Part 2 The authorised transactions

5 Authorisation for transfer of electricity network assets

- (1) This Act authorises the transfer of electricity network assets to the private sector or to any public sector agency, subject to the following conditions—
 - (a) network infrastructure assets can only be transferred to the private sector by lease,
 - (b) the initial term of a lease of network infrastructure assets to the private sector must not exceed 99 years (without limiting any option to renew for any additional term or terms),
 - (c) the private sector interest in the State's electricity network assets (calculated as provided by this Part) must not exceed 49%.
- (2) For the removal of doubt, this Act does not authorise the transfer of any assets, rights or liabilities of Essential Energy.

6 Calculation of private sector interest

- (1) The private sector interest in the State's electricity network assets is to be calculated for the purposes of this Part as follows—
 - (a) for each transacted electricity network SOC the asset value of the SOC is to be

multiplied by the level of the interest of the private sector in the transacted business of the SOC on completion of the relevant authorised transaction, to arrive at an amount that is the private sector interest in the assets of the SOC,

- (b) the amounts calculated under paragraph (a) for all transacted electricity network SOC's are to be summed to arrive at an amount that is the total private sector interest in the assets of transacted electricity network SOC's,
- (c) the amount arrived at under paragraph (b), expressed as a percentage of the total of the asset values of the 3 electricity network SOC's and of Essential Energy, is the private sector interest in the State's electricity network assets.

(2) The level of the interest of the private sector in the transacted business of a SOC is—

- (a) the share to which a person other than a public sector agency is entitled, as at the completion of the relevant authorised transaction, of the distributed profits from the operation of the transacted business of the SOC (unless the share referred to in paragraph (b) is greater), or
- (b) the share of the assets of the transacted business of the SOC to which a person other than a public sector agency is entitled, as at the completion of the relevant authorised transaction, on a winding up of an entity that controls or operates the business.

(3) In this section—

asset value of a SOC means the amount of the forecast closing regulatory asset base of the SOC for the 2014–15 regulatory year as set out in the final determination of the Australian Energy Regulator (published on 30 April 2015), being—

- (a) for Ausgrid—\$14,752.3 million, or
- (b) for Endeavour Energy—\$5,944.3 million, or
- (c) for Essential Energy—\$7,187.4 million, or
- (d) for TransGrid—\$6,241.5 million.

relevant authorised transaction for a SOC means the authorised transaction that results in the SOC becoming a transacted electricity network SOC.

transacted business of a SOC means the business of a SOC that becomes a business controlled and operated by the private sector as a result of an authorised transaction.

transacted electricity network SOC means an electricity network SOC the business of which becomes a business controlled and operated by the private sector as a result of an authorised transaction.

7 Protection of State's interest in transferred network infrastructure assets

- (1) A public sector agency must not transfer any network retained interest held by the public sector agency.
- (2) This section does not prevent—
 - (a) the granting or enforcement of a security interest over any network retained interest, or
 - (b) the conferral or enforcement of a security interest over any interest in a network infrastructure assets lease, being a security interest that arises by operation of law, or
 - (c) a transfer by or at the direction or under the authority of a liquidator, receiver, receiver and manager, administrator or the like in the course of a winding-up, receivership or other external administration, or
 - (d) a transfer by way of lease (a **new lease**) created by a sublease under, or surrender and regrant of, an existing network infrastructure assets lease (the **existing lease**) where the transfer does not result in the level of the public sector's interest in the entity that is the lessee under the new lease being less than it was for the existing lease, or
 - (e) any transfer to a public sector agency, or
 - (f) a transfer authorised by the regulations.

- (3) In this section—

network infrastructure assets lease means a lease of assets comprising or including network infrastructure assets.

network retained interest means any interest of a public sector agency in—

- (a) a network infrastructure assets lease (other than as the lessor of a transacted distribution system or transacted transmission system), or
- (b) a public sector agency that is a lessee of such a lease or that is a partner in a partnership that is a lessee of such a lease.

transfer includes surrender.

8 Electricity price guarantee

- (1) The Treasurer must ensure that an authorised network operator of a transacted distribution system or transacted transmission system provides a guarantee (its **electricity price guarantee**) to the effect that—
 - (a) the authorised network operator's total network charges for the financial year

ending 30 June 2019 will be lower than the network operator's total network charges for the financial year ending 30 June 2014, and

- (b) the authorised network operator will promote efficient investment in, and efficient operation and use of, electricity services for the long term interests of consumers of electricity with respect to price, quality, safety, reliability and security of supply of electricity, and
- (c) the authorised network operator will comply with any Efficiency Benefit Sharing Scheme developed by the AER for the sharing of efficiency gains and losses between network operators and their customers that is applicable to the network operator.

(2) The Treasurer is to request the Price Commissioner to provide the following reports—

- (a) a report, for each proposed authorised transaction, as to whether the amount of the private sector investment for the purpose of acquiring an interest in electricity network assets pursuant to the authorised transaction (including costs incurred for that purpose) is likely to result in an increase in network charges,
- (b) an annual report, for each completed authorised transaction, on compliance by the authorised network operator with its obligations under its electricity price guarantee.

(3) A public sector agency must comply with any reasonable request by the Price Commissioner that the agency provide information to the Price Commissioner for the purposes of reports under this section (with any dispute as to the reasonableness of a request to be decided by the Secretary of the Cabinet Office).

(4) The Price Commissioner is not subject to control or direction by or on behalf of the Government in connection with any report of the Price Commissioner.

(5) An authorised network operator must within 2 months after the end of each financial year provide to the Price Commissioner such information as the Price Commissioner may reasonably require to enable the Price Commissioner to report on compliance by the authorised network operator with its obligations under its electricity price guarantee.

(6) In this section—

network charges means revenue collected by a network operator in respect of regulated services provided by the network operator.

Price Commissioner means the person engaged by the Secretary of the Cabinet Office as a consultant to provide services as the NSW Electricity Price Commissioner.

10 Post-transaction independent review

Within 12 months after completion of the last authorised transaction under this Act, the Treasurer is to commission and publish an independent review that—

 - (c) deduction of such amounts as the Treasurer approves to satisfy any liability of a public sector agency arising under or in connection with a transaction arrangement,
 - (d) deduction of such amounts as the Treasurer approves to meet expenses reasonably incurred by public sector agencies for the purposes of an authorised transaction.
- (5) The transaction proceeds do not include any amount certified by the Treasurer as paid or payable to a public sector agency as a tax, duty, fee or charge imposed by any Act or law of the State in connection with a transaction arrangement.
- (6) The deductions authorised to be made from the transaction proceeds may be made before payment of the transaction proceeds into the Restart Fund or Residual Liabilities Fund, or may be made by payment from either or both of those Funds.
- (7) The requirements of this section do not affect the validity of a transaction arrangement.

- (5) The Treasurer may invest money in the Residual Liabilities Fund in any way that the Treasurer considers appropriate.

Part 3 Facilitating the authorised transactions

13 Treasurer's functions

The Treasurer has and may exercise all such functions as are necessary or convenient for the purposes of an authorised transaction. The functions conferred on the Treasurer by any other provision of this Act do not limit the Treasurer's functions under this section.

14 Manner of effecting authorised transaction

- (1) An authorised transaction is to be effected as directed by the Treasurer and can be effected in any manner considered appropriate by the Treasurer.
- (2) There are no limitations as to the nature of the transactions or arrangements that can be entered into or used for the purposes of an authorised transaction.
- (3) Electricity network assets can be transferred pursuant to this Act whether or not the land in, on or over which they are situated is owned by the owner of the assets.

Note—

Section 51 of the ES Act provides that electricity works are owned separately from the land in, on or over which they are situated and ownership of land in, on or over which electricity works are situated does not constitute ownership of those works.

- (4) The provisions of this Act for the establishment of various kinds of transaction entity do not limit the nature of the entities or arrangements that can be used for the purposes of an authorised transaction.

and as a transaction SOC.

- (3) On the day on which the order takes effect—
 - (a) a corporation is constituted with the corporate name and functions specified in the order, and
 - (b) the [State Owned Corporations Act 1989](#) is amended by inserting in Schedule 5 the corporate name specified in the order (to establish the corporation as a statutory State owned corporation under that Act), and
 - (c) the State owned corporation thereby established is a transaction SOC for the purposes of this Act.
- (4) The portfolio Minister of a SOC established under this section is the Minister administering the [Energy Services Corporations Act 1995](#).
- (5) Schedule 2 has effect with respect to a transaction SOC. The provisions of that Schedule are in addition to and (except to the extent to which that Schedule otherwise provides) do not derogate from the provisions of the [State Owned Corporations Act 1989](#).

16 Transaction companies

- (1) The Treasurer may for the purposes of an authorised transaction establish, or direct the establishment of, companies as transaction companies in any of the following ways—

- (6) If an electricity network SOC becomes a transaction company by being converted into a company under this section, a reference in this Act to the electricity network SOC includes a reference to that transaction company.
- (7) The provisions of this section are declared to be Corporations legislation displacement provisions for the purposes of section 5G of the Corporations Act in relation to the provisions of the Corporations legislation generally.

17 Functions of electricity network SOCs and transaction entities

- (1) Each electricity network SOC and transaction entity has and may exercise all such functions as are necessary or convenient for the purposes of an authorised transaction.
- (2) The functions conferred by this section are in addition to any other functions that an electricity network SOC or a transaction entity has apart from this section and those other functions do not prevent or otherwise limit the exercise of the additional functions conferred by this section.
- (3) The Treasurer may act for or on behalf of an electricity network SOC or a transaction entity in the exercise of any of its functions for the purposes of an authorised transaction while it is a public sector agency.

18 Direction and control of electricity network SOCs and transaction entities

- (2) The Treasurer may give directions for the purposes of an authorised transaction to an electricity network SOC or transaction entity, and to the directors and other officers of an electricity network SOC or transaction entity. Any such directions must be complied with by the electricity network SOC, the transaction entity or the directors or other officers concerned.

- (3) Directions to a transaction entity (or its directors and other officers) can only be given and are only required to be complied with while the transaction entity is a public sector agency.
- (4) The power to give directions under this section extends to directions with respect to the way in which an electricity network SOC or transaction entity is to conduct its business and other affairs.
- (5) Action taken by an electricity network SOC or transaction SOC to comply with a direction of the Treasurer under this Act does not require the approval of the voting shareholders or portfolio Minister of the corporation.
- (6) Anything done or omitted to be done by a director or other officer of an electricity network SOC or transaction entity in compliance or purported compliance with a direction given by the Treasurer under this Act does not subject the director or officer personally to any action, liability, claim or demand.
- (7) The provisions of this section are declared to be Corporations legislation displacement provisions for the purposes of section 5G of the Corporations Act in relation to the provisions of the Corporations legislation generally.

Part 4 Arrangements for transfer of staff

19 Interpretation

In this Part, **networks employee** means an employee of an electricity network SOC and includes a person who was an employee of an electricity network SOC immediately before the person's employment was transferred under this Part to the employment of another public sector agency.

20 Transfers within public sector

- (1) The Treasurer may, for the purposes of an authorised transaction, by order in writing transfer the employment of a networks employee to the employment of another public sector agency.
- (2) A transfer of employment under this section does not require the consent of the person transferred.
- (3) An employee whose employment is transferred under this section is (until other provision is duly made under any Act or law) to be employed in accordance with any relevant statutory provisions, awards, agreements and determinations that would have applied to the employee had the employee remained an employee of the electricity network SOC concerned.
- (4) The Treasurer may negotiate and enter into agreements or industrial instruments concerning workplace relations for or on behalf of a public sector agency in connection

with the operation of this section.

21 Transfers to private sector employment

- (1) The Treasurer may, for the purposes of an authorised transaction, by order in writing transfer the employment of a networks employee (a **transferred employee**) to the employment of a private sector entity (the **new employer**).
- (2) A transfer of employment under this section does not require the consent of the networks employee transferred.
- (3) The employment of a transferred employee with the new employer is to be on the same terms and conditions as applied to the employee as a networks employee immediately before the transfer of employment.

22 Arrangements for transferred employees

- (1) On the transfer by order under this Part of an employee's employment from one employer (the **current employer**) to another employer (the **new employer**) the provisions of this section have effect.
- (2) If the employee is an apprentice or trainee under the [Apprenticeship and Traineeship Act 2001](#)—
 - (a) the new employer must apply under section 20 of that Act for approval to the transfer of the apprenticeship or traineeship to the new employer, and
 - (b) consent to the transfer is not required to be given by the apprentice or trainee or the current employer (despite section 20 (4) of the [Apprenticeship and Traineeship Act 2001](#)).
- (3) An employee is not entitled in respect of the same period of service to claim a benefit under this Act and another law or instrument.
- (4) The Treasurer may in connection with the operation of Schedule 4 give a certificate in writing as to the extent of the accrued rights to annual leave, extended or long service leave or sick leave that are retained by the employee under that Schedule, and such a certificate is evidence of the matters certified.
- (5) Nothing in the [Long Service Leave Act 1955](#) prevents payment in connection with the transfer under this Act of the employment of an employee to the employment of a private sector entity of the monetary value of long service leave in lieu of an entitlement to that leave accrued as a networks employee before the transfer of the employee's employment.

23 Operation of other laws and entitlements

The following provisions apply in relation to the transfer of a person's employment under

this Part—

- (a) the transfer has effect despite any other law, contract or instrument under a law,
- (b) the transfer does not constitute a retrenchment, redundancy or termination of employment at the initiative of the Crown or any other public sector agency,
- (c) the person transferred is not entitled to any payment or other benefit by reason only of having ceased to be an employee of a public sector agency as a result of the transfer,
- (d) a public sector agency is not required to make any payment to the transferred person in relation to the transferred person's accrued rights in respect of annual leave, sick leave or extended or long service leave.

24 Operation of Commonwealth law

A provision of this Part (including a provision to the extent that it imposes or continues a term or condition of employment) has no effect to the extent of any inconsistency with any provision of the [Fair Work Act 2009](#) of the Commonwealth or of any instrument under that Act.

Part 5 Arrangements for transfer of assets and functions

25 Vesting orders

The Treasurer may make vesting orders under Schedule 5 for the purposes of an authorised transaction.

26 Severance of fixtures

- (1) The Treasurer may by order in writing for the purposes of an authorised transaction direct that specified assets to which this section applies are (if they are fixtures) severed from the land on, under or above which they are situated.
- (2) The effect of such an order is that the assets concerned are deemed to be severed from the land concerned and may be dealt with as personal property separate from the land for the purposes of an authorised transaction.
- (3) This section applies to assets designated by the Treasurer by order in writing to be assets to which this section applies. Assets may be designated as assets to which this section applies only if they are owned by an electricity network SOC (whether or not the land concerned is owned by an electricity network SOC or another public sector agency).
- (4) The severance of an asset from land under this section does not affect the right of the asset to be situated on, under or above that land and does not affect any right to drain water or sewage from the asset across and through the land or to use any

means of drainage of water or sewage from the asset across and through the land.

27 Grant of relevant authorisations

- (1) The Treasurer may by order in writing given to the relevant administering agency direct the grant of a specified relevant authorisation to a person who becomes or who it is proposed will become the new operator of any electricity network assets pursuant to an authorised transaction.
- (2) Such a direction (a **grant direction**) operates to grant the specified relevant authorisation on such terms and conditions and subject to such endorsements as may be specified in the direction, and so operates—
 - (a) without the need for any action by the relevant administering agency, and
 - (b) without the need for the making or determination of any application for the relevant authorisation, and
 - (c) despite any requirement of or restriction imposed by a relevant law in relation to the grant of a relevant authorisation.
- (3) A grant direction may only direct the grant of a relevant authorisation that—
 - (a) operates to transfer or replace a relevant authorisation that is currently in force, and
 - (b) is subject to terms, conditions or endorsements that are the same (or to substantially the same effect) as those to which that relevant authorisation is subject.
- (4) A grant direction may direct the grant of more than one relevant authorisation to transfer or replace an existing relevant authorisation.
- (5) The Treasurer is to consult with the relevant administering agency before giving a grant direction for a relevant authorisation.
- (6) The Treasurer may direct the relevant administering agency to give effect to a grant direction by formally granting, and issuing the appropriate documentation for, the relevant authorisation concerned. The relevant administering agency must comply with the Treasurer's direction within the period specified in the direction.
- (7) Anything done by an electricity network SOC or other public sector agency in compliance with a condition or endorsement of a relevant authorisation in relation to electricity network assets of which a person is the new operator is taken to have been done by the new operator for the purposes of any corresponding condition or endorsement of a relevant authorisation granted to the new operator pursuant to this section.

(8) A relevant authorisation granted to an electricity network SOC or to the new operator of electricity network assets may not be suspended or cancelled on the ground of the conversion of the electricity network SOC or new operator to a company or on the ground of any change that has occurred in the officers or shareholders of the company as a result of that conversion or pursuant to a transaction arrangement.

(9) In this section—

grant includes issue and transfer.
