Table

	Column 1	Column 2	Column 3
	Objective	Performance Indicator	Trigger for Review
1.	Increase the biomass of eastern rock lobster stock	Levels of eastern rock lobster stock increase or remain stable (with 1998–1999 levels being used as a benchmark), or are likely to do so, having regard to total allowable catch	Annual catch per unit effort (CPUE) is below 1998–99 levels in 2 consecutive years
2.	Promote commercial fishing practices for rock lobster that do not have an adverse environmental impact on the broader ecosystem	Research conducted periodically by or on behalf of NSW Fisheries indicates that commercial fishing practices for rock lobster do not have an adverse environmental impact on the broader ecosystem	Research conducted by or on behalf of NSW Fisheries indicates that commercial fishing practices for rock lobster are having an adverse environmental impact on the broader ecosystem
3.	Ensure management arrangements for the fishery do not have a significant impact on the costs of taking eastern rock lobster for sale	Management charge for the fishery (under section 76 of the Act) does not increase significantly, disregarding any increase that is attributable to the provision of additional resources by NSW Fisheries (eg the provision of additional compliance officers)	Management charge for the fishery increases in any year at a rate that exceeds the rate of inflation (as measured by the consumer price index), disregarding any increase that is attributable to the provision of additional resources by NSW Fisheries after the commencement of this Plan

4.	Promote cost efficient management	Independent review of the management arrangements for the fishery, conducted periodically at the request of the Minister, determines that management arrangements are appropriate	Independent review determines that the management arrangements for the fishery are inappropriate
5.	Ensure appropriate research and monitoring in relation to the fishery	Sufficient data is available for assessment of rock lobster stocks	Insufficient data is available for the purpose of setting the total allowable catch for rock lobster
6.	Minimise the number of offences committed by fishers in relation to rock lobster	Number of offences in relation to rock lobster committed annually, as indicated by quality inspections conducted by NSW Fisheries, indicates substantial compliance with the Act, this Plan and the other regulations under the Act	Overall rate of compliance with the Act, this Plan and the other regulations under the Act in relation to rock lobster (estimated annually by the Secretary) is less than 70 percent

4 (Repealed)

Part 3 Dealings in shares

5 Minimum shareholding

- (1) The minimum shareholding in the fishery is 55 shares.
- (2) Despite subclause (1), the minimum shareholding in respect of a person who held shares in the fishery at the commencement of this Plan is 12 shares.
- (3) If a person who held shares at the commencement of this Plan transfers any of those shares the minimum shareholding in respect of the person increases to 55 shares.

Note—

A person who holds shares in the share management fishery is not entitled to take fish in the fishery or to nominate another person to do so on the shareholder's behalf unless the shareholder has the minimum shareholding for the fishery (see sections 66 and 67 of the Act). This clause applies a minimum shareholding of 55 shares to a person who first acquires shares in the fishery after the commencement of this Plan, and to any person who held shares in the fishery at the commencement of this Plan and who transfers any of them.

6 Maximum shareholding

The maximum shareholding in the fishery is 3,848 shares.

7-9 (Repealed)

Part 4 Endorsements and nominated fishers

10 Nominated fishers

- (1) A person may not be nominated by a shareholder to take rock lobster on behalf of the shareholder if—
- (a) the person has been convicted, within the period of 3 years before the nomination is made, of a rock lobster offence or a serious offence, or
 - (b) the person has been charged with or summoned for a rock lobster offence or a serious offence and proceedings with respect to that offence are pending.
- (2)–(8) (Repealed)

Note—

See Part 3 of the *Fisheries Management Supporting Plan* set out in the [Fisheries Management \(Supporting Plan\) Regulation 2006](#) for further provisions in relation to nomination of fishers.

11 Eligibility for endorsement

The Minister may refuse to endorse the commercial fishing licence of a commercial fisher if—

- (a) the commercial fisher has been convicted of a rock lobster offence, or a serious offence, within the period of 3 years before the application for endorsement is made, or
- (b) the commercial fisher is nominated by a shareholder who has been convicted of a serious offence within the period of 3 years before the application for endorsement is made.

Note—

Section 68 of the Act provides that an application for endorsement is to be made in the form and manner approved by the Minister.

12 Grounds for suspension or cancellation of endorsement

- (1) The Minister may suspend or cancel an endorsement of a nominated fisher if—
- (a) the fisher does anything that would be grounds for cancellation or suspension of the fisher's commercial fishing licence, or
 - (b) the Minister is satisfied that the fisher has contravened a provision of this Plan, or
 - (c) the shareholder who nominated the fisher—

Note—

An endorsement may be suspended or cancelled if the holder of the licence ceases to be eligible to have the licence endorsed, for instance, because the holder holds less than the minimum shareholding in the fishery. The endorsement may also be cancelled or suspended if the shareholder fails to pay any community contribution, management charge or other amount due under Part 3 of the Act. (See section 68 (7) of the Act.) If an endorsement of a shareholder is suspended or cancelled, the shareholder is not entitled to nominate another person to take rock lobster on the shareholder's behalf (see section 68 (8) of the Act).

13 Nominated fisher to notify shareholder of alleged offence

- (1) A nominated fisher must notify the shareholder who nominated him or her to take rock lobster in the fishery on the shareholder's behalf if the person is charged with an offence against this Plan, the Act or the regulations under the Act.

offshore lobster trap means a trap, other than an inshore lobster trap, not exceeding 2 metres in length, 2 metres in width and 2 metres in depth that consists of mesh (having a measurement from one plain wire to the opposite plain wire of not less than 50 millimetres) and that does not contain any compartments or contain any material that would prevent the free movement of rock lobsters within the trap.

39 Lobster to be taken by hand or trap only
