Division 3 Environmental planning functions of the Planning Committee

39 Planning Committee's role in planning controls

- (1) The City Council must not prepare a planning proposal or submit a planning proposal to be made unless the Planning Committee has approved of the planning proposal.
- (2) The Planning Committee may require the City Council to prepare a planning proposal, or to submit a planning proposal to be made, to enable the carrying out of non-complying major development the subject of the requirement. The City Council must exercise such of the Council's functions (including functions under the Planning Act) as may be necessary to cause the required planning proposal to be made or approved.
- (3) In this section—

non-complying major development means major development the subject of a development application which, if unconditional consent were to be granted to the application, would not comply with an environmental planning instrument that applies to land to which the application applies.

40 Determination of major development applications

- (1) The Planning Committee has and may exercise the functions of the City Council under Parts 4, 5, 6 and 8 of the Planning Act in relation to the carrying out of major development, to the exclusion of the City Council (subject to any delegation under this section).
- (2) The Planning Committee may delegate to an authorised person or body the exercise of any of the Committee's functions under subsection (1) with respect to a particular application for development consent or with respect to any class of applications for development consent. A delegation can be given subject to conditions. A delegation does not (despite section 38) require the approval of the Minister.

- (3) The Planning Committee, or a delegate, must not exercise a function under this section that will result in the making of a decision that will have, or that might reasonably be expected to have, a significantly adverse financial impact on the City Council until after it has consulted with the City Council.

- (4) In this section—

authorised person or body means the City Council, the general manager, the Chairperson of the Planning Committee, or any subcommittee of the Planning Committee.

41 Consultation with Minister or public authority

- (1) Where an environmental planning instrument which applies to land within the City of Sydney provides that a development application shall not be determined by the granting of consent without the consent, permission, approval or concurrence of a Minister or public authority (other than the City Council or TfNSW) to development specified in the instrument, the Planning Committee shall, in relation to an application to carry out major development, forward forthwith a copy of the application to that Minister or public authority (unless consent to the application is refused).
- (2) Where development referred to in subsection (1) is designated development, the Planning Committee shall comply with the provisions of section 79C of the Planning Act and with the provisions of subsection (1) concurrently.

42 Minister or public authority may make representations

- (1) A Minister or public authority (other than TfNSW) referred to in section 41 shall not grant or purport to grant a consent, permission, approval or concurrence so referred to but may, with respect to development the subject of a development application so referred to, make representations to the Planning Committee in relation to—
 - (a) any matter which would, but for section 41, have been relevant to the granting of the Minister's or authority's consent, permission, approval or concurrence, and
 - (b) the matters stated pursuant to section 30 (3) of the Planning Act and applicable in relation to the development application.
- (2) The exercise or purported exercise of a function by a Minister or public authority in contravention of this section is of no effect.

43 Representations to be taken into consideration

- (1) Without limiting the generality of section 79C of the Planning Act, in determining a development application relating to the carrying out of major development, the Planning Committee shall take into consideration any representations made in relation to the development to which the development application relates in accordance with section 42 by a Minister or public authority within 40 days after a copy of the

application was forwarded to that Minister or public authority.

- (2) Subsection (1) does not prevent the Planning Committee from taking into consideration any such representation made after the expiry of the 40-day period but before the development application is determined.

44 Validity of consents

The failure of the Planning Committee to comply with sections 41–43 in relation to a development application does not invalidate or otherwise affect a development consent given by the Planning Committee with respect to the development to which the application relates.

45 Section 79B of the Planning Act not to apply

Section 79B of the Planning Act does not apply to or in respect of major development except in respect of a requirement in an environmental planning instrument that consent not be granted to the development without the consent, permission, approval or concurrence of TfNSW.
