environmental heritage of Dungog,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following—

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—
 - (i) a heritage item,
 - (ii) an Aboriginal object,
 - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land—

- (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
- (f) subdividing land—
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.
- (3) **When consent not required** However, development consent under this clause is not required if—
 - (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
 - (b) the development is in a cemetery or burial ground and the proposed development—
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
 - (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
 - (d) the development is exempt development.
- (4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of

whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

- (5) **Heritage assessment** The consent authority may, before granting consent to any development—
- (a) on land on which a heritage item is located, or
 - (b) on land that is within a heritage conservation area, or
 - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),
- require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies)—
- (a) notify the Heritage Council of its intention to grant consent, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
 - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—

- (a) notify the Heritage Council about the application, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—

- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note—

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 2.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

- (1) The objectives of this clause are as follows—
 - (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
 - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that—
 - (a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and
 - (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and
 - (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
 - (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and native flora and fauna will be minimal, and
 - (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
 - (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
 - (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours, materials and landscaping with local native flora, and
 - (h) any infrastructure services to the site will be provided without significant modification to the environment, and
 - (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and

- (j) the development will not adversely affect the agricultural productivity of adjoining land, and
- (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment—
 - (i) measures to remove any threat of serious or irreversible environmental damage,
 - (ii) the maintenance (or regeneration where necessary) of habitats,
 - (iii) efficient and minimal energy and water use and waste output,
 - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
 - (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

5.16 Subdivision of, or dwellings on, land in certain rural, residential or conservation zones

- (1) The objective of this clause is to minimise potential land use conflict between existing and proposed development on land in the rural, residential or conservation zones concerned (particularly between residential land uses and other rural land uses).
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone RU3 Forestry,
 - (d) Zone RU4 Primary Production Small Lots,
 - (e) Zone RU6 Transition,
 - (f) Zone R5 Large Lot Residential,
 - (g) Zone C2 Environmental Conservation,
 - (h) Zone C3 Environmental Management,

- (i) Zone C4 Environmental Living.
- (3) A consent authority must take into account the matters specified in subclause (4) in determining whether to grant development consent to development on land to which this clause applies for either of the following purposes—
 - (a) subdivision of land proposed to be used for the purposes of a dwelling,
 - (b) erection of a dwelling.
- (4) The following matters are to be taken into account—
 - (a) the existing uses and approved uses of land in the vicinity of the development,
 - (b) whether or not the development is likely to have a significant impact on land uses that, in the opinion of the consent authority, are likely to be preferred and the predominant land uses in the vicinity of the development,
 - (c) whether or not the development is likely to be incompatible with a use referred to in paragraph (a) or (b),
 - (d) any measures proposed by the applicant to avoid or minimise any incompatibility referred to in paragraph (c).

5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations

[Not applicable]

5.18 Intensive livestock agriculture

- (1) The objectives of this clause are—
 - (a) to ensure appropriate environmental assessment of development for the purpose of intensive livestock agriculture that is permitted with consent under this Plan, and
 - (b) to provide for certain capacity thresholds below which development consent is not required for that development subject to certain restrictions as to location.
- (2) This clause applies if development for the purpose of intensive livestock agriculture is permitted with consent under this Plan.
- (3) In determining whether or not to grant development consent under this Plan to development for the purpose of intensive livestock agriculture, the consent authority must take the following into consideration—
 - (a) the adequacy of the information provided in the statement of environmental effects or (if the development is designated development) the environmental impact statement accompanying the development application,

- (b) the potential for odours to adversely impact on the amenity of residences or other land uses within the vicinity of the site,
 - (c) the potential for the pollution of surface water and ground water,
 - (d) the potential for the degradation of soils,
 - (e) the measures proposed to mitigate any potential adverse impacts,
 - (f) the suitability of the site in the circumstances,
 - (g) whether the applicant has indicated an intention to comply with relevant industry codes of practice for the health and welfare of animals,
 - (h) the consistency of the proposal with, and any reasons for departing from, the environmental planning and assessment aspects of any guidelines for the establishment and operation of relevant types of intensive livestock agriculture published, and made available to the consent authority, by the Department of Primary Industries (within the Department of Industry) and approved by the Planning Secretary.
- (4) Despite any other provision of this Plan, development for the purpose of intensive livestock agriculture may be carried out without development consent if—
- (a) the development is of a type specified in subclause (5), and
 - (b) the consent authority is satisfied that the development will not be located—
 - (i) in an environmentally sensitive area, or
 - (ii) within 100 metres of a natural watercourse, or
 - (iii) in a drinking water catchment, or
 - (iv) within 500 metres of any dwelling that is not associated with the development, or a residential zone, or
 - (v) for a poultry farm used for breeding poultry—within 5km of another poultry farm, or
 - (vi) for a poultry farm not used for breeding poultry—
 - (A) within 5km of a poultry farm used for breeding poultry, or
 - (B) within 1km of a poultry farm not used for breeding poultry, or
 - (vii) for a pig farm—within 3km of another pig farm.
- (5) The following types of development are specified for the purposes of subclause (4)—

- (a) a cattle feedlot having a capacity to accommodate fewer than 50 head of cattle,
 - (b) a goat feedlot having a capacity to accommodate fewer than 200 goats,
 - (c) a sheep feedlot having a capacity to accommodate fewer than 200 sheep,
 - (d) a pig farm having a capacity to accommodate fewer than 20 breeding sows, or fewer than 200 pigs (of which fewer than 20 may be breeding sows),
 - (e) a dairy (restricted) having a capacity to accommodate fewer than 50 dairy cows,
 - (f) a poultry farm having a capacity to accommodate fewer than 1,000 birds for meat or egg production (or both).
- (6) For the avoidance of doubt, subclause (4) does not apply to development that is prohibited or that may be carried out without development consent under this or any other environmental planning instrument.
- (7) In this clause—

environmentally sensitive area has the same meaning as in clause 1.5 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

residential zone means Zone RU4 Primary Production Small Lots, Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E3 Productivity Support, Zone MU1 Mixed Use, Zone C3 Environmental Management or Zone C4 Environmental Living.

5.19 Pond-based, tank-based and oyster aquaculture

- (1) **Objectives** The objectives of this clause are as follows—
- (a) to encourage sustainable oyster, pond-based and tank-based aquaculture in the State, namely, aquaculture development that uses, conserves and enhances the community's resources so that the total quality of life now and in the future can be preserved and enhanced,
 - (b) to set out the minimum site location and operational requirements for permissible pond-based and tank-based aquaculture development.
- (2) **Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied before granting consent** The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—
- (a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,

- (b) in the case of—
- (i) pond-based aquaculture in Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E1 Local Centre, Zone E2 Commercial Centre, Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial or Zone MU1 Mixed Use—that the development is for the purpose of small scale aquarium fish production, and
 - (ii) pond-based aquaculture in Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of extensive aquaculture, and
 - (iii) tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and
 - (iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.
- (3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.
- (4) **Extensive pond-based aquaculture permitted without consent in certain zones**
Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—
- (a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and
 - (b) the development complies with the site location requirements and operational requirements set out in Part 2 of Schedule 6.
- (5) **Oyster aquaculture—additional matters that consent authority must consider in determining a development application** In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—
- (a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and

(b) the *NSW Oyster Industry Sustainable Aquaculture Strategy*.

(6) **Oyster aquaculture permitted without consent in priority oyster aquaculture areas**

Development for the purpose of oyster aquaculture may be carried out without development consent—

(a) on land that is wholly within a priority oyster aquaculture area, or

(b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.

(7) **Definitions** In this clause—

aquaculture industry development plan means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

extensive aquaculture has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

NSW Oyster Industry Sustainable Aquaculture Strategy means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within the Department of Industry).

priority oyster aquaculture area means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department's website.

5.20 Standards that cannot be used to refuse consent—playing and performing music

(1) The consent authority must not refuse consent to development in relation to licensed premises on the following grounds—

(a) the playing or performance of music, including the following—

(i) the genre of music played or performed, or

(ii) whether the music played or performed is live or amplified, or

(iii) whether the music played or performed is original music, or

(iv) the number of musicians or live entertainment acts playing or performing, or

(v) the type of instruments played,

(b) whether dancing occurs,

(c) the presence or use of a dance floor or another area ordinarily used for dancing,

- (d) the direction in which a stage for players or performers faces,
 - (e) the decorations to be used, including, for example, mirror balls, or lighting used by players or performers.
- (2) The consent authority must not refuse consent to development in relation to licensed premises on the grounds of noise caused by the playing or performance of music, if the consent authority is satisfied the noise may be managed and minimised to an acceptable level.
- (3) In this clause—

licensed premises has the same meaning as in the *Liquor Act 2007*.

5.21 Flood planning

- (1) The objectives of this clause are as follows—
- (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the flood function and behaviour on the land, taking into account projected changes as a result of climate change,
 - (c) to avoid adverse or cumulative impacts on flood behaviour and the environment,
 - (d) to enable the safe occupation and efficient evacuation of people in the event of a flood.
- (2) Development consent must not be granted to development on land the consent authority considers to be within the flood planning area unless the consent authority is satisfied the development—
- (a) is compatible with the flood function and behaviour on the land, and
 - (b) will not adversely affect flood behaviour in a way that results in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) will not adversely affect the safe occupation and efficient evacuation of people or exceed the capacity of existing evacuation routes for the surrounding area in the event of a flood, and
 - (d) incorporates appropriate measures to manage risk to life in the event of a flood, and
 - (e) will not adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses.

- (3) In deciding whether to grant development consent on land to which this clause applies, the consent authority must consider the following matters—
 - (a) the impact of the development on projected changes to flood behaviour as a result of climate change,
 - (b) the intended design and scale of buildings resulting from the development,
 - (c) whether the development incorporates measures to minimise the risk to life and ensure the safe evacuation of people in the event of a flood,
 - (d) the potential to modify, relocate or remove buildings resulting from development if the surrounding area is impacted by flooding or coastal erosion.
- (4) A word or expression used in this clause has the same meaning as it has in the *Considering Flooding in Land Use Planning Guideline* unless it is otherwise defined in this clause.
- (5) In this clause—

Considering Flooding in Land Use Planning Guideline means the *Considering Flooding in Land Use Planning Guideline* published on the Department's website on 14 July 2021.

flood planning area has the same meaning as it has in the *Floodplain Development Manual*.

Floodplain Development Manual means the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005.

5.24 Farm stay accommodation

- (1) The objectives of this clause are as follows—
 - (a) to diversify the uses of agricultural land without adversely impacting the principal use of the land for primary production,
 - (b) to balance the impact of tourism and related commercial uses with the use of land for primary production, the environment, scenic values, infrastructure and adjoining land uses.
- (2) Development consent must not be granted to development for the purposes of farm

stay accommodation on a landholding unless the consent authority is satisfied all buildings or manufactured homes used to accommodate guests on the landholding will be—

- (a) on the same lot as an existing lawful dwelling house, or
 - (b) on a lot of a size not less than the minimum lot size for a dwelling house to be permitted on the lot under an environmental planning instrument applying to the land.
- (3) Subclause (2) does not apply if the development is a change of use of an existing dwelling to farm stay accommodation.
- (4) Development consent must not be granted to development for the purposes of farm stay accommodation on land unless the consent authority has considered—
- (a) whether the development will result in noise or pollution that will have a significant adverse impact on the following on or near the land—
 - (i) residential accommodation,
 - (ii) primary production operations,
 - (iii) other land uses, and
 - (b) whether the development will have a significant adverse impact on the following on or near the land—
 - (i) the visual amenity or heritage or scenic values,
 - (ii) native or significant flora or fauna,
 - (iii) water quality,
 - (iv) traffic,
 - (v) the safety of persons, and
 - (c) whether the development is on bush fire prone land or flood prone land, and
 - (d) the suitability of the land for the development, and
 - (e) the compatibility of the development with nearby land uses.

5.25 Farm gate premises

- (1) The objectives of this clause are as follows—
- (a) to allow for tourism and related commercial uses on land used principally for primary production at a scale that does not adversely affect the principal use of the land for primary production,

- (b) to balance the impact of tourism and related commercial uses with the use of land for primary production, the environment, scenic values, infrastructure and adjoining land uses.
- (2) Development consent must not be granted to development for the purposes of farm gate premises on land unless the consent authority has considered—
 - (a) whether the development will result in noise or pollution that will have a significant adverse impact on the following on or near the land—
 - (i) residential accommodation,
 - (ii) primary production operations,
 - (iii) other land uses, and
 - (b) whether the development will have a significant adverse impact on the following on or near the land—
 - (i) the visual amenity or heritage or scenic values,
 - (ii) native or significant flora or fauna,
 - (iii) water quality,
 - (iv) traffic,
 - (v) the safety of persons, and
 - (c) whether the development is on bush fire prone land or flood prone land, and
 - (d) the suitability of the land for the proposed development, and
 - (e) the compatibility of the development with nearby land uses.

Part 6 Additional local provisions

6.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

Class of land	Works
1	Any works.

- | | |
|---|---|
| 2 | Works below the natural ground surface.
Works by which the watertable is likely to be lowered. |
| 3 | Works more than 1 metre below the natural ground surface.
Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface. |
| 4 | Works more than 2 metres below the natural ground surface.
Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface. |
| 5 | Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land. |

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.
- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if—
- (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power)—
- (a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
 - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),

- (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if—
 - (a) the works involve the disturbance of less than 1 tonne of soil, and
 - (b) the works are not likely to lower the watertable.

6.2 Earthworks

- (1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.
- (2) Development consent is required for earthworks unless—
 - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or
 - (b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) In deciding whether to grant development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters—
 - (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,
 - (b) the effect of the development on the likely future use or redevelopment of the land,
 - (c) the quality of the fill or the soil to be excavated, or both,
 - (d) the effect of the development on the existing and likely amenity of adjoining properties,
 - (e) the source of any fill material and the destination of any excavated material,
 - (f) the likelihood of disturbing relics,
 - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
 - (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

Note—

The *National Parks and Wildlife Act 1974*, particularly section 86, deals with harming Aboriginal objects.

6.3 (Repealed)

6.4 Stormwater management

- (1) The objective of this clause is to minimise the impacts of urban stormwater on land to which this clause applies and on adjoining properties, native bushland and receiving waters.
- (2) This clause applies to all land in residential, employment and mixed use zones.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—
 - (a) is designed to maximise the use of water permeable surfaces on the land having regard to the soil characteristics affecting on-site infiltration of water, and
 - (b) includes, if practicable, on-site stormwater retention for use as an alternative supply to mains water, groundwater or river water, and
 - (c) avoids any significant adverse impacts of stormwater runoff on adjoining properties, native bushland and receiving waters, or if that impact cannot be reasonably avoided, minimises and mitigates the impact.

6.5 Drinking water catchments

- (1) The objective of this clause is to protect drinking water catchments by minimising the adverse impacts of development on the quality and quantity of water entering drinking water storages.
- (2) This clause applies to land identified as “Drinking water catchment” on the [Drinking Water Catchment Map](#).
- (3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider the following—
 - (a) whether or not the development is likely to have any adverse impact on the quality and quantity of water entering the drinking water storage, having regard to the following—
 - (i) the distance between the development and any waterway that feeds into the drinking water storage,
 - (ii) the on-site use, storage and disposal of any chemicals on the land,
 - (iii) the treatment, storage and disposal of waste water and solid waste generated or used by the development,
 - (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of

the development.

- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
 - (a) the development is designed, sited and will be managed to avoid any significant adverse impact on water quality and flows, or
 - (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
 - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.6 Riparian land and watercourses

- (1) The objective of this clause is to protect and maintain the following—
 - (a) water quality within watercourses,
 - (b) the stability of the bed and banks of watercourses,
 - (c) aquatic and riparian habitats,
 - (d) ecological processes within watercourses and riparian areas.
- (2) This clause applies to all of the following—
 - (a) land identified as “Watercourse” on the [Riparian Lands and Watercourses Map](#),
 - (b) all land that is within 40 metres of the top of the bank of each watercourse identified as “Watercourse” on that map.
- (3) In deciding whether to grant development consent for development on land to which this clause applies, the consent authority must consider—
 - (a) whether or not the development is likely to have any adverse impact on the following—
 - (i) the water quality and flows within the watercourse,
 - (ii) aquatic and riparian species, habitats and ecosystems of the watercourse,
 - (iii) the stability of the bed and banks of the watercourse,
 - (iv) the free passage of fish and other aquatic organisms within or along the watercourse,
 - (v) any future rehabilitation of the watercourse and riparian areas, and
 - (b) whether or not the development is likely to increase water extraction from the

watercourse, and

- (c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
 - (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
 - (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
 - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

6.7 Erection of rural workers' dwellings in Zone RU1 and Zone C3

- (1) The objective of this clause is to ensure the provision of adequate accommodation for employees of existing agricultural or rural industries that have a demonstrated economic capacity to support the ongoing employment of rural workers.
- (2) This clause applies to land in Zone RU1 Primary Production and Zone C3 Environmental Management.
- (3) Development consent must not be granted to the erection of a rural worker's dwelling on land to which this clause applies, unless the consent authority is satisfied that—
 - (a) the development will not impair the use of the land for agricultural or rural industries, and
 - (b) the agricultural or rural industry being carried out on the land has a demonstrated economic capacity to support the ongoing employment of rural workers, and
 - (c) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and
 - (d) the development will not result in more than one rural worker's dwelling being erected on the lot comprising the agricultural or rural industry.

6.8 Essential services

- (1) This clause applies to land in Zone RU5 Village or Zone R1 General Residential.
- (2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate

arrangements have been made to make them available when required—

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage,
- (d) stormwater drainage or on-site conservation,
- (e) suitable vehicular access.

6.9 Development in proximity to a rail corridor on Verge Street

- (1) The objective of this clause is to ensure that development for the purposes of residential accommodation, centre-based child care facilities, community facilities, respite day care centres or seniors housing in the proximity of operating or proposed railways is not adversely affected by rail noise or vibration.
- (2) This clause applies to Lot 41, DP 802112, Verge Street, Dungog.
- (3) Development consent must not be granted to development—
 - (a) that is on land to which this clause applies that comprises, or is within 60 metres of, an operating railway line or land reserved for the construction of a railway line, and
 - (b) that the consent authority considers is, or is likely to be, adversely affected by rail noise or vibration,

unless the consent authority is satisfied that the proposed development incorporates reasonable mitigation measures, including measures relating to the location and design of the proposed development, to minimise the impact of rail noise or vibration.

6.10 Williams River catchment

- (1) The objective of this clause is to protect and improve the environmental quality of the Williams River Catchment.
- (2) This clause applies to land identified as “Williams River Catchment Area” on the [Williams River Catchment Map](#).
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered whether the development—
 - (a) promotes the sustainable use of land, water, vegetation and other natural resources within the Williams River Catchment, and
 - (b) promotes the protection and improvement of the environmental quality of the

Williams River Catchment, and

- (c) will have any significant adverse impacts on water quality within the Williams River Catchment, and
- (d) is consistent with the Williams River Catchment Regional Planning Strategy published in September 1997 by the Department of Planning and Environment.

6.11 Dual occupancies (detached) in Zone RU1

- (1) The objectives of this clause are as follows—
 - (a) to provide alternative accommodation for rural families and workers,
 - (b) to ensure that development is of a scale and nature that is compatible with the primary production potential, rural character and environmental capabilities of the land.
- (2) This clause applies to land in Zone RU1 Primary Production.
- (3) Development consent must not be granted to development for the purpose of a dual occupancy (detached) on land to which this clause applies unless the consent authority is satisfied that—
 - (a) the development is sited and designed in such a way as to give the development the appearance of a unified and consistent built form, and
 - (b) the dwellings will be located within 100 metres of each other, and
 - (c) the 2 dwellings have shared infrastructure, including fire breaks, water supply, electricity supply, sewage disposal and management, stormwater drainage and suitable vehicle access, and
 - (d) the development is on land that is physically suitable for the erection of the dwellings.

6.12 Protection of rural landscapes in rural and conservation zones

- (1) The objective of this clause is to protect the rural amenity and character of the land to which this clause applies by managing visual impact.
- (2) This clause applies to land in Zone RU1 Primary Production, Zone RU5 Village, Zone C3 Environmental Management and Zone C4 Environmental Living.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
 - (a) any buildings that form part of the development will blend into the landscape and not become silhouetted on a ridgeline, and

- (b) the design, bulk and colours of any such buildings will be compatible with the surrounding landscape.

Schedule 6 Pond-based and tank-based aquaculture

(Clause 5.19)

Part 1 Pond-based and tank-based aquaculture

Division 1 Site location requirements

1 Conservation exclusion zones

- (1) Must not be carried out on the following land, except to the extent necessary to gain access to water—
 - (a) land declared an area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016*,
 - (b) vacant Crown land,
 - (c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.
- (2) Must not be carried out on the following land, except for the purposes of minimal infrastructure to support the extraction of water from, and discharge of water to, the land concerned—
 - (a) land declared as an aquatic reserve under the *Marine Estate Management Act 2014*,
 - (b) land declared as a marine park under the *Marine Estate Management Act 2014*.

Note—

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

Division 2 Operational requirements

2 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

3 Pond-based aquaculture that is also intensive aquaculture—pond design

For pond-based aquaculture that is also intensive aquaculture—ponds must be capable of being drained or pumped and then completely dried.

4 Pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—freshwater discharges

For pond-based aquaculture and tank-based aquaculture that is also intensive

aquaculture—no discharge of freshwater used to intensively cultivate or keep fish to natural waterbodies or wetlands is permitted, except freshwater discharge from open flow through systems.

5 Outlets from culture ponds etc

All outlets from culture ponds, tanks and other culture facilities must be screened to avoid the escape of fish.

6 Definition

In this Division—

intensive aquaculture has the same meaning as it has in the *Fisheries Management (Aquaculture) Regulation 2017*.

Part 2 Extensive pond-based aquaculture

Division 1 Site location requirements

7 Conservation exclusion zones

- (1) Must not be carried out on the following land, except to the extent necessary to gain access to water—
 - (a) land declared an area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016*,
 - (b) vacant Crown land,
 - (c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

Note—

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

8 Flood liability

Must be designed or constructed on land so that it will not be inundated by the discharge of a 1:100 ARI (average recurrent interval) flood event.

Division 2 Operational requirements

9 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

10 Pond design

- (1) Must not require the construction of new ponds, water storages, dams or buildings.
- (2) Must not be located on permanent watercourses, creeks, billabongs or isolated outreaches of creeks or rivers.
- (3) Must be capable of preventing the escape of stock into natural waterbodies or wetlands.

11 Culture water

Must use freshwater.
