1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

 - (a) approved by the local plan-making authority when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note—

The following local environmental plans are repealed under this provision—

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or
 - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act*

2001, or

- (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
- (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
- (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.

- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes—

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
 - 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling

and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or [State Environmental Planning Policy \(Exempt and Complying Development Codes\) 2008](#), as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
 - (a) a constructed canal, or other waterway or waterbody, that—
 - (i) is inundated by surface water or groundwater movement, or
 - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
 - (b) the erection of a dwelling, and
 - (c) one or both of the following—
 - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,
 - (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
 - (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
 - (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—

flood planning area has the same meaning as in clause 5.21.

 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if—
 - (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must—

- (a) be installed in accordance with the manufacturer's specifications, if applicable, and
- (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in accordance with a permit, development consent or other approval.

Note—

See *State Environmental Planning Policy (Biodiversity and Conservation) 2021*, Chapter 2 and the *Local Land Services Act 2013*, Part 5A.

- (6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—
 - (a) the development standards specified in relation to that development, and
 - (b) the requirements of this Part,is complying development.

Note—

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

- (3) To be complying development, the development must—
 - (a) be permissible, with development consent, in the zone in which it is carried out, and
 - (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and

Part 4 Principal development standards

4.1 Minimum subdivision lot size

(1) The objectives of this clause are as follows—

- (a) to set appropriate lot sizes for the subdivision of land that reflect the suitability of the land for increased densities of development,
- (b) to limit dispersed rural settlement,
- (c) to minimise the fragmentation and alienation of rural land suitable for sustainable primary production.

(2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that

requires development consent and that is carried out after the commencement of this Plan.

- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause does not apply in relation to the subdivision of any land—
 - (a) by the registration of a strata plan or strata plan of subdivision under the *Strata Schemes Development Act 2015*, or
 - (b) by any kind of subdivision under the *Community Land Development Act 2021*.

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows—
 - (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the *Community Land Development Act 2021* of land in any of the following zones—
 - (a) Zone RU1 Primary Production,
 - (b) (Repealed)
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone R5 Large Lot Residential,but does not apply to a subdivision by the registration of a strata plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the *Community Land Development Act 2021*) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) This clause applies despite clause 4.1.

4.1A Boundary adjustments of land in certain zones

- (1) The objective of this clause is to facilitate boundary adjustments between lots if one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land and the objectives of the relevant zone can be achieved.
- (2) This clause applies to land in the following zones—

- (a) Zone RU1 Primary Production,
 - (b) (Repealed)
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone R5 Large Lot Residential.
- (3) Despite clause 4.1, development consent may be granted to subdivide land by adjusting the boundary between adjoining lots if one or more resultant lots do not meet the minimum lot size shown on the [Lot Size Map](#) in relation to that land, and the consent authority is satisfied that—
- (a) the subdivision will not create additional lots or the opportunity for additional dwellings, and
 - (b) the number of dwellings or opportunities for dwellings on each lot after subdivision will be the same as before the subdivision, and
 - (c) the potential for land use conflict will not be increased as a result of the subdivision, and
 - (d) if the land is in a rural zone, the agricultural viability of the land will not be adversely affected as a result of the subdivision.

4.1B Minimum subdivision lot sizes for certain split zones

- (1) The objectives of this clause are as follows—
- (a) to provide for the subdivision of lots that are within more than one zone but that cannot be subdivided under clause 4.1,
 - (b) to ensure that the subdivision occurs in a manner that promotes suitable land use and development.
- (2) This clause applies to each lot (an **original lot**) that contains—
- (a) land in a residential zone or Zone RU5 Village, and
 - (b) land in Zone RU1 Primary Production or Zone RU4 Primary Production Small Lots.
- (3) Despite clause 4.1, development consent may be granted to subdivide an original lot to create other lots (the **resulting lots**) if—
- (a) one of the resulting lots will contain—
 - (i) land in a residential zone or Zone RU5 Village that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land, and
 - (ii) all of the land in Zone RU1 Primary Production or Zone RU4 Primary Production

Small Lots that was in the original lot, and

- (b) all other resulting lots will contain land that has an area that is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

4.2 Rural subdivision

- (1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.
- (2) This clause applies to the following rural zones—
 - (a) Zone RU1 Primary Production,
 - (b) Zone RU2 Rural Landscape,
 - (baa) Zone RU3 Forestry,
 - (c) Zone RU4 Primary Production Small Lots,

Notes—

- 1** When this Plan was made it did not include Zone RU6 Transition.
- 2** This Plan does not include Zone RU2 Rural Landscape.

- (3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.
- (5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Erection of dwelling houses and dual occupancies on land in certain rural zones

- (1) The objectives of this clause are as follows—
 - (a) to minimise unplanned rural residential development,
 - (b) to enable the replacement of lawfully erected dwelling houses or dual occupancies in rural zones.
- (2) This clause applies to land in the following zones—

- (a) Zone RU1 Primary Production,
 - (b) (Repealed)
 - (c) Zone RU4 Primary Production Small Lots.
- (3) Development consent must not be granted for the erection of a dwelling house or dual occupancy on land to which this clause applies, and on which no dwelling house or dual occupancy has been erected, unless the land—
- (a) is a lot that is at least the minimum lot size specified for that lot by the [Lot Size Map](#), or
 - (b) is a lot created before this Plan commenced and on which the erection of a dwelling house or dual occupancy was permissible immediately before that commencement, or
 - (c) is a lot resulting from a subdivision for which development consent (or equivalent) was granted before this Plan commenced and on which the erection of a dwelling house or dual occupancy would have been permissible if the plan of subdivision had been registered before that commencement, or
 - (d) is an existing holding, or
 - (e) would have been a lot or a holding referred to in paragraph (a), (b), (c) or (d) had it not been affected by—
 - (i) a minor realignment of its boundaries that did not create an additional lot, or
 - (ii) a subdivision creating or widening a public road or public reserve or for another public purpose, or
 - (f) is a lot created by a boundary adjustment in accordance with clause 4.1A and on which the erection of a dwelling house or dual occupancy would have been permissible immediately before the adjustment of the boundary.

Note—

A dwelling cannot be erected on a lot created under clause 9 of [State Environmental Planning Policy \(Rural Lands\) 2008](#) or clause 4.2.

- (4) Development consent may be granted for the erection of a dwelling house or dual occupancy on a lot in a zone to which this clause applies if there is a lawfully erected dwelling house or dual occupancy on the land and the dwelling house or dual occupancy to be erected is intended only to replace the existing dwelling house or dual occupancy.
- (5) In this clause—

existing holding means all adjoining land, even if separated by a road or railway, held in the same ownership—

(a) on—

- (i) for land to which *Interim Development Order No 1—Shire of Kyogle* applied at the commencement of this Plan—22 October 1976, or
- (ii) for land to which *Interim Development Order No 1—Shire of Terania* applied at the commencement of this Plan—29 November 1974, and

(b) at the time of lodging a development application for the erection of a dwelling house under this clause,

and includes any other land adjoining that land acquired by the owner since the date referred to in paragraph (a) (i) or (ii).

Note—

The owner in whose ownership all the land is at the time the application is lodged need not be the same person as the owner in whose ownership all the land was on the stated date.

4.2B Minimum subdivision lot size for strata plan schemes in certain zones

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or is proposed to be used, for residential accommodation or tourist and visitor accommodation—
 - (a) Zone RU1 Primary Production,
 - (b) (Repealed)
 - (c) Zone RU4 Primary Production Small Lots,
 - (d) Zone R5 Large Lot Residential.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum lot size shown on the [Lot Size Map](#) in relation to that land.

Note—

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

4.2C Erection of rural workers' dwellings in Zone RU1

- (1) The objective of this clause is to ensure the provision of adequate accommodation for

employees of existing agricultural or rural industries.

- (2) This clause applies to land in Zone RU1 Primary Production.
- (3) Development consent must not be granted to the erection of a rural worker's dwelling on land to which this clause applies, unless the consent authority is satisfied that—
 - (a) the development will be on the same lot as an existing lawfully erected dwelling house, and
 - (b) the development will not impair the use of the land for agricultural or rural industries, and
 - (c) the agricultural or rural industry being carried out on the land has a demonstrated economic capacity to support the ongoing employment of rural workers, and
 - (d) the development is necessary considering the nature of the agricultural or rural industry land use lawfully occurring on the land or as a result of the remote or isolated location of the land, and
 - (e) the size of the lot on which the development will be carried out is at least the minimum lot size specified for that lot by the [Lot Size Map](#), or at least 80 hectares, whichever is the larger.

4.3 Height of buildings

- (1) The objectives of this clause are as follows—
 - (a) to identify maximum heights of buildings,
 - (b) to ensure that the heights of buildings are compatible with the character of the existing development within the surrounding area,
 - (c) to encourage greater density in urban areas.
- (2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

4.4 Floor space ratio

[Not adopted]

4.5 Calculation of floor space ratio and site area

[Not adopted]

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
 - (a) to provide an appropriate degree of flexibility in applying certain development

standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—
- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
- (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

Note—

The [Environmental Planning and Assessment Regulation 2021](#) requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

- (4) The consent authority must keep a record of its assessment carried out under subclause (3).
- (5) (Repealed)
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
- (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.
- (7) (Repealed)
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—

- (a) a development standard for complying development,
- (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
- (c) clause 5.4,
- (caa) clause 5.5.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Transport for NSW
Zone C1 National Parks and Nature Reserves and marked "National Park"	Minister administering the National Parks and Wildlife Act 1974

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be

carried out, with development consent, for any purpose.

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
 - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 40 metres.
- (3) This clause does not apply to—
 - (a) land in Zone RE1 Public Recreation, Zone C1 National Parks and Nature Reserves, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone W1 Natural Waterways, or
 - (b) land within the coastal zone, or
 - (c) land proposed to be developed for the purpose of sex services or restricted premises.
- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that—
 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 5 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
- (a) 11% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - (b) 200 square metres,
