 - (b) if Part 5 applies to the carrying out of the development, the development is taken to be development that may be carried out without development consent under Part 4 (despite anything to the contrary in an environmental planning instrument),
 - (c) any development standard that is within the terms of the approval of the concept plan has effect,
 - (d) a consent authority must not grant consent under Part 4 for the development unless it is satisfied that the development is generally consistent with the terms of the approval of the concept plan,
 - (e) a consent authority may grant consent under Part 4 for the development without complying with any requirement under any environmental planning instrument relating to a master plan,
 - (f) the provisions of any environmental planning instrument or any development

control plan do not have effect to the extent to which they are inconsistent with the terms of the approval of the concept plan,

- (g) this clause applies instead of section 75P(2), but any direction, order or determination made under section 75P(2) in connection with the concept plan continues to have effect.
- (3) If a determination was not made under section 75P(1)(b) in relation to the project (or any stage of the project) when any such concept plan was approved and the project (or that stage) can no longer be approved under Part 3A, Part 4 is taken to apply to the carrying out of the development in relation to the project (or that stage) for the purposes of subclause (2) (unless an environmental planning instrument provides that it is development that may be carried out without development consent or it is exempt development).
- (4) For the purposes of determining whether development to which Part 4 applies is State significant development, a provision of this clause that permits the development to be carried out with development consent under Part 4 is taken to be a provision of an environmental planning instrument.
- (5) This clause does not apply to development that is State significant infrastructure.
- (5A) Subclause (2)(f) does not apply to the provisions of *State and Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 6.
- (6) The amendments made to this Schedule by the [Environmental Planning and Assessment Amendment \(Transitional\) Regulation 2016](#) extend to things done before the commencement of those amendments.

3BA Winding-up of transitional Part 3A modification provisions on cut-off date of 1 March 2018 and other provisions relating to modifications

- (1) For the purposes of this clause, the **cut-off date** is 1 March 2018.
- (2) An approved project or a concept plan cannot be modified under section 75W on or after the cut-off date, except as provided by this clause.
- (3) Subclause (2) does not apply if the request to modify the approved project or concept plan under section 75W was lodged before the cut-off date. Accordingly, the provisions of this Schedule relating to a modification made pursuant to such a request continue to apply.
- (4) A request to modify an approved project or concept plan under section 75W that may be dealt with because of subclause (3) cannot be dealt with under section 75W if—
 - (a) the request has not been determined by 1 September 2018, and
 - (b) the Secretary is of the opinion that insufficient information has been provided to

deal with the request and notifies the person who made the request that it will not be dealt with under section 75W.

- (5) A concept plan may continue to be modified under section 75W pursuant to a request lodged on or after the cut-off date (whether or not the project is or has ceased to be a transitional Part 3A project), but only if the Minister is satisfied that—
- (a) the proposed modification is to correct a minor error, misdescription or miscalculation, or
 - (b) the proposed modification is of minimal environmental impact, or
 - (c) the project to which the concept plan as modified relates is substantially the same as the project to which the concept plan currently relates (including any modifications previously made under section 75W).
- (5A) A request made in accordance with this clause to modify an approved project or concept plan may, with the consent of the Minister, be amended at any time before the request for modification is determined by the Minister.
- (5B) The amendment of a request to modify an approved project or concept plan—
- (a) must be—
 - (i) lodged in the way determined by the Minister, and
 - (ii) accompanied by the information specified by the Minister, and
 - (b) may be consented to by the Minister despite being lodged before the commencement of subclause (5A).
- (6) In the application of section 4.55(1A) or (2) or 4.56(1) of the Act to the following development, the consent authority need only be satisfied that the development to which the consent as modified relates is substantially the same development as the development authorised by the consent (as last modified under section 75W)—
- (a) development that was previously a transitional Part 3A project and whose approval was modified under section 75W,
 - (b) development that was taken to be an approved project pursuant to clause 8J of the *Environmental Planning and Assessment Regulation 2000* and whose consent was modified under section 75W.
- (7) To avoid doubt, subclause (2)—
- (a) applies whether the project remains or has ceased to be a transitional Part 3A project, and
 - (b) extends to a modification under section 75W in relation to a development consent

that is taken to be an approved project pursuant to clause 8J of the *Environmental Planning and Assessment Regulation 2000*.

3C Modification of concept plans

- (1) Section 75W continues to apply (subject to clause 3BA) for the purpose of the modification of a concept plan approved before or after the repeal of Part 3A, whether or not the project or any stage of the project is or was a transitional Part 3A project.
- (2) This clause applies despite anything to the contrary in this Schedule (other than provisions relating to approval for the carrying out of a project or stage of a project that is given in connection with an approval to modify a concept plan).

3D Modification of environmental assessment provisions—sections 75H and 75I

For the purposes of the application of Part 3A to a transitional Part 3A project—

- (a) section 75H(3) is taken not to require the Secretary to accept an environmental assessment before making an environmental assessment publicly available in accordance with that subsection, and
- (b) section 75I(2)(g) does not apply to or in respect of a transitional Part 3A project, and
- (c) the Minister is not required to consider a statement relating to compliance with environmental assessment requirements for the purposes of section 75J(2)(a) or 75O(2)(a).

Note—

Section 75N applies sections 75H and 75I to approval for a concept plan for a project in the same way as they apply with respect to an approval to carry out a project.

3E Time limits for proponents to comply with environmental assessment requirements

- (1) If the Secretary requires a proponent to make a submission under section 75H(6), the proponent must comply with that requirement—
 - (a) in relation to a response under section 75H(6)(a)—within 30 days, or
 - (b) in relation to a preferred project report referred to in section 75H(6)(b)—within 60 days, or
 - (c) in relation to a revised statement of commitments referred to in section 75H(6)(c)—within 60 days,after being notified of that requirement, or within such other period as the Secretary notifies in writing from time to time to the proponent.
- (2) If the proponent fails to make a submission within a period specified in this clause, to avoid doubt, the Minister may approve or disapprove the carrying out of a project

(under section 75J) or may give or refuse to give approval for a concept plan (under section 75O).

- (3) If the Secretary has notified a proponent of a requirement under section 75H(6) before the commencement of this clause, this clause applies to that requirement as if the period specified in relation to the requirement commences on the date of the commencement of this clause.
- (4) This clause does not affect the operation of clause 8D of the *Environmental Planning and Assessment Regulation 2000*.

4 Construing references to Part 3A

- (1) A reference in the Act (other than this Schedule) or in any other Act or in any instrument made under an Act to Part 3A or to a provision of that Part is to be construed as a reference to that Part or that provision as continued by this Schedule.
- (2) Without limiting subclause (1), on and from the commencement of this subclause, a reference in clause 6 of either of the Redfern–Waterloo contributions plans to a project to which Part 3A of the EP&A Act applies is taken to include a reference to State significant development.
- (3) The Redfern–Waterloo contributions plans, as taken to be amended by subclause (2), apply to development for which a development application was made but not determined before the commencement of that subclause in the same way as they apply to development for which an application is made after that commencement.

- (4) In this clause—

Redfern–Waterloo contributions plans means the following plans preserved under clause 18 of Schedule 6 to the *Growth Centres (Development Corporations) Act 1974*—

- (a) the *Redfern–Waterloo Authority Contributions Plan 2006*,
- (b) the *Redfern–Waterloo Authority Affordable Housing Contributions Plan 2006—Redfern–Waterloo Authority Operational Area*.

5 Part 3A projects that become State significant infrastructure

- (1) Specified development on specified land that was a project (or a specified class of development that were projects) to which Part 3A applied immediately before its repeal may be declared to be State significant infrastructure by an order of the Minister (published in the Gazette).
- (2) Any such development may be declared to be State significant infrastructure whether or not the development is a transitional Part 3A project. On the making of the declaration it ceases to be a transitional Part 3A project.

- (3) Despite anything to the contrary in any environmental planning instrument, any such development that is declared to be State significant infrastructure is taken to be development that may be carried out without development consent under Part 4.
- (4) For the purposes of Part 5.1 of the Act in its application to any such development—
 - (a) a concept plan approved under Part 3A in relation to the development (whether before or after the repeal of Part 3A) is taken to be an approval (and the concept proposals) for a staged infrastructure application under Division 3 of Part 5.1, and
 - (b) any approval under Part 3A to carry out development is taken to be approval under Division 5.2 for the carrying out of that development, and
 - (c) any environmental assessment requirements, any statement of environmental assessment, any public exhibition, any response to submissions, any preferred project report by a proponent or any other action under Part 3A in relation to the development is taken to be environmental assessment requirements, an environmental impact statement, public exhibition, a response to submissions, a preferred infrastructure report by a proponent or other action taken under the corresponding provisions of Part 5.1, unless the Secretary directs that any such action be taken again under Part 5.1.
- (4A) Despite subclause (4), a request to modify an approved project or concept plan under section 75W that, by operation of clause 3BA(4), cannot be dealt with under that section is not taken to be an action taken under a provision of Part 5.1.
- (5) If a single proposed development comprises development that is only partly State significant infrastructure declared under this clause, the remainder of the development (except so much of the remainder of the development as is State significant development or as the Secretary determines is not sufficiently related to the State significant infrastructure)—
 - (a) may be carried out without development consent under Part 4 of the Act, and
 - (b) is also declared to be State significant infrastructure for the purposes of the Act.
- (6) State significant infrastructure declared under this clause is taken to be State significant infrastructure declared under section 115U(4).
- (7) An approved project (whether approved before or after the repeal of Part 3A) that is State significant infrastructure declared under this clause and that is also declared to be a critical infrastructure project is taken to be critical State significant infrastructure declared under section 5.13 of the Act.

5A Additional provision relating to modification of approvals for North West Rail Link development

- (1) This clause applies to modification request no MP06_0157 MOD 1 to modify the

staged infrastructure approval (dated 6 May 2008) relating to the North West Rail Link development and to any subsequent modification requests to modify that approval.

Note—

The North West Rail Link development is declared to be State significant infrastructure by the operation of clause 5 of this Schedule and Schedule 4 to the *State Environmental Planning Policy (State and Regional Development) 2011*. The concept plan approved under Part 3A in relation to the development is taken to be an approval for a staged infrastructure application (see clause 5(4)(a) of this Schedule).

- (2) Section 115ZI applies to a modification request to which this clause applies as if that request were a request to modify a Minister's approval within the meaning of that section.
- (3) Any actions taken before the commencement of this clause with respect to any modification request to which this clause applies have effect for the purposes of the application of section 115ZI to the request.
- (4) This clause is in addition to clause 5.

5B Postponing the lapsing of approval to carry out State significant infrastructure

- (1) This clause applies to development that was a transitional Part 3A project and that has been declared to be State significant infrastructure by an order under clause 5.
- (2) A condition that causes the approval for the development to lapse on a day (the **original lapsing day**) does not have effect and the approval instead lapses on the day specified in subclause (3) if—
 - (a) a request has been duly made to the Minister to modify the approval to specify a later day on which the approval will lapse (a **relevant modification request**), and
 - (b) the relevant modification request is made before the original lapsing day and the request has not been determined on or before that day.
- (3) The approval lapses 12 months after the relevant modification request is made unless before the end of that period—
 - (a) the relevant modification request is refused or withdrawn, in which case the approval lapses on the day on which the refusal or withdrawal occurs, or
 - (b) the relevant modification request is granted, in which case the approval lapses on the day specified in the modified approval.
- (4) This clause extends to a relevant modification request that was duly made before the commencement of this clause.
- (5) If a relevant modification request was made before the commencement of this clause and was not determined before the approval lapsed, the approval is revived for the

purposes of the application of this clause and of any other request made before that commencement in relation to the approval. In that case, the period of 12 months referred to in subclause (3) is taken to be the 12 months after the commencement of this clause.

6 Part 3A projects that become State significant development

- (1) Specified development on specified land that was a project (or a specified class of development that were projects) to which Part 3A applied immediately before its repeal may be declared to be State significant development by an order of the Minister (published in the Gazette).
- (2) Any such development may be declared to be State significant development whether or not the development is a transitional Part 3A project. On the making of the declaration it ceases to be a transitional Part 3A project.
- (3) For the purposes of Part 4 in its application to any such development—
 - (a) any approval under Part 3A to carry out part of the development is taken to be a development consent under Part 4 for the carrying out of that part of the development, and
 - (b) any environmental assessment requirements, any statement of environmental assessment, any public exhibition, any response to submissions by a proponent or any other action under Part 3A in relation to the development are taken to be environmental assessment requirements, an environmental impact statement, public exhibition, a response to submissions by an applicant or other action taken under the corresponding provisions of Part 4, unless the Secretary directs that any such action be taken again under Part 4.
- (3A) Despite subclause (3), a request to modify an approved project or concept plan under section 75W that, by operation of clause 3BA(4), cannot be dealt with under that section is not taken to be an action taken under a provision of Part 4.
- (4) If a single proposed development comprises development that is only partly State significant development declared under this clause, the remainder of the development is also declared to be State significant development (except so much of the remainder of the development as the Secretary determines is not sufficiently related to the State significant development).
- (5) State significant development declared under this clause is taken to be State significant development declared under section 89C(3).

7, 8 (Repealed)

9 Compensation not payable

- (1) Compensation is not payable by or on behalf of the State—

- (a) because of the enactment, making or operation of any of the following—
 - (i) the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011*,
 - (ii) *State Environmental Planning Policy (Major Development) Amendment 2011* or any other environmental planning instrument, regulation or decision relating to the removal of any project from the operation of Part 3A (whether made before or after the commencement of this clause), or
 - (b) because of any consequence of any such enactment, making or operation, or
 - (c) because of any statement or conduct relating to any such enactment, making or operation, or
 - (d) because of any other statement or conduct relating to the repeal or proposed repeal of Part 3A (including the termination of consideration of any application or proposal under that Part in anticipation of its repeal).
- (2) This clause extends to statements, conduct and any other matter occurring before the commencement of this clause.

(3) In this clause—

compensation includes damages or any other form of monetary compensation.

conduct includes any act or omission, whether unconscionable, misleading, deceptive or otherwise.

statement includes a representation of any kind—

- (a) whether made verbally or in writing, and
- (b) whether negligent, false, misleading or otherwise.

the State means the Crown within the meaning of the *Crown Proceedings Act 1988* or an officer, employee or agent of the Crown.

10 (Repealed)

11 Lapsing of Part 3A approvals

- (1) An approval for carrying out a transitional Part 3A project lapses on the day that is 5 years after the repeal of Part 3A unless—
 - (a) the project is physically commenced (within the meaning of section 95) on or before that day on the land to which the approval relates, or
 - (b) the approval of the project is subject to a condition in force under section 75Y that provides for the approval to lapse on an earlier or later day.

- (2) Despite subclause (1), an approval for carrying out a transitional Part 3A project that authorises the use of any land, building or work does not lapse if that use is actually commenced before the date on which the approval would otherwise lapse.
- (3) The approval of a concept plan for a transitional Part 3A project lapses on the day that is 5 years after the repeal of Part 3A unless—
 - (a) any part of the project is physically commenced (within the meaning of section 95) on or before that day, in accordance with an approval or development consent, on the land to which the approval or consent relates, or
 - (b) the approval of the concept plan is subject to a condition in force under section 75Y that provides for the approval to lapse on an earlier or later day.

11A Requests to extend date that Part 3A approval lapses

- (1) This clause applies to an approval for carrying out, or an approval of a concept plan for, a transitional Part 3A project in respect of which a request has been duly made to the Minister to extend the date on which the approval would otherwise lapse (a **relevant modification request**). This clause extends to any such request that was duly made before the commencement of this clause.
- (2) If a relevant modification request is made before the date on which the approval would otherwise lapse and the request has not been determined before that date, the approval does not lapse on that date but continues in force until—
 - (a) the request is determined or withdrawn, or
 - (b) the date that is 12 months after the request was made,whichever first occurs.
- (3) If a relevant modification request is determined and the date on which the approval would otherwise lapse is extended, the approval continues in force in accordance with the determination despite subclause (2).
- (4) If a relevant modification request was made before the commencement of this clause and was not determined before the approval lapsed, the approval is revived for the purposes of the application of this clause and of any other request made before that commencement in relation to the approval. In that case, the period of 12 months referred to in subclause (2)(b) is taken to be the period of 12 months after the commencement of this clause.

12 Continuing application of Part 3A to modifications of certain development consents

Section 75W of Part 3A continues to apply (subject to clause 3BA) to modifications of the development consents referred to in clause 8J(8) of the *Environmental Planning and Assessment Regulation 2000*, and so applies whether an application for modification is

made before or after the commencement of this clause.

13 Application of amendments to existing development applications

The amendments made to the Act by Schedule 1.2[16], [18], [19], [25] and [26] to the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011* do not apply to or in respect of a development application lodged on or before the commencement of the amendment concerned.

14 Joint regional planning panels and matters previously determined by such panels

Section 23G(4A), as inserted by Schedule 1.5[2] to the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011*, does not apply to proceedings commenced by or against a joint regional planning panel before the commencement of that amendment.

15 Matters determined by joint regional planning panels

(1) If—

- (a) a development application was made but not determined before the commencement of Schedule 4A and a regional panel was exercising the consent authority functions of the council when the application was made, and
- (b) the regional panel ceased to exercise those functions on the commencement of that Schedule,

the council may exercise those functions.

(2) An application (whether made before or after the commencement of Schedule 4A) for modification of a development application for development for which a regional panel ceased to exercise the consent authority functions of a council on that commencement is to be determined by that council.

(3) Despite subclause (1), the applicable regional panel continues to exercise the consent authority functions of a council for the following development applications (but not for the modification of those development applications)—

- (a) a development application for development that has a capital investment value of more than \$10 million if the development application was made, but not determined by the panel, before the commencement of Schedule 4A,
- (b) a development application for development referred to in clause 13B(1)(f) of the *State Environmental Planning Policy (Major Development) 2005*, if the development application was made, but not determined by the panel, before the commencement of Schedule 4A,
- (c) the first stage of a staged development application for development referred to in

clause 13G of the *State Environmental Planning Policy (Major Development) 2005*, if the development application was made, but not determined by the panel, before the commencement of Schedule 4A.

16 Sydney Opera House—continuation of heritage provisions

If development in connection with the Opera House is declared to be State significant development or State significant infrastructure, clause 90 of Schedule 6 continues to apply as if references in that clause to provisions of Part 3A were references to the corresponding provisions relating to State significant development or State significant infrastructure.

17 Planning Assessment Commission

- (1) The amendments made to section 23D of the Act by Schedule 1.4 to the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011* do not affect any review under that section that was requested by the Minister before the commencement of those amendments.
- (2) The amendment made to clause 5(3) of Schedule 3 to the Act by Schedule 1.4[7] to the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011* extends to persons who were appointed as members before the commencement of that amendment.

18 Joint Regional Planning Panels

The amendment made to clause 2 of Schedule 4 to the Act by Schedule 1.5[4] to the *Environmental Planning and Assessment Amendment (Part 3A Repeal) Act 2011* does not apply to or in respect of the appointment or reappointment of a person who was the chairperson of a regional panel immediately before the commencement of that amendment.

19 Existing development applications not to be determined by regional panels

- (1) This clause applies to a development application for development if—
 - (a) the development application was made before 1 July 2009 and not finally determined before the commencement of Schedule 4A, and
 - (b) the development is development specified in Schedule 4A.
- (2) A development application to which this clause applies is to be dealt with as if it were for development not specified in Schedule 4A.
- (3) This clause applies to the determination of a development application before the commencement of this clause.

20 Modification of certain approved projects and development consents relating to mining

or petroleum development on strategic agricultural land

(1) **Application of clause** This clause applies to the following requests and applications—

- (a) a request to modify an approved project,
- (b) an application for the modification of a development consent referred to in clause 8J(8) of the *Environmental Planning and Assessment Regulation 2000*,

but only if the request or application relates to mining or petroleum development on the following land—

- (c) land shown on the Strategic Agricultural Land Map,
- (d) any other land that is the subject of a site verification certificate.

(2) **Meaning of “mining or petroleum development”** In this clause, **mining or petroleum development** means—

- (a) development specified in clause 5 of Schedule 1 to *State Environmental Planning Policy (Major Development) 2005* (as in force immediately before the repeal of that Schedule), but only if—
 - (i) a mining lease under the *Mining Act 1992* is required to be issued to enable the development to be carried out under the modified approval or consent because—
 - (A) the development is proposed to be carried out outside the mining area of an existing mining lease, or
 - (B) there is no current mining lease in relation to the proposed development, or
 - (ii) the development is for the purposes of extracting a bulk sample as part of resource appraisal or a trial of a mine comprising the extraction of more than 20,000 tonnes of coal or of any mineral ore, or
- (b) development specified in clause 6 of Schedule 1 to *State Environmental Planning Policy (Major Development) 2005* (as in force immediately before the repeal of that Schedule), but only if a production lease under the *Petroleum (Onshore) Act 1991* is required to be issued to enable the development to be carried out under the modified approval or consent because—
 - (i) the development is proposed to be carried out outside the area of an existing production lease, or
 - (ii) there is no current production lease in relation to the proposed development, or

(c) development specified in clause 6(2) of Schedule 1 to *State Environmental Planning Policy (State and Regional Development) 2011*.

(3) However, **mining or petroleum development** does not include development carried out on land that is outside—

- (a) the mining area of a mining lease or proposed mining lease, or
- (b) the area of a production lease or proposed production lease.

(4) **Request or application to which this clause applies to be accompanied by gateway certificate or site verification certificate** A request or application to which this clause applies must be accompanied by—

- (a) in relation to land shown on the Strategic Agricultural Land Map as critical industry cluster land—a current gateway certificate in respect of the proposed development to be carried out under the modified approval or consent, or
- (b) in relation to any other land—
 - (i) a current gateway certificate in respect of the proposed development to be carried out under the modified approval or consent or
 - (ii) a site verification certificate that certifies that the land concerned is not biophysical strategic agricultural land.

(5) **Part 4AA of Mining, Petroleum Production and Extractive Industries SEPP applies to requests and applications to which this clause applies** Part 4AA (Mining and petroleum development on strategic agricultural land) of *State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007* (other than Divisions 1, 2 and 5) applies (with all necessary changes) to a request or application to which this clause applies as if it were an application for development consent.

(6) **Assessment of requests and applications to which this clause applies** Before determining a request or application to which this clause applies that is accompanied by a gateway certificate, the Minister must—

- (a) refer the request or application to the Minister for Primary Industries for advice regarding the impact of the proposed development on water resources, and
- (b) if the request or application is accompanied by an unconditional gateway certificate issued by operation of clause 17I(3) of the *State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007* (as applied by this clause), refer the request or application to the Gateway Panel for advice, and
- (c) consider—
 - (i) any recommendations set out in the certificate, and

- (ii) any written advice provided by the Minister for Primary Industries in response to a referral under paragraph (a), and
 - (iii) any written advice provided by the Gateway Panel in response to a referral under paragraph (b), and
 - (iv) any written advice of the IES Committee provided to the Gateway Panel under clause 17G(1) of *State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007* (as applied by this clause).
- (7) In determining a request or application to which this clause applies that is accompanied by a gateway certificate, the Minister must consider whether any recommendations set out in the certificate have or have not been addressed and if addressed, the manner in which those recommendations have been addressed.
- (8) The Minister for Primary Industries, when providing advice under this clause on the impact of the proposed development on water resources, must have regard to—
- (a) the minimal impact considerations set out in the document entitled *Aquifer Interference Policy* published by the NSW Office of Water, Department of Primary Industries dated September 2012, and
 - (b) the other provisions of that Policy.
- (9) **Miscellaneous provisions** For the avoidance of doubt, a site verification certificate or a gateway certificate may be issued for the purposes of this clause with respect to the part of land or the part of the proposed development to which the modification relates (rather than the whole of the land or the whole development to which the approval or consent relates).
- (10) This clause does not apply to or with respect to a request or application that was made but not determined on or before 10 September 2012.
- (10A) In addition to subclause (10), this clause does not apply to or with respect to a request or application if—
- (a) the land to which the request or application relates was not shown (whether in whole or in part) on the *Strategic Agricultural Land Map* before 28 January 2014, and
 - (b) the request or application was made, but not determined, on or before 3 October 2013.
- (10B) However, the Minister or the Secretary, in dealing with a request or application referred to in subclause (10) or (10A), may seek the advice of the Gateway Panel.
- (11) Words and expressions used in this clause have the same meanings as they have in *State Environmental Planning Policy (Mining, Petroleum Production and Extractive*

Industries) 2007.

21 Transitional arrangements for certain declared light rail projects

- (1) To avoid doubt, development that is an activity under Part 5 of the Act because of the operation of section 104P(3) of the *Transport Administration Act 1988* may be declared to be State significant infrastructure or critical State significant infrastructure.
- (2) If any such development has been declared to be State significant infrastructure or critical State significant infrastructure, section 104P(3) of that Act does not apply to the extent that it provides that TfNSW is the determining authority for the development.
- (3) Except as provided by subclause (2), the declaration of any such development as State significant infrastructure or critical State significant infrastructure does not affect the application of section 104P of that Act to the development.

22 Continuation of enforcement arrangements in relation to Part 3A approvals

- (1) In this clause—

Part 3A approval means an approval for a transitional Part 3A project, whether granted before or after the repeal of Part 3A.

- (2) A person who contravenes or fails to comply with section 75D of the Act is guilty of an offence. The maximum penalty applicable to the offence is the same maximum penalty that applies to an offence in connection with the carrying out of State significant infrastructure in contravention of an approval under Division 5.2 of the Act.
- (3) Division 9.3 of, and Schedule 5 to, the Act apply to a Part 3A approval in the same way as they apply to an approval for State significant infrastructure.

Note—

A development control order in connection with State significant infrastructure may be given only by the Minister or the Planning Secretary (see section 9.35(2) of the Act).

- (a) the application is made by a public authority, or
- (b) the application relates to a critical infrastructure project, or
- (c) the application relates to a mining or petroleum production project, or
- (d) the application relates to a linear infrastructure project, or

(2) Any such consent may be obtained at any time before the determination of the application.

(3) If the consent of the owner of the land is not required for a project application under this clause, then the proponent is required to give notice of the application—

- (a) in the case of a linear infrastructure project or a project designated under subclause (1)(e)—to the public by advertisement published in a newspaper

circulating in the area of the project before the start of the public consultation period for the project, or

- (b) in the case of a project that comprises mining or petroleum production (other than a project that also comprises a linear infrastructure project)—to the public by advertisement published in a newspaper circulating in the area of the project before the end of the period of 14 days after the application is made, or

modification application means a request for modification of approval for a project under section 75W of the Act.

8G Public information about documents relating to projects

- (1) This clause applies to the duty of the Secretary under section 75X(2) of the Act to make specified documents relating to a project publicly available.
- (2) The documents are to be made available on the Department's website and in such other locations as the Secretary determines.
- (3) The documents are to be posted on the Department's website and in those other locations within 14 days of—
 - (a) in the case of a document that is an application, request or submission—the date on which the application, request or submission is made, or
 - (b) in the case of a document that is a determination of environmental assessment requirements, a report or an approval—the date on which the determination, report or approval is made or given.
- (4) In addition to the documents referred to in section 75X(2) of the Act, the Secretary is

to include on the Department's website and in such other locations as the Secretary determines the following documents—

The fees for applications and exercise of functions under Part 3A of the Act are as set out in Part 15 of this Regulation.

8I Enforcement: critical infrastructure

In accordance with section 75R(5) of the Act, Division 2A of Part 6 of the Act applies to a critical infrastructure project only to the extent that it authorises the Minister or the Secretary to give an order or exercise any other function under that Division.

8J Transitional provisions

(1AA) The Secretary may accept, as an application for approval of a project under Part 3A of the Act, any development application made under Part 4 of the Act with respect to any development before it becomes a project to which Part 3A of the Act applies. The Secretary may, for that purpose, require any matter to be provided by the applicant that he or she could require to be included in the application under section 75E of the Act.

(1) The Secretary may adopt (with or without modification), as environmental assessment requirements for a project or concept plan, environmental assessment requirements issued by the Secretary under Part 4 or Part 5 of the Act with respect to any

development or activity before it becomes a project to which Part 3A of the Act applies.

- (2) The Secretary may accept (with or without modification), as an environmental assessment for a project or part of a project or concept plan—
- (a) an environmental impact statement obtained in accordance with the requirements of the Secretary under Part 4 or Part 5 of the Act with respect to any development or activity before it becomes a project or part of a project to which Part 3A of the Act applies, or
 - (b) a statement of environmental effects (as referred to in clause 2(1)(c) of Schedule 1) prepared in connection with the development concerned before it becomes a project or part of a project to which Part 3A of the Act applies, or
 - (c) a written assessment arising out of the consideration, under section 111 of the Act, of the environmental impact of an activity and prepared before the activity becomes a project or part of a project to which Part 3A of the Act applies.
- (2A) If the Secretary accepts (with or without modification) an environmental impact statement, a statement of environmental effects or a written assessment as an environmental assessment for a project or part of a project or a concept plan—
- (a) the Secretary is taken to have prepared environmental assessment requirements in respect of the project or part of a project or concept plan, and
 - (b) the environmental assessment as so accepted is taken to comply with those requirements.
- (3) The Secretary may accept, as a period of public availability of the environmental assessment for a project or part of a project or concept plan (under section 75H(3) of the Act), a period of public exhibition of an environmental impact statement or a statement of environmental effects referred to in subclause (2) before the relevant development or activity becomes a project or part of a project to which Part 3A of the Act applies. For that purpose, and to avoid doubt, if the period of public exhibition is less than 30 days, it is accepted only to the extent of the actual period of public exhibition.
- (3A) If any such period of public exhibition of an environmental impact statement or a statement of environmental effects is accepted by the Secretary, the proponent must provide the Secretary with any written submissions made during the public exhibition period in relation to the relevant development or activity.
- (4) Despite its repeal, section 88A of the Act continues to apply (and Parts 3A and 5.1 and Division 4.1 of Part 4 of the Act do not apply) to development that is the subject of a development application that was directed to be referred to the Minister under that section before its repeal.

(4A) If a development application is made after the commencement of Part 3A of the Act in respect of any development that—

(a) was, immediately before the repeal of section 89 of the Act, the subject of a direction under that section, and

(b) is not a project to which Part 3A of the Act applies,

the Minister may direct that the application is to be determined (unless the development application is withdrawn by the applicant) as if the amendments made to the Act by Schedule 1 to the *Environmental Planning and Assessment Amendment (Infrastructure and Other Planning Reform) Act 2005* had not been made.

(5) If a development application is made after the commencement of Part 3A of the Act in respect of any development that, immediately before the commencement of Part 3A, was declared to be State significant development by notice in force under section 76A(7) of the Act, the Minister may direct that the application is to be determined (unless the development application is withdrawn by the applicant) as if the amendments made to the Act by Schedule 1 to the *Environmental Planning and Assessment Amendment (Infrastructure and Other Planning Reform) Act 2005* had not been made.

(6) Clause 89 of Part 17 to Schedule 6 to the Act extends to development applications pending on the commencement of Part 3A of the Act for development that was State significant development on the commencement of the *State Environmental Planning Policy (State Significant Development) 2005*.

(7) If—

(a) a development application was made before the commencement of Part 3A of the Act on the basis that the development was State significant development, and

(b) the Minister is required to form an opinion that the development is State significant development in order to determine the application on that basis (but the Minister had not, before that commencement, formed an opinion on the matter),

the Minister may, after that commencement, form an opinion that the development was, at the time the application was made, State significant development. In that case, the application is to be determined (unless withdrawn by the applicant) as if the amendments made to the Act by Schedule 1 to the *Environmental Planning and Assessment Amendment (Infrastructure and Other Planning Reform) Act 2005* had not been made.

Note—

The references to State significant development in this subclause refer to the meaning that term had before the commencement of Part 3A and not to its current meaning.

- (8) For the purposes only of modification, the following development consents are taken to be approvals under Part 3A of the Act and section 75W of the Act applies to any modification of such a consent—
- (a) a development consent granted by the Minister under section 100A or 101 of the Act,
 - (b) a development consent granted by the Minister under *State Environmental Planning Policy No 34—Major Employment-Generating Industrial Development*,
 - (c) a development consent granted by the Minister under Part 4 of the Act (relating to State significant development) before 1 August 2005 or under clause 89 of Schedule 6 to the Act,
 - (d) a development consent granted by the Land and Environment Court, if the original consent authority was the Minister and the consent was of a kind referred to in paragraph (c).

The development consent, if so modified, does not become an approval under Part 3A of the Act.

- (8A) Subclause (8), as in force before its substitution by the *Environmental Planning and Assessment Amendment (Miscellaneous) Regulation 2010*, applies to any development consent for which approval for the treatment of the consent as an approval for the purposes of section 75W of the Act—

- (a) was given before that substitution, or
- (b) is given after that substitution, but where the application for the approval was made before that substitution.

- (8B) The Secretary may waive any fee payable in respect of an application under section 75W of the Act if the application relates to a development consent that is taken to be an approval under Part 3A of the Act and a fee has been paid in respect of the application under section 96 of the Act.

- (9) For the purposes of this clause, and to avoid doubt, a development application is made by a person when the person first applies to the consent authority for consent to carry out the particular development, whether or not the application at that time had been consented to by the owner of the land to which the development application relates.

8K Transitional provision—existing mining leases

- (1) Despite its repeal by Schedule 7.11 to the Amending Act, section 74 of the *Mining Act 1992* (Mining unaffected by *Environmental Planning and Assessment Act 1979*) continues to have effect in respect of an existing mining lease in respect of which mining operations are carried out underground until—

- (a) the end of the relevant transition period, or
- (b) such time as an approval is given to carry out mining operations in the mining area,

whichever is the sooner.

- (2) However, if any such approval is limited to the carrying out of mining operations in a part of the mining area only, section 74 of the *Mining Act 1992* continues to have effect in respect of so much of the existing mining lease as relates to the other parts of the mining area, but only until the end of the relevant transition period or until such time as an approval is given to carry out mining operations in those other parts (whichever is the sooner).

- (3) In this clause—

Amending Act means the *Environmental Planning and Assessment Amendment (Infrastructure and Other Planning Reform) Act 2005*.

approval means an approval under Part 3A of the Act, but does not include the approval of a concept plan under that Part.

existing mining lease means a mining lease in force immediately before 16 December 2005.

mining area, mining lease and **mining operations** have the same meanings as in the *Mining Act 1992*.

relevant transition period means—

- (a) the period ending on 30 September 2012 if, on or before 16 December 2010, the Secretary has notified environmental assessment requirements under section 75F(3) of the Act for approval to carry out mining operations in the mining area, or
- (b) the period ending on 16 December 2010, in any other case.

8L Transitional provision—objections under Mining Act in relation to Part 3A projects

- (1) The reference in clause 28(b) of Schedule 1 to the *Mining Act 1992* to any person who is entitled to make submissions in relation to the granting of development consent to use land for the purpose of obtaining minerals or for one or more mining purposes (**the relevant development**) is taken to include—
 - (a) if the relevant development is development to which Part 3A of the Act applies—a reference to any person who is entitled, under section 75H of the Act, to make a written submission in relation to the approval of that project, or
 - (b) if the Secretary has, under clause 8J(3) of this Regulation, accepted a period of public exhibition of an environmental impact assessment with respect to the

relevant development before it becomes a project to which Part 3A of the Act applies—a reference to any person who was entitled to make a written submission during the public exhibition period in relation to the relevant development.

- (2) Pursuant to Part 1 of Schedule 6 to the Act, this clause is taken to have commenced on the commencement of Part 3A of the Act.

8M Transitional provisions—development consents under Part 4 of the Act and approvals under Part 5 of the Act

- (1) If development is declared to be a project under Part 3A of the Act, any development consent under Part 4 of the Act or approval under Part 5 of the Act that applies to the project or land on which the project is to be carried out continues in force despite that declaration.
- (2) If a declaration of a project under Part 3A of the Act is revoked before or after approval has been given under that Part to carry out the project, the Minister may make any of the following determinations—
- (a) that the whole or part of the effect of the approval is preserved and is taken to be a development consent granted under Part 4 of the Act by an appropriate consent authority nominated by the Minister,
 - (b) that the whole or a specified part of an action under Part 4 or Part 5 of the Act in respect of the whole or part of a project is revived and has effect,
 - (c) that an environmental assessment under Part 3A of the Act is to be recognised for the purpose of complying with a specified environmental assessment requirement under Part 4 or Part 5 of the Act.
- (3) A determination of the Minister under subclause (2) has effect on the revocation of the declaration of the project.
- (4) Subclause (2) does not apply if a project ceases to be a project to which Part 3A of the Act applies because of section 75P(1)(b) of the Act.

8N Projects or concept plans for which approval may not be given concerning environmentally sensitive land or sensitive coastal locations

- (1) For the purposes of sections 75J(3) and 75O(3) of the Act, approval for a project application may not be given under Part 3A of the Act for any project, or part of a project, that—
- (a) is located within an environmentally sensitive area of State significance or a sensitive coastal location, and
 - (b) is prohibited by an environmental planning instrument that would not (because of section 75R of the Act) apply to the project if approved.

- (2) To avoid doubt, a project is not prohibited for the purposes of subclause (1)(b) if—
- (a) it is not permitted because of the application of a development standard under the environmental planning instrument, or
 - (b) it is prohibited under the environmental planning instrument but is permitted to be carried out because of the application of another environmental planning instrument to the environmental planning instrument.

- (3) In this clause—

environmentally sensitive area of State significance has the same meaning as it has in *State Environmental Planning Policy (State and Regional Development) 2011*.

sensitive coastal location has the same meaning as it has in Schedule 4A to the Act.

80 Other projects prohibited by environmental planning instruments for which project approval may not be given

- (1) For the purposes of section 75J(3) of the Act, approval for the carrying out of a project may not be given under Part 3A of the Act for any project, or part of a project, that—
- (a) is not the subject of an authorisation or requirement under section 75M of the Act to apply for approval of a concept plan, and
 - (b) is prohibited by an environmental planning instrument that would not (because of section 75R of the Act) apply to the project if approved.
- (2) To avoid doubt, a project is not prohibited for the purposes of subclause (1)(b) if—
- (a) it is not permitted because of the application of a development standard under the environmental planning instrument, or
 - (b) it is prohibited under the environmental planning instrument but is permitted to be carried out because of the application of another environmental planning instrument to the environmental planning instrument.

- (3) This clause does not apply to a project for which the giving of approval is prohibited by clause 8N.

80A Transitional provision—projects or concept plans otherwise prohibited for which approval may be given

Clauses 8N and 80 do not apply to a project application if, before the commencement of those clauses, the Secretary had notified the proponent of environmental assessment requirements under section 75F of the Act relating to the project, or part of the project, concerned.

8P Surrender of approvals given under Part 3A of the Act or existing use rights

- (1) A surrender of an approval under Part 3A of the Act or a right conferred by Division 10 of Part 4 of the Act (referred to in section 75YA of the Act) is to be made by giving to the Secretary a notice in writing of the surrender of the approval or right.
- (2) The notice must contain the following information—
 - (a) the name and address of the person by whom the notice is given,
 - (b) the address, and formal particulars of title, of the land to which the approval or right relates,
 - (c) a description of the approval or right to be surrendered,
 - (d) if the person giving notice is not the owner of the land, a statement by the owner of the land to the effect that the owner consents to the surrender of the approval or right.
- (3) A duly signed and delivered notice of surrender of an approval or right conferred by Division 10 of Part 4 of the Act takes effect on the date determined by the Secretary and operates, according to its terms, to surrender the approval or right to which it relates.

12 Continuation of former provisions for making LEPs

- (1) In this clause—

amending LEP means a LEP that (apart from provisions for citation, commencement, definitions, purpose, land to which it applies and similar ancillary provisions) contains only direct amendments to or repeals of other environmental planning instruments. Any other LEP is a principal LEP even if it also contains direct amendments to or repeals of other environmental planning instruments.

former LEP plan-making provisions means the provisions of—

- (a) Part 3 of the Act and the regulations under the Act, and
- (b) Part 5 of the *Heritage Act 1977*, and
- (c) sections 28 and 29 of the *Local Government Act 1993*,

relating to the making of LEPs, as in force immediately before 1 July 2009 (the date of commencement of Schedule 1 to the *Environmental Planning and Assessment Amendment Act 2008*).

pending LEP means—

- (a) a draft principal LEP, if the Secretary was informed of the decision to prepare the plan under section 54 of the Act before 1 July 2009, or
