 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note—

The following local environmental plans are repealed under this provision—

Hawkesbury Local Environmental Plan 1989

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or

- (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or

 - (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—

- (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
- (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development

consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 28 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and

(d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.

(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.

(5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

(1) Canal estate development is prohibited on land to which this Plan applies.

(2) In this Plan, **canal estate development** means development that involves—

(a) a constructed canal, or other waterway or waterbody, that—

(i) is inundated by surface water or groundwater movement, or

(ii) drains to a waterway or waterbody by surface water or groundwater movement, and

(b) the erection of a dwelling, and

(c) one or both of the following—

(i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,

(ii) excavation to create a waterway.

(3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—

(a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and

(b) limited to the minimum reasonable size and capacity.

(4) In this clause—

flood planning area has the same meaning as in clause 5.21.

 - (a) to ensure that the pattern of lots created by subdivision and the location of any buildings on those lots will minimise the impact on any threatened species, populations or endangered ecological community or regionally significant wetland, waterways and groundwater as well as any agricultural activity in the vicinity,
 - (b) to ensure that each lot created in a subdivision contains a suitable area for the erection of a dwelling house, an appropriate asset protection zone relating to bush fire hazard and a location for on-site effluent disposal if sewerage is not available,
 - (c) to ensure a ratio between the depth of the lot and the frontage of the lot that is satisfactory having regard to the purpose for which the lot is to be used.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this

Plan.

- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (3A) If a lot in a following zone is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included in calculating the lot size—
 - (a) Zone R1 General Residential,

- (5) In this clause—

averaging subdivision means the subdivision of land to which this clause applies that will not create more lots than the number resulting from—

- (a) if the land is in Zone RU1 Primary Production or Zone RU4 Primary Production Small Lots—dividing the area (in hectares) of the original lot for the land being subdivided by the minimum lot size (in hectares) shown on the [Lot Size Map](#) in relation to that land, or

4.1E Subdivision in Grose Wold and Grose Vale

- (1) The objective of this clause is to ensure the protection of threatened species, threatened ecological communities and land in an environmental constraint area.
- (2) This clause applies to land in the area known as “Grose Wold” and “Grose Vale”, being the land identified as “Area B” and edged heavy yellow on the [Lot Size Map](#).
- (3) Development consent must not be granted for a subdivision of the land unless the number of lots resulting from the subdivision plus the number of lots resulting from a subdivision on or after 2 June 2000 of the whole or part of the original lot for the land to be subdivided will not exceed the area of the original lot, in hectares, divided by 4.
- (4) In addition, development consent must not be granted for the subdivision unless—
 - (a) in considering a development application to which this clause relates, the consent authority has had regard to the effect the development is likely to have on the following—
 - (i) the water quality and water quantity in the Grose River and its tributaries,
 - (ii) the scenic quality of the area,
 - (iii) existing riparian vegetation and the rehabilitation of local native riparian vegetation located along the Grose River and along drainage lines and creeks, and
 - (b) the consent authority is satisfied of the following—
 - (i) the pattern of lots to be created by the subdivision and the location of buildings on the lots will minimise the impact on threatened species and threatened ecological communities, waterways and groundwater, and land in an environmental constraint area,
 - (ii) a geotechnical assessment has been undertaken demonstrating the land is adequate for the on-site disposal of effluent in accordance with best practice,

- (iii) land containing threatened species or threatened ecological communities and land in an environmental constraint area is retained in one lot as much as possible,
 - (iv) there will be no significant adverse impacts on threatened species or threatened ecological communities or land in an environmental constraint area located downstream or surrounding the development.
- (5) Despite clauses 4.1, 4.1AA and 4.1A, development consent must not be granted for a subdivision of the land that contains an environmental constraint area unless—
- (a) the size of each lot resulting from the subdivision will be at least 1 hectare, and
 - (b) each lot resulting from the subdivision will contain at least one hectare of land that is not in an environmental constraint area.
- (6) In this clause—

environmental constraint area means land identified as “Environmental Constraint Area” on the [Environmental Constraints Area Map](#).

original lot for land being subdivided means a lot that existed immediately before 2 June 2000 that included the land.

threatened ecological community and **threatened species** have the same meanings as in the [Biodiversity Conservation Act 2016](#).

4.1F Exceptions to minimum subdivision lot size for certain land in North Richmond

Despite clauses 4.1, 4.1AA and 4.1A, development consent must not be granted for the subdivision of land in North Richmond that is identified as “Area C” and edged heavy red on the [Lot Size Map](#) if any lot that would result from the subdivision would be a battle-axe-lot (or a lot with an access handle) with an area of less than 700 square metres, excluding the area of an access handle.

4.1G Restriction on the number of lots created by subdivision of certain land

- (1) This clause applies to land identified as “Restricted Lot Yield” on the [Restricted Lot Yield Map](#).
- (2) The total number of lots that may be created by the subdivision of land to which this clause applies must not exceed the number shown on the Restricted Lot Yield Map in relation to that land.
- (3) In this clause—

lot does not include a lot created for a public purpose or a lot created as neighbourhood property under the [Community Land Development Act 1989](#).

4.1H Boundary changes between lots in certain rural, residential and conservation zones

- (1) The objective of this clause is to permit the boundary between 2 or more lots to be altered in certain circumstances to give landowners a greater opportunity to achieve the objectives for development in a zone.
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone R5 Large Lot Residential,
 - (e) Zone C3 Environmental Management,
 - (f) Zone C4 Environmental Living.
- (3) Despite clause 4.1(3), development consent may be granted to the subdivision of 2 or more adjoining lots, being land to which this clause applies, if the subdivision will not result in the following—
 - (a) an increase in the number of lots,
 - (b) an increase in the number of dwellings on, or dwellings that may be erected on, the lots.
- (4) Before determining a development application for the subdivision of land under this clause, the consent authority must consider the following—
 - (a) the existing uses and approved uses of other land in the vicinity of the subdivision,
 - (b) whether or not the subdivision is likely to have a significant impact on land uses that are likely to be preferred and the predominant land uses in the vicinity of the development,
 - (c) whether or not the subdivision is likely to be incompatible with a use referred to in paragraph (a) or (b),
 - (d) whether or not the subdivision is likely to be incompatible with a use of land in any adjoining zone,
 - (e) any measures proposed by the applicant to avoid or minimise an incompatibility referred to in paragraph (c) or (d),
 - (f) whether or not the subdivision is appropriate having regard to the natural and physical constraints affecting the land,

(g) whether or not the subdivision is likely to have an adverse impact on the environmental values or agricultural viability of the land.

(5) This clause does not apply—

- (a) in relation to the subdivision of individual lots in a strata plan or a community title scheme, or
- (b) if the subdivision would create a lot that could itself be subdivided in accordance with clause 4.1.

4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (baa) Zone RU3 Forestry,
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone RU6 Transition.

Note—

When this Plan was made it did not include Zone RU6 Transition.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Residential development and subdivision prohibited on certain land

- (1) The objectives of this clause are as follows—
 - (a) to prohibit residential development on a lot resulting from the closure of a road,

(b) to prohibit the erection of dwelling houses on certain land that is flood planning land or was subdivided for agricultural purposes.

(2) This clause applies to land in the following zones—

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (c) Zone RU4 Primary Production Small Lots,
- (d) Zone RU5 Village,
- (e) Zone R5 Large Lot Residential,
- (f) Zone C3 Environmental Management,
- (g) Zone C4 Environmental Living.

(3) Development consent must not be granted for the erection of a dwelling house on a lot resulting from the closure of part or all of a road, irrespective of when that closure occurred.

(4) Subclause (3) does not apply to a lot created by the consolidation of a lot resulting from a road closure with an adjoining lot that did not result from a road closure.

(5) Development consent must not be granted for the erection of a dwelling house on a lot—

- (a) below the level of a 1:100 ARI (average recurrent interval) flood event, and
- (b) resulting from a subdivision for the purpose of agriculture for which development consent was granted before 27 June 2003.

4.2B Additional requirements for subdivisions in certain flood planning areas

(1) This clause applies to the subdivision of land—

- (a) under clause 4.1, 4.1AA, 4.1A, 4.1C, 4.1E, 4.1G or 4.2, and
- (b) that creates a lot other than for use for a public purpose, and
- (c) in the following zones—
 - (i) Zone RU1 Primary Production,
 - (ii) Zone RU2 Rural Landscape,
 - (iii) Zone RU4 Primary Production Small Lots,
 - (iv) Zone R5 Large Lot Residential,

(v) Zone C4 Environmental Living.

- (2) Development consent must not be granted for a subdivision to which this clause applies unless the consent authority is satisfied that there is an area of land on the lot that is above flood planning level and is sufficient for the erection of a dwelling house.
- (3) For the purposes of subclause (2), an area of land is **above flood planning level** if the land is above the level of a 1:100 ARI (average recurrent interval) flood event (whether the level is a natural surface level or a level achieved by filling carried out with a previous development consent).

4.3 Height of buildings

- (1) The objectives of this clause are as follows—
 - (a) to protect privacy and the use of private open space in new development and on adjoining land,
 - (b) to ensure that the bulk of development is not excessive and relates well to the local context,
 - (c) to nominate heights that will provide a transition in built form and land use intensity,
 - (d) to ensure an appropriate height transition between new buildings and heritage items.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

4.4 Floor space ratio

[Not adopted]

4.5 Calculation of floor space ratio and site area

[Not adopted]

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
 - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
 - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this

or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

- (3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—
- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
 - (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

Note—

The *Environmental Planning and Assessment Regulation 2021* requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

- (4) The consent authority must keep a record of its assessment carried out under subclause (3).
- (5) (Repealed)
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note—

When this Plan was made it did not include Zone RU3 Forestry or Zone RU6 Transition.

- (7) (Repealed)
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which

State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004 applies or for the land on which such a building is situated,

(c) clause 5.4,

(caa) clause 5.5,

(ca) clause 5.13B.

(8A) This clause does not allow development consent to be granted for development that would contravene a development standard under clause 4.1, 4.1AA, 4.1A, 4.1C, 4.1D, 4.1E or 4.1G that applies to any of the following—

(a) land in Zone RU5 Village,

(b) land in Zone R2 Low Density Residential at Glossodia,

(c) land identified as “Exceptions to Development Standards Area” on the [Exceptions to Development Standards Map](#),

(d) land identified as “Density Control” on the [Pitt Town Subdivision and Designated State Public Infrastructure Map](#),

(e) land identified as “Restricted Lot Yield” on the [Restricted Lot Yield Map](#).

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

(1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map

Authority of the State

Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Transport for NSW
Zone SP2 Infrastructure and marked "Local road"	Council
Zone C1 National Parks and Nature Reserves and marked "National Park"	Minister administering the <i>National Parks and Wildlife Act 1974</i>

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

Note—

If land, other than land specified in the Table to subclause (2), is required to be acquired under the owner-initiated acquisition provisions, the Minister for Planning and Infrastructure is required to take action to enable the designation of the acquiring authority under this clause. Pending the designation of the acquiring authority for that land, the acquiring authority is to be the authority determined by order of the Minister for Planning and Infrastructure (see section 21 of the *Land Acquisition (Just Terms Compensation) Act 1991*).

5.1A Development on land intended to be acquired for public purposes

- (1) The objective of this clause is to limit development on certain land intended to be acquired for a public purpose.
- (2) This clause applies to land shown on the [Land Reservation Acquisition Map](#) and specified in Column 1 of the Table to this clause and that has not been acquired by the relevant authority of the State specified for the land in clause 5.1.
- (3) Development consent must not be granted to any development on land to which this clause applies other than development for a purpose specified opposite that land in Column 2 of that Table.

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
- (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
- (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30(2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 20 metres.
- (3) This clause does not apply to—
 - (a) land in Zone RE1 Public Recreation, Zone C1 National Parks and Nature Reserves, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone W1 Natural Waterways, or
 - (b) land within the coastal zone, or
 - (c) land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that—
 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 4 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
- (a) 20% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - (b) 400 square metres,
- whichever is the lesser.

- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 75 square metres.
- (9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—
- (a) 60 square metres,
 - (b) 10% of the total floor area of the principal dwelling.
- (10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—
- (a) 20% of the gross floor area of the industry, or
 - (b) 400 square metres,

whichever is the lesser.

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

 - (a) internal alterations to a building, or
 - (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.
- (4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and

6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if—

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or

- (d) the development is exempt development.

(4) **Effect of proposed development on heritage significance** The consent authority must,

before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

- (5) **Heritage assessment** The consent authority may, before granting consent to any development—
- (a) on land on which a heritage item is located, or
 - (b) on land that is within a heritage conservation area, or

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—

- (a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and
- (b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and
- (c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and
- (d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and
- (e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note—

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

- (1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 2.
