8 Negotiation of access to infrastructure services

(1) IPART must have regard to the provisions of this clause in determining whether or not the parties to a dispute have, in good faith, attempted to resolve the dispute by negotiation, as referred to in section 40 (2) of the Act.

(2) Within 14 days after receiving a request from an access seeker for information under this subclause, a service provider that provides any infrastructure service that is the subject of a coverage declaration or access undertaking must make the following package of information available to the access seeker:

- (a) a list of all such services that are provided by the service provider, as described in the relevant coverage declaration or access undertaking,
- (b) information as to the procedure to be followed to obtain access to each such service, and as to the time it is likely to take to negotiate access (assuming the matter does not go to arbitration),
- (c) a copy of IPART's negotiation protocols, together with a statement to the effect that, unless otherwise agreed between the parties, those protocols will apply to any negotiations for access to any such service,
- (d) such information as IPART's negotiation protocols require to be provided,
- (e) such other information as the service provider considers appropriate to include in the package.

(3) IPART's negotiation protocols must include the following:

- (d) protocols as to the exchange of information between the parties, including:

- (i) an obligation on the service provider to provide the access seeker with such information as is necessary to understand the derivation of any derived elements that occur in any proposed access agreement, and
 - (ii) an obligation on each party to give such undertakings as to confidentiality as the other party may reasonably require,
- (e) protocols as to the notice (if any) to be given to third parties in relation to the negotiations,
- (f) protocols as to the dispute resolution procedures to be attempted before an application is made to IPART for the dispute to be determined by arbitration.
- (4) The parties to the dispute must give written notice to IPART of any agreement under which they undertake to use negotiation protocols other than IPART's.

9 Timelines for arbitration

- (1) As soon as practicable after accepting an application for a dispute to be determined by arbitration pursuant to section 40 of the Act, IPART must notify the parties to the dispute, and the Minister, of:

- (a) by the date notified under subclause (1) (b), or
 - (b) if a later date has been notified under this subclause, by that later date,
- the arbitrator must give written notice to the parties to the dispute, and to the Minister, of the date by which the arbitrator now expects the dispute to be determined.

10 Basis on which dispute may be determined

- (1) For the purpose of determining a dispute by the date currently notified under clause 9, the arbitrator may make his or her determination on the basis of the information then available and on any assumptions that it is reasonable to make as to any information not then available.
- (2) For the purpose of determining a dispute between a service provider and an access seeker with respect to an infrastructure service the subject of a coverage declaration or access undertaking, the arbitrator may assume, in the absence of evidence to the contrary, that the service provider is able to provide the access seeker with such

access to the service as is sought by the access seeker.

- (3) Before determining a dispute, the arbitrator must give written notice to the parties to the dispute:
 - (a) of any assumptions that the arbitrator proposes to make for the purposes of his or her determination, and
 - (b) of each party's right to make submissions to the arbitrator with respect to any of those assumptions, and
 - (c) of the date by which any such submissions should be lodged with the arbitrator.
- (4) Failure to give such notice does not affect the validity of the arbitrator's determination.

Note—

See section 40 (10) of the Act which requires the arbitrator to give effect to any relevant access undertaking and prohibits the arbitrator from making a determination that would put the service provider in breach of its other legal obligations.

11 Application of regulations under the IPART Act

The provisions of the regulations under the *Independent Pricing and Regulatory Tribunal Act 1992* that modify the application of the *Commercial Arbitration Act 2010* to the arbitration of disputes under section 24A (2) of the firstmentioned Act apply to the arbitration of disputes under section 40 of the *Water Industry Competition Act 2006*.
