- (2) The specific aims and objectives of this plan are—
- (a) in relation to retailing and commerce—

 - (ii) to maintain and allow for an increase in the commercial and retail role of the centre,
 - (b) in relation to employment and economic development—to allow for a broad range of environmentally suitable development that will contribute towards the economic growth of the centre and will help to diversify and increase employment opportunities,
 - (c) in relation to residential development and density—
 - (i) to provide opportunities for residential development at various densities in appropriate areas, and
 - (ii) to ensure that residential development is carried out to a scale and with a character suitable for the centre,
 - (d) in relation to community services and facilities—
 - (i) to allow for the provision of new and additional community services and facilities which will meet the needs of the community, and

 - (iii) to provide employment generating development opportunities in locations in close proximity to the bus/rail interchange so as to promote the efficient use of that facility.
 - (iv) to encourage the use of the existing public transport infrastructure, particularly for people employed in the centre,
 - (v) to provide for convenient, comfortable and safe access to public transport facilities,
 - (vi) to restrict the growth of commuter traffic and parking,
 - (vii) to ensure that adequate public and private parking, vehicular servicing and emergency service access is provided for in new development,
 - (viii) to ensure that any developer contributes towards traffic management measures necessitated by any development,
 - (ix) to allow for contribution towards the provision of car parking for new development, and

 - (iii) to require new development adjoining identified heritage items to be compatible with those items,

- (iv) to integrate heritage conservation into the planning and development control process,
 - (v) to provide for public involvement in the matters relating to the conservation of the centre's environmental heritage, and

 - (v) to encourage development which contributes positively to the streetscape,
 - (vi) to minimise adverse environmental impacts on the Oxford Street Mall,
 - (vii) to encourage pedestrian links at street level to facilitate pedestrian movement,
 - (viii) to minimise conflicts between pedestrians and vehicles,
 - (ix) to protect and improve the shopper and pedestrian vitality of the centre by supporting the establishment of shops and other shopper oriented uses on ground floor street frontages, particularly in the Oxford Street Mall, and
 - (x) to encourage people to circulate at street level and to discourage pedestrian overpasses and underpasses,
- (i) in relation to adjacent residential areas—to ensure that any new development in the centre does not unreasonably affect the amenity of residential areas adjoining and surrounding the centre by virtue of the nature of the use or uses, the design, bulk and scale of the development and any traffic generation.

3 Strategies

The aims and objectives of this plan are to be achieved by the following strategies—

 - (v) control over the demolition, renovation and alteration of heritage items and buildings in the conservation area,
 - (vi) control over the erection of buildings in the vicinity of heritage items and the erection and use of buildings in the heritage conservation area, and
 - (vii) the requirement, when assessed as being necessary, of contributing, by way of dedication, monetary payment or other arrangement towards the provision or embellishment of public open space, public off-street car parking and community services and facilities, works associated with town centre improvement programmes and other public and civic needs as may arise and the cost of implementing traffic management measures.
