Part 2 Petroleum titles

4 Drawing of plans: section 13 (Former clause 4 of 2007 Reg)

- (1) For the purposes of section 13 of the Act, a map or plan accompanying an application for an exploration licence or a special prospecting authority must—
 - (a) delineate the alignment of the boundaries of the land to which it relates relative to the Graticular Reference Grid, and
 - (b) describe the mapcode and blocks incorporated within the boundaries of the licence or authority.

Note—

Nothing in the Act or this Regulation requires the boundaries of an area that is intended to be comprised in a petroleum title to match or mirror the boundaries of 1 or more blocks.

- (2) A map or plan accompanying an application for an assessment lease or production lease must—
 - (a) delineate the alignment of the boundaries of the land to which it relates relative to the Map Grid of Australia 1994 (MGA94), and
 - (b) show the coordinates of all points where there is a change in the direction of the boundaries.
- (3) In addition, a map or plan accompanying an application for a petroleum title must—
 - (a) be in electronic form and drawn to an appropriate standard scale to optimally display the area to which the petroleum title is intended to apply, or
 - (b) if it is not possible for the map or plan to be in electronic form, be drawn on a standard topographic or cadastral map published by a State or Commonwealth Government Department, or

- (3) The annual rental fee area is a description of the land to which the petroleum title applies, or is proposed to apply, in terms that enable an annual rental fee payable under Part 7A of the Act to be calculated in respect of the petroleum title.
- (4) Exclusions specified, or proposed to be specified, in a petroleum title are to be counted towards the annual rental fee area.
- (5) The Secretary is required to record an annual rental fee area determined under this clause in the record kept by the Secretary under section 95 of the Act.
- (6) The Secretary may, if the Secretary considers it is fair and reasonable to do so, revise his or her determination of the annual rental fee area for a petroleum title by varying the determination or substituting a new determination.

- (2) In such a case, the annual rental fee payable in respect of the most recent grant anniversary date to have occurred is taken to be the relevant proportion of the annual rental fee that, but for this clause, would be payable.
- (3) The **relevant proportion** is the proportion that the number of days in the period from (and including) that most recent grant anniversary date to (but not including) the date the application is refused bears to 366 days.
- (4) A refund is to be provided, as necessary, in accordance with the reassessment.

- (2) In such a case, the administrative levy payable in respect of the most recent grant anniversary date to have occurred is taken to be the relevant proportion of the administrative levy that would, but for this clause, be payable.

project area, in relation to a petroleum title held by a person, means the local government area in which prospecting or mining authorised by the petroleum title is carried out and any local government area adjacent to that area that is affected by that prospecting or mining.

45 Declaration of authorised funds (Former clause 24AB (2)–(5) of 2007 Reg)

- (1) The Minister may, by order published in the Gazette, declare a fund that is administered by a government entity, and that has as its principal object the provision of benefit to the community, to be an authorised fund for the purpose of this Division.

(1) For the purposes of section 91A of the Act, the holder of a petroleum title is eligible for a rebate of royalty payable by the holder in respect of petroleum recovered by that holder under that petroleum title, or any other petroleum title in the same project area as the title in respect of which royalty was paid or is payable, if—

(a) a contribution was made to an authorised fund by that holder of that title in respect of any petroleum title held by that holder in the project area, and

(b) any part of the project area to which the petroleum title relates is located within the area specified in the Ministerial order as the area to which the authorised fund relates, and

(b) is to be offset against the amount of royalties owing by the holder of the title for any title in the same project area in the relevant financial year.

(3) To avoid doubt, in the case where the holder of a petroleum title made a contribution to an authorised fund during the exploration phase that relates to the title, the rebate is carried over and credited against royalty payable in the first full production year referred to in subclause (2) (a).

(4) The amount that a holder of a petroleum title who is liable to pay royalty in a financial year is entitled to claim as a rebate on the royalty payment in the same year as a contribution is made, or that is carried over in accordance with subclause (3), is \$1 for every \$2 that the holder of the title contributed to an authorised fund, up to a

maximum of 10% of the royalty payable by the holder of the title in relation to production in the title's project area in that year.

 - (c) an overpayment of royalty has been paid after a rebate has been calculated and any possible rebate against royalty has been exhausted, and
 - (d) refunds or rebates, or both, have not previously been paid or claimed in respect of the total amount of the contribution in the year.
- (2) A refund under this clause first becomes payable at the end of the first full financial year (1 July to 30 June) in which the holder of the title recovers petroleum, in relation to which royalty was paid, under the authority of a production lease in the title's project area.
- (3) The amount that a holder of a petroleum title who was paid royalty in a financial year is entitled to claim as a refund on royalty paid in the same year as a contribution is made is \$1 for every \$2 that the holder of the title contributed to an authorised fund, up to a maximum of 10% of the royalty paid by the holder of the title in relation to production in the title's project area in that year.

48 Refunds (of royalty paid) and rebates (against royalty payable) (Former clause 24AB (13) and (14) of 2007 Reg)

- (1) A refund or rebate does not apply in relation to any period where the obligation to pay royalty arose because gas was beneficially produced during the exploration phase in relation to the title, in accordance with section 28B (Right to beneficial use of gas yielded through prospecting) of the Act and clause 16.
- (2) To avoid doubt, no refund or rebate is payable in relation to any interest earned on any contribution to an authorised fund.
