# Water (Part 5—Drillers' Licences) Regulation 1995

## 1 Name of Regulation

This Regulation may be cited as the Water (Part 5—Drillers' Licences) Regulation 1995.

#### 2 Commencement

This Regulation commences on 1 September 1995.

#### 3 Definitions

(1) In this Regulation:

the Act means the Water Act 1912.

(2) In this Regulation, a reference to a form is a reference to a Form set out in Schedule 1.

#### 4 Classes of drillers' licences

- (1) For the purposes of section 118A (1) (b) of the Act, the following 6 classes of drillers' licences are prescribed:
  - (a) a *class 1 licence*, being a licence that allows construction of water level and water quality monitoring bores,
  - (b) a *class 2 licence*, being a licence that allows construction of sub-artesian stock and domestic supply bores up to 152 mm nominal bore casing,
  - (c) a class 3 licence, being a licence that allows the activities of a class 2 licence and also allows the construction of sub-artesian, screened and developed bores (with open hole, slotted casing or screen completion methods, including the use of a formation stabiliser, but not including gravel filter envelope completion techniques),
  - (d) a *class 4 licence*, being a licence that allows activities of a class 3 licence and also allows the use of gravel filter envelope completion techniques,
  - (e) a class 5 licence, being a licence that allows activities of a class 2 licence and also

allows the construction of flowing and non-flowing bores that penetrate the sandstone aquifers of the Great Artesian Basin and the construction of flowing bores elsewhere in New South Wales,

- (f) a *class 6 licence*, being a licence that allows activities of both a class 4 licence and a class 5 licence.
- (2) A driller's licence may restrict its holder to the use of one or more of the following drilling methods:
  - (a) auger,
  - (b) jetting,
  - (c) cable tool,
  - (d) rotary air,
  - (e) rotary hydraulic,
  - (f) such other method as is specified in the licence.

### 5 Applications for drillers' licences

- (1) For the purposes of section 118A (3A) of the Act:
  - (a) the prescribed form of application for a driller's licence is Form 1, and
  - (b) the prescribed fee to accompany an application for a driller's licence is \$44.
- (2) The Ministerial Corporation must refund the fee if an application does not result in the issue of a licence.

#### 6 Form of licence

For the purposes of section 118A (3A) of the Act, the prescribed form of driller's licence is Form 2.

### 7 Repeal

- (1) The Water (Part 5) Drillers' Licences Regulation 1990 is repealed.
- (2) Any act, matter of thing that, immediately before the repeal of the *Water (Part 5)*Drillers' Licences Regulation 1990, had effect under that Regulation is taken to have effect under this Regulation.

#### APPLICATION FOR DRILLER'S LICENCE

(Section 118A, Water Act 1912)

	Iministration Minis	sterial Corporation
(name in full)		(address in full)
	ς	(address in rail)
		(occupation)
of my application		section 118A of the <i>Water Act 1912</i> . I furnish the following information in support
2. Date of birth:		
3. Class of licen	ce applied for:	
*(a)	Class 1.	Licence that allows construction of water level and water quality monitoring bores.
*(b)	Class 2.	Licence that allows construction of sub-artesian stock and domestic supply bores up to 152 mm nominal bore casing.
*(c)	Class 3.	Licence that allows the activities of a class 2 licence and also allows the construction of sub-artesian, screened and developed bores (with open hole, slotted casing or screen completion methods, including the use of a formation stabiliser, but not including gravel filter envelope completion techniques).
*(d)	Class 4.	Licence that allows the activities of a class 3 licence and also allows the use of gravel filter envelope completion techniques.
*(e)	Class 5.	Licence that allows the activities of a class 2 licence and also allows the construction of flowing and non-flowing bores that penetrate the sandstone aquifers of the Great Artesian Basin and the construction of flowing bores elsewhere in New South Wales.
*(f)	Class 6.	Licence that allows the activities of both a class 4 licence and a class 5 licence.
4. Types of drilli *(a) auger;	ng methods to be	used:
*(b) jetting;		
*(c) cable to	ool;	
*(d) rotary a	air;	
*(e) rotary h	nydraulic;	
*(f) other (s	pecify)	

\*(b) as an employee of a licensed driller: years.

years.

5. Length of experience:

\*(a) as a licensed driller:

	s licence is limited to the following drilling methods:		
		Class	licence.
	censed for a period of 3 years from the date of this licence to carry out work as a dr $Water\ Act\ 1912$ .	iller under sec	tion 118A of
(na	me) (address)		
	of		
	(Section 118A, Water Act 1912)		
	DRILLER'S LICENCE No.		
			(Clause 6)
50	Form 2		
	rike out if inapplicable.		
	Other information relevant to this application:		
	Copies of testimonials or references from employers should be attached.)		
13. <b>Not</b> e	Names and addresses of drillers and/or drilling contractors for whom I have worked	d as a driller:	
12.	Description of drilling plants previously operated by me:		
11.	The make, type and capacity of plant now being operated by me are:		
	*(b) deepest bore on which I have worked as an employee of a licensed driller:		
	The depth and location of:  *(a) deepest bore sunk by me as a licensed driller:		
	*(b) pressure-cemented by me as an employee of a licensed driller:		
	Number of bores:  *(a) pressure-cemented by me as a licensed driller:		
	*(b) on which I have worked as an employee of a licensed driller:		
	Number of artesian bores: *(a) constructed by me as a licensed driller:		
	*(b) on which I have worked as an employee of a licensed driller:		
	Number of screened and developed irrigation industrial supply or town-water supply *(a) constructed by me as a licensed driller:	bores:	
	*(b) on which I have worked as an employee of a licensed driller:		
	*(a) constructed by me as a licensed driller:
