## **PART II THE SCHEME**

### **4. Objectives**

#### **(1)**

The objectives of the Scheme are:

- (a) to foster the development of a more profitable farm sector that is able to operate competitively in a deregulated financial and market environment; and
- (b) to improve the competitiveness of the farm sector in a sustainable manner.

**(2)**

In order to achieve those objectives, the Scheme will:

- (a) promote a better financial, technical and management performance from the farm sector; and
- (b) provide support to farmers who have prospects of sustainable long-term profitability with a view to improving the productivity of their farm units; and
- (c) provide that support in a way that ensures that the farmers who are supported become financially independent of that support within a reasonable period; and
- (d) support farmers who do not have prospects of sustainable long-term profitability to leave the farm sector.

**5. Strategies**

**(1)**

The strategies to be adopted to facilitate sustainable long-term profitability of the farm sector by improving farm productivity and helping the sector to become more self-reliant include:

- (a) the acquisition of improved skill levels;
- (b) the adoption of sustainable farming systems;
- (c) the adoption of technological developments;
- (d) obtaining access to information on technological developments and their application, training opportunities and appropriate farm programs;
- (e) increasing farm size or capital intensity;
- (f) farm program changes;
- (g) debt restructuring; and
- (h) capital restructuring.

**(2)**

The strategies to be adopted to overcome difficulties due to exceptional circumstances where farmers have long-term prospects of profitability, are to facilitate one or more of the following:

- (a) the provision of carry-on finance;
- (b) debt restructuring;
- (c) improvements in productivity.

**(3)**

The strategies to be adopted to encourage farmers to make an orderly exit from the farm sector if the farmers are without prospects in the farm sector shall be to:

- (a) assist farmers to realise farm assets in an orderly manner; and
- (b) assist farmers to re-establish post-farming.

**(4)**

In achieving the strategies referred to in subclauses 5(1) and 5(3), trading in land by a State is permissible only where:

- (a) the trading does not distort the market for land;
- (b) large land stocks are not accumulated by the State; and
- (c) proceeds of transactions are retained for use in the operation of the Scheme.

**(5)**

From time to time it may be necessary to develop other strategies to meet changing circumstances.

**6. Operations**

**(1)**

Given the nature of the support to be provided, and that the application of funds provided under the Scheme will be most effective when the operations of States are responsive to the specific circumstances pertaining to an applicant, decisions on the form and level of support to be provided to an applicant will be taken at the State level, with full knowledge of local, regional and industry conditions.

**(2)**

The Commonwealth, in consultation with the States, will, where appropriate, establish policy guidelines concerning:

- (a) criteria to be adopted in assessing eligibility for support;
- (b) outcomes expected from support under the Scheme;
- (c) requirements for review of supported farmers; and
- (d) determination of funding.

**(3)**

The role of the Commonwealth will be to:

- (a) provide policy guidelines within which the Scheme will operate; and
- (b) establish a reporting mechanism to permit the monitoring and assessment of the efficiency and effectiveness of the operation of the Scheme.

**(4)**

The role of the States will be to:

- (a) manage funds provided under the Scheme; and

- (b) be responsible and accountable for the achievement of the objectives of the Scheme in accordance with the Commonwealth's policy guidelines.

**(5)**

With a view to achieving the objectives of the Scheme in accordance with the Commonwealth's policy guidelines, the principal functions of the State Authorities in administering the Scheme will be to:
