2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—

- (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
- (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development

consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 14 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and

(d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.

- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3)(d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
- (a) a constructed canal, or other waterway or waterbody, that—
 - (i) is inundated by surface water or groundwater movement, or
 - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
 - (b) the erection of a dwelling, and
 - (c) one or both of the following—
 - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,
 - (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
- (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
 - (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—
- flood planning area** has the same meaning as in clause 5.21.

 - (b) to ensure that in the case of urban areas—
 - (i) the subdivision pattern reflects and reinforces the current or planned subdivision pattern of the locality, and

- (ii) lot configurations are suitable to enable development that is consistent with relevant development controls,
- (c) to ensure that in the case of rural areas—
 - (i) the subdivision pattern reflects and reinforces the agricultural, resource and environmental values of the land, and
 - (ii) the subdivision pattern minimises land use conflict.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of any land—
 - (a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or
 - (b) by any kind of subdivision under the [Community Land Development Act 2021](#).

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows—
 - (a) to enable the subdivision of land for the purpose of a community title scheme consistent with lot size subdivision standards that are otherwise applicable.

- (4) This clause applies despite clause 4.1.

4.1A Exceptions to minimum lot sizes for certain residential development

- (1) The objective of this clause is to encourage housing diversity without adversely impacting on residential amenity.
- (2) This clause applies to development on land in Zone R3 Medium Density Residential.
- (3) Development consent may be granted to a single development application for development to which this clause applies that is both of the following—
 - (a) the subdivision of land into 4 or more lots,
 - (b) the erection of a dwelling house, an attached dwelling or a semi-detached dwelling on each lot resulting from the subdivision, if the size of each lot is equal to or greater than—

- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape.
- (3) Development consent must not be granted to the erection of a rural worker's dwelling on land to which this clause applies, unless the consent authority is satisfied that—
 - (a) the development will be on the same lot as an existing lawfully erected dwelling house, and
 - (b) the development will not impair the use of the land for agricultural or rural industries, and
 - (c) the agricultural or rural industry being carried out on the land has a demonstrated economic capacity to support the ongoing employment of rural workers, and
 - (d) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and
 - (e) there will be not more than 1 rural worker's dwelling on the lot, and
 - (f) the area of the lot is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (baa) Zone RU3 Forestry,
- (c) Zone RU4 Primary Production Small Lots,

- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses and dual occupancies on land in certain rural and conservation zones

- (1) The objectives of this clause are as follows—
 - (a) to minimise unplanned rural residential development,
 - (b) to enable the replacement of lawfully erected dwelling houses or dual occupancies in certain rural zones,
 - (c) to ensure that development is of a scale and nature that is compatible with the environmental capabilities of the land,
 - (d) to protect the primary production potential of the land.
- (2) This clause applies to land in the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (c) Zone C2 Environmental Conservation,
 - (d) Zone C3 Environmental Management.

- (3) Development consent must not be granted for the erection of a dwelling house or a dual occupancy on land to which this clause applies unless the land—
- (a) is a lot that is at least the minimum lot size shown on the [Lot Size Map](#) in relation to that land, or
 - (b) is a lot created under this Plan (other than under clause 4.2(3)), or
 - (c) is a lot created before this Plan commenced and on which the erection of a dwelling house or a dual occupancy (attached) was permissible immediately before that commencement, but not if the lot is part of an existing holding, or
 - (d) is a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or a dual occupancy (attached) would have been permissible if the plan of subdivision had been registered before that commencement, or
 - (e) is an existing holding, or
 - (f) is a lot or a group of lots identified as having “1 Dwelling opportunity” on the [Dwelling Opportunity Reinstatement Map](#), or
 - (g) would have been a lot or a holding referred to in paragraph (a), (b), (c), (d), (e) or (f) had it not been affected by—
 - (i) a minor realignment of its boundaries that did not create an additional lot, or
 - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose, or
 - (iii) a consolidation with an adjoining public road or public reserve or for another public purpose.

Notes—

- 1** A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.
- 2** Subclause (3)(f) preserves dwelling entitlements that were extinguished by [Ballina Local Environmental Plan 1987 \(Amendment No 110\)](#) but were acknowledged by the Council in writing as being preserved before that amendment was made.

- (4) Development consent must not be granted under subclause (3) unless—
- (a) no dwelling house or dual occupancy has been erected on the land, and
 - (b) if a development application has been made for development for the purposes of a dwelling house or dual occupancy on the land—the application has been refused or it was withdrawn before it was determined, and
 - (c) if development consent has been granted in relation to such an application—the

consent has been surrendered or it has lapsed.

(4A) Development consent must not be granted under subclause (3) for a dual occupancy unless the consent authority is satisfied that—

(a) the development will not impair the use of the land or adjoining land for agriculture or rural industries, and

(b) each dwelling will use the same vehicular point of access to and from a public road, and

(c) the land is physically suitable for the development, and

(d) the land will accommodate the on-site disposal and management of sewage for each dwelling.

(5) Development consent may be granted for the erection of a dwelling house or a dual occupancy on land to which this clause applies if there is a lawfully erected dwelling house or dual occupancy on the land and the dwelling house or dual occupancy to be erected is intended only to replace either the existing dwelling house or dual occupancy.

(5A) If land to which this clause applies is a lot that is comprised of both land to which this Plan applies and land identified as “Deferred Matter” under clause 1.3(1A), a reference in subclauses (4)–(5) to “the land” is a reference to the whole of that lot.

(6) Land ceases to be an existing holding for the purposes of subclause (3)(e) if an application for development consent referred to in that subclause is not made in relation to that land before 1 July 2014.

(7) In this clause—

existing holding means land that—

(a) in the former shire of Tintenbar—

(i) was a holding on 12 June 1970, and

(ii) is still held by the same owner at the time the application for development consent referred to in subclause (3) is lodged, or

(b) in the former municipality of Ballina—

(i) was a holding on 18 July 1969, and

(ii) is still held by the same owner at the time the application for development consent referred to in subclause (3) is lodged.

holding means all adjoining land, even if separated by a road or railway, held by the same person or persons.

4.2B Exceptions to minimum subdivision lot size for lot boundary adjustments

- (1) The objective of this clause is to permit lot boundary adjustments in rural zones that will provide improved agricultural or environmental outcomes without creating additional opportunities for the erection of dwellings.
- (2) Development consent may be granted for the subdivision of land in a rural zone to create lots of a size that are less than the minimum size shown on the Lot Size Map in relation to that land if the consent authority is satisfied that—
 - (a) the subdivision will not result in the creation of an additional lot or the opportunity for additional dwelling entitlements, or both, on any of the lots, and
 - (b) the subdivision will not adversely impact on the long-term agricultural production potential or environmental characteristics of the lots and the surrounding locality.

4.2C Exceptions to minimum subdivision lot sizes for split zones

- (1) The objectives of this clause are as follows—
 - (a) to permit the creation of lots that support urban development in planned urban growth areas,
 - (b) to provide for the subdivision of lots that are within more than one zone but cannot be subdivided under clause 4.1,
 - (c) to ensure that the subdivision occurs in a manner that promotes suitable land uses and development.
- (2) This clause applies to each lot (an **original lot**) that contains—
 - (a) land in a residential, employment or mixed use zone, and
 - (b) land in a relevant zone.
- (3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the **resulting lots**) if—
 - (a) 1 of the resulting lots will contain all of the land in a relevant zone that was in the original lot, and
 - (b) each of the other resulting lots will contain land that has an area that is not less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) Development consent may only be granted if the consent authority is satisfied that the lot to be created under subclause (3)(a)—
 - (a) will be created as a result of a subdivision of land for urban purposes involving land in a residential, employment or mixed use zone, and

(b) the lot is suitable for environmental protection, environmental management or agriculture.

(5) If the area of land that would comprise the resulting lot created under subclause (3)(a) is of a size that is sufficient to allow the creation of more than one lot each of a size that is not less than the minimum size shown on the Lot Size Map in relation to that land, then not more than that number of lots may be created under subclause (3)(a).

(6) In this clause—

relevant zone means Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone C2 Environmental Conservation or Zone C3 Environmental Management.

4.3 Height of buildings

(1) The objectives of this clause are as follows—

(a) to ensure that the height of buildings is compatible with the bulk, scale and character of the locality,

(b) to minimise adverse impacts on existing or future amenity of adjoining properties and the scenic or landscape quality of the locality,

(c) to protect significant views from public places.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

4.3A Exceptions to height of buildings

(1) The objective of this clause is to align building height and flood planning provisions and provide for a consistent point of reference for the measurement of building heights in flood prone areas.

(2) This clause applies to land identified as “Minimum Level Australian Height Datum (AHD)” on the [Building Height Allowance Map](#).

(3) The maximum height of a building on land to which this clause applies is to be measured from the minimum level AHD permitted for that land on the [Building Height Allowance Map](#).

4.4 Floor space ratio

(1) The objectives of this clause are as follows—

(a) to ensure that buildings are compatible with the bulk, scale and character of the locality,

(b) to minimise adverse impacts on existing or future amenity of adjoining properties

and the scenic or landscape quality of the locality.

- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).
- (2A) Despite subclause (2), a dwelling house, a dual occupancy, a semi-detached dwelling or a secondary dwelling must not exceed a floor space ratio of 0.5:1.

4.5 Calculation of floor space ratio and site area

(1) **Objectives** The objectives of this clause are as follows—

- (a) to define **floor space ratio**,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
- (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
- (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
- (iii) require community land and public places to be dealt with separately.

(2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area** The following land must be excluded from the site area—

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the

extent that it does not overlap with another lot already included in the site area calculation.

- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If—
- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
 - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local Government Act 1993](#).

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
- (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—
- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
 - (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

Note—

The *Environmental Planning and Assessment Regulation 2021* requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

- (4) The consent authority must keep a record of its assessment carried out under subclause (3).
- (5) (Repealed)
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.
- (7) (Repealed)
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,

- (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
- (c) clause 5.4,
- (caa) clause 5.5,
- (ca) clause 6.1 or 6.2.
- (cb) (Repealed)

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*.  - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and

 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30(2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.
