- (2) A tradeable emission scheme regulation is not repealed by the operation of Part 3 of the *Subordinate Legislation Act 1989*.

- (4) The Minister is to ensure that the public is given an opportunity to make submissions with respect to the review, and that any submissions with respect to the review that are received within the period allowed for the receipt of submissions are appropriately considered.
- (5) In order to give the public an opportunity to make submissions with respect to the review, the Minister must:

- (2) Conditions of a licence that are imposed by the regulations for the purposes of this Part cannot be substituted, omitted, amended or revoked by a regulatory authority.
- (3) To avoid doubt, there is no appeal under section 287 against a condition that is imposed on a licence by the regulations.
- (4) This section does not prevent conditions with respect to a tradeable emission scheme from being attached to a licence by an appropriate regulatory authority in the manner provided for by Chapter 3.

295E Imposition of penalties for contravention of scheme

- (1) If the EPA is satisfied that a participant in a tradeable emission scheme has caused a pollutant to be emitted in contravention of the scheme on one or more occasions, the EPA may, subject to the regulations, require the participant to pay a penalty to the EPA.

 - (b) take any other action against the person (such as suspending the person from participating in the scheme) that is authorised by the regulations.
- (6) This section does not prevent proceedings being taken against a participant for an offence against this Act or the regulations arising as a result of a contravention of a tradeable emission scheme.
- (7) The EPA may take any other action authorised by the regulations (as referred to in section 295F) in addition to or instead of imposing a penalty under this section.

295F Other action that may be taken by EPA

- (1) The regulations may authorise the EPA, or a person exercising functions under a tradeable emission scheme on behalf of the EPA, to do any or all of the following, in the circumstances set out in the regulations:

- (3) The contribution is recoverable by the EPA as a debt in a court of competent jurisdiction.
- (4) The regulations may authorise the payment of the contribution by instalments. If an instalment is not paid by the due date, the balance then becomes due and payable (together with any interest or other penalty for late payment prescribed by the regulations).
- (5) The regulations may:
- (a) require a person to continue to make a contribution referred to in this section in respect of a tradeable emission permit or credit that has been forfeited until the permit or credit is sold or re-allocated, and

- (5) A separate account is to be established in the Fund for each tradeable emission scheme.
- (6) If more than one account in the Fund is established under this Part, money in the accounts may be invested as a common pool. The proceeds of investments are to be distributed rateably among the accounts that contributed money to the common pool according to the amount contributed.

 - (b) to exercise any other functions conferred on them by the EPA or by the regulations in connection with tradeable emission schemes.
- (3) A matter or thing done or omitted to be done by such a committee, a member of the committee or a person acting under the direction of the committee does not, if the matter or thing was done or omitted to be done in good faith for the purpose of executing this or any other Act or the regulations, subject a member or a person so acting personally to any action, liability, claim or demand.

295K Liability for operation of scheme

- (1) The Crown does not incur any liability (including liability for compensation) in respect of anything done or omitted to be done in good faith by the EPA, or by a person exercising functions under a tradeable emission scheme on behalf of the EPA, in connection with the operation of a tradeable emission scheme.
