# Manly Local Environmental Plan 2013

New South Wales

## Part 1 Preliminary

### 1.1 Name of Plan

This Plan is *Manly Local Environmental Plan 2013*.

### 1.1AA Commencement

This Plan commences 14 days after it is published on the NSW legislation website.

### 1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Manly in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.
- (2) The particular aims of this Plan are as follows—
  - (aa) to protect and promote the use and development of land for arts and cultural activity, including music and other performance arts,
  - (a) in relation to all land in Manly—
    - (i) to promote a high standard of urban design that responds to the existing or desired future character of areas, and
    - (ii) to foster economic, environmental and social welfare so that Manly continues to develop as an accessible, sustainable, prosperous, and safe place to live, work or visit, and
    - (iii) to ensure full and efficient use of existing social and physical infrastructure and the future provision of services and facilities to meet any increase in demand, and
    - (iv) to ensure all development appropriately responds to environmental constraints and does not adversely affect the character, amenity or heritage of Manly or its existing permanent residential population,

- (b) in relation to residential development—
  - (i) to provide and maintain a diverse range of housing opportunities and choices that encourages affordable housing to cater for an ageing population, changing demographics and all socio-economic groups, and
  - (ii) to ensure high quality landscaped areas in the residential environment, and
  - (iii) to encourage higher density residential development to be located close to major transport nodes, services and employment opportunities, and
  - (iv) to maintain active retail, business and other non-residential uses at street level while allowing for shop top housing in centres and offices at upper floors in local centres,
- (c) in relation to business and the economy—
  - (i) to encourage, provide and consolidate business opportunities for a range of uses in appropriate locations that support local employment, community services and economic growth in business centres, and
  - (ii) to recognise that tourism is a major industry and employer in Manly and to encourage its growth and continuing viability while protecting the needs of the local community,
- (d) in relation to transport, infrastructure and amenities—
  - (i) to reduce private car dependency, increase the viability of various public transport modes, minimise conflict between pedestrians and vehicular movement systems and encourage walking and cycling while concentrating intensive land uses and trip generating activities in locations most accessible to public transport and centres, and
  - (ii) to provide for a range of recreational and community service opportunities to meet the needs of residents and visitors to Manly and promote the efficient and equitable provisions of public services, infrastructure and amenities,
- (e) in relation to heritage—to identify, protect, sustain, manage and conserve all heritage, including archaeological relics, sites and resources, places of Aboriginal heritage significance, heritage items (and their curtilages), heritage conservation areas and the cultural (natural and built) environmental heritage of Manly,
- (f) in relation to the natural environment—
  - (i) to conserve and enhance terrestrial, aquatic and riparian habitats, biodiversity, wildlife habitat corridors, remnant indigenous vegetation, geodiversity and natural watercourses, and

- (ii) to promote energy conservation, water cycle management (incorporating water conservation, water reuse, catchment management, stormwater pollution control and flood risk management) and water sensitive urban design, and
  - (iii) to protect, enhance and manage environmentally sensitive land with special aesthetic, ecological, scientific, cultural or conservation values for the benefit of present and future generations, and
  - (iv) to protect existing landforms and natural drainage systems and minimise the risk to the community in areas subject to environmental hazards, particularly flooding, bush fires, acid sulfate soils, sea level rise, tsunami and landslip, and
  - (v) to provide a framework that facilitates and encourages measures to assist the adaptation of the local environment to mitigate the impacts of climate change, and
  - (vi) to give priority to retaining bushland for its own intrinsic value and as a recreational, educational and scientific resource,
- (g) in relation to Manly’s unique harbour, coastal lagoon and ocean beach setting—
- (i) to preserve and enhance the amenity of public places and areas visible from navigable water around Manly, and
  - (ii) to retain open space, make more foreshore land available for public access and protect, restore and enhance riparian land along watercourses and foreshore bushland.

### **1.3 Land to which Plan applies**

(1) This Plan applies to the land identified on the [Land Application Map](#).

(1A) Despite subclause (1), this Plan does not apply to the land identified as “Deferred matter” on the [Land Application Map](#).

### **1.4 Definitions**

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

### **1.5 Notes**

Notes in this Plan are provided for guidance and do not form part of this Plan.

### **1.6 Consent authority**

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

## 1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—
  - (a) approved by the local plan-making authority when the map is adopted, and
  - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

### Note—

The maps adopted by this Plan are to be made available on the NSW Planning Portal. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

## 1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

### Note—

The following local environmental plan is repealed under this provision—

[\*Manly Local Environmental Plan 1988\*](#)

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

### 1.8A Savings provision relating to development applications

- (1) If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

### Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

- (2) A development application made, but not finally determined, before the commencement of *State Environmental Planning Policy Amendment (Flood Planning) 2023* must be determined as if that policy had not commenced.

### **1.9 Application of SEPP**

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

#### **1.9A Suspension of covenants, agreements and instruments**

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
  - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
  - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or
  - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
  - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
  - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
  - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
  - (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any

registered instrument.

- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

## **Part 2 Permitted or prohibited development**

### **2.1 Land use zones**

The land use zones under this Plan are as follows—

#### **Residential Zones**

R1 General Residential

R2 Low Density Residential

R3 Medium Density Residential

#### **Employment Zones**

E1 Local Centre

E3 Productivity Support

#### **Special Purpose Zones**

SP1 Special Activities

SP2 Infrastructure

SP3 Tourist

#### **Recreation Zones**

RE1 Public Recreation

RE2 Private Recreation

#### **Conservation Zones**

C1 National Parks and Nature Reserves

C2 Environmental Conservation

C3 Environmental Management

C4 Environmental Living

#### **Waterway Zones**

W1 Natural Waterways

## 2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

## 2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and
  - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

### Notes—

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

## 2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
  - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - (b) must be satisfied that the development is appropriate and is compatible with

permissible land uses in any such adjoining land.

## 2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

### Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

### Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social,

amenity or environmental effects on the land.

- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
  - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## **2.9 Canal estate development prohibited**

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
  - (a) a constructed canal, or other waterway or waterbody, that—
    - (i) is inundated by surface water or groundwater movement, or
    - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
  - (b) the erection of a dwelling, and
  - (c) one or both of the following—
    - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential

development in the flood planning area,

(ii) excavation to create a waterway.

(3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—

(a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and

(b) limited to the minimum reasonable size and capacity.

(4) In this clause—

**flood planning area** has the same meaning as in clause 5.21.

## Land Use Table

### Note—

State environmental planning policies, including the following, may be relevant to development on land to which this Plan applies—

[State Environmental Planning Policy \(Housing\) 2021](#)

[State Environmental Planning Policy \(Transport and Infrastructure\) 2021](#), Chapter 2—relating to infrastructure facilities, including air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

[State Environmental Planning Policy \(Resources and Energy\) 2021](#), Chapter 2

[State Environmental Planning Policy \(Resilience and Hazards\) 2021](#), Chapter 3

## Zone R1 General Residential

### 1 Objectives of zone

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.

### 2 Permitted without consent

Home-based child care; Home occupations

### **3 Permitted with consent**

Attached dwellings; Bed and breakfast accommodation; Boarding houses; Boat launching ramps; Boat sheds; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental protection works; Flood mitigation works; Group homes; Health consulting rooms; Home businesses; Home industries; Hostels; Information and education facilities; Jetties; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Recreation areas; Recreation facilities (indoor); Residential flat buildings; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Shop top housing; Signage; Tank-based aquaculture; Water recreation structures; Water recycling facilities; Water supply systems

### **4 Prohibited**

Advertising structures; Water treatment facilities; Any other development not specified in item 2 or 3

## **Zone R2 Low Density Residential**

### **1 Objectives of zone**

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.

### **2 Permitted without consent**

Home-based child care; Home occupations

### **3 Permitted with consent**

Attached dwellings; Bed and breakfast accommodation; Boat launching ramps; Boat sheds; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental protection works; Flood mitigation works; Group homes; Health consulting rooms; Home businesses; Home industries; Hostels; Information and education facilities; Jetties; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Recreation areas; Recreation facilities (indoor); Respite day care centres; Roads; Secondary

dwellings; Semi-detached dwellings; Shop top housing; Signage; Tank-based aquaculture; Water recreation structures; Water recycling facilities; Water supply systems

#### **4 Prohibited**

Advertising structures; Water treatment facilities; Any other development not specified in item 2 or 3

### **Zone R3 Medium Density Residential**

#### **1 Objectives of zone**

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To encourage the revitalisation of residential areas by rehabilitation and suitable redevelopment.
- To encourage the provision and retention of tourist accommodation that enhances the role of Manly as an international tourist destination.

#### **2 Permitted without consent**

Home-based child care; Home occupations

#### **3 Permitted with consent**

Attached dwellings; Boarding houses; Boat sheds; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental protection works; Flood mitigation works; Group homes; Home businesses; Home industries; Hostels; Information and education facilities; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Recreation areas; Recreation facilities (indoor); Residential flat buildings; Respite day care centres; Restaurants or cafes; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Service stations; Shop top housing; Signage; Take away food and drink premises; Tank-based aquaculture; Tourist and visitor accommodation; Water recycling facilities; Water supply systems

#### **4 Prohibited**

Advertising structures; Farm stay accommodation; Water treatment facilities;  
Any other development not specified in item 2 or 3

### **Zone E1 Local Centre**

#### **1 Objectives of zone**

- To provide a range of retail, business and community uses that serve the needs of people who live in, work in or visit the area.
- To encourage investment in local commercial development that generates employment opportunities and economic growth.
- To enable residential development that contributes to a vibrant and active local centre and is consistent with the Council's strategic planning for residential development in the area.
- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.
- To minimise conflict between land uses in the zone and adjoining zones and ensure amenity for the people who live in the local centre in relation to noise, odour, delivery of materials and use of machinery.
- To ensure that new development provides diverse and active street frontages to attract pedestrian traffic and to contribute to vibrant, diverse and functional streets and public spaces.
- To create urban form that relates favourably in scale and in architectural and landscape treatment to neighbouring land uses and to the natural environment.

#### **2 Permitted without consent**

Home-based child care; Home businesses; Home occupations

#### **3 Permitted with consent**

Amusement centres; Boarding houses; Car parks; Centre-based child care facilities; Commercial premises; Community facilities; Creative industries; Early education and care facilities; Electricity generating works; Entertainment facilities; Environmental protection works; Flood mitigation works; Function centres; Group homes; Home industries; Hostels; Hotel or motel

accommodation; Information and education facilities; Local distribution premises; Medical centres; Oyster aquaculture; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Registered clubs; Respite day care centres; Roads; Service stations; Shop top housing; Signage; Tank-based aquaculture; Tourist and visitor accommodation; Veterinary hospitals; Waste or resource transfer stations

#### **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone E3 Productivity Support**

#### **1 Objectives of zone**

- To provide a range of facilities and services, light industries, warehouses and offices.
- To provide for land uses that are compatible with, but do not compete with, land uses in surrounding local and commercial centres.
- To maintain the economic viability of local and commercial centres by limiting certain retail and commercial activity.
- To provide for land uses that meet the needs of the community, businesses and industries but that are not suited to locations in other employment zones.
- To provide opportunities for new and emerging light industries.
- To enable other land uses that provide facilities and services to meet the day to day needs of workers, to sell goods of a large size, weight or quantity or to sell goods manufactured on-site.
- To create a pedestrian environment that is safe, active, and interesting.
- To create employment environments of high visual quality that relate favourably in architectural and landscape treatment to neighbouring land uses and to the natural environment.
- To minimise conflict between land uses in the zone and adjoining zones and ensure the amenity of adjoining and nearby residential land uses.

## **2 Permitted without consent**

Nil

## **3 Permitted with consent**

## **4 Prohibited**

Any development not specified in item 2 or 3

### **Zone SP1 Special Activities**

#### **1 Objectives of zone**

- To provide for special land uses that are not provided for in other zones.
- To provide for sites with special natural characteristics that are not provided for in other zones.
- To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

- To conserve, enhance and restore elements of built and natural heritage items of State and local significance and permit development that is compatible with the preservation, restoration and maintenance of items of environmental heritage within the zone.
- To protect vistas to and from heritage items of local and State significance and preserve and protect the setting, consistent with the pre-eminence of principal heritage buildings when viewed from within the setting, and surrounding areas and vantage points.

### **Zone C3 Environmental Management**

#### **1 Objectives of zone**

- To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
- To provide for a limited range of development that does not have an adverse effect on those values.
- To protect tree canopies and provide for low impact residential uses that does not dominate the natural scenic qualities of the foreshore.
- To ensure that development does not negatively impact on nearby foreshores, significant geological features and bushland, including loss of natural vegetation.
- To encourage revegetation and rehabilitation of the immediate foreshore, where appropriate, and minimise the impact of hard surfaces and associated pollutants in stormwater runoff on the ecological characteristics of the locality, including water quality.
- To ensure that the height and bulk of any proposed buildings or structures have regard to existing vegetation, topography and surrounding land uses.

### **Zone C4 Environmental Living**

## **1 Objectives of zone**

- To provide for low-impact residential development in areas with special ecological, scientific or aesthetic values.
- To ensure that residential development does not have an adverse effect on those values.
- To protect tree canopies and ensure that new development does not dominate the natural scenic qualities of the foreshore.
- To ensure that development does not negatively impact on nearby foreshores, significant geological features and bushland, including loss of natural vegetation.
- To encourage revegetation and rehabilitation of the immediate foreshore, where appropriate, and minimise the impact of hard surfaces and associated pollutants in stormwater runoff on the ecological characteristics of the locality, including water quality.

# **Part 3 Exempt and complying development**

## **3.1 Exempt development**

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development—
  - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
  - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
  - (c) must not be designated development, and
  - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building*

*Code of Australia* as class 1b or class 2-9 is exempt development only if—

- (a) the building has a current fire safety certificate or fire safety statement, or
- (b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must—

- (a) be installed in accordance with the manufacturer's specifications, if applicable, and
- (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

**Note—**

See [State Environmental Planning Policy \(Biodiversity and Conservation\) 2021](#), Chapter 2 and the [Local Land Services Act 2013](#), Part 5A.

(6) A heading to an item in Schedule 2 is part of that Schedule.

### 3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—

- (a) the development standards specified in relation to that development, and
- (b) the requirements of this Part,

is complying development.

**Note—**

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must—

- (a) be permissible, with development consent, in the zone in which it is carried out, and
- (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
- (c) have an approval, if required by the [Local Government Act 1993](#), from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3

is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

### **3.3 Environmentally sensitive areas excluded**

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause—

***environmentally sensitive area for exempt or complying development*** means any of the following—

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the [Coastal Management Act 2016](#)),
- (d) land reserved as an aquatic reserve under the [Fisheries Management Act 1994](#) or as a marine park under the [Marine Parks Act 1997](#),
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the [National Parks and Wildlife Act 1974](#) or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the [Crown Land Management Act 2016](#) for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the [Biodiversity Conservation Act 2016](#) or declared critical habitat under Part 7A of the [Fisheries Management Act 1994](#).

## **Part 4 Principal development standards**

### **4.1 Minimum subdivision lot size**

(1) The objectives of this clause are as follows—

- (a) to retain the existing pattern of subdivision in residential zones and regulate the density of lots in specific locations to ensure lots have a minimum size that would be sufficient to provide a useable area for building and landscaping,
  - (b) to maintain the character of the locality and streetscape and, in particular, complement the prevailing subdivision patterns,
  - (c) to require larger lots where existing vegetation, topography, public views and natural features of land, including the foreshore, limit its subdivision potential,
  - (d) to ensure that the location of smaller lots maximises the use of existing infrastructure, public transport and pedestrian access to local facilities and services.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (3A) If a lot is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included in calculating the lot size.
- (4) This clause does not apply in relation to the subdivision of any land—
- (a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or
  - (b) by any kind of subdivision under the [Community Land Development Act 2021](#).

#### **4.1AA Minimum subdivision lot size for community title schemes**

[Not adopted]

#### **4.1A Minimum lot sizes for manor houses and multi dwelling housing (terraces) in Zone R2**

- (1) Development consent must not be granted for development on land in Zone R2 Low Density Residential on which a manor house or multi dwelling housing (terraces) is proposed to be erected unless the lot has a site area of not less than the minimum site area for each dwelling shown on the [Minimum Lot Size—Multi Dwelling Housing \(Terraces\) and Manor Houses Map](#).
- (2) Despite any other provision of this Plan, development consent must not be granted for the subdivision of land in Zone R2 Low Density Residential on which multi dwelling housing (terraces) is erected, or proposed to be erected, unless all of the lots to be created by the subdivision are equal to or greater than the minimum lot size shown on

the [Minimum Lot Size—Multi Dwelling Housing \(Terraces\) and Manor Houses Map](#) in relation to that land.

#### **4.2 Rural subdivision**

[Not applicable]

#### **4.3 Height of buildings**

(1) The objectives of this clause are as follows—

- (a) to provide for building heights and roof forms that are consistent with the topographic landscape, prevailing building height and desired future streetscape character in the locality,
- (b) to control the bulk and scale of buildings,
- (c) to minimise disruption to the following—
  - (i) views to nearby residential development from public spaces (including the harbour and foreshores),
  - (ii) views from nearby residential development to public spaces (including the harbour and foreshores),
  - (iii) views between public spaces (including the harbour and foreshores),
- (d) to provide solar access to public and private open spaces and maintain adequate sunlight access to private open spaces and to habitable rooms of adjacent dwellings,
- (e) to ensure the height and bulk of any proposed building or structure in a recreation or conservation zone has regard to existing vegetation and topography and any other aspect that might conflict with bushland and surrounding land uses.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

#### **4.3A Special height provisions**

- (1) The objective of this clause is to maintain public views to Sydney Harbour from street level on local roads above steeply sloping sites on certain land.
- (2) Despite clause 4.3 (2), the height of a building on a lot identified as “Special height provisions” on the [Height of Buildings Map](#) must not exceed the height of the highest point of the road adjoining the centre point of the lot boundary that adjoins the road that is the frontage to that lot.

#### 4.4 Floor space ratio

- (1) The objectives of this clause are as follows—
  - (a) to ensure the bulk and scale of development is consistent with the existing and desired streetscape character,
  - (b) to control building density and bulk in relation to a site area to ensure that development does not obscure important landscape and townscape features,
  - (c) to maintain an appropriate visual relationship between new development and the existing character and landscape of the area,
  - (d) to minimise adverse environmental impacts on the use or enjoyment of adjoining land and the public domain,
  - (e) to provide for the viability of Zone E1 and encourage the development, expansion and diversity of business activities that will contribute to economic growth, the retention of local services and employment opportunities in local centres.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).
- (2A) Despite subclause (2), the floor space ratio for a building on land identified as “Gross Floor Area for Certain Commercial Premises” on the [Key Sites Map](#) may exceed the maximum floor space ratio allowed under that subclause by up to 0.5:1 if the consent authority is satisfied that at least 50% of the gross floor area of the building will be used for the purpose of commercial premises.

#### 4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows—
  - (a) to define **floor space ratio**,
  - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
    - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
    - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
    - (iii) require community land and public places to be dealt with separately.
- (2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

- (3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—
- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
  - (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)-(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

- (4) **Exclusions from site area** The following land must be excluded from the site area—
- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
  - (b) community land or a public place (except as provided by subclause (7)).
- (5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.
- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted

lot.

(10) **Covenants affect consolidated sites** If—

- (a) a covenant of the kind referred to in subclause (9) applies to any land (***affected land***), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) **Definition** In this clause, ***public place*** has the same meaning as it has in the [Local Government Act 1993](#).

#### 4.6 Exceptions to development standards

(1) The objectives of this clause are as follows—

- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
- (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—

- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
- (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

**Note—**

The [Environmental Planning and Assessment Regulation 2021](#) requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

(4) The consent authority must keep a record of its assessment carried out under

subclause (3).

(5) (Repealed)

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note—**

When this Plan was made, it did not include land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition or Zone R5 Large Lot Residential.

(7) (Repealed)

(8) This clause does not allow development consent to be granted for development that would contravene any of the following—

(a) a development standard for complying development,

(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,

(c) clause 5.4,

(caa) clause 5.5,

(ca) clause 6.15,

(cb) a development standard on land to which clause 6.19 applies.

## **Part 5 Miscellaneous provisions**

### **5.1 Relevant acquisition authority**

(1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-**

**initiated acquisition provisions).**

**Note—**

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

<b>Type of land shown on Map</b>	<b>Authority of the State</b>
Zone RE1 Public Recreation and marked “Local open space”	Council
Zone RE1 Public Recreation and marked “Regional open space”	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked “Classified road”	Transport for NSW
Zone C1 National Parks and Nature Reserves and marked “National Park”	Minister administering the <a href="#">National Parks and Wildlife Act 1974</a>

**Note—**

If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for that land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#)).

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

**5.2 Classification and reclassification of public land**

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the [Local Government Act 1993](#).

**Note—**

Under the [Local Government Act 1993](#), “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the [Local Government Act 1993](#). Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is

reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
  - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
  - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
  - (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

**Note—**

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

### 5.3 Development near zone boundaries

[Not adopted]

### 5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

**Note—**

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted

under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
  - (a) 40% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
  - (b) 400 square metres,whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms in buildings.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 55 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 80 square metres.
- (7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.
- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 9 square metres.
- (9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—
  - (a) 60 square metres,
  - (b) 30% of the total floor area of the principal dwelling.
- (10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

- (a) 40% of the gross floor area of the industry, or
  - (b) 400 square metres,
- whichever is the lesser.

### **5.5 Controls relating to secondary dwellings on land in a rural zone**

[Not adopted]

### **5.6 Architectural roof features**

[Not adopted]

### **5.7 Development below mean high water mark**

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

### **5.8 Conversion of fire alarms**

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent—
  - (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
  - (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
  - (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.
- (3) Development to which subclause (2) applies is complying development if it consists only of—
  - (a) internal alterations to a building, or
  - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause—

***private service provider*** means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

### **5.9 Dwelling house or secondary dwelling affected by natural disaster**

(1) The objective of this clause is to enable the repair or replacement of lawfully erected dwelling houses and secondary dwellings that have been damaged or destroyed by a natural disaster.

(2) This clause applies to land in the following zones—

- (a) R1 General Residential,
- (b) R2 Low Density Residential,
- (c) R3 Medium Density Residential,
- (d) E1 Local Centre,
- (e) E3 Productivity Support,
- (f) (Repealed)
- (g) SP1 Special Activities,
- (h) SP2 Infrastructure,
- (i) SP3 Tourist,
- (j) RE1 Public Recreation,
- (k) RE2 Private Recreation,
- (l) C1 National Parks and Nature Reserves,
- (m) C2 Environmental Conservation,
- (n) C3 Environmental Management,
- (o) C4 Environmental Living,
- (p) W1 Natural Waterways.

(3) Despite the other provisions of this Plan, development consent may be granted to

development on land to which this clause applies to enable a dwelling house or secondary dwelling that has been damaged or destroyed by a natural disaster to be repaired or replaced if—

- (a) the dwelling house or secondary dwelling was lawfully erected, and
- (b) the development application seeking the development consent is made to the consent authority no later than 5 years after the day on which the natural disaster caused the damage or destruction.

### **5.9AA (Repealed)**

### **5.10 Heritage conservation**

**Note—**

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows—

- (a) to conserve the environmental heritage of Manly,
- (b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
- (c) to conserve archaeological sites,
- (d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following—

- (a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—
  - (i) a heritage item,
  - (ii) an Aboriginal object,
  - (iii) a building, work, relic or tree within a heritage conservation area,
- (b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,
- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,

- (e) erecting a building on land—
    - (i) on which a heritage item is located or that is within a heritage conservation area, or
    - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
  - (f) subdividing land—
    - (i) on which a heritage item is located or that is within a heritage conservation area, or
    - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.
- (3) **When consent not required** However, development consent under this clause is not required if—
- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
    - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
    - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
  - (b) the development is in a cemetery or burial ground and the proposed development—
    - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
    - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or
  - (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
  - (d) the development is exempt development.
- (4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage

significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

- (5) **Heritage assessment** The consent authority may, before granting consent to any development—
- (a) on land on which a heritage item is located, or
  - (b) on land that is within a heritage conservation area, or
  - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),
- require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies)—
- (a) notify the Heritage Council of its intention to grant consent, and
  - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
  - (b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.
- (9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—

- (a) notify the Heritage Council about the application, and
- (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—

- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

### **5.11 Bush fire hazard reduction**

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

**Note—**

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

### **5.12 Infrastructure development and use of existing buildings of the Crown**

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 2.
- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

### **5.13 Eco-tourist facilities**

- (1) The objectives of this clause are as follows—
  - (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
  - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that—
  - (a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and
  - (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and
  - (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
  - (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and native flora and fauna will be minimal, and
  - (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
  - (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
  - (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours, materials and landscaping with local native flora, and
  - (h) any infrastructure services to the site will be provided without significant modification to the environment, and
  - (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and

- (j) the development will not adversely affect the agricultural productivity of adjoining land, and
- (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment—
  - (i) measures to remove any threat of serious or irreversible environmental damage,
  - (ii) the maintenance (or regeneration where necessary) of habitats,
  - (iii) efficient and minimal energy and water use and waste output,
  - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
  - (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

**5.14 Siding Spring Observatory—maintaining dark sky**

[Not adopted]

**5.15 Defence communications facility**

[Not adopted]

**5.16 Subdivision of, or dwellings on, land in certain rural, residential or conservation zones**

[Not applicable]

**5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations**

[Not applicable]

**5.18 Intensive livestock agriculture**

[Not applicable]

**5.19 Pond-based, tank-based and oyster aquaculture**

(1) **Objectives** The objectives of this clause are as follows—

- (a) to encourage sustainable oyster, pond-based and tank-based aquaculture in the State, namely, aquaculture development that uses, conserves and enhances the community's resources so that the total quality of life now and in the future can be preserved and enhanced,
- (b) to set out the minimum site location and operational requirements for permissible

pond-based and tank-based aquaculture development.

- (2) **Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied before granting consent** The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—
- (a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,
  - (b) in the case of—
    - (i) pond-based aquaculture in Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E1 Local Centre, Zone E2 Commercial Centre, Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial or Zone MU1 Mixed Use—that the development is for the purpose of small scale aquarium fish production, and
    - (ii) pond-based aquaculture in Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of extensive aquaculture, and
    - (iii) tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and
    - (iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.
- (3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.
- (4) **Extensive pond-based aquaculture permitted without consent in certain zones** Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—
- (a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and
  - (b) the development complies with the site location requirements and operational

requirements set out in Part 2 of Schedule 6.

- (5) **Oyster aquaculture—additional matters that consent authority must consider in determining a development application** In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—
- (a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and
  - (b) the *NSW Oyster Industry Sustainable Aquaculture Strategy*.
- (6) **Oyster aquaculture permitted without consent in priority oyster aquaculture areas** Development for the purpose of oyster aquaculture may be carried out without development consent—
- (a) on land that is wholly within a priority oyster aquaculture area, or
  - (b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.
- (7) **Definitions** In this clause—

**aquaculture industry development plan** means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

**extensive aquaculture** has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

**NSW Oyster Industry Sustainable Aquaculture Strategy** means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within the Department of Industry).

**priority oyster aquaculture area** means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department's website.

## **5.20 Standards that cannot be used to refuse consent—playing and performing music**

- (1) The consent authority must not refuse consent to development in relation to licensed premises on the following grounds—
- (a) the playing or performance of music, including the following—
    - (i) the genre of music played or performed, or
    - (ii) whether the music played or performed is live or amplified, or

- (iii) whether the music played or performed is original music, or
  - (iv) the number of musicians or live entertainment acts playing or performing, or
  - (v) the type of instruments played,
- (b) whether dancing occurs,
  - (c) the presence or use of a dance floor or another area ordinarily used for dancing,
  - (d) the direction in which a stage for players or performers faces,
  - (e) the decorations to be used, including, for example, mirror balls, or lighting used by players or performers.
- (2) The consent authority must not refuse consent to development in relation to licensed premises on the grounds of noise caused by the playing or performance of music, if the consent authority is satisfied the noise may be managed and minimised to an acceptable level.
  - (3) In this clause—  
***licensed premises*** has the same meaning as in the [Liquor Act 2007](#).

### 5.21 Flood planning

- (1) The objectives of this clause are as follows—
  - (a) to minimise the flood risk to life and property associated with the use of land,
  - (b) to allow development on land that is compatible with the flood function and behaviour on the land, taking into account projected changes as a result of climate change,
  - (c) to avoid adverse or cumulative impacts on flood behaviour and the environment,
  - (d) to enable the safe occupation and efficient evacuation of people in the event of a flood.
- (2) Development consent must not be granted to development on land the consent authority considers to be within the flood planning area unless the consent authority is satisfied the development—
  - (a) is compatible with the flood function and behaviour on the land, and
  - (b) will not adversely affect flood behaviour in a way that results in detrimental increases in the potential flood affectation of other development or properties, and
  - (c) will not adversely affect the safe occupation and efficient evacuation of people or exceed the capacity of existing evacuation routes for the surrounding area in the

event of a flood, and

- (d) incorporates appropriate measures to manage risk to life in the event of a flood, and
  - (e) will not adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses.
- (3) In deciding whether to grant development consent on land to which this clause applies, the consent authority must consider the following matters—
- (a) the impact of the development on projected changes to flood behaviour as a result of climate change,
  - (b) the intended design and scale of buildings resulting from the development,
  - (c) whether the development incorporates measures to minimise the risk to life and ensure the safe evacuation of people in the event of a flood,
  - (d) the potential to modify, relocate or remove buildings resulting from development if the surrounding area is impacted by flooding or coastal erosion.
- (4) A word or expression used in this clause has the same meaning as it has in the *Considering Flooding in Land Use Planning Guideline* unless it is otherwise defined in this clause.
- (5) In this clause—

***Considering Flooding in Land Use Planning Guideline*** means the *Considering Flooding in Land Use Planning Guideline* published on the Department's website on 14 July 2021.

***flood planning area*** has the same meaning as it has in the Flood Risk Management Manual.

***Flood Risk Management Manual*** means the *Flood Risk Management Manual*, ISBN 978-1-923076-17-4, published by the NSW Government in June 2023.

## 5.22 Special flood considerations

- (1) The objectives of this clause are as follows—
- (a) to enable the safe occupation and evacuation of people subject to flooding,
  - (b) to ensure development on land is compatible with the land's flood behaviour in the event of a flood,
  - (c) to avoid adverse or cumulative impacts on flood behaviour,

(d) to protect the operational capacity of emergency response facilities and critical infrastructure during flood events,

(e) to avoid adverse effects of hazardous development on the environment during flood events.

(2) This clause applies to—

(a) for sensitive and hazardous development—land between the flood planning area and the probable maximum flood, and

(b) for development that is not sensitive and hazardous development—land the consent authority considers to be land that, in the event of a flood, may—

(i) cause a particular risk to life, and

(ii) require the evacuation of people or other safety considerations.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered whether the development—

(a) will affect the safe occupation and efficient evacuation of people in the event of a flood, and

(b) incorporates appropriate measures to manage risk to life in the event of a flood, and

(c) will adversely affect the environment in the event of a flood.

(4) A word or expression used in this clause has the same meaning as it has in the Considering Flooding in Land Use Planning Guideline unless it is otherwise defined in this clause.

(5) In this clause—

**Considering Flooding in Land Use Planning Guideline**—see clause 5.21(5).

**flood planning area**—see clause 5.21(5).

**Flood Risk Management Manual**—see clause 5.21(5).

**probable maximum flood** has the same meaning as in the Flood Risk Management Manual.

**sensitive and hazardous development** means development for the following purposes—

(a) boarding houses,

- (b) caravan parks,
- (c) correctional centres,
- (d) early education and care facilities,
- (e) eco-tourist facilities,
- (f) educational establishments,
- (g) emergency services facilities,
- (h) group homes,
- (i) hazardous industries,
- (j) hazardous storage establishments,
- (k) hospitals,
- (l) hostels,
- (m) information and education facilities,
- (n) respite day care centres,
- (o) seniors housing,
- (p) sewerage systems,
- (q) tourist and visitor accommodation,
- (r) water supply systems.

### **5.23 Public bushland**

- (1) The objective of this clause is to protect and ensure the ecological viability of bushland, including rehabilitated areas in urban areas, by—
  - (a) preserving biodiversity, habitat corridors and links between public bushland and other nearby bushland, and
  - (b) preserving bushland as a natural stabiliser of the soil surface, and
  - (c) preserving existing hydrological landforms, processes and functions, including natural drainage lines, watercourses, wetlands and foreshores, and
  - (d) preserving the recreational, educational, scientific, aesthetic, environmental, ecological and cultural values and potential of bushland, and
  - (e) mitigating disturbance caused by development.

- (2) Development that will disturb, or is reasonably likely to disturb, public bushland is permitted with development consent.
- (3) Development consent must not be granted to development that will disturb, or is reasonably likely to disturb, public bushland unless the consent authority is satisfied of the following—
  - (a) the disturbance of the bushland is essential for a purpose in the public interest,
  - (b) there is no reasonable alternative to the disturbance,
  - (c) the development minimises the amount of bushland to be disturbed,
  - (d) the development includes measures to remediate the disturbed bushland.
- (4) Despite subclause (2), development that will disturb, or is reasonably likely to disturb, public bushland is permitted without development consent if the development is for the following purposes—
  - (a) the construction, operation or maintenance of pipelines to carry water, sewerage or gas or pipelines licensed under the *Pipelines Act 1967*,
  - (b) the construction, operation or maintenance of electricity or telecommunication lines,
  - (c) bush fire hazard reduction,
  - (d) the construction or maintenance of classified roads,
  - (e) facilitating the recreational use of the public bushland.
- (5) Development specified in subclause (4)(e) is permitted without development consent only if it is carried out in accordance with a plan of management for the public bushland, adopted by the Council in the same way a plan of management is required to be adopted for community land under the *Local Government Act 1993*, Chapter 6, Part 2, Division 2, that includes measures for the following—
  - (a) the recreational use of the land,
  - (b) bush fire hazard reduction,
  - (c) the prevention of degradation, including the alteration of drainage patterns, rubbish dumping, vehicle intrusion and infestation with weeds or non-native plants,
  - (d) the remediation of degraded public bushland.
- (6) This clause does not require development consent for clearing of native vegetation if the clearing is of a kind that is authorised under the *Local Land Services Act 2013*,

section 600.

- (7) In deciding whether to grant development consent to development on land adjoining public bushland, the consent authority must consider the following—
- (a) the need to retain public bushland adjoining the site of the development,
  - (b) the likely effect of the development on public bushland, including the following—
    - (i) the erosion of soil,
    - (ii) the siltation of streams and waterways,
    - (iii) the spread of weeds and non-native plants within public bushland,
  - (c) other matters the consent authority considers relevant to the protection and preservation of public bushland.
- (8) This clause does not apply to the following land that is public bushland—
- (a) land in Zone RU1, RU2, RU3, RU4 or RU5,
  - (b) land reserved, dedicated or acquired under the [National Parks and Wildlife Act 1974](#),
  - (c) land within a State forest, flora reserve or timber reserve within the meaning of the [Forestry Act 2012](#),
  - (d) land to which [State Environmental Planning Policy \(Precincts—Western Parkland City\) 2021](#), Chapter 7 applies.
- (9) In this clause—
- disturb** public bushland means—
- (a) remove vegetation from public bushland, or
  - (b) cause a change in the natural ecology of public bushland that results in the destruction or degradation of the public bushland.
- non-native plant** means a plant that is not native vegetation.
- public bushland** means land—
- (a) on which there is vegetation that is—
    - (i) a remainder of the natural vegetation of the land, or
    - (ii) representative of the structure and floristics of the natural vegetation of the land, and

- (b) that is owned, managed or reserved for open space or environmental conservation by the Council or a public authority.

### **Part 6 Additional local provisions**

#### **6.1 Acid sulfate soils**

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the Table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

<b>Class of land</b>	<b>Works</b>
1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.
4	Works more than 2 metres below the natural ground surface. Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.
5	Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.

- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if—
  - (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and
  - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power)—
  - (a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
  - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
  - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if—
  - (a) the works involve the disturbance of less than 1 tonne of soil, and
  - (b) the works are not likely to lower the watertable.

## **6.2 Earthworks**

- (1) The objectives of this clause are as follows—
  - (a) to ensure that earthworks and associated groundwater dewatering for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land,
  - (b) to allow earthworks of a minor nature without requiring a separate development consent.
- (2) Development consent is required for earthworks unless—
  - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or

- (b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) Before granting development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters—
- (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,
  - (b) the effect of the development on the likely future use or redevelopment of the land,
  - (c) the quality of the fill or the soil to be excavated, or both,
  - (d) the effect of the development on the existing and likely amenity of adjoining properties,
  - (e) the source of any fill material and the destination of any excavated material,
  - (f) the likelihood of disturbing relics,
  - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
  - (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

**Note—**

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with harming Aboriginal objects.

### **6.3 (Repealed)**

### **6.4 Stormwater management**

- (1) The objective of this clause is to minimise the impacts of urban stormwater on land to which this clause applies and on adjoining properties, native bushland and receiving waters.
- (2) This clause applies to all land in residential, employment and conservation zones.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—
  - (a) is designed to maximise the use of water permeable surfaces on the land having regard to the soil characteristics affecting on-site infiltration of water, and
  - (b) includes, if practicable, on-site stormwater retention for use as an alternative supply to mains water, groundwater or river water, and

- (c) avoids any significant adverse impacts of stormwater runoff on adjoining properties, native bushland and receiving waters, or if that impact cannot be reasonably avoided, minimises and mitigates the impact.

## **6.5 Terrestrial biodiversity**

- (1) The objective of this clause is to maintain terrestrial biodiversity by—
  - (a) protecting native fauna and flora, and
  - (b) protecting the ecological processes necessary for their continued existence, and
  - (c) encouraging the conservation and recovery of native fauna and flora and their habitats.
- (2) This clause applies to land identified as “Biodiversity” on the [Terrestrial Biodiversity Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—
  - (a) whether the development is likely to have—
    - (i) any adverse impact on the condition, ecological value and significance of the fauna and flora on the land, and
    - (ii) any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna, and
    - (iii) any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and
    - (iv) any adverse impact on the habitat elements providing connectivity on the land, and
  - (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
  - (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
  - (b) if that impact cannot be reasonably avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or
  - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

## 6.6 Riparian land and watercourses

- (1) The objective of this clause is to protect and maintain the following—
  - (a) water quality within watercourses,
  - (b) the stability of the bed and banks of watercourses,
  - (c) aquatic and riparian habitats,
  - (d) ecological processes within watercourses and riparian areas.
- (2) This clause applies to all of the following—
  - (a) land identified as “Watercourse” on the [Watercourse Map](#),
  - (b) all land that is within 40 metres of the top of the bank of each watercourse on land identified as “Watercourse” on that map.
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—
  - (a) whether or not the development is likely to have any adverse impact on the following—
    - (i) the water quality and flows within the watercourse,
    - (ii) aquatic and riparian species, habitats and ecosystems of the watercourse,
    - (iii) the stability of the bed and banks of the watercourse,
    - (iv) the free passage of fish and other aquatic organisms within or along the watercourse,
    - (v) any future rehabilitation of the watercourse and riparian areas, and
  - (b) whether or not the development is likely to increase water extraction from the watercourse, and
  - (c) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
  - (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
  - (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or

- (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

## **6.7 Wetlands**

- (1) The objective of this clause is to ensure that wetlands are preserved and protected from the impacts of development.
- (2) This clause applies to land identified as “Wetland” on the [Wetlands Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—
  - (a) whether or not the development is likely to have any significant adverse impact on the following—
    - (i) the condition and significance of the existing native fauna and flora on the land,
    - (ii) the provision and quality of habitats on the land for indigenous and migratory species,
    - (iii) the surface and groundwater characteristics of the land, including water quality, natural water flows and salinity, and
  - (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—
  - (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
  - (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
  - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

## **6.8 Landslide risk**

- (1) The objectives of this clause are to ensure that development on land susceptible to landslide—
  - (a) matches the underlying geotechnical conditions of the land, and
  - (b) is restricted on unsuitable land, and
  - (c) does not endanger life or property.

- (2) This clause applies to land identified as “Landslide risk” on the [Landslide Risk Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the following matters to decide whether or not the development takes into account the risk of landslide—
  - (a) site layout, including access,
  - (b) the development’s design and construction methods,
  - (c) the amount of cut and fill that will be required for the development,
  - (d) waste water management, stormwater and drainage across the land,
  - (e) the geotechnical constraints of the site,
  - (f) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development will appropriately manage waste water, stormwater and drainage across the land so as not to affect the rate, volume and quality of water leaving the land, and that—
  - (a) the development is designed, sited and will be managed to avoid any landslide risk or significant adverse impact on the development and the land surrounding the development, or
  - (b) if that risk or impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that risk or impact, or
  - (c) if that risk or impact cannot be minimised—the development will be managed to mitigate that risk or impact.

### **6.9 Foreshore scenic protection area**

- (1) The objective of this clause is to protect visual aesthetic amenity and views to and from Sydney Harbour, the Pacific Ocean and the foreshore in Manly.
- (2) This clause applies to land that is shown as “Foreshore Scenic Protection Area” on the [Foreshore Scenic Protection Area Map](#).
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered the following matters—
  - (a) impacts that are of detriment to the visual amenity of harbour or coastal foreshore, including overshadowing of the foreshore and any loss of views from a public place to the foreshore,

- (b) measures to protect and improve scenic qualities of the coastline,
- (c) suitability of development given its type, location and design and its relationship with and impact on the foreshore,
- (d) measures to reduce the potential for conflict between land-based and water-based coastal activities.

#### **6.10 Limited development on foreshore area**

- (1) The objective of this clause is to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area.
- (2) Development consent must not be granted to development on land in the foreshore area except for the following purposes—
  - (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area,
  - (b) the erection of a building in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,
  - (c) boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).
- (3) Development consent must not be granted under this clause unless the consent authority is satisfied that—
  - (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
  - (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
  - (c) the development will not cause environmental harm such as—
    - (i) pollution or siltation of the waterway, or
    - (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
    - (iii) an adverse effect on drainage patterns, and
  - (d) the development will not cause congestion or generate conflict between people using open space areas or the waterway, and
  - (e) opportunities to provide continuous public access along the foreshore and to the

waterway will not be compromised, and

- (f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and
  - (g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and
  - (h) sea level rise or change of flooding patterns as a result of climate change has been considered.
- (4) In satisfying itself about a matter mentioned in subclause (3) (e), the consent authority must give consideration to the following—
- (a) continuous public access to and along the foreshore through or adjacent to the proposed development,
  - (b) public access to link with existing or proposed open space,
  - (c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,
  - (d) public access to be located above mean high water mark,
  - (e) reinforcing the foreshore character and respect for existing environmental conditions.
- (5) In this clause—

**foreshore area** means the land between the foreshore building line and the mean high water mark of the nearest natural waterbody.

**foreshore building line** means the line shown as the foreshore building line on the [Foreshore Building Line Map](#).

### 6.11 Active street frontages

- (1) The objective of this clause is to promote uses that attract pedestrian traffic along certain ground floor street frontages in Zone E1.
- (2) This clause applies to land identified as “Active street frontages” on the [Active Street Frontages Map](#).
- (3) Development consent must not be granted to the erection of a building, or a change of use of a building, on land to which this clause applies unless the consent authority is satisfied that the building will have an active street frontage after its erection or change of use.

- (4) Despite subclause (3), an active street frontage is not required for any part of a building that is used for any of the following—
  - (a) entrances and lobbies (including as part of mixed use development),
  - (b) access for fire services,
  - (c) vehicular access.
- (5) In this clause, a building has an **active street frontage** if all premises on the ground floor of the building facing the street are used for the purposes of business premises or retail premises.

### 6.12 Essential services

- (1) Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate arrangements have been made to make them available when required—
  - (a) the supply of water,
  - (b) the supply of electricity,
  - (c) the disposal and management of sewage,
  - (d) stormwater drainage or on-site conservation,
  - (e) suitable vehicular access.
- (2) This clause does not apply to development for the purpose of providing, extending, augmenting, maintaining or repairing any essential service referred to in this clause.

### 6.13 Design excellence

- (1) The objective of this clause is to deliver in Manly the highest standard of architectural and urban design of buildings and public spaces.
- (2) This clause applies to development involving the erection of a new building or external alterations to an existing building—
  - (a) on land identified as “Gross Floor Area for Certain Commercial Premises” on the [Key Sites Map](#), and
  - (b) on land to which clause 6.19 applies.
- (3) Development consent must not be granted for development to which this clause applies unless the consent authority considers that the development exhibits design excellence.

- (4) In considering whether development exhibits design excellence, the consent authority must give consideration to whether the development—
- (a) contains buildings that consist of a form, bulk, massing and modulation that are likely to overshadow public open spaces, and
  - (b) is likely to protect and enhance the streetscape and quality of the public realm, and
  - (c) clearly defines the edge of public places, streets, lanes and plazas through separation, setbacks, amenity, and boundary treatments, and
  - (d) minimises street clutter and provides ease of movement and circulation of pedestrian, cycle, vehicular and service access, and
  - (e) encourages casual surveillance and social activity in public places, streets, laneways and plazas, and
  - (f) is sympathetic to its setting, including neighbouring sites and existing or proposed buildings, and
  - (g) protects and enhances the natural topography and vegetation including trees, escarpments or other significant natural features, and
  - (h) promotes vistas from public places to prominent natural and built landmarks, and
  - (i) uses high standards of architectural design, materials and detailing appropriate to the building type and location, and
  - (j) responds to environmental factors such as wind, reflectivity and permeability of surfaces, and
  - (k) coordinates shared utility infrastructure to minimise disruption at street level in public spaces.

#### **6.14 Requirement for development control plans**

- (1) The objective of this clause is to ensure development on certain land is only considered after a development control plan has been prepared and adopted for the land.
- (2) This clause applies to land identified as a “Key Site” on the [Key Sites Map](#).
- (3) Development consent must not be granted to development on land to which this clause applies unless a development control plan that provides for detailed development controls has been prepared for the land.
- (4) Without limiting subclause (3), the development control plan must provide for all of the following—

- (a) principles drawn from an analysis of the site and its context,
  - (b) building envelopes and built form controls,
  - (c) subdivision pattern,
  - (d) distinct public and private spaces,
  - (e) overall transport hierarchy showing the major circulation routes and connections to achieve a simple and safe movement system for private vehicles, with particular regard to public transport, pedestrians and cyclists,
  - (f) preferred location of permissible uses,
  - (g) traffic management facilities and necessary parking ratios,
  - (h) staging of development.
- (5) Subclause (3) does not apply to any of the following development—
- (a) subdivision for the purpose of a realignment of boundaries that does not create additional lots,
  - (b) subdivision of land if any of the lots proposed to be created is to be reserved or dedicated for public open space, public roads or any other public or environmental protection purpose,
  - (c) subdivision of land in a zone in which the erection of structures is prohibited,
  - (d) proposed development on land that is of a minor nature only if the consent authority is of the opinion that the carrying out of the proposed development would be consistent with the objectives of the zone in which the land is situated,
  - (e) a change of use of an existing building on land identified as “Manly Hospital site, Manly” or “Dalwood Children’s Home site, Seaforth” on the [Key Sites Map](#) from one type of health services facility to another type of health services facility, being development carried out by or on behalf of the NSW Health Service.

### **6.15 Tourist and visitor accommodation**

- (1) The objective of this clause is to maintain the supply and availability of tourist and visitor accommodation in Manly to as many different tourists and visitors as possible.
- (2) Development consent must not be granted to development for tourist and visitor accommodation unless the consent authority is satisfied that the development will not provide accommodation to the same person for a period of more than three consecutive months.

#### **6.16 Gross floor area in certain areas**

- (1) The objective of this clause is to provide for the viability of the land to which this clause applies and encourage the development, expansion and diversity of business activities, that will contribute to economic growth, retention of local services and employment opportunities in local centres.
- (2) This clause applies to land identified as “Gross Floor Area for Certain Commercial Premises” on the [Key Sites Map](#).
- (3) Development consent must not be granted to the erection of a building on the land to which this clause applies unless the consent authority is satisfied that at least 25% of the gross floor area of the building will be used as commercial premises.
- (4) Development consent must not be granted for development on land to which this clause applies if the gross floor area of any retail premises on the land would exceed 1,000 square metres.

#### **6.17 Health consulting rooms in Zones C3 and C4**

- (1) The objective of this clause is to ensure that development for the purpose of health consulting rooms in certain environment protection zones is low impact and without adverse effects on the specific ecological, social and aesthetic values of the land.
- (2) This clause applies to land in Zones C3 and C4.
- (3) Development consent must not be granted to development for the purpose of health consulting rooms on land to which this clause applies unless the consent authority is satisfied that the development will be carried out within, or by alteration or addition to, a dwelling house.

#### **6.18 (Repealed)**

#### **6.19 Development in St Patrick’s Estate**

- (1) The objectives of this clause are as follows—
  - (a) to protect the heritage significance, including the archaeological, natural and cultural heritage values, of St Patrick’s Estate,
  - (b) to ensure that development does not detract from the heritage significance of Moran House, Cerretti Chapel, St Therese’s Convent and the Archbishop’s Residence,
  - (c) to ensure that any new buildings or structures in St Patrick’s Estate are sympathetic in scale and built form to the heritage items that are situated in St Patrick’s Estate.
- (2) This clause applies to land in St Patrick’s Estate.

- (3) Development consent must not be granted to development on land in—
- (a) “Precinct 1”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
    - (i) will provide access to College Street, and
    - (ii) will not result in vehicular access being provided directly to Bower Street,
  - (b) “Precinct 2”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
    - (i) will provide access to College Street, and
    - (ii) will retain the view to and from Moran House, if the development is on land identified as “View Corridor” on the [Key Sites Map](#),
  - (c) “Precinct 3”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development will not involve the erection of a building within 10 metres of land in Zone C1 National Parks and Nature Reserves,
  - (d) “Precinct 4”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development,
    - (i) will not involve the erection of a building within 10 metres of Darley Road or land in Zone C1 National Parks and Nature Reserves, and
    - (ii) will not involve the erection of a building within 5 metres of the centre of the pathway that extends from the Archbishop’s Residence to Spring Cove and is identified on the [Key Sites Map](#), and
    - (iii) will retain the view to and from the Archbishop’s Residence and Spring Cove, if the development is on land identified as “View Cone” on the [Key Sites Map](#),
  - (e) “Precinct 5”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
    - (i) will not involve the erection of a building within 10 metres of land in Zone C1 National Parks and Nature Reserves, and
    - (ii) will not involve the erection of a building within 5 metres of the western boundary of that Precinct, and
    - (iii) will not involve the erection of a building within 5 metres of the centre of the pathway that extends from the Archbishop’s Residence to Spring Cove and is identified on the [Key Sites Map](#), and
    - (iv) will retain the view to and from the Archbishop’s Residence and Spring Cove if the development is on land identified as “View Cone” on the [Key Sites Map](#),

- (f) “Precinct 6”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not involve the erection of a building within 5 metres of the nearest boundary of St Patrick’s Estate, and
  - (ii) will not involve the erection of a building within 5 metres of the centre of the pathway that extends from the Archbishop’s Residence to Spring Cove and is identified on the [Key Sites Map](#), and
  - (iii) will retain the view to and from the Archbishop’s Residence and Spring Cove, if the development is on land identified as “View Cone” on the [Key Sites Map](#),
- (g) “Precinct 7”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development will be wholly located within the area marked “Buildable Area” on the [Key Sites Map](#),
- (h) “Precinct 10”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not involve the erection of a building within 5 metres of the western boundary of the Precinct or land in Zone RE1 Public Recreation, and
  - (ii) will not involve the erection of a building within 10 metres of land in Zone C1 National Parks and Nature Reserves, and
  - (iii) will not involve the erection of a building within 5 metres of the centre of the pathway that extends from the Archbishop’s Residence to Spring Cove and is identified on the [Key Sites Map](#), and
  - (iv) will retain the view to and from the Archbishop’s Residence and Spring Cove, if the development is on land identified as “View Cone” on the [Key Sites Map](#),
- (i) “Precinct 11”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not involve the erection of a building within 10 metres of Darley Road, and
  - (ii) will not involve the erection of a building within 5 metres of the western boundary of the Precinct, and
  - (iii) will not involve the erection of a building within 5 metres of the centre of the pathway that extends from the Archbishop’s Residence to Spring Cove and is identified on the [Key Sites Map](#), and
  - (iv) will retain the view to and from the Archbishop’s Residence and Spring Cove if the development is on land identified as “View Cone” on the [Key Sites Map](#),
- (j) “Precinct 12”, as identified on the [Key Sites Map](#), unless the consent authority is

satisfied that the development will not involve the erection of a building within 10 metres of land in Zone C1 National Parks and Nature Reserves,

- (k) “Precinct 13”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not involve the erection of a building within 5 metres of the northern boundary of the Precinct, and
  - (ii) will not involve the erection of a building within 10 metres of a boundary with land in Precinct 14 identified on the [Key Sites Map](#), and
  - (iii) will provide access to College Street, but will not provide access directly to Bower Street,
- (l) “Precinct 14”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not involve the erection of a building within 10 metres of land in Zone C1 National Parks and Nature Reserves, and
  - (ii) will not involve the erection of a building within 5 metres of the northern boundary of the Precinct, and
  - (iii) will be wholly located within the area marked “Buildable Area” on the [Key Sites Map](#),
- (m) “Precinct 15”, as identified on the [Key Sites Map](#), unless the consent authority is satisfied that the development—
  - (i) will not minimise the view to and from St Patrick’s Estate, and
  - (ii) will provide access to Fairy Bower Road.

(4) Development consent must not be granted to development for the purpose of residential accommodation on land described in column 1 of the Table to this subclause and identified on the [Key Sites Map](#) if the development will result in the number of dwellings on that land exceeding the number specified in column 2 of that table for that land.

<b>Land</b>	<b>Number of dwellings</b>
Precinct 1	13
Precinct 2	21
Precinct 3	44
Precinct 10	24

Precinct 12	24
Precinct 13	13

- (5) Without limiting subclause (4), development consent must not be granted to development on land in Precinct 5, Precinct 6 or Precinct 10 if the development will result in the total number of dwellings on all that land exceeding 38.
- (6) In this clause—

**St Patrick's Estate** means the land identified as "St Patrick's Estate" on the [Key Sites Map](#).

#### **6.20 Location of sex services premises**

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following—
- (a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land—
- (i) in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or
- (ii) used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
- (b) the impact of the proposed development and its hours of operation on any place likely to be regularly frequented by children—
- (i) that adjoins the proposed development, or
- (ii) that can be viewed from the proposed development, or
- (iii) from which a person can view the proposed development.

#### **6.21 Noise impacts—licensed premises**

- (1) The objective of this clause is to ensure that development applications for licensed premises consider any noise impact on residential accommodation in the vicinity.
- (2) Before granting development consent for development involving the use of land as licensed premises under the [Liquor Act 2007](#), the consent authority must consider the impact of any noise nuisance likely to be generated by the proposed development on residential accommodation in the vicinity of the proposed development.

## **6.22 Development for the purposes of secondary dwellings in certain residential and conservation zones**

- (1) The objective of this clause is to ensure that secondary dwellings on land to which this clause applies are of low impact and without adverse effects on the specific ecological, social and aesthetic values of the land.
- (2) This clause applies to land in the following zones—
  - (a) Zone R1 General Residential,
  - (b) Zone R2 Low Density Residential,
  - (c) Zone R3 Medium Density Residential,
  - (d) Zone C3 Environmental Management,
  - (e) Zone C4 Environmental Living.
- (3) Despite clause 5.4 (9), development consent may be granted for development for the purposes of a secondary dwelling on land to which this clause applies if—
  - (a) the total floor area of the secondary dwelling does not exceed 75 square metres, and
  - (b) the consent authority is satisfied that the secondary dwelling will be located entirely within an existing principal dwelling on a site that contains no other secondary dwelling.
- (4) Despite any other provision of this Plan, development consent must not be granted for development for the purposes of a secondary dwelling on land in Zone C3 Environmental Management or Zone C4 Environmental Living unless the consent authority is satisfied that the secondary dwelling will be located entirely within an existing principal dwelling on a site that contains no other secondary dwelling.
- (5) In this clause—

***development for the purposes of a secondary dwelling*** has the same meaning as in [State Environmental Planning Policy \(Housing\) 2021](#).

**Note—**

See also [State Environmental Planning Policy \(Housing\) 2021, Chapter 3, Part 1](#).

## **Schedule 1 Additional permitted uses**

(Clause 2.5)

### **1 Use of certain land at 3 Thornton Street, Fairlight**

- (1) This clause applies to land at 3 Thornton Street, Fairlight, being Lots 1, 2, 5 and 6, SP

33847.

- (2) Development for the purposes of office premises is permitted with development consent.

## **2 Use of certain land at Collins Beach Road, Manly**

- (1) This clause applies to land at Collins Beach Road, Manly, being Lot 2766, DP 752038.
- (2) Development for the purpose of an educational establishment is permitted with development consent.

## **3 Use of certain land at 93-95 North Steyne, Manly**

- (1) This clause applies to land at 93-95 North Steyne, Manly, being SP 40022.
- (2) Development for the purpose of a shop is permitted with development consent.
- (3) Development for the purpose permitted in subclause (2) must be located on the ground floor and must be for the purposes of the hire and sale of goods associated with recreational activities on Manly Beach and the beach front reserve.

## **4 Use of certain land at 52 Raglan Street, Manly**

- (1) This clause applies to land at 52 Raglan Street, Manly, being Lot 2810, DP 726668.
- (2) Development for the purposes of registered clubs is permitted with development consent.

## **Schedule 2 Exempt development**

(Clause 3.1)

### **Note 1—**

*State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

### **Note 2—**

Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

### **Signage (business identification signs—generally)**

- (1) Must be no more than 1 sign per premises.
- (2) Must relate to the lawful use of the premises.
- (3) Must not cover vents or windows.

- (4) Must not cause offence to a reasonable person.

## Schedule 6 Pond-based and tank-based aquaculture

(Clause 5.19)

### Part 1 Pond-based and tank-based aquaculture

#### Division 1 Site location requirements

##### 1 Conservation exclusion zones

- (1) Must not be carried out on the following land, except to the extent necessary to gain access to water—
  - (a) land declared an area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016*,
  - (b) vacant Crown land,
  - (c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.
- (2) Must not be carried out on the following land, except for the purposes of minimal infrastructure to support the extraction of water from, and discharge of water to, the land concerned—
  - (a) land declared as an aquatic reserve under the *Marine Estate Management Act 2014*,
  - (b) land declared as a marine park under the *Marine Estate Management Act 2014*.

**Note—**

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

#### Division 2 Operational requirements

##### 2 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

##### 3 Pond-based aquaculture that is also intensive aquaculture—pond design

For pond-based aquaculture that is also intensive aquaculture—ponds must be capable of

being drained or pumped and then completely dried.

#### **4 Pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—freshwater discharges**

For pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—no discharge of freshwater used to intensively cultivate or keep fish to natural waterbodies or wetlands is permitted, except freshwater discharge from open flow through systems.

#### **5 Outlets from culture ponds etc**

All outlets from culture ponds, tanks and other culture facilities must be screened to avoid the escape of fish.

#### **6 Definition**

In this Division—

**intensive aquaculture** has the same meaning as it has in the [Fisheries Management \(Aquaculture\) Regulation 2017](#).

## **Part 2 Extensive pond-based aquaculture**

### **Division 1 Site location requirements**

#### **7 Conservation exclusion zones**

- (1) Must not be carried out on the following land, except to the extent necessary to gain access to water—
  - (a) land declared an area of outstanding biodiversity value under the [Biodiversity Conservation Act 2016](#),
  - (b) vacant Crown land,
  - (c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

**Note—**

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

#### **8 Flood liability**

Must be designed or constructed on land so that it will not be inundated by the discharge of a 1:100 ARI (average recurrent interval) flood event.

## Division 2 Operational requirements

### 9 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

### 10 Pond design

- (1) Must not require the construction of new ponds, water storages, dams or buildings.
- (2) Must not be located on permanent watercourses, creeks, billabongs or isolated outreaches of creeks or rivers.
- (3) Must be capable of preventing the escape of stock into natural waterbodies or wetlands.

### 11 Culture water

Must use freshwater.

## Dictionary

(Clause 1.4)

### Note—

The Act and the [Interpretation Act 1987](#) contain definitions and other provisions that affect the interpretation and application of this Plan.

**Aboriginal object** means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

**Aboriginal place of heritage significance** means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the [Heritage Map](#), that is—

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

### Note—

The term may include (but is not limited to) places that are declared under section 84 of the [National Parks and Wildlife Act](#)

1974 to be Aboriginal places for the purposes of that Act.

**acid sulfate soils** means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

**Acid Sulfate Soils Manual** means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

**Acid Sulfate Soils Map** means the [Manly Local Environmental Plan 2013 Acid Sulfate Soils Map](#).

**Active Street Frontages Map** means the [Manly Local Environmental Plan 2013 Active Street Frontages Map](#).

**advertisement** has the same meaning as in the Act.

**Note—**

The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

**advertising structure** has the same meaning as in the Act.

**Note—**

The term is defined as a structure used or to be used principally for the display of an advertisement.

Advertising structures are a type of **signage**—see the definition of that term in this Dictionary.

**affordable housing** has the same meaning as in the Act.

**Note—**

The term is defined as housing for very low income households, low income households or moderate income households, being such households as are prescribed by the regulations or as are provided for in an environmental planning instrument.

**agricultural produce industry** means a building or place used for the handling, treating, processing or packing, for commercial purposes, of produce from agriculture (including dairy products, seeds, fruit, vegetables or other plant material), and includes wineries, flour mills, cotton seed oil plants, cotton gins, feed mills, cheese and butter factories, and juicing or canning plants, but does not include a livestock processing industry.

**Note—**

Agricultural produce industries are a type of **rural industry**—see the definition of that term in this Dictionary.

**agriculture** means any of the following—

- (aaa) agritourism,
- (a) aquaculture,
- (b) extensive agriculture,
- (c) intensive livestock agriculture,
- (d) intensive plant agriculture.

**Note—**

Part 6 of the *Plantations and Reafforestation Act 1999* provides that exempt farm forestry within the meaning of that Act is not subject to the *Environmental Planning and Assessment Act 1979*.

**agritourism** means the following—

- (a) farm gate premises,
- (b) farm experience premises.

**Note—**

Agritourism is a type of **agriculture**—see the definition of that term in this Dictionary.

**air transport facility** means an airport or a heliport that is not part of an airport, and includes associated communication and air traffic control facilities or structures.

**airport** means a place that is used for the landing, taking off, parking, maintenance or repair of aeroplanes, and includes associated buildings, installations, facilities and movement areas and any heliport that is part of the airport.

**Note—**

Airports are a type of **air transport facility**—see the definition of that term in this Dictionary.

**airstrip** means a single runway for the landing, taking off or parking of aeroplanes for private aviation only, but does not include an airport, heliport or helipad.

**amusement centre** means a building or place (not being part of a pub or registered club) used principally for playing—

- (a) billiards, pool or other like games, or
- (b) electronic or mechanical amusement devices, such as pinball machines, computer or video games and the like.

**animal boarding or training establishment** means a building or place used for the breeding, boarding, training, keeping or caring of animals for commercial purposes (other than for the agistment of horses), and includes any associated riding school or ancillary veterinary hospital.

**aquaculture** has the same meaning as in the *Fisheries Management Act 1994*. It includes oyster aquaculture, pond-based aquaculture and tank-based aquaculture.

**Note—**

Aquaculture is a type of **agriculture**—see the definition of that term in this Dictionary.

**archaeological site** means a place that contains one or more relics.

**artisan food and drink industry** means a building or place the principal purpose of which is the making or manufacture of boutique, artisan or craft food or drink products only. It must also include at least one of the following—

- (a) a retail area for the sale of the products,
- (b) the preparation and serving, on a retail basis, of food and drink to people for consumption on the premises, whether or not liquor, take away meals and drinks or entertainment are also provided,

(c) facilities for holding tastings, tours or workshops.

**Note—**

See clause 5.4 for controls in certain zones relating to the retail floor area of an artisan food and drink industry. Artisan food and drink industries are a type of **light industry**—see the definition of that term in this Dictionary.

**attached dwelling** means a building containing 3 or more dwellings, where—

- (a) each dwelling is attached to another dwelling by a common wall, and
- (b) each of the dwellings is on its own lot of land, and
- (c) none of the dwellings is located above any part of another dwelling.

**Note—**

Attached dwellings are a type of **residential accommodation**—see the definition of that term in this Dictionary.

**attic** means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

**backpackers' accommodation** means a building or place that—

- (a) provides temporary or short-term accommodation on a commercial basis, and
- (b) has shared facilities, such as a communal bathroom, kitchen or laundry, and
- (c) provides accommodation on a bed or dormitory-style basis (rather than by room).

**Note—**

Backpackers' accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**basement** means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

**bed and breakfast accommodation** means an existing dwelling in which temporary or short-term accommodation is provided on a commercial basis by the permanent residents of the dwelling and where—

- (a) meals are provided for guests only, and
- (b) cooking facilities for the preparation of meals are not provided within guests' rooms, and
- (c) dormitory-style accommodation is not provided.

**Note—**

See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of **tourist and visitor accommodation**—see the definition of that term in this Dictionary.

**bee keeping** means a building or place used for the keeping and breeding of bees for commercial purposes.

**Note—**

Bee keeping is a type of **extensive agriculture**—see the definition of that term in this Dictionary.

**biodiversity** or **biological diversity** means the variety of living animal and plant life from all sources, and includes diversity within and between species and diversity of ecosystems.

**biosolids treatment facility** means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

**Note—**

Biosolids treatment facilities are a type of **sewerage system**—see the definition of that term in this Dictionary.

**boarding house** means a building or place—

- (a) that provides residents with a principal place of residence for at least 3 months, and
- (b) that contains shared facilities, such as a communal living room, bathroom, kitchen or laundry, and
- (c) that contains rooms, some or all of which may have private kitchen and bathroom facilities, and
- (d) used to provide affordable housing, and
- (e) if not carried out by or on behalf of the Land and Housing Corporation—managed by a registered community housing provider,

but does not include backpackers' accommodation, co-living housing, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

**boat building and repair facility** means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.
