Pittwater Local Environmental Plan 2014

New South Wales

Part 1 Preliminary

1.1 Name of Plan

This Plan is *Pittwater Local Environmental Plan 2014*.

1.1AA Commencement

This Plan commences 28 days after it is published on the NSW legislation website.

1.2 Aims of Plan

- (1) This Plan aims to make local environmental planning provisions for land in Pittwater in accordance with the relevant standard environmental planning instrument under section 3.20 of the Act.
- (2) The particular aims of this Plan are as follows—
 - (aa) to protect and promote the use and development of land for arts and cultural activity, including music and other performance arts,
 - (a) to promote development in Pittwater that is economically, environmentally and socially sustainable,
 - (b) to ensure development is consistent with the desired character of Pittwater's localities,
 - (c) to support a range of mixed-use centres that adequately provide for the needs of the Pittwater community,
 - (d) to retain and enhance land used for employment purposes that is needed to meet the economic and employment needs of the community both now and in the future,
 - (e) to improve access throughout Pittwater, facilitate the use of public transport and encourage walking and cycling,
 - (f) to encourage a range of housing in appropriate locations that provides for the

needs of the community both now and in the future,

- (g) to protect and enhance Pittwater's natural environment and recreation areas,
- (h) to conserve Pittwater's European and Aboriginal heritage,
- (i) to minimise risks to the community in areas subject to environmental hazards including climate change,
- (j) to protect and promote the health and well-being of current and future residents of Pittwater.

1.3 Land to which Plan applies

This Plan applies to the land identified on the [Land Application Map](#).

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name—
 - (a) approved by the local plan-making authority when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the local plan-making authority when the instruments are made.
- (1AA) (Repealed)
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available

in, electronic or paper form, or both.

Note—

The maps adopted by this Plan are to be made available on the NSW Planning Portal. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the website of the Department of Planning and Environment.

1.8 Repeal of planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note—

The following local environmental plans are repealed under this provision—

Pittwater Local Environment Plan 1993

- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

- (1) If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note—

However, under Division 3.5 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

- (2) A development application made, but not finally determined, before the commencement of *State Environmental Planning Policy Amendment (Flood Planning) 2023* must be determined as if that policy had not commenced.

1.9 Application of SEPPs

- (1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 3.28 of the Act.
- (2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies—

1.9A Suspension of covenants, agreements and instruments

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply—
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any relevant instrument within the meaning of section 13.4 of the *Crown Land Management Act 2016*, or
 - (c) to any conservation agreement within the meaning of the *National Parks and Wildlife Act 1974*, or
 - (d) to any Trust agreement within the meaning of the *Nature Conservation Trust Act 2001*, or
 - (e) to any property vegetation plan within the meaning of the *Native Vegetation Act 2003*, or
 - (f) to any biobanking agreement within the meaning of Part 7A of the *Threatened Species Conservation Act 1995*, or
 - (g) to any planning agreement within the meaning of Subdivision 2 of Division 7.1 of the Act.
- (3) This clause does not affect the rights or interests of any public authority under any registered instrument.
- (4) Under section 3.16 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).

Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows—

Rural Zones

RU2 Rural Landscape

Residential Zones

R2 Low Density Residential

R3 Medium Density Residential

R5 Large Lot Residential

Employment Zones

E1 Local Centre

E3 Productivity Support

E4 General Industrial

Mixed Use Zones

MU1 Mixed Use

Special Purpose Zones

SP1 Special Activities

SP2 Infrastructure

SP3 Tourist

SP4 Enterprise

Recreation Zones

RE1 Public Recreation

RE2 Private Recreation

Conservation Zones

C1 National Parks and Nature Reserves

C2 Environmental Conservation

C3 Environmental Management

C4 Environmental Living

Waterway Zones

W1 Natural Waterways

W2 Recreational Waterways

W4 Working Waterfront

2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the [Land Zoning Map](#).

2.3 Zone objectives and Land Use Table

- (1) The Land Use Table at the end of this Part specifies for each zone—
 - (a) the objectives for development, and
 - (b) development that may be carried out without development consent, and
 - (c) development that may be carried out only with development consent, and
 - (d) development that is prohibited.
- (2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.
- (3) In the Land Use Table at the end of this Part—
 - (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes—

- 1** Schedule 1 sets out additional permitted uses for particular land.
- 2** Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act.
- 3** Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4** Clause 2.6 requires consent for subdivision of land.
- 5** Part 5 contains other provisions which require consent for particular development.
- 5A** Part 7 contains other local provisions which require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with development consent.
- (2) In deciding whether to grant development consent, the consent authority—
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out—
 - (a) with development consent, or
 - (b) if the Schedule so provides—without development consent,in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes—

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.

- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

The definition of **secondary dwelling** in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note—

If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 42 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that—
 - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and
 - (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

2.9 Canal estate development prohibited

- (1) Canal estate development is prohibited on land to which this Plan applies.
- (2) In this Plan, **canal estate development** means development that involves—
 - (a) a constructed canal, or other waterway or waterbody, that—
 - (i) is inundated by surface water or groundwater movement, or
 - (ii) drains to a waterway or waterbody by surface water or groundwater movement, and
 - (b) the erection of a dwelling, and
 - (c) one or both of the following—
 - (i) the use of fill material to raise the level of all or part of the land on which the dwelling will be erected to comply with requirements for residential development in the flood planning area,

- (ii) excavation to create a waterway.
- (3) Canal estate development does not include development for the purposes of drainage or the supply or treatment of water if the development is—
 - (a) carried out by or with the authority of a person or body responsible for the drainage, supply or treatment, and
 - (b) limited to the minimum reasonable size and capacity.
- (4) In this clause—

flood planning area has the same meaning as in clause 5.21.

Land Use Table

Note—

State environmental planning policies, including the following, may be relevant to development on land to which this Plan applies—

State Environmental Planning Policy (Housing) 2021

State Environmental Planning Policy (Transport and Infrastructure) 2021, Chapter 2—relating to infrastructure facilities, including air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems

State Environmental Planning Policy (Resources and Energy) 2021, Chapter 2

State Environmental Planning Policy (Resilience and Hazards) 2021, Chapter 3

State Environmental Planning Policy (Industry and Employment) 2021, Chapter 3

State Environmental Planning Policy (Primary Production) 2021, Chapter 2

Zone RU2 Rural Landscape

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To maintain the rural landscape character of the land.
- To provide for a range of compatible land uses, including extensive agriculture.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 Permitted without consent

Extensive agriculture; Home businesses; Home occupations

3 Permitted with consent

Agriculture; Animal boarding or training establishments; Aquaculture; Bed and breakfast accommodation; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dual occupancies (attached); Dwelling houses; Environmental facilities; Environmental protection works; Farm buildings; Farm stay accommodation; Forestry; Function centres; Home-based child care; Home industries; Industrial retail outlets; Industrial training facilities; Information and education facilities; Landscaping material supplies; Places of public worship; Plant nurseries; Recreation areas; Respite day care centres; Roads; Roadside stalls; Rural industries; Rural supplies; Rural workers' dwellings; Secondary dwellings; Veterinary hospitals

4 Prohibited

Any development not specified in item 2 or 3

Zone R2 Low Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Environmental protection works; Exhibition homes; Group homes; Health consulting rooms; Home-based child care; Home industries; Jetties; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Respite day care centres; Roads; Secondary dwellings;

Tank-based aquaculture; Veterinary hospitals; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone R3 Medium Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Attached dwellings; Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Environmental protection works; Exhibition homes; Group homes; Health consulting rooms; Home-based child care; Home industries; Multi dwelling housing; Neighbourhood shops; Oyster aquaculture; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Serviced apartments; Tank-based aquaculture; Veterinary hospitals

4 Prohibited

Any other development not specified in item 2 or 3

Zone R5 Large Lot Residential

1 Objectives of zone

- To provide residential housing in a rural setting while preserving, and

minimising impacts on, environmentally sensitive locations and scenic quality.

- To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dual occupancies (attached); Dwelling houses; Environmental protection works; Home-based child care; Home industries; Horticulture; Oyster aquaculture; Pond-based aquaculture; Respite day care centres; Roads; Secondary dwellings; Tank-based aquaculture

4 Prohibited

Any development not specified in item 2 or 3

Zone E1 Local Centre

1 Objectives of zone

- To provide a range of retail, business and community uses that serve the needs of people who live in, work in or visit the area.
- To encourage investment in local commercial development that generates employment opportunities and economic growth.
- To enable residential development that contributes to a vibrant and active local centre and is consistent with the Council's strategic planning for residential development in the area.

- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.
- To ensure that new development provides diverse and active street frontages to attract pedestrian traffic and to contribute to vibrant, diverse, and functional streets and public spaces.
- To create urban form that relates favourably in scale and in architectural and landscape treatment to neighbouring land uses and to the natural environment.

2 Permitted without consent

Home-based child care; Home businesses; Home occupations

3 Permitted with consent

Amusement centres; Boarding houses; Car parks; Centre-based child care facilities; Commercial premises; Community facilities; Creative industries; Early education and care facilities; Electricity generating works; Entertainment facilities; Environmental protection works; Flood mitigation works; Function centres; Group homes; Home industries; Hostels; Hotel or motel accommodation; Information and education facilities; Local distribution premises; Medical centres; Oyster aquaculture; Passenger transport facilities; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Registered clubs; Respite day care centres; Roads; Service stations; Shop top housing; Signage; Tank-based aquaculture; Tourist and visitor accommodation; Veterinary hospitals; Waste or resource transfer stations; Water reticulation systems

4 Prohibited

Any development not specified in item 2 or 3

Zone E3 Productivity Support

1 Objectives of zone

- To provide a range of facilities and services, light industries, warehouses and offices.
- To provide for land uses that are compatible with, but do not compete with, land uses in surrounding local and commercial centres.
- To maintain the economic viability of local and commercial centres by limiting

certain retail and commercial activity.

- To provide for land uses that meet the needs of the community, businesses and industries but that are not suited to locations in other employment zones.
- To provide opportunities for new and emerging light industries.
- To enable other land uses that provide facilities and services to meet the day to day needs of workers, to sell goods of a large size, weight or quantity or to sell goods manufactured on-site.
- To create a pedestrian environment that is safe and interesting and encourages activity.
- To create employment environments of high visual quality that relate favourably in architectural and landscape treatment to neighbouring land uses and the natural environment.
- To minimise conflict between land uses in the zone and adjoining zones and ensure the amenity of adjoining or nearby residential land uses.

2 Permitted without consent

4 Prohibited

Any development not specified in item 2 or 3

Zone E4 General Industrial

1 Objectives of zone

- To provide a range of industrial, warehouse, logistics and related land uses.
- To ensure the efficient and viable use of land for industrial uses.
- To minimise any adverse effect of industry on other land uses.
- To encourage employment opportunities.
- To enable limited non-industrial land uses that provide facilities and services to meet the needs of businesses and workers.
- To accommodate uses that, because of demonstrated special building or site requirements or operational characteristics, cannot be, or are inappropriate to be, located in other zones.
- To provide healthy, attractive, functional and safe light industrial areas.

2 Permitted without consent

Nil

3 Permitted with consent

Animal boarding or training establishments; Boat building and repair facilities; Car parks; Crematoria; Depots; Environmental protection works; Flood mitigation works; Freight transport facilities; Garden centres; General industries; Goods repair and reuse premises; Hardware and building supplies; Horticulture; Industrial retail outlets; Industrial training facilities; Landscaping material supplies; Light industries; Local distribution premises; Mortuaries; Neighbourhood shops; Oyster aquaculture; Places of public worship; Public administration buildings; Recreation areas; Recreation facilities (indoor); Resource recovery facilities; Roads; Self-storage units; Service stations; Sex services premises; Signage; Take away food and drink premises; Tank-based

aquaculture; Timber yards; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Warehouse or distribution centres; Water supply systems; Wholesale supplies

4 Prohibited

Any development not specified in item 2 or 3

Zone MU1 Mixed Use

1 Objectives of zone

- To encourage a diversity of business, retail, office and light industrial land uses that generate employment opportunities.
- To ensure that new development provides diverse and active street frontages to attract pedestrian traffic and to contribute to vibrant, diverse and functional streets and public spaces.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To encourage business, retail, community and other non-residential land uses on the ground floor of buildings.
- To provide an active day and evening economy encouraging, where appropriate, weekend and night-time economy functions.
- To ensure that new development provides diverse and active street frontages to attract pedestrian traffic and to contribute to vibrant, diverse and functional streets and public spaces.

Any development not specified in item 2 or 3

Zone SP1 Special Activities

1 Objectives of zone

- To provide for special land uses that are not provided for in other zones.
- To provide for sites with special natural characteristics that are not provided for in other zones.
- To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Building identification signs; Business identification signs; Environmental protection works; Roads; The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone SP2 Infrastructure

1 Objectives of zone

- To provide for infrastructure and related uses.
- To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Building identification signs; Business identification signs; Environmental protection works; Roads; The purpose shown on the [Land Zoning Map](#), including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Any development not specified in item 2 or 3

Zone SP3 Tourist

1 Objectives of zone

- To provide for a variety of tourist-oriented development and related uses.

2 Permitted without consent

Roads

3 Permitted with consent

Aquaculture; Camping grounds; Caravan parks; Eco-tourist facilities; Food and drink premises; Function centres; Information and education facilities; Tourist and visitor accommodation

4 Prohibited

Any development not specified in item 2 or 3

Zone SP4 Enterprise

1 Objectives of zone

- To provide for development and land uses that support enterprise and productivity.
- To provide healthy, attractive, functional and safe business areas.
- To minimise conflict between land uses in the zone and adjoining zones and ensure the amenity of adjoining or nearby residential land uses.
- To create business park employment environments of high visual quality that

relate favourably in architectural and landscape treatment to neighbouring land uses and to the natural environment.

- To provide a range of facilities and services, light industries, warehouses and offices.
- To provide opportunities for new and emerging light industries.
- To restrict retail uses to ensure sufficient land is available for industrial and light industrial uses to meet future demands.

2 Permitted without consent

Nil

3 Permitted with consent

Building identification signs; Business identification signs; Boat building and repair facilities; Community facilities; Early education and care facilities; Educational establishments; Electricity generating works; Emergency services facilities; Environmental protection works; Flood mitigation works; Garden centres; Goods repair and reuse premises; Hardware and building supplies; Health services facilities; Industrial retail outlets; Industrial training facilities; Kiosks; Light industries; Mortuaries; Neighbourhood shops; Office premises; Passenger transport facilities; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Roads; Self-storage units; Service stations; Sewerage systems; Signage; Take away food and drink premises; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Warehouse or distribution centres; Water reticulation systems; Water treatment facilities

4 Prohibited

Home industries; Any other development not specified in item 2 or 3

Zone RE1 Public Recreation

1 Objectives of zone

- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.

- To allow development that does not substantially diminish public use of, or access to, public open space resources.
- To provide passive and active public open space resources, and ancillary development, to meet the needs of the community.

2 Permitted without consent

Building identification signs; Environmental protection works; Horticulture; Markets; Roads

3 Permitted with consent

Aquaculture; Centre-based child care facilities; Community facilities; Environmental facilities; Information and education facilities; Kiosks; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Restaurants or cafes; Signage; Take away food and drink premises; Water recreation structures

4 Prohibited

Any development not specified in item 2 or 3

Zone RE2 Private Recreation

1 Objectives of zone

- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.
- To allow development of a scale and character that is appropriate to the nature of its recreational use and is integrated with the landform and landscape.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Community facilities; Environmental facilities; Environmental protection works; Kiosks; Marinas; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Roads; Signage

4 Prohibited

Any development not specified in item 2 or 3

Zone C1 National Parks and Nature Reserves

1 Objectives of zone

- To enable the management and appropriate use of land that is reserved under the *National Parks and Wildlife Act 1974* or that is acquired under Part 11 of that Act.
- To enable uses authorised under the *National Parks and Wildlife Act 1974*.
- To identify land that is to be reserved under the *National Parks and Wildlife Act 1974* and to protect the environmental significance of that land.

2 Permitted without consent

Uses authorised under the *National Parks and Wildlife Act 1974*

3 Permitted with consent

Nil

4 Prohibited

Any development not specified in item 2 or 3

Zone C2 Environmental Conservation

1 Objectives of zone

- To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.
- To prevent development that could destroy, damage or otherwise have an adverse effect on those values.
- To ensure the continued viability of ecological communities and threatened species.
- To protect, manage, restore and enhance the ecology, hydrology and scenic values of riparian corridors and waterways, groundwater resources, biodiversity corridors, areas of remnant native vegetation and dependent ecosystems.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Environmental facilities; Oyster aquaculture Recreation areas; Roads

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Local distribution premises; Multi dwelling housing; Pond-based aquaculture; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Tank-based aquaculture; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone C3 Environmental Management

1 Objectives of zone

- To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
- To provide for a limited range of development that does not have an adverse effect on those values.
- To provide for residential development of a low density and scale, integrated with the landform and landscape and not visually prominent.
- To encourage development that retains and enhances riparian and foreshore vegetation and wildlife corridors.
- To ensure the continued viability of ecological communities and threatened species.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Building identification signs; Business identification signs; Community facilities; Dwelling houses; Environmental protection works; Health consulting rooms; Home-based child care; Home industries; Jetties; Oyster aquaculture; Pond-based aquaculture; Roads; Tank-based aquaculture; Water recreation structures

4 Prohibited

Industries; Local distribution premises; Multi dwelling housing; Residential flat buildings; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone C4 Environmental Living

1 Objectives of zone

- To provide for low-impact residential development in areas with special ecological, scientific or aesthetic values.
- To ensure that residential development does not have an adverse effect on those values.
- To provide for residential development of a low density and scale integrated with the landform and landscape.
- To encourage development that retains and enhances riparian and foreshore vegetation and wildlife corridors.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Building identification signs; Business identification signs; Centre-based child care facilities; Community facilities; Dwelling houses; Environmental protection works; Group homes; Health consulting rooms; Home-based child care; Home industries; Jetties; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Respite day care centres; Roads; Secondary dwellings; Tank-based aquaculture; Water recreation structures

4 Prohibited

Industries; Local distribution premises; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W1 Natural Waterways

1 Objectives of zone

- To protect the ecological and scenic values of natural waterways.

- To prevent development that would have an adverse effect on the natural values of waterways in this zone.
- To provide for sustainable fishing industries and recreational fishing.
- To ensure development does not adversely impact on the natural environment or obstruct the navigation of the waterway.
- To provide opportunities for private access to the waterway where these do not cause unnecessary impact on public access to the foreshore.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Aquaculture; Environmental facilities; Mooring pens

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Local distribution premises; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W2 Recreational Waterways

1 Objectives of zone

- To protect the ecological, scenic and recreation values of recreational waterways.
- To allow for water-based recreation and related uses.
- To provide for sustainable fishing industries and recreational fishing.
- To provide for amateur and professional recreational yachting or boating clubs and the like that serve Pittwater and the wider region.
- To ensure development does not adversely impact on the enjoyment and use of the waterway or adjoining land.
- To provide for a variety of passive and active recreational pursuits and water-based transport while preserving the environmental setting of the waterway.

- To ensure that public access to the waterway and foreshore areas suitable for public recreational and transport purposes is maintained.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Aquaculture; Boat building and repair facilities; Boat launching ramps; Boat sheds; Charter and tourism boating facilities; Emergency services facilities; Environmental facilities; Jetties; Kiosks; Marinas; Mooring pens; Signage; Water recreation structures

4 Prohibited

Industries; Local distribution premises; Multi dwelling housing; Residential flat buildings; Seniors housing; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W4 Working Waterfront

1 Objectives of zone

- To retain and encourage industrial and maritime activities on foreshores.
- To identify sites for maritime purposes and for activities requiring direct foreshore access.
- To ensure that development does not have an adverse impact on the environment and visual qualities of the foreshore.
- To encourage employment opportunities.
- To minimise any adverse effect of development on land uses in other zones.
- To provide for water-based business and service facilities that serve Pittwater and the wider region.

2 Permitted without consent

Nil

3 Permitted with consent

Aquaculture; Boat building and repair facilities; Boat launching ramps; Charter and tourism boating facilities; Environmental protection works; Flood mitigation

works; Industrial retail outlets; Jetties; Kiosks; Light industries; Marinas; Roads; Signage; Water recreation structures; Water reticulation systems; Wharf or boating facilities

4 Prohibited

Any development not specified in item 2 or 3

Part 3 Exempt and complying development

3.1 Exempt development

- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development—
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2-9 is exempt development only if—
 - (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.
- (5) To be exempt development, the development must—
 - (a) be installed in accordance with the manufacturer's specifications, if applicable, and
 - (b) not involve the removal, pruning or other clearing of vegetation that requires a permit, development consent or other approval unless it is undertaken in

accordance with a permit, development consent or other approval.

Note—

See *State Environmental Planning Policy (Biodiversity and Conservation) 2021*, Chapter 2 and the *Local Land Services Act 2013*, Part 5A.

(6) A heading to an item in Schedule 2 is part of that Schedule.

3.2 Complying development

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with—

- (a) the development standards specified in relation to that development, and
- (b) the requirements of this Part,

is complying development.

Note—

See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.

(3) To be complying development, the development must—

- (a) be permissible, with development consent, in the zone in which it is carried out, and
- (b) meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
- (c) have an approval, if required by the *Local Government Act 1993*, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause—

environmentally sensitive area for exempt or complying development means any of the following—

- (a) the coastal waters of the State,
- (b) a coastal lake,
- (c) land within the coastal wetlands and littoral rainforests area (within the meaning of the *Coastal Management Act 2016*),
- (d) land reserved as an aquatic reserve under the *Fisheries Management Act 1994* or as a marine park under the *Marine Parks Act 1997*,
- (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
- (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
- (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
- (h) land reserved under the *National Parks and Wildlife Act 1974* or land acquired under Part 11 of that Act,
- (i) land reserved or dedicated under the *Crown Land Management Act 2016* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,
- (j) land that is a declared area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016* or declared critical habitat under Part 7A of the *Fisheries Management Act 1994*.

Part 4 Principal development standards

4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows—
 - (a) to protect residential character and amenity by providing for subdivision where all resulting lots are consistent with the desired character of the locality, and the pattern, size and configuration of existing lots in the locality,
 - (b) to provide for subdivision where all resulting lots are capable of providing for the construction of a building that is safe from hazards,
 - (c) to provide for subdivision where all resulting lots are capable of providing for buildings that will not unacceptably impact on the natural environment or the amenity of neighbouring properties,
 - (d) to provide for subdivision that does not adversely affect the heritage significance of any heritage item or heritage conservation area,

- (e) to provide for subdivision where all resulting lots can be provided with adequate and safe access and services,
 - (f) to maintain the existing function and character of rural areas and minimise fragmentation of rural land,
 - (g) to ensure that lot sizes and dimensions are able to accommodate development consistent with relevant development controls.
- (2) This clause applies to a subdivision of any land shown on the [Lot Size Map](#) that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.
- (3A) If a lot is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included in calculating the lot size.
- (4) This clause does not apply in relation to the subdivision of any land—
- (a) by the registration of a strata plan or strata plan of subdivision under the [Strata Schemes Development Act 2015](#), or
 - (b) by any kind of subdivision under the [Community Land Development Act 2021](#).

4.1AA Minimum subdivision lot size for community title schemes

- (1) The objectives of this clause are as follows—
- (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to a subdivision (being a subdivision that requires development consent) under the [Community Land Development Act 2021](#) of land in any of the following zones—
- (a) Zone RU2 Rural Landscape,
 - (b) Zone R2 Low Density Residential,
 - (c) Zone R5 Large Lot Residential,
 - (d) Zone C4 Environmental Living,
- but does not apply to a subdivision by the registration of a strata plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the

Community Land Development Act 2021) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(4) This clause applies despite clause 4.1.

4.1B Minimum lot sizes for dual occupancies

(1) The objectives of this clause are as follows—

- (a) to achieve planned residential density,
- (b) to maintain a high level of residential amenity, including adequate provision of private open space.

(2) Development consent may only be granted to development on a lot for the purpose of a dual occupancy if—

- (a) the development is permitted on that lot with development consent, and
- (b) the area of the lot is equal to or greater than 800 square metres.

4.2 Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones—

- (a) Zone RU1 Primary Production,
- (b) Zone RU2 Rural Landscape,
- (baa) Zone RU3 Forestry,
- (c) Zone RU4 Primary Production Small Lots,
- (d) Zone RU6 Transition.

Note—

When this Plan was made it did not include all of these zones.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.

Note—

A dwelling includes a rural worker's dwelling (see definition of that term in the Dictionary).

4.2A Minimum subdivision lot size for strata plan schemes in certain rural, residential and conservation zones

- (1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
- (2) This clause applies to land in the following zones that is used, or is proposed to be used, for the purpose of a dual occupancy—
 - (a) Zone RU2 Rural Landscape,
 - (b) Zone R2 Low Density Residential,
 - (c) Zone R5 Large Lot Residential,
 - (d) Zone C4 Environmental Living.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the *Strata Schemes (Freehold Development) Act 1973* or *Strata Schemes (Leasehold Development) Act 1986*) is not to be less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

Note—

Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that strata subdivision of a building in certain circumstances is specified complying development.

- (4) This clause does not apply to the strata subdivision of land used, or proposed to be used, for the purpose of a dual occupancy for which development consent was granted on or before 2 June 2003.

4.3 Height of buildings

- (1) The objectives of this clause are as follows—
 - (a) to ensure that any building, by virtue of its height and scale, is consistent with the desired character of the locality,
 - (b) to ensure that buildings are compatible with the height and scale of surrounding and nearby development,
 - (c) to minimise any overshadowing of neighbouring properties,
 - (d) to allow for the reasonable sharing of views,
 - (e) to encourage buildings that are designed to respond sensitively to the natural topography,

(f) to minimise the adverse visual impact of development on the natural environment, heritage conservation areas and heritage items.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the [Height of Buildings Map](#).

(2A) Despite subclause (2), development on land—

(a) at or below the flood planning level or identified as “Coastal Erosion/Wave Inundation” on the [Coastal Risk Planning Map](#), and

(b) that has a maximum building height of 8.5 metres shown for that land on the [Height of Buildings Map](#),

may exceed a height of 8.5 metres, but not be more than 8.0 metres above the flood planning level.

(2B) Despite subclause (2), development on land—

(a) at or below the flood planning level or identified as “Coastal Erosion/Wave Inundation” on the [Coastal Risk Planning Map](#), and

(b) that has a maximum building height of 11 metres shown for that land on the [Height of Buildings Map](#),

may exceed a height of 11 metres, but not be more than 10.5 metres above the flood planning level.

(2C) Despite subclause (2), development on an area of land shown in Column 1 of the table to this subclause and identified as such on the [Height of Buildings Map](#), may exceed the maximum building height shown on the [Height of Buildings Map](#) for that land, if the height of the development is not greater than the height shown opposite that area in Column 2.

Column 1	Column 2
Area	Maximum height above the flood planning level
Area 1	11.5 metres
Area 2	8.5 metres on the street frontage and 10.5 metres at the rear
Area 3	8.5 metres
Area 4	7.0 metres

(2D) Despite subclause (2), development on land that has a maximum building height of 8.5 metres shown for that land on the [Height of Buildings Map](#) may exceed a height of 8.5 metres, but not be more than 10.0 metres if—

- (a) the consent authority is satisfied that the portion of the building above the maximum height shown for that land on the [Height of Buildings Map](#) is minor, and
 - (b) the objectives of this clause are achieved, and
 - (c) the building footprint is situated on a slope that is in excess of 16.7 degrees (that is, 30%), and
 - (d) the buildings are sited and designed to take into account the slope of the land to minimise the need for cut and fill by designs that allow the building to step down the slope.
- (2E) Despite subclause (2), development for the purposes of shop top housing on land identified as “Area 5” on the [Height of Buildings Map](#) may have a height of up to 10 metres if the top floor of the building is setback a minimum of 6 metres from the boundary to the primary street frontage.
- (2F) Despite subclause (2), development on land identified as “Area 6” on the [Height of Buildings Map](#) must not exceed 8.5 metres within the area that is 12.5 metres measured from the boundary of any property fronting Orchard Street, Macpherson Street, Warriewood Road or Garden Street.
- (2FA) Despite subclause (2), the maximum height for a secondary dwelling or a rural worker’s dwelling in Zone C4 Environmental Living or Zone RU2 Rural Landscape is 5.5 metres if the secondary dwelling or rural worker’s dwelling is separate from the principal dwelling.
- (2FB) Despite subclause (2), in the case of a dual occupancy (detached), the maximum height for the dwelling that is furthest back from the primary street frontage of the lot is 5.5 metres.
- (2G) In this clause—

flood planning level means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metres freeboard, or other freeboard determined by an adopted FRM plan, within the meaning of the Flood Risk Management Manual.

Flood Risk Management Manual—see clause 5.21(5).

4.4 Floor space ratio

- (1) The objectives of this clause are as follows—
- (a) to ensure that buildings, by virtue of their bulk and scale, are consistent with the desired character of the locality,
 - (b) to minimise adverse environmental effects on the use and enjoyment of adjoining properties and the public domain,

- (c) to minimise any overshadowing and loss of privacy to neighbouring properties and to reduce the visual impact of any development,
 - (d) to maximise solar access and amenity for public places,
 - (e) to minimise the adverse impact of development on the natural environment, heritage conservation areas and heritage items,
 - (f) to manage the visual impact of development when viewed from public places, including waterways,
 - (g) to allow for the reasonable sharing of views.
- (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the [Floor Space Ratio Map](#).

4.5 Calculation of floor space ratio and site area

- (1) **Objectives** The objectives of this clause are as follows—
- (a) to define **floor space ratio**,
 - (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to—
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
 - (iii) require community land and public places to be dealt with separately.
- (2) **Definition of “floor space ratio”** The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.
- (3) **Site area** In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be—
- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
 - (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.
- In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.
- (4) **Exclusions from site area** The following land must be excluded from the site area—

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
 - (b) community land or a public place (except as provided by subclause (7)).
- (5) **Strata subdivisions** The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.
- (6) **Only significant development to be included** The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.
- (7) **Certain public land to be separately considered** For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.
- (8) **Existing buildings** The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.
- (9) **Covenants to prevent “double dipping”** When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
- (10) **Covenants affect consolidated sites** If—
- (a) a covenant of the kind referred to in subclause (9) applies to any land (**affected land**), and
 - (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
- the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.
- (11) **Definition** In this clause, **public place** has the same meaning as it has in the [Local](#)

Government Act 1993.

4.5A Density controls for certain residential accommodation

- (1) The objectives of this clause are as follows—
 - (a) to achieve planned residential density in certain zones,
 - (b) to ensure building density is consistent with the desired character of the locality.
- (2) Development consent must not be granted to development for a purpose specified in Column 1 of the table to this clause on land in the zone or area shown opposite that development in Column 2 of that table unless the development complies with the density requirements specified in Column 3 of that table.
- (3) This clause does not apply to land in the Warriewood Valley Release Area.
- (4) In this clause—

Warriewood Valley Release Area means the area identified as Warriewood Valley Release Area on the [Urban Release Area Map](#).

Column 1	Column 2	Column 3
Specified development	Zone or Area	Density
Attached dwellings	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Multi dwelling housing	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Residential flat buildings	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Semi-detached dwellings	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Seniors housing	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Serviced apartments	R3 Medium Density Residential	A maximum of 1 dwelling per 200 square metres of site area.
Shop top housing	“Area 1” on the Land Zoning Map	A maximum of 1 dwelling per 150 square metres of site area.

4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows—
 - (a) to provide an appropriate degree of flexibility in applying certain development

standards to particular development,

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—
- (a) compliance with the development standard is unreasonable or unnecessary in the circumstances, and
 - (b) there are sufficient environmental planning grounds to justify the contravention of the development standard.

Note—

The [Environmental Planning and Assessment Regulation 2021](#) requires a development application for development that proposes to contravene a development standard to be accompanied by a document setting out the grounds on which the applicant seeks to demonstrate the matters in paragraphs (a) and (b).

- (4) The consent authority must keep a record of its assessment carried out under subclause (3).
- (5) (Repealed)
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone C2 Environmental Conservation, Zone C3 Environmental Management or Zone C4 Environmental Living if—
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note—

When this Plan was made it did not include all of these zones.

- (7) (Repealed)

- (8) This clause does not allow development consent to be granted for development that would contravene any of the following—
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which [State Environmental Planning Policy \(Building Sustainability Index: BASIX\) 2004](#) applies or for the land on which such a building is situated,
 - (c) clause 5.4,
 - (caa) clause 5.5.

Part 5 Miscellaneous provisions

5.1 Relevant acquisition authority

- (1) The objective of this clause is to identify, for the purposes of section 3.15 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) (**the owner-initiated acquisition provisions**).

Note—

If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the [Land Acquisition \(Just Terms Compensation\) Act 1991](#) requires the authority to acquire the land.

- (2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the [Land Reservation Acquisition Map](#) (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

Type of land shown on Map	Authority of the State
Zone RE1 Public Recreation and marked "Local open space"	Council
Zone RE1 Public Recreation and marked "Regional open space"	The corporation constituted under section 2.5 of the Act
Zone SP2 Infrastructure and marked "Classified road"	Transport for NSW
Zone SP2 Infrastructure and marked "Local road"	Council

Zone C1 National Parks and Nature Reserves and marked "National Park"	Minister administering the National Parks and Wildlife Act 1974
Zone C2 Environmental Conservation and marked "Local open space"	Council
Zone C2 Environmental Conservation and marked "Regional open space"	The corporation constituted under section 8 of the Act

- (3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.

5.1A Development on land intended to be acquired for public purposes

- (1) The objective of this clause is to limit development on certain land intended to be acquired for a public purpose.
- (2) This clause applies to land shown on the [Land Reservation Acquisition Map](#) and specified in Column 1 of the table to this clause and that has not been acquired by the relevant authority of the State specified for the land in clause 5.1.
- (3) Development consent must not be granted to any development on land to which this clause applies other than development for a purpose specified opposite that land in Column 2 of that table.

Column 1	Column 2
Land	Development
Zone SP2 Infrastructure and marked "Classified road"	Roads
Zone SP2 Infrastructure and marked "Local road"	Roads
Zone RE1 Public Recreation and marked "Local open space"	Recreation areas
Zone RE1 Public Recreation and marked "Regional open space"	Recreation areas
Zone C2 Environmental Conservation and marked "Regional open space"	Recreation areas
Zone C2 Environmental Conservation and marked "Local open space"	Recreation areas

5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note—

Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads and certain Crown land). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.
- (4) The public land described in Part 1 of Schedule 4—
 - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except—
 - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
 - (b) any reservations that except land out of the Crown grant relating to the land, and
 - (c) reservations of minerals (within the meaning of the *Crown Land Management Act 2016*).

Note—

In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries

[Not adopted]

5.4 Controls relating to miscellaneous permissible uses

- (1) **Bed and breakfast accommodation** If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

Note—

Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the *Building Code of Australia*.

- (2) **Home businesses** If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.
- (3) **Home industries** If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.
- (4) **Industrial retail outlets** If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed—
- (a) 33% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
 - (b) 400 square metres,
- whichever is the lesser.
- (5) **Farm stay accommodation** If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms in buildings.
- (6) **Kiosks** If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 20 square metres.
- (7) **Neighbourhood shops** If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.
- (7AA) **Neighbourhood supermarkets** If development for the purposes of a neighbourhood supermarket is permitted under this Plan, the gross floor area must not exceed 1,000 square metres.
- (8) **Roadside stalls** If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 10 square metres.
- (9) **Secondary dwellings on land other than land in a rural zone** If development for the purposes of a secondary dwelling is permitted under this Plan on land other than land in a rural zone, the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—

- (a) 60 square metres,
- (b) 25% of the total floor area of the principal dwelling.

(10) **Artisan food and drink industry exclusion** If development for the purposes of an artisan food and drink industry is permitted under this Plan in Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial, Zone W4 Working Waterfront or a rural zone, the floor area used for retail sales (not including any cafe or restaurant area) must not exceed—

- (a) 33% of the gross floor area of the industry, or
 - (b) 400 square metres,
- whichever is the lesser.

5.5 Controls relating to secondary dwellings on land in a rural zone

If development for the purposes of a secondary dwelling is permitted under this Plan on land in a rural zone—

- (a) the total floor area of the dwelling, excluding any area used for parking, must not exceed whichever of the following is the greater—
 - (i) 60 square metres,
 - (ii) 25% of the total floor area of the principal dwelling, and
- (b) [Not adopted]

5.6 Architectural roof features

[Not adopted]

5.7 Development below mean high water mark

- (1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.
- (2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms

- (1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.
- (2) The following development may be carried out, but only with development consent—
 - (a) converting a fire alarm system from connection with the alarm monitoring system

of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,

- (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
- (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

(3) Development to which subclause (2) applies is complying development if it consists only of—

- (a) internal alterations to a building, or
- (b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause—

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Dwelling house or secondary dwelling affected by natural disaster

(1) The objective of this clause is to enable the repair or replacement of lawfully erected dwelling houses and secondary dwellings that have been damaged or destroyed by a natural disaster.

(2) This clause applies to land in the following zones—

- (a) a rural zone,
- (b) a residential zone,
- (c) an employment zone,
- (d) a mixed use zone,
- (e) a special purpose zone,
- (f) a recreation zone,

(g) a conservation zone,

(h) a waterway zone.

(i)–(v) (Repealed)

(3) Despite the other provisions of this Plan, development consent may be granted to development on land to which this clause applies to enable a dwelling house or secondary dwelling that has been damaged or destroyed by a natural disaster to be repaired or replaced if—

(a) the dwelling house or secondary dwelling was lawfully erected, and

(b) the development application seeking the development consent is made to the consent authority no later than 5 years after the day on which the natural disaster caused the damage or destruction.

5.9AA (Repealed)

5.10 Heritage conservation

Note—

Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the [Heritage Map](#) as well as being described in Schedule 5.

(1) **Objectives** The objectives of this clause are as follows—

(a) to conserve the environmental heritage of Pittwater,

(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,

(c) to conserve archaeological sites,

(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) **Requirement for consent** Development consent is required for any of the following—

(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance)—

(i) a heritage item,

(ii) an Aboriginal object,

(iii) a building, work, relic or tree within a heritage conservation area,

(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in

Schedule 5 in relation to the item,

- (c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,
- (d) disturbing or excavating an Aboriginal place of heritage significance,
- (e) erecting a building on land—
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,
- (f) subdividing land—
 - (i) on which a heritage item is located or that is within a heritage conservation area, or
 - (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required** However, development consent under this clause is not required if—

- (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development—
 - (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
 - (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or
- (b) the development is in a cemetery or burial ground and the proposed development—
 - (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
 - (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
 - (d) the development is exempt development.
- (4) **Effect of proposed development on heritage significance** The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).
- (5) **Heritage assessment** The consent authority may, before granting consent to any development—
- (a) on land on which a heritage item is located, or
 - (b) on land that is within a heritage conservation area, or
 - (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),
- require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.
- (6) **Heritage conservation management plans** The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.
- (7) **Archaeological sites** The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the [Heritage Act 1977](#) applies)—
- (a) notify the Heritage Council of its intention to grant consent, and
 - (b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.
- (8) **Aboriginal places of heritage significance** The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance—
- (a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and

(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items** The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item—

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives** The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that—

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 Bush fire hazard reduction

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

Note—

The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 Infrastructure development and use of existing buildings of the Crown

(1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of a public authority, that is

permitted to be carried out with or without development consent, or that is exempt development, under *State Environmental Planning Policy (Transport and Infrastructure) 2021*, Chapter 2.

- (2) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the use of existing buildings of the Crown by the Crown.

5.13 Eco-tourist facilities

- (1) The objectives of this clause are as follows—
- (a) to maintain the environmental and cultural values of land on which development for the purposes of eco-tourist facilities is carried out,
 - (b) to provide for sensitively designed and managed eco-tourist facilities that have minimal impact on the environment both on and off-site.
- (2) This clause applies if development for the purposes of an eco-tourist facility is permitted with development consent under this Plan.
- (3) The consent authority must not grant consent under this Plan to carry out development for the purposes of an eco-tourist facility unless the consent authority is satisfied that—
- (a) there is a demonstrated connection between the development and the ecological, environmental and cultural values of the site or area, and
 - (b) the development will be located, constructed, managed and maintained so as to minimise any impact on, and to conserve, the natural environment, and
 - (c) the development will enhance an appreciation of the environmental and cultural values of the site or area, and
 - (d) the development will promote positive environmental outcomes and any impact on watercourses, soil quality, heritage and indigenous flora and fauna will be minimal, and
 - (e) the site will be maintained (or regenerated where necessary) to ensure the continued protection of natural resources and enhancement of the natural environment, and
 - (f) waste generation during construction and operation will be avoided and that any waste will be appropriately removed, and
 - (g) the development will be located to avoid visibility above ridgelines and against escarpments and from watercourses and that any visual intrusion will be minimised through the choice of design, colours materials and landscaping with local indigenous flora, and

- (h) any infrastructure services to the site will be provided without significant modification to the environment, and
- (i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and
- (j) the development will not adversely affect the agricultural productivity of adjoining land, and
- (k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment—
 - (i) measures to remove any threat of serious or irreversible environmental damage,
 - (ii) the maintenance (or regeneration where necessary) of habitats,
 - (iii) efficient and minimal energy and water use and waste output,
 - (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
 - (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.

5.14 Siding Spring Observatory—maintaining dark sky

[Not adopted]

5.15 Defence communications facility

[Not adopted]

5.16 Subdivision of, or dwellings on, land in certain rural, residential or conservation zones

[Not applicable]

5.17 Artificial waterbodies in environmentally sensitive areas in areas of operation of irrigation corporations

[Not applicable]

5.18 Intensive livestock agriculture

(1) The objectives of this clause are—

- (a) to ensure appropriate environmental assessment of development for the purpose of intensive livestock agriculture that is permitted with consent under this Plan,

and

(b) to provide for certain capacity thresholds below which development consent is not required for that development subject to certain restrictions as to location.

(2) This clause applies if development for the purpose of intensive livestock agriculture is permitted with consent under this Plan.

(3) In determining whether or not to grant development consent under this Plan to development for the purpose of intensive livestock agriculture, the consent authority must take the following into consideration—

(a) the adequacy of the information provided in the statement of environmental effects or (if the development is designated development) the environmental impact statement accompanying the development application,

(b) the potential for odours to adversely impact on the amenity of residences or other land uses within the vicinity of the site,

(c) the potential for the pollution of surface water and ground water,

(d) the potential for the degradation of soils,

(e) the measures proposed to mitigate any potential adverse impacts,

(f) the suitability of the site in the circumstances,

(g) whether the applicant has indicated an intention to comply with relevant industry codes of practice for the health and welfare of animals,

(h) the consistency of the proposal with, and any reasons for departing from, the environmental planning and assessment aspects of any guidelines for the establishment and operation of relevant types of intensive livestock agriculture published, and made available to the consent authority, by the Department of Primary Industries (within the Department of Industry) and approved by the Planning Secretary.

(4) Despite any other provision of this Plan, development for the purpose of intensive livestock agriculture may be carried out without development consent if—

(a) the development is of a type specified in subclause (5), and

(b) the consent authority is satisfied that the development will not be located—

(i) in an environmentally sensitive area, or

(ii) within 100 metres of a natural watercourse, or

(iii) in a drinking water catchment, or

- (iv) within 500 metres of any dwelling that is not associated with the development, or a residential zone, or
 - (v) for a poultry farm used for breeding poultry—within 5km of another poultry farm, or
 - (vi) for a poultry farm not used for breeding poultry—
 - (A) within 5km of a poultry farm used for breeding poultry, or
 - (B) within 1km of a poultry farm not used for breeding poultry, or
 - (vii) for a pig farm—within 3km of another pig farm.
- (5) The following types of development are specified for the purposes of subclause (4)—
- (a) a cattle feedlot having a capacity to accommodate fewer than 50 head of cattle,
 - (b) a goat feedlot having a capacity to accommodate fewer than 200 goats,
 - (c) a sheep feedlot having a capacity to accommodate fewer than 200 sheep,
 - (d) a pig farm having a capacity to accommodate fewer than 20 breeding sows, or fewer than 200 pigs (of which fewer than 20 may be breeding sows),
 - (e) a dairy (restricted) having a capacity to accommodate fewer than 50 dairy cows,
 - (f) a poultry farm having a capacity to accommodate fewer than 1,000 birds for meat or egg production (or both).
- (6) For the avoidance of doubt, subclause (4) does not apply to development that is prohibited or that may be carried out without development consent under this or any other environmental planning instrument.
- (7) In this clause—

environmentally sensitive area has the same meaning as in clause 1.5 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*.

residential zone means Zone RU4 Primary Production Small Lots, Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E3 Productivity Support, Zone MU1 Mixed Use, Zone C3 Environmental Management or Zone C4 Environmental Living.

5.19 Pond-based, tank-based and oyster aquaculture

- (1) **Objectives** The objectives of this clause are as follows—
- (a) to encourage sustainable oyster, pond-based and tank-based aquaculture in the

State, namely, aquaculture development that uses, conserves and enhances the community's resources so that the total quality of life now and in the future can be preserved and enhanced,

(b) to set out the minimum site location and operational requirements for permissible pond-based and tank-based aquaculture development.

(2) **Pond-based or tank-based aquaculture—matters of which consent authority must be satisfied before granting consent** The consent authority must not grant development consent to carry out development for the purpose of pond-based aquaculture or tank-based aquaculture unless the consent authority is satisfied of the following—

(a) that the development complies with the site location and operational requirements set out in Part 1 of Schedule 6 for the development,

(b) in the case of—

(i) pond-based aquaculture in Zone RU5 Village, Zone RU6 Transition, Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone E1 Local Centre, Zone E2 Commercial Centre, Zone E3 Productivity Support, Zone E4 General Industrial, Zone E5 Heavy Industrial or Zone MU1 Mixed Use—that the development is for the purpose of small scale aquarium fish production, and

(ii) pond-based aquaculture in Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of extensive aquaculture, and

(iii) tank-based aquaculture in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone R5 Large Lot Residential, Zone C3 Environmental Management or Zone C4 Environmental Living—that the development is for the purpose of small scale aquarium fish production, and

(iv) pond-based aquaculture or tank-based aquaculture in Zone W1 Natural Waterways, Zone W2 Recreational Waterways or Zone W3 Working Waterways—that the development will use waterways to source water.

(3) The requirements set out in Part 1 of Schedule 6 are minimum requirements and do not limit the matters a consent authority is required to take into consideration under the Act or the conditions that it may impose on any development consent.

(4) **Extensive pond-based aquaculture permitted without consent in certain zones** Development for the purpose of pond-based aquaculture, that is also extensive aquaculture, may be carried out without development consent if—

(a) the development is carried out in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots or Zone RU6 Transition, and

(b) the development complies with the site location requirements and operational requirements set out in Part 2 of Schedule 6.

(5) **Oyster aquaculture—additional matters that consent authority must consider in determining a development application** In determining a development application for development for the purpose of oyster aquaculture, the consent authority must consider—

(a) any provisions of any aquaculture industry development plan that are relevant to the subject of the development application, and

(b) the *NSW Oyster Industry Sustainable Aquaculture Strategy*.

(6) **Oyster aquaculture permitted without consent in priority oyster aquaculture areas** Development for the purpose of oyster aquaculture may be carried out without development consent—

(a) on land that is wholly within a priority oyster aquaculture area, or

(b) on land that is partly within and partly outside a priority oyster aquaculture area, but only if the land outside the area is no more than 0.1 hectare in area.

(7) **Definitions** In this clause—

aquaculture industry development plan means an aquaculture industry development plan published under Part 6 of the *Fisheries Management Act 1994*.

extensive aquaculture has the same meaning as in the *Fisheries Management (Aquaculture) Regulation 2017*.

NSW Oyster Industry Sustainable Aquaculture Strategy means the third edition of the publication of that title, as published in 2016 by the Department of Primary Industries (within the Department of Industry).

priority oyster aquaculture area means an area identified as a priority oyster aquaculture area on a map referred to in Chapter 5.3 of the *NSW Oyster Industry Sustainable Aquaculture Strategy*, being a map a copy of which is held in the head office of the Department of Primary Industries (within the Department of Industry) and published on that Department's website.

5.20 Standards that cannot be used to refuse consent—playing and performing music

(1) The consent authority must not refuse consent to development in relation to licensed premises on the following grounds—

- (a) the playing or performance of music, including the following—
 - (i) the genre of music played or performed, or
 - (ii) whether the music played or performed is live or amplified, or
 - (iii) whether the music played or performed is original music, or
 - (iv) the number of musicians or live entertainment acts playing or performing, or
 - (v) the type of instruments played,
 - (b) whether dancing occurs,
 - (c) the presence or use of a dance floor or another area ordinarily used for dancing,
 - (d) the direction in which a stage for players or performers faces,
 - (e) the decorations to be used, including, for example, mirror balls, or lighting used by players or performers.
- (2) The consent authority must not refuse consent to development in relation to licensed premises on the grounds of noise caused by the playing or performance of music, if the consent authority is satisfied the noise may be managed and minimised to an acceptable level.
- (3) In this clause—
- licensed premises*** has the same meaning as in the *Liquor Act 2007*.

5.21 Flood planning

- (1) The objectives of this clause are as follows—
- (a) to minimise the flood risk to life and property associated with the use of land,
 - (b) to allow development on land that is compatible with the flood function and behaviour on the land, taking into account projected changes as a result of climate change,
 - (c) to avoid adverse or cumulative impacts on flood behaviour and the environment,
 - (d) to enable the safe occupation and efficient evacuation of people in the event of a flood.
- (2) Development consent must not be granted to development on land the consent authority considers to be within the flood planning area unless the consent authority is satisfied the development—
- (a) is compatible with the flood function and behaviour on the land, and

- (b) will not adversely affect flood behaviour in a way that results in detrimental increases in the potential flood affectation of other development or properties, and
 - (c) will not adversely affect the safe occupation and efficient evacuation of people or exceed the capacity of existing evacuation routes for the surrounding area in the event of a flood, and
 - (d) incorporates appropriate measures to manage risk to life in the event of a flood, and
 - (e) will not adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses.
- (3) In deciding whether to grant development consent on land to which this clause applies, the consent authority must consider the following matters—
- (a) the impact of the development on projected changes to flood behaviour as a result of climate change,
 - (b) the intended design and scale of buildings resulting from the development,
 - (c) whether the development incorporates measures to minimise the risk to life and ensure the safe evacuation of people in the event of a flood,
 - (d) the potential to modify, relocate or remove buildings resulting from development if the surrounding area is impacted by flooding or coastal erosion.
- (4) A word or expression used in this clause has the same meaning as it has in the *Considering Flooding in Land Use Planning Guideline* unless it is otherwise defined in this clause.
- (5) In this clause—

Considering Flooding in Land Use Planning Guideline means the *Considering Flooding in Land Use Planning Guideline* published on the Department's website on 14 July 2021.

flood planning area has the same meaning as it has in the Flood Risk Management Manual.

Flood Risk Management Manual means the *Flood Risk Management Manual*, ISBN 978-1-923076-17-4, published by the NSW Government in June 2023.

5.22 Special flood considerations

- (1) The objectives of this clause are as follows—
- (a) to enable the safe occupation and evacuation of people subject to flooding,

- (b) to ensure development on land is compatible with the land's flood behaviour in the event of a flood,
- (c) to avoid adverse or cumulative impacts on flood behaviour,
- (d) to protect the operational capacity of emergency response facilities and critical infrastructure during flood events,
- (e) to avoid adverse effects of hazardous development on the environment during flood events.

(2) This clause applies to—

- (a) for sensitive and hazardous development—land between the flood planning area and the probable maximum flood, and
- (b) for development that is not sensitive and hazardous development—land the consent authority considers to be land that, in the event of a flood, may—
 - (i) cause a particular risk to life, and
 - (ii) require the evacuation of people or other safety considerations.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority has considered whether the development—

- (a) will affect the safe occupation and efficient evacuation of people in the event of a flood, and
- (b) incorporates appropriate measures to manage risk to life in the event of a flood, and
- (c) will adversely affect the environment in the event of a flood.

(4) A word or expression used in this clause has the same meaning as it has in the Considering Flooding in Land Use Planning Guideline unless it is otherwise defined in this clause.

(5) In this clause—

Considering Flooding in Land Use Planning Guideline—see clause 5.21(5).

flood planning area—see clause 5.21(5).

Flood Risk Management Manual—see clause 5.21(5).

probable maximum flood has the same meaning as in the Flood Risk Management Manual.

sensitive and hazardous development means development for the following purposes—

- (a) boarding houses,
- (b) caravan parks,
- (c) correctional centres,
- (d) early education and care facilities,
- (e) eco-tourist facilities,
- (f) educational establishments,
- (g) emergency services facilities,
- (h) group homes,
- (i) hazardous industries,
- (j) hazardous storage establishments,
- (k) hospitals,
- (l) hostels,
- (m) information and education facilities,
- (n) respite day care centres,
- (o) seniors housing,
- (p) sewerage systems,
- (q) tourist and visitor accommodation,
- (r) water supply systems.

5.23 Public bushland

- (1) The objective of this clause is to protect and ensure the ecological viability of bushland, including rehabilitated areas in urban areas, by—
 - (a) preserving biodiversity, habitat corridors and links between public bushland and other nearby bushland, and
 - (b) preserving bushland as a natural stabiliser of the soil surface, and
 - (c) preserving existing hydrological landforms, processes and functions, including natural drainage lines, watercourses, wetlands and foreshores, and

- (d) preserving the recreational, educational, scientific, aesthetic, environmental, ecological and cultural values and potential of bushland, and
 - (e) mitigating disturbance caused by development.
- (2) Development that will disturb, or is reasonably likely to disturb, public bushland is permitted with development consent.
- (3) Development consent must not be granted to development that will disturb, or is reasonably likely to disturb, public bushland unless the consent authority is satisfied of the following—
- (a) the disturbance of the bushland is essential for a purpose in the public interest,
 - (b) there is no reasonable alternative to the disturbance,
 - (c) the development minimises the amount of bushland to be disturbed,
 - (d) the development includes measures to remediate the disturbed bushland.
- (4) Despite subclause (2), development that will disturb, or is reasonably likely to disturb, public bushland is permitted without development consent if the development is for the following purposes—
- (a) the construction, operation or maintenance of pipelines to carry water, sewerage or gas or pipelines licensed under the *Pipelines Act 1967*,
 - (b) the construction, operation or maintenance of electricity or telecommunication lines,
 - (c) bush fire hazard reduction,
 - (d) the construction or maintenance of classified roads,
 - (e) facilitating the recreational use of the public bushland.
- (5) Development specified in subclause (4)(e) is permitted without development consent only if it is carried out in accordance with a plan of management for the public bushland, adopted by the Council in the same way a plan of management is required to be adopted for community land under the *Local Government Act 1993*, Chapter 6, Part 2, Division 2, that includes measures for the following—
- (a) the recreational use of the land,
 - (b) bush fire hazard reduction,
 - (c) the prevention of degradation, including the alteration of drainage patterns, rubbish dumping, vehicle intrusion and infestation with weeds or non-native plants,

- (d) the remediation of degraded public bushland.
- (6) This clause does not require development consent for clearing of native vegetation if the clearing is of a kind that is authorised under the *Local Land Services Act 2013*, section 600.
- (7) In deciding whether to grant development consent to development on land adjoining public bushland, the consent authority must consider the following—
 - (a) the need to retain public bushland adjoining the site of the development,
 - (b) the likely effect of the development on public bushland, including the following—
 - (i) the erosion of soil,
 - (ii) the siltation of streams and waterways,
 - (iii) the spread of weeds and non-native plants within public bushland,
 - (c) other matters the consent authority considers relevant to the protection and preservation of public bushland.
- (8) This clause does not apply to the following land that is public bushland—
 - (a) land in Zone RU1, RU2, RU3, RU4 or RU5,
 - (b) land reserved, dedicated or acquired under the *National Parks and Wildlife Act 1974*,
 - (c) land within a State forest, flora reserve or timber reserve within the meaning of the *Forestry Act 2012*,
 - (d) land to which *State Environmental Planning Policy (Precincts—Western Parkland City) 2021*, Chapter 7 applies.
- (9) In this clause—
 - disturb** public bushland means—
 - (a) remove vegetation from public bushland, or
 - (b) cause a change in the natural ecology of public bushland that results in the destruction or degradation of the public bushland.
 - non-native plant** means a plant that is not native vegetation.
 - public bushland** means land—
 - (a) on which there is vegetation that is—
 - (i) a remainder of the natural vegetation of the land, or

(ii) representative of the structure and floristics of the natural vegetation of the land, and

(b) that is owned, managed or reserved for open space or environmental conservation by the Council or a public authority.

5.24 Farm stay accommodation

[Not adopted]

5.25 Farm gate premises

[Not adopted]

Part 6 Urban release areas

6.1 Warriewood Valley Release Area

(1) The objectives of this clause are as follows—

(a) to permit development in the Warriewood Valley Release Area in accordance with the *Warriewood Valley Strategic Review Report* and the *Warriewood Valley Strategic Review Addendum Report*,

(b) to ensure that development in that area does not adversely impact on waterways and creek line corridors, protects existing native riparian vegetation and rehabilitates the creek line corridors.

(c) (Repealed)

(2) This clause applies to the land in the Warriewood Valley Release Area.

(3) Development consent must not be granted for development on land in a buffer area or sector or at an address mentioned in Column 1 of the table to this clause unless the consent authority is satisfied that the total number of dwellings shown opposite that buffer area, sector or address in Column 2 of that table will be erected.

Column 1	Column 2
Buffer area, sector or address	Number of dwellings to be erected
Sector 1	Not more than 209 dwellings or less than 195 dwellings
Sector 101	Not more than 4 dwellings
Sector 2	Not more than 54 dwellings or less than 49 dwellings
Sector 301	Not more than 53 dwellings or less than 42 dwellings
Sector 302	Not more than 84 dwellings or less than 66 dwellings

Sector 303	Not more than 29 dwellings or less than 23 dwellings
Sector 5	Not more than 94 dwellings or less than 75 dwellings
Sector 8	Not more than 140 dwellings
Sector 801	Not more than 38 dwellings or less than 19 dwellings
Sector 901A	Not more than 190 dwellings or less than 154 dwellings
Sector 901B	Not more than 36 dwellings or less than 12 dwellings
Sectors 901C, 901G and 9 Fern Creek Road	Not more than 33 dwellings or less than 26 dwellings
Sectors 901D and 901E	Not more than 16 dwellings
Sector 901F	Not more than 14 dwellings
Sector 901H	Not more than 3 dwellings
Sector 10	Not more than 134 dwellings
Sector 10B	Not more than 45 dwellings or less than 28 dwellings
Sector 10C	Not more than 17 dwellings
Sector 11	Not more than 163 dwellings or less than 147 dwellings
Sector 12	Not more than 180 dwellings or less than 163 dwellings
Sector 12A	Not more than 19 dwellings
Sector 20	Not more than 64 dwellings
Sector 202	Not more than 1 dwelling
Sector 203	Not more than 4 dwellings
Buffer area 1a	Not more than 17 dwellings or less than 15 dwellings
Buffer area 1b	Not more than 24 dwellings or less than 17 dwellings
Buffer area 1c	Not more than 18 dwellings or less than 13 dwellings
Buffer area 1d	Not more than 1 dwelling
Buffer area 1e	Not more than 15 dwellings or less than 11 dwellings
Buffer area 1f	Not more than 21 dwellings or less than 14 dwellings
Buffer area 1g	Not more than 23 dwellings or less than 17 dwellings
Buffer area 1h	Not more than 1 dwelling
Buffer area 1i	Not more than 39 dwellings or less than 27 dwellings

Buffer area 1j	Not more than 40 dwellings or less than 26 dwellings
Buffer area 1k	Not more than 21 dwellings or less than 14 dwellings
Buffer area 1l	Not more than 67 dwellings or less than 43 dwellings
Buffer area 1m	Not more than 22 dwellings
Buffer area 2	Not more than 147 dwellings
Buffer area 2a	Not more than 29 dwellings or less than 20 dwellings
Buffer area 3a	Not more than 186 dwellings
Buffer area 3b	Not more than 9 dwellings or less than 7 dwellings

- (4) Development consent must not be granted for development on land to which this clause applies unless the consent authority is satisfied that the proposed development will not have any significant adverse impact on any of the following—
- (a) opportunities for rehabilitation of aquatic and riparian vegetation, habitats and ecosystems within creek line corridors,
 - (b) the water quality and flows within creek line corridors,
 - (c) the stability of the bed, shore, and banks of any watercourse within creek line corridors.

- (5) In this clause—

buffer area means land identified as “buffer area” on the [Urban Release Area Map](#).

creek line corridor means land identified as “creek line corridor” on the [Urban Release Area Map](#).

sector means land identified as “sector” on the [Urban Release Area Map](#).

Warriewood Valley Release Area means the land identified as Warriewood Valley Release Area on the [Urban Release Area Map](#).

6.2 Development requiring the preparation of a development control plan

- (1) The objective of this clause is to ensure that development on certain land occurs in accordance with a site-specific development control plan.
- (2) Development consent must not be granted for development on land identified as “Clause 6.2” on the [Urban Release Area Map](#) unless a development control plan that provides for the matters specified in subclause (3) has been prepared for the land.
- (3) The development control plan must provide for the following—

- (a) a staging plan for the timely and efficient release of urban land making provision for necessary infrastructure and sequencing, including the final design and construction of the required road access,
- (b) an overall landscaping strategy for the protection and enhancement of visually prominent locations and for other matters, and detailed landscaping requirements for both the public and private domain,
- (c) stormwater and water quality management controls,
- (d) amelioration of natural and environmental hazards, including bush-fire, flooding and site contamination and, in relation to natural hazards, the safe occupation of and the evacuation from any land so affected,
- (e) assessment of the biodiversity values on the site and likely impacts and mitigation measures,
- (f) preparation of an Aboriginal Cultural Heritage Assessment (being a written report detailing the results of the assessment and recommendations for actions to be taken before, during and after an activity to manage and protect Aboriginal objects and declared Aboriginal places identified by the investigation and assessment),
- (g) detailed urban design controls.

Part 7 Additional local provisions

7.1 Acid sulfate soils

- (1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.
- (2) Development consent is required for the carrying out of works described in the table to this subclause on land shown on the [Acid Sulfate Soils Map](#) as being of the class specified for those works.

Class of land	Works
1	Any works.
2	Works below the natural ground surface. Works by which the watertable is likely to be lowered.
3	Works more than 1 metre below the natural ground surface. Works by which the watertable is likely to be lowered more than 1 metre below the natural ground surface.

- 4 Works more than 2 metres below the natural ground surface.
Works by which the watertable is likely to be lowered more than 2 metres below the natural ground surface.
- 5 Works within 500 metres of adjacent Class 1, 2, 3 or 4 land that is below 5 metres Australian Height Datum and by which the watertable is likely to be lowered below 1 metre Australian Height Datum on adjacent Class 1, 2, 3 or 4 land.

- (3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.
- (4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if—
- (a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and
 - (b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
- (5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power)—
- (a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,
 - (b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),
 - (c) minor work, being work that costs less than \$20,000 (other than drainage work).
- (6) Despite subclause (2), development consent is not required under this clause to carry out any works if—
- (a) the works involve the disturbance of less than 1 tonne of soil, and
 - (b) the works are not likely to lower the watertable.

7.2 Earthworks

- (1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.
- (2) Development consent is required for earthworks unless—
 - (a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or
 - (b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.
- (3) In deciding whether to grant development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters—
 - (a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,
 - (b) the effect of the development on the likely future use or redevelopment of the land,
 - (c) the quality of the fill or the soil to be excavated, or both,
 - (d) the effect of the development on the existing and likely amenity of adjoining properties,
 - (e) the source of any fill material and the destination of any excavated material,
 - (f) the likelihood of disturbing relics,
 - (g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
 - (h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development,
 - (i) the proximity to and potential for adverse impacts on any heritage item, archaeological site or heritage conservation area.
- (4) In this clause—

environmentally sensitive area has the same meaning as environmentally sensitive area for exempt or complying development in clause 3.3.

Note—

The [National Parks and Wildlife Act 1974](#), particularly section 86, deals with harming Aboriginal objects.

7.3, 7.4 (Repealed)

7.5 Coastal risk planning

- (1) The objectives of this clause are as follows—
 - (a) to avoid significant adverse impacts from coastal hazards,
 - (b) to ensure uses of land identified as coastal risk are compatible with the risks presented by coastal hazards,
 - (c) to enable the evacuation of land identified as coastal risk in an emergency,
 - (d) to avoid development that increases the severity of coastal hazards.
- (2) This clause applies to land identified on the [Coastal Risk Planning Map](#) as—
 - (a) Wave Inundation, or
 - (b) Coastal Erosion/Wave Inundation, or
 - (c) Bluff/Cliff Instability.
- (3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development—
 - (a) is not likely to cause detrimental increases in coastal risks to other development or properties, and
 - (b) is not likely to alter coastal processes and the impacts of coastal hazards to the detriment of the environment, and
 - (c) incorporates appropriate measures to manage risk to life from coastal risks, and
 - (d) is likely to avoid or minimise adverse effects from the impact of coastal processes and the exposure to coastal hazards, particularly if the development is located seaward of the immediate hazard line, and
 - (e) provides for the relocation, modification or removal of the development to adapt to the impact of coastal processes and coastal hazards, and
 - (f) has regard to the impacts of sea level rise, and
 - (g) will have an acceptable level of risk to both property and life, in relation to all identifiable coastline hazards.
- (4) A word or expression used in this clause has the same meaning as it has in the *NSW Coastal Planning Guideline: Adapting to Sea Level Rise* (ISBN 978-1-74263-035-9) published by the NSW Government in August 2010, unless it is otherwise defined in this clause.

(5) In this clause—

coastal hazard has the same meaning as in the [Coastal Management Act 2016](#).

7.6 Biodiversity

(1) The objective of this clause is to maintain terrestrial, riparian and aquatic biodiversity by—

- (a) protecting native fauna and flora, and
- (b) protecting the ecological processes necessary for their continued existence, and
- (c) encouraging the conservation and recovery of native fauna and flora and their habitats.

(2) This clause applies to land identified as “Biodiversity” on the [Biodiversity Map](#).

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider—

- (a) whether the development is likely to have—
 - (i) any adverse impact on the condition, ecological value and significance of the fauna and flora on the land, and
 - (ii) any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna, and
 - (iii) any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and
 - (iv) any adverse impact on the habitat elements providing connectivity on the land, and
- (b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that—

- (a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or
- (b) if that impact cannot be reasonably avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or
- (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

7.7 Geotechnical hazards

- (1) The objectives of this clause are to ensure that development on land susceptible to geotechnical hazards—
 - (a) matches the underlying geotechnical conditions of the land, and
 - (b) is restricted on unsuitable land, and
 - (c) does not endanger life or property.
- (2) This clause applies to land identified as “Geotechnical Hazard H1” and “Geotechnical Hazard H2” on the [Geotechnical Hazard Map](#).
- (3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the following matters to decide whether or not the development takes into account all geotechnical risks—
 - (a) site layout, including access,
 - (b) the development’s design and construction methods,
 - (c) the amount of cut and fill that will be required for the development,
 - (d) waste water management, stormwater and drainage across the land,
 - (e) the geotechnical constraints of the site,
 - (f) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
- (4) Development consent must not be granted to development on land to which this clause applies unless—
 - (a) the consent authority is satisfied that the development will appropriately manage waste water, stormwater and drainage across the land so as not to affect the rate, volume and quality of water leaving the land, and
 - (b) the consent authority is satisfied that—
 - (i) the development is designed, sited and will be managed to avoid any geotechnical risk or significant adverse impact on the development and the land surrounding the development, or
 - (ii) if that risk or impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that risk or impact, or
 - (iii) if that risk or impact cannot be minimised—the development will be managed to mitigate that risk or impact.

7.8 Limited development on foreshore area

- (1) The objectives of this clause are as follows—
 - (a) to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area,
 - (b) to ensure continuous public access along the foreshore area and to the waterway.
- (2) Development consent must not be granted for development on land in the foreshore area except for the following purposes—
 - (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area, but only if the development will not result in the footprint of the building extending further into the foreshore area,
 - (b) boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).
- (3) Development consent must not be granted under this clause unless the consent authority is satisfied that—
 - (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
 - (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
 - (c) the development will not cause environmental harm such as—
 - (i) pollution or siltation of the waterway, or
 - (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
 - (iii) an adverse effect on drainage patterns, or
 - (iv) the removal or disturbance of remnant riparian vegetation, and
 - (d) the development will not cause congestion or generate conflict between people using open space areas or the waterway, and
 - (e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and
 - (f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and

- (g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and
 - (h) sea level rise, coastal erosion and recession, or change of flooding patterns as a result of climate change, have been considered.
- (4) In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following—
- (a) continuous public access to and along the foreshore through or adjacent to the proposed development,
 - (b) public access to link with existing or proposed open space,
 - (c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,
 - (d) public access to be located above mean high water mark,
 - (e) the reinforcing of the foreshore character and respect for existing environmental conditions.
- (5) In this clause—

foreshore area means the land between the foreshore building line and the mean high water mark of the nearest natural waterbody shown on the [Foreshore Building Line Map](#).

foreshore building line means the line shown as the foreshore building line on the [Foreshore Building Line Map](#).

7.9 Residual lots

- (1) The objective of this clause is to ensure undersized and constrained lots are not developed in isolation.
- (2) This clause applies to land at—
 - (a) 159A McCarrs Creek Road, Church Point, being Lot 17, DP 243387, and
 - (b) 171A McCarrs Creek Road, Church Point, being Lot 1, DP 114169, and
 - (c) 183 McCarrs Creek Road, Church Point, being Lot 102, DP 839311.
- (3) Development consent must not be granted for development on land to which this clause applies, unless—
 - (a) the lot is, or has been, consolidated with one or more adjoining lots to form a

registered Torrens title lot, and

- (b) the size of any lot resulting from such consolidation is not less than the minimum size shown on the [Lot Size Map](#) in relation to that land.

7.10 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate arrangements have been made to make them available when required—

- (a) the supply of water,
- (b) the supply of electricity,
- (c) the disposal and management of sewage,
- (d) stormwater drainage or on-site conservation,
- (e) suitable vehicular access.

7.11 Converting serviced apartments to residential flat buildings

- (1) The objective of this clause is to prevent substandard residential accommodation occurring through the conversion of serviced apartments to a residential flat building.
- (2) Development consent must not be granted for the strata subdivision of a building that is or has been used for serviced apartments for use as a residential flat building unless the consent authority has considered the following in relation to the residential flat building—
 - (a) the design principles for residential apartment development within the meaning of [State Environmental Planning Policy \(Housing\) 2021](#),
 - (b) the Apartment Design Guide within the meaning of that policy.

7.12 Location of sex services premises

- (1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.
- (2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following—
 - (a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land—
 - (i) in Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone

RE1 Public Recreation or Zone C4 Environmental Living, or

- (ii) used for the purposes of a centre-based child care facility, a community facility, a school or a place of public worship,
- (b) the impact of the development and its hours of operation on any place likely to be regularly frequented by children—
 - (i) that adjoins the development, or
 - (ii) that can be viewed from the development, or
 - (iii) from which a person can view the development.

7.13 Development on land at 6 Mitchell Road, Palm Beach

- (1) This clause applies to Lot 1, DP 1086858, 6 Mitchell Road, Palm Beach.
- (2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the building will not exceed RL 74.5m.

Schedule 1 Additional permitted uses

(Clause 2.5)

1 Use of certain land at 94 George Street, Avalon Beach

- (1) This clause applies to land—
 - (a) at 94 George Street, Avalon Beach, being Lot 254, DP 752046 and identified as “Area 1” on the [Additional Permitted Uses Map](#), and
 - (b) that is subject to PO 1963/97.
- (2) Development for the purposes of boat building and repair facilities is permitted with development consent.

2 Use of certain land at 1714 Pittwater Road, Bayview

- (1) This clause applies to land at 1714 Pittwater Road, Bayview, being Lot 6A and 8A, DP 11186, Part Lot 1, DP 173780 and Part Lot 1, DP 1142750 and identified as “Area 2” on the [Additional Permitted Uses Map](#).
- (2) Development of the land for the purposes of office premises, restaurants or cafes or shops is permitted with development consent.

3 Use of certain land at 82 Hudson Parade, Clareville

- (1) This clause applies to land—

Schedule 2 Exempt development

(Clause 3.1)

Note 1—

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2—

Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners' property rights and the common law still apply.

Minor alterations to existing lawful jetties, water recreation structures and wharf or boating facilities

- (1) The following works to existing lawful jetties, water recreation structures and wharf or boating facilities, if the works are not carried out on or in a heritage item or a draft heritage item, and if the works comply with the standards specified in this clause—
- (a) the repair or replacement of the following—
 - (i) decking on a boardwalk, gangway, ramp, jetty, landing or landing steps, pontoon, stairs, steps, skids or wharf,
 - (ii) a handrail or ladder,
 - (iii) the rails of a slipway,
 - (iv) a winch,
 - (v) non-load bearing members,
 - (b) the installation of emergency items such as lifebuoys and any associated signage,
 - (c) painting or other similarly applied surface treatment that is intended to protect a structure from corrosion or weathering,
 - (d) demolition of a structure.
- (2) The standards specified for that development are that the development—
- (a) in the case of development for the repair or replacement of non-load bearing members—
 - (i) must use members of like dimension to the members being repaired or

replaced, and

- (ii) must not modify the footprint for the structure concerned, and
 - (iii) must use materials that are equivalent to or better than the quality of the materials being repaired or replaced, and
- (b) in the case of demolition, must be carried out in accordance with AS 2601—2001, *The demolition of structures*, and
- (c) must not reduce the amount of light penetration to any water below, and
- (d) must not increase the footprint of any building or structure or change its classification under the *Building Code of Australia*, and
- (e) must not involve disturbance of or injury to any waterway or any sea grass, and
- (f) must not include a change to the fire resisting components of, or interfere with the entry to or exit from, or the fire safety measures contained within, any building, and
- (g) must be consistent with the terms of any applicable development consent.

Note—

Despite the above development being exempt development, any requirement for an approval, licence, permit or authority under the *Fisheries Management Act 1994* or the *Protection of the Environment Operations Act 1997* in relation to the above development is still required.

Moorings

Maintenance of legally approved moorings.

Outdoor areas of community land used for commercial purposes

Must be authorised under Division 2 of Part 2 of Chapter 6 of the *Local Government Act 1993*.

Schedule 3 Complying development

(Clause 3.2)

Note—

State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1 Types of development

(When this Plan was made this Part was blank)

Part 2 Complying development certificate conditions

Note—

Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

Schedule 6 Pond-based and tank-based aquaculture

(Clause 5.19)

Part 1 Pond-based and tank-based aquaculture

Division 1 Site location requirements

1 Conservation exclusion zones

- (1) Must not be carried out on the following land, except to the extent necessary to gain access to water—
 - (a) land declared an area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016*,
 - (b) vacant Crown land,
 - (c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.
- (2) Must not be carried out on the following land, except for the purposes of minimal infrastructure to support the extraction of water from, and discharge of water to, the land concerned—
 - (a) land declared as an aquatic reserve under the *Marine Estate Management Act 2014*,

(b) land declared as a marine park under the *Marine Estate Management Act 2014*.

Note—

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

Division 2 Operational requirements

2 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

3 Pond-based aquaculture that is also intensive aquaculture—pond design

For pond-based aquaculture that is also intensive aquaculture—ponds must be capable of being drained or pumped and then completely dried.

4 Pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—freshwater discharges

For pond-based aquaculture and tank-based aquaculture that is also intensive aquaculture—no discharge of freshwater used to intensively cultivate or keep fish to natural waterbodies or wetlands is permitted, except freshwater discharge from open flow through systems.

5 Outlets from culture ponds etc

All outlets from culture ponds, tanks and other culture facilities must be screened to avoid the escape of fish.

6 Definition

In this Division—

intensive aquaculture has the same meaning as it has in the *Fisheries Management (Aquaculture) Regulation 2017*.

Part 2 Extensive pond-based aquaculture

Division 1 Site location requirements

7 Conservation exclusion zones

(1) Must not be carried out on the following land, except to the extent necessary to gain access to water—

(a) land declared an area of outstanding biodiversity value under the *Biodiversity Conservation Act 2016*,

(b) vacant Crown land,

(c) land within a wetland of international significance declared under the Ramsar Convention on Wetlands.

Note—

Nothing in this clause affects any requirement under an Act relating to land specified in this clause to obtain a licence or other authority under that Act for development of the land.

8 Flood liability

Must be designed or constructed on land so that it will not be inundated by the discharge of a 1:100 ARI (average recurrent interval) flood event.

Division 2 Operational requirements

9 Species selection

Species of fish or marine vegetation cultivated or kept must be consistent with the relevant aquaculture industry development plan (within the meaning of clause 5.19).

10 Pond design

- (1) Must not require the construction of new ponds, water storages, dams or buildings.
- (2) Must not be located on permanent watercourses, creeks, billabongs or isolated outreaches of creeks or rivers.
- (3) Must be capable of preventing the escape of stock into natural waterbodies or wetlands.

11 Culture water

Must use freshwater.

Dictionary

(Clause 1.4)

Note—

The Act and the [Interpretation Act 1987](#) contain definitions and other provisions that affect the interpretation and application of this Plan.

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may

be shown on the [Heritage Map](#), that is—

- (a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or
- (b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note—

The term may include (but is not limited to) places that are declared under section 84 of the [National Parks and Wildlife Act 1974](#) to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

Acid Sulfate Soils Manual means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

Acid Sulfate Soils Map means the [Pittwater Local Environmental Plan 2014 Acid Sulfate Soils Map](#).
