- (f) to reinforce the role of the Port Macquarie-Hastings area's settlement hierarchy, centred on Port Macquarie and supported by its surrounding towns and villages,
- (g) to ensure the effective management of public assets within the Port Macquarie-Hastings area,
- (h) to provide a land use framework for development within the Port Macquarie-Hastings area that is safe, inclusive and equitable, and caters for the housing, employment, entertainment, cultural, welfare and recreational needs of residents and visitors,

- (m) to provide effective and efficient connectivity and movement corridors within and between subdivisions.

### **1.3 Land to which Plan applies**

- (1) This Plan applies to the land identified on the [Land Application Map](#).
- (1A) (Repealed)

### **1.4 Definitions**

(1AA) (Repealed)

- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

## **1.8 Repeal of planning instruments applying to land**

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

**Note—**

The following local environmental plans are repealed—

[\*Hastings Local Environmental Plan 1987\*](#)

[\*Port Macquarie-Hastings \(Area 13 Thrumster\) Local Environmental Plan 2008\*](#)

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

### **1.8A Savings provision relating to development applications**

- (1) If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

**Note—**

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

- (2) A development application made, but not finally determined, before the commencement of *State Environmental Planning Policy Amendment (Flood Planning) 2023* must be determined as if that policy had not commenced.

**1.9 Application of SEPPs**

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

Clause 9 of *State Environmental Planning Policy (Rural Lands) 2008*

**1.9A Suspension of covenants, agreements and instruments**

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
  - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
  - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or
  - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
  - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
  - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
  - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or

**2.2 Zoning of land to which Plan applies**

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

**2.3 Zone objectives and Land Use Table**

- (1) The Land Use Table at the end of this Part specifies for each zone—
  - (a) the objectives for development, and
  - (b) development that may be carried out without development consent, and
  - (c) development that may be carried out only with development consent, and

- (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
  - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
  - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

**Notes—**

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

**2.4 Unzoned land**

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
  - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

**2.5 Additional permitted uses for particular land**

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
  - (a) with development consent, or
  - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.

- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

## 2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

### Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

### Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

## 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

### Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

## 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
  - (b) the temporary use will not adversely impact on any adjoining land or the amenity

of the neighbourhood, and

- (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
  - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

## **2.9 Canal estate development prohibited**

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
- (a) a constructed canal, or other waterway or waterbody, that—
    - (i) is inundated by surface water or groundwater movement, or
    - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
  - (b) the erection of a dwelling, and
  - (c) one or both of the following—
    - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,
    - (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
- (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
  - (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—
- flood planning area** has the same meaning as in clause 5.21.

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- (3) To be complying development, the development must—
  - (a) be permissible, with development consent, in the zone in which it is carried out, and
  - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
  - (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.
- (4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.
- (5) A heading to an item in Schedule 3 is part of that Schedule.

### 3.3 Environmentally sensitive areas excluded

- (1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.
- (2) For the purposes of this clause—

**environmentally sensitive area for exempt or complying development** means any of the following—

  - (a) the coastal waters of the State,
  - (b) a coastal lake,
  - (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the *Coastal Management Act 2016*),

preservation of flora, fauna, geological formations or for other environmental protection purposes,

- (j) land that is a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*.

## **Part 4 Principal development standards**

### **4.1 Minimum subdivision lot size**

- (1) The objectives of this clause are as follows—
- (a) to ensure that lot sizes are compatible with local environmental values and constraints,
  - (b) to facilitate efficient use of land resources for residential and other human purposes,
  - (c) to minimise the fragmentation of rural land suitable for sustainable primary production,
  - (d) to protect high ecological, scientific, cultural or aesthetic values of land in conservation zones.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (3A) If a lot is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included when calculating the size of the lot for the purposes of this clause.
- (4) This clause does not apply in relation to the subdivision of any land—
- (a) by the registration of a strata plan or strata plan of subdivision under the *Strata Schemes Development Act 2015*, or
  - (b) by any kind of subdivision under the *Community Land Development Act 2021*.

#### **4.1AA Minimum subdivision lot size for community title schemes**

- (1) The objectives of this clause are as follows—
- (a) to ensure that land to which this clause applies is not fragmented by subdivisions

that would create additional dwelling entitlements.

(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 2021](#) of land in any of the following zones—

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (c) Zone R2 Low Density Residential,
- (d) Zone R5 Large Lot Residential,
- (e) Zone C2 Environmental Conservation,
- (f) Zone C3 Environmental Management,

but does not apply to a subdivision by the registration of a strata plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the [Community Land Development Act 2021](#)) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(3A) Despite subclause (3), development consent may be granted for the subdivision of a lot for a community title scheme on land identified as “Area 1” on the [Lot Size Map](#) if—

- (a) each lot size will be at least 4,000 square metres, and
- (b) each lot will be served by a co-operative scheme for the common disposal of effluent.

(4) This clause applies despite clause 4.1.

#### **4.1A Exceptions to minimum lot sizes for certain residential development**

(1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.

(2) This clause applies to development on land in the following zones—

- (a) Zone R1 General Residential,
- (b) Zone R3 Medium Density Residential,
- (c) Zone R4 High Density Residential.

(3) Development consent may be granted to a single development application for development to which this clause applies that is both of the following—

- (a) the subdivision of land into 2 or more lots,
- (b) the erection of an attached dwelling, a semi-detached dwelling or a dwelling house on each lot resulting from the subdivision.

#### **4.1B Minimum subdivision lot sizes for certain split zones**

- (1) The objectives of this clause are as follows—
  - (a) to provide for the subdivision of lots that are within more than one zone but cannot be subdivided under clause 4.1,
  - (b) to ensure that the subdivision occurs in a manner that promotes suitable land use and development.
- (2) This clause applies to each lot (an original lot) that contains—
  - (a) land in a residential, employment or mixed use zone or land in Zone SP4 Enterprise or Zone W4 Working Waterfront, and
  - (b) land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU6 Transition, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living.
- (3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the resulting lots) if—
  - (a) one of the resulting lots will contain—
    - (i) land in a residential, employment or mixed use zone or land in Zone SP4 Enterprise or Zone W4 Working Waterfront that has an area that is not less than the minimum lot size shown on the [Lot Size Map](#) in relation to that land, and
    - (ii) all the land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU6 Transition, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living, and
  - (b) all other resulting lots will contain land that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

#### **4.2 Rural subdivision**

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—
  - (a) Zone RU1 Primary Production,

- (b) Zone RU2 Rural Landscape,
- (baa) Zone RU3 Forestry,
- (c) Zone RU4 Primary Production Small Lots,
- (d) Zone RU6 Transition.

**Note—**

When this Plan was made, it did not include Zone RU4 Primary Production Small Lots.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

**Note—**

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

**4.2A Erection of dwelling houses and dual occupancies in certain rural and conservation zones**

- (1) The objectives of this clause are as follows—
  - (a) to minimise unplanned rural residential development,
  - (b) to enable the replacement of lawfully erected dwelling houses in rural and conservation zones.
- (2) This clause applies to development for the purposes of dwelling houses or dual occupancies (attached) on land in the following zones—
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU6 Transition,
  - (d) Zone C3 Environmental Management,
  - (e) Zone C4 Environmental Living.
- (3) Development consent must not be granted for development to which this clause applies, on land on which no dwelling house or dual occupancy (attached) has been erected, unless the land is—

- (a) a lot that is at least the minimum lot size specified for that land by the [Lot Size Map](#), or
- (b) a lot created before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) was permissible immediately before that commencement, or
- (c) a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or dual occupancy (attached) would have been permissible if the plan of subdivision had been registered before that commencement, or
- (d) an existing holding, or
- (e) within a lot identified as “Dwelling opportunity” on the [Dwelling Opportunity Map](#), but only if no other dwelling or dual occupancy is erected on that lot.

**Note—**

A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.

(Repealed)

- (5) Despite subclause (3), development consent may be granted for development to which this clause applies if—
  - (a) there is a lawfully erected dwelling house or dual occupancy (attached) on the land and the dwelling house or dual occupancy (attached) to be erected is intended only to replace the existing dwelling house or dual occupancy (attached), or
  - (b) the land would have been a lot referred to in subclause (3) had it not been affected by—
    - (i) a minor realignment of its boundaries that did not create an additional lot, or
    - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose.

(6) In this clause—

**existing holding** means land that—

- (a) was a holding on 26 May 1967, and
- (b) is a holding at the time the application for development consent referred to in subclause (3) is lodged,

whether or not there has been a change in the ownership of the holding since 26 May

1967, and includes any other land adjoining that land acquired by the owner since 26 May 1967.

**holding** means all adjoining land, even if separated by a road or railway, held by the same person or persons.

#### **4.2B Strata subdivisions in certain rural, residential and conservation zones**

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or proposed to be used, for residential accommodation or tourist and visitor accommodation—
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone R2 Low Density Residential,
  - (d) Zone R5 Large Lot Residential,
  - (e) Zone C2 Environmental Conservation,
  - (f) Zone C3 Environmental Management.
- (3) Development consent must not be granted for the subdivision of a lot to which this clause applies under a strata scheme that would create lots below the minimum size shown on the [Lot Size Map](#) for the land.

**Note—**

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is specified complying development.

- (4) (Repealed)

#### **4.2C Boundary adjustments of land in certain rural, residential and conservation zones**

- (1) The objective of this clause is to facilitate boundary adjustments between lots where one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land but the objectives of the relevant zone can be achieved.
- (2) This clause applies to land in any of the following zones—
  - (a) Zone RU1 Primary Production,
  - (b) Zone RU2 Rural Landscape,
  - (c) Zone RU6 Transition,
  - (d) Zone R5 Large Lot Residential,

- (e) Zone C2 Environmental Conservation,
  - (f) Zone C3 Environmental Management,
  - (g) Zone C4 Environmental Living.
- (3) Despite clause 4.1, development consent may be granted to subdivide land by way of a boundary adjustment between adjoining lots where one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land if the consent authority is satisfied that—
- (a) the subdivision will not create additional lots or the opportunity for additional dwellings, and
  - (b) the number of dwellings or opportunities for dwellings on each lot after the subdivision will be the same as before the subdivision, and
  - (c) the potential for land use conflict will not be increased as a result of the subdivision, and
  - (d) the subdivision will not result in any increased bush fire risk to existing buildings, and
  - (e) if the land is in Zone RU1 Primary Production or Zone RU2 Rural Landscape, the agricultural viability of the land will not be adversely affected as a result of the subdivision.
- (4) Before granting development consent to development to which this clause applies, the consent authority must be satisfied that the subdivision will not compromise the continued protection and long-term maintenance of any land in Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living.

#### **4.3 Height of buildings**

- (1) The objectives of this clause are as follows—
- (a) to ensure that buildings are compatible with the height, bulk and scale of the existing and desired future character of the locality,
  - (b) to minimise visual impact, disruption of views, loss of privacy and loss of solar access to existing development,
  - (c) to minimise the adverse impact of development on heritage conservation areas and heritage items,
  - (d) to nominate heights that will provide a transition in built form and land use intensity within the area covered by this Plan.

- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

#### 4.4 Floor space ratio

- (1) The objectives of this clause are as follows—
- (a) to regulate density of development and generation of vehicular and pedestrian traffic,
  - (b) to encourage increased building height and site amalgamation at key locations,
  - (c) to provide sufficient floor space for high quality development for the foreseeable future,
  - (d) to ensure that buildings are compatible with the bulk and scale of the existing and desired future character of the locality.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).

#### 4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows—
- (a) to define **floor space ratio**,
  - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
    - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
    - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
    - (iii) require community land and public places to be dealt with separately.
- (2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.
- (3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—
- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
  - (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)-(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

- (4) **Exclusions from site area** The following land must be excluded from the site area—
- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
  - (b) community land or a public place (except as provided by subclause (7)).
- (5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.
- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If—
- (a) a covenant of the kind referred to in subclause (9) applies to any land (***affected land***), and
  - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local Government Act 1993](#).

#### 4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—
- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
  - (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

**Note—**

The [Environmental Planning and Assessment Regulation 2021](#) requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

- (4) The consent authority must keep a record of its assessment carried out under subclause (3).
- (5) (Repealed)
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—

- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
- (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

**Note—**

When this Plan was made, it did not include Zone RU4.

- (7) (Repealed)
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
  - (a) a development standard for complying development,
  - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
  - (c) clause 5.4,
  - (caa) clause 5.5,
  - (ca) clause 6.1, 6.2 or 6.3.

## **Part 5 Miscellaneous provisions**

### **5.1 Relevant acquisition authority**

- (1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

## 5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

**Note—**

Under the *Local Government Act 1993*, "public land" is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
  - (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

**Note—**

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

### **5.3 Development near zone boundaries**

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is—
- (a) 100 metres from a zone boundary of land that is only within Zone RU1 Primary Production, Zone RU2 Rural Landscape or Zone RU3 Forestry, or
  - (b) 20 metres from any other zone boundary.
- (3) This clause does not apply to—
- (a) land in Zone RE1 Public Recreation, Zone C1 National Parks and Nature Reserves, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone W1 Natural Waterways, or
  - (b) land within the coastal zone, or
  - (c) land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that—

- (a) the development is not inconsistent with the objectives for development in both zones, and
  - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

#### 5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 4 bedrooms.

**Note—**

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 60 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 60 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
- (a) 43% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
  - (b) 400 square metres,
- whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 4 bedrooms in buildings.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 80 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 200 square metres.
- (7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood

supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.

- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 20 square metres.
- (9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—
- (a) 60 square metres,
  - (b) 33% of the total floor area of the principal dwelling.
- (10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—
- (a) 43% of the gross floor area of the industry, or
  - (b) 400 square metres,
- whichever is the lesser.

### **5.5 Controls relating to secondary dwellings on land in a rural zone**

If development for the purposes of a secondary dwelling is permitted under this Plan on land in a rural zone—
