Part 3 Special provisions

10 General considerations for development within rural zones

- (1) The Council shall not consent to an application to carry out development on land within Zone No 1 (a) or 1 (c) unless it has taken into consideration, if relevant, the effect of the carrying out of that development on:
 - (a) the present use of the land, the potential use of the land for the purposes of agriculture and the potential of any land which is prime crop and pasture land for sustained agricultural production,
 - (b) vegetation, timber production, land capability (including soil resources and soil stability) and water resources (including the quality and stability of watercourses and ground water storage and riparian rights),
 - (c) the future extraction of known valuable deposits of minerals, coal, petroleum, sand, gravel or other extractive materials and areas considered to be prospective for these materials,
 - (d) the protection of areas of significance for nature conservation or of high scenic or recreational value, and places and buildings of archaeological or heritage significance, including Aboriginal relics and places,
 - (e) the cost of providing, extending and maintaining public amenities and services to the development,
 - (f) future expansion of settlements in the locality, and
 - (g) where the land is within Zone No 1 (a) and within 400 metres of the bank of the Murray River, the effect of the development on the riparian lands of that river.
- (2) As well as the matters referred to in subclause (1), the Council shall take into consideration the relationship of the development to development on adjoining land or on other land in the locality.
- (3) Subclause (1) does not apply to development consisting of:
 - (a) an addition to a building or work,
 - (b) development ancillary to a purpose for which development may be carried out, with or without the consent of the Council, under this plan, or
 - (c) the erection of a dwelling-house on an allotment of land that the Council is satisfied was created in accordance with this plan for the purpose of a dwelling-house.

10A What is exempt and complying development?

- (1) Development of minimal environmental impact listed as exempt development in *Development Control Plan No 2 Exempt and Complying Development* adopted by the Council on 15 December 1999 is **exempt development**, despite any other provision of this plan.
- (2) Development listed as complying development in *Development Control Plan No 2 Exempt and Complying Development* adopted by the Council on 15 December 1999 is **complying development** if:
 - (a) it is local development of a kind that can be carried out with consent on the land on which it is proposed, and
 - (b) it is not an existing use, as defined in section 106 of the Act.
- (3) Development is exempt or complying development only if it complies with the development standards and other requirements applied to the development by *Development Control Plan No 2 Exempt and Complying Development* adopted by the Council on 15 December 1999.
- (4) A complying development certificate issued for any complying development is to be subject to the conditions for the development specified in *Development Control Plan No 2 Exempt and Complying Development* adopted by the Council on 15 December 1999 as in force when the certificate is issued.

11 Subdivision of land generally

- (1) A person shall not subdivide land to which this plan applies except with the consent of the Council.

 - (b) identify any allotment which is intended to be used primarily for the purpose of agriculture,
 - (c) identify any allotment which is intended to be used primarily for the purpose of a dwelling-house,
 - (d) identify any allotment on which it is intended to erect a dwelling-house and state whether or not the dwelling-house is the primary purpose for which the allotment is being created, and
 - (e) show the approximate location of any dwelling-house erected on the land at the

date of the application.

- (3) The Council shall not consent to an application to subdivide land within Zone No 1 (a), 1 (c) or 1 (d) unless the application is accompanied by the information required by subclause (2).

12 Subdivision for the purpose of agriculture within Zone No 1 (a)

- (1) The Council may consent to the creation of an allotment of any area if the Council is satisfied that the proposed allotment will be used for the purpose of agriculture.
- (2) The Council shall not consent to the creation of such an allotment if the proposed allotment has an area of less than 120 hectares and there is already a dwelling-house on the proposed allotment.
- (3) Despite subclause (2), the Council may consent to the creation of one, (but not more than one,) allotment having an area of less than 120 hectares, which the Council is satisfied will be used for the purpose of agriculture, from an existing holding on which a dwelling-house stands if that dwelling-house is lawfully erected on that land on or before the appointed day.

Note—

Clause 9 of the [State Environmental Planning Policy \(Rural Lands\) 2008](#) also enables the subdivision of lots for the purposes of primary production.

13 Subdivision for other purposes within Zone No 1 (a)

- (1) The Council shall not consent to an application to subdivide land within Zone No 1 (a) if the Council is satisfied that any allotment to be created by the subdivision is intended to be used primarily for purposes other than agriculture or a dwelling-house, unless, in the opinion of the Council:
 - (a) none of the land the subject of the application is prime crop and pasture land, and
 - (b) the area of each allotment to be created by the subdivision is appropriate having regard to the purpose for which it is being created.
- (2) Nothing in subclause (1) prevents the Council from granting consent to an application to subdivide land to create an allotment that the Council is satisfied is intended to be used for a purpose other than agriculture or a dwelling-house if the Council is also satisfied that:
 - (a) the purpose for which the allotment is to be used involves the supply of goods or services for which there is a demand in the locality,
 - (b) no other land in the locality could reasonably be used for that purpose, and
 - (c) the level of demand for the goods or services which are to be supplied from the

allotment and the extent to which that allotment is proposed to be used to meet that demand justifies the creation of the allotment despite its agricultural value.

14 (Repealed)

15 Subdivision for the purposes of dwelling-houses within Zone No 1 (c) and on land listed in Schedule 5

- (1) The Council shall not consent to an application to subdivide land within Zone No 1 (c) or land listed in Schedule 5 where the Council is satisfied that each proposed allotment will be used for the purposes of a dwelling-house unless:
 - (a) where provision is to be made for the off-site disposal of sewage, the area of each allotment to be created as a result of the subdivision is not less than 5,000 square metres, and
 - (b) where not provision is to be made for off-site disposal of sewage:
 - (i) each allotment to be created as a result of the subdivision has an area of not less than 5,000 square metres with the average area of the resultant lots being not less than 2 hectares,
 - (ii) arrangements satisfactory to the Council have been made for the provision of a permanent water supply to that land, and
 - (iii) the number of allotments having an area of less than 2 hectares which will be created as a result of the subdivision is not more than 65 per cent of the maximum number of allotments which may be created on that land under subparagraph (i).
- (2) Nothing in subclause (1) (b) (i) prevents the Council from consenting to the subdivision of land to which this clause applies where the size of the allotments created is less than the prescribed area if it is satisfied that the individual allotments have adequate provision for effluent disposal.
- (3) If:
 - (a) communal land is to be provided and developed for the communal use of future owners of allotments within a subdivision of land referred to in subclause (1), and
 - (b) the Council is satisfied that the resultant development will enhance the amenity of the locality,the area of the communal land may be included in calculating the average lot size of that subdivision.
- (4) The Council shall not grant consent to the subdivision of land within Zone No 1 (c) and on land listed in Schedule 5 unless it has taken into consideration:

- (a) the land capability (including soil resources and soil stability), natural constraints and hazards of the land to be subdivided in relation to the density of the allotments proposed to be created,
 - (b) the desirability of providing a range and mixture of allotment sizes,
 - (c) whether the design of each allotment to be created by the subdivision is satisfactory for the economic provision of services,
 - (d) the physical suitability of the land for on-site disposal of wastes, and
 - (e) the provisions of subclause (5).
- (5) The Council shall not consent to the development of a lot created in accordance with subclause (1) for the purpose of a dwelling-house if that dwelling-house is to be located less than 150 metres from the boundary of land within Zone No 1 (a) unless, in the opinion of the Council, the development will not be adversely affected by the use of the adjoining land for agriculture.
- (6) Subject to subclause (7) of this clause, nothing in this plan prevents a person, with the consent of Council, from subdividing the land listed in Schedule 5 and identified as such on the map (or any part of that land) and erecting a dwelling-house on each of the allotments created by the subdivision.
- (7) The Council shall not grant consent to an application to carry out development referred to in subclause (6) after the expiration of three years from the date specified in Schedule 5 in relation to the land concerned or after such later date as the Minister may, before the expiration of that period, notify by order published in the Government Gazette.
- (8) Nothing in subclause (7) shall prevent the Council from granting consent to the erection of a dwelling-house on an allotment created in accordance with subclause (6).

16 Subdivision of land within Zone No 1 (d)

The Council must not consent to the subdivision of land within Zone No 1 (d) unless each allotment to be created by the subdivision is not less than 20 hectares in area and the Council is satisfied that the subdivision will complement future urban development.

17 Subdivision of land within Zone No 2 (v)

- (1) A person shall not subdivide land within Zone No 2 (v) so as to create an allotment which the Council is satisfied is to be used for the purpose of a dwelling-house unless the allotment has an area of 600 square metres or more.
- (2) Despite subclause (1), the Council may consent to the subdivision of land within Zone No 2 (v) into lots having an area of less than 600 square metres where the Council is satisfied that the resultant lots are to be used for the erection of villa units in

accordance with clause 20 of this plan.

18 Dwelling-houses within Zone No 1 (a)

- (1) In this clause, ***vacant land*** means land on which no dwelling-house is erected.
- (2) A person shall not erect a dwelling-house on vacant land within Zone No 1 (a) unless:
 - (a) the land comprises:
 - (i) an existing holding, other than an allotment that the Council is satisfied was created in accordance with a consent granted before the appointed day for a purpose other than the erection of a dwelling-house,
 - (ii) an allotment that the Council is satisfied was created in accordance with this plan for a purpose other than agriculture, or
 - (iii) an allotment created in accordance with a consent granted before the appointed day, being an allotment on which a dwelling-house could have been lawfully erected immediately prior to the appointed day,
 - (b) the land has an area of not less than 120 hectares, or
 - (c) the land has an area of not less than 20 hectares and has the benefit of a licence to irrigate horticultural crops issued under section 12 of the [Water Act 1912](#), or
 - (d) the dwelling-house is ancillary and subsidiary to the present or intended development of that land.
- (3), (4) (Repealed)

18A Dwelling entitlements on existing concessional lots

The amendment of this plan by the [State Environmental Planning Policy \(Rural Lands\) 2008](#) does not affect any entitlement arising under a provision of this plan (as in force before that amendment) to erect a dwelling-house on a lot, if:

- (a) the lot was created before that commencement, or
- (b) development consent to the creation of the lot was applied for, or granted, before that commencement.

19 Erection of additional dwelling-houses within Zone No 1 (a) or 1 (c)

- (1) The Council may consent to the erection of one additional dwelling-house on land within Zone No 1 (a) or 1 (c) (including the alteration of an existing dwelling-house to create 2 dwelling-houses) where:
 - (a) no additional access to a public road is required from the land,

- (b) separate ownership of the land on which the additional dwelling-house is located would require the lodgment of, and approval by the Council of, a separate subdivision application,
 - (c) in the opinion of the Council, the dwelling-house to be erected on the land will not interfere with the purpose for which the land is being used,
 - (d) the land is not prime crop and pasture land, and
