- (b) in the opinion of the Council, the safety and efficiency of the arterial road will not be adversely affected by:
 - (i) the design of the access to the proposed development, or
 - (ii) the emission of smoke or dust from the proposed development, or
 - (iii) the nature, volume or frequency of vehicles using the arterial road to gain access to the proposed development.

- (1) This clause applies to land within Zone No 7 (e).
- (2) A person shall not, except with the consent of the Council, cause the destruction of trees on an existing holding which comprises wholly or partly land to which this clause applies where the proposed destruction involves:
 - (a) more than 1 hectare of the land within Zone No 7 (e), or

- (b) more than 5 per cent of the area of the existing holding, where that 5 per cent comprises land within Zone No 7 (e),

whichever is the lesser.

- (3) The Council shall not consent to an application made for the purposes of subclause (2) unless, in the opinion of the Council, the destruction of trees on the land will be carried out in a manner which, in respect of that land and adjacent land, minimises:

- (a) the risk of soil erosion and any other land degradation, and
- (b) the loss of scenic amenity, and
- (c) the loss of important vegetation systems and natural wildlife habitats.

21 Flood liable land

The Council may consent to the carrying out of development on land that, in the opinion of the Council, is liable to flooding only if the Council is satisfied that adequate measures have been or will be taken:

- (a) to reduce the incidence of flooding on the land, and
- (b) to prevent structural damage that would otherwise be likely to be caused by flooding to any buildings to be located on the land.

22 Land subject to bushfire hazards

The Council shall not grant consent to the subdivision of land or to the erection of a building on land which is, in the opinion of the Council, subject to bushfire hazards by reason of the vegetation on the land or on any adjacent land unless, in the opinion of the Council:

- (a) adequate provision is made for access for fire fighting vehicles, and
- (b) adequate safeguards are adopted in the form of fire breaks, reserves and fire radiation zones, and

- (f) damage any tree on land on which the building, work or relic is situated or on the land which comprises the place,

except with the consent of the Council.

- (2) The Council shall not grant consent to a development application required by subclause (1) unless it has taken into consideration the extent to which the carrying out of the proposed development would affect the heritage significance of the item and any stylistic or horticultural features and its setting.

Note—

The website of the Heritage Branch of the Department of Planning has publications that provide guidance on assessing the impact of proposed development on the heritage significance of items (for example, *Statements of Heritage Impact*).

24 Development in the vicinity of heritage items

The Council shall not grant consent to an application to carry out development on land in the vicinity of a heritage item unless it has made an assessment of the effect the carrying out of the development will have on the heritage significance of the item and its setting.

25 Conservation incentives relating to heritage items

Nothing in this plan prevents the Council from granting consent to the use, for any purpose, of a building that is a heritage item or the land on which the building is erected if it is satisfied that:

- (a) the proposed use would have little or no adverse effect on the amenity of the area, and
- (b) the conservation of the building depends on the Council granting consent in accordance with this clause.

26 Heritage advertisements

- (1) Except as provided by subclause (2):

- (a) the provisions of sections 84, 85, 86, 87 (1) and 90 of the Act apply to and in respect of:

- (i) the demolition of a building or work that is a heritage item, and
- (ii) the use of a building or land referred to in clause 25 for a purpose which, but for that clause, would be prohibited under this plan,

in the same way as those provisions apply to and in respect of designated development, and

(b) (Repealed)

 - (a) the advertising structures are confined to land that is delineated by the Council having regard to the geometry of the main road to which the land has frontage, sight distances for drivers on the road and the minimising of traffic hazards due to possible distraction to drivers or to any possible obscuring of potential traffic conflict points, and
 - (b) the advertising structures are grouped or clustered so as to minimise any adverse visual impact that might occur if the structures were dispersed, and

 - (d) any advertisement to be displayed on such structures is related to local available services or facilities for motorists or tourists.

- (1) This clause applies to land within Zone No 1 (a) or 7 (e).
- (2) The purpose of this clause is to enable development of residential accommodation which may be described as multiple occupancy or occupation, on a clustered or dispersed basis, of property held in common ownership by means of the use of individual buildings or groups or clusters of buildings which together function as dwelling-houses.
- (3) Notwithstanding any other provision of this plan, nothing prevents the carrying out, with the consent of the Council, of development for residential purposes comprising the erection and use of permanent dwellings or living accommodation upon land to which this clause applies, where:

- (5) The Council may grant an application for consent to the carrying out of development which, but for the fact that the land the subject of the application consists of more than one parcel, would be permitted by subclause (3) (a) (ii), but only if it imposes, as a condition of the consent, a requirement that the land be consolidated into a single parcel prior to the development being carried out.
- (6) Whenever development is carried out on land in accordance with a consent granted under the *Environmental Planning and Assessment Act 1979* pursuant to this clause, the carrying out of the following development on or with respect to that land is prohibited:
